EDITOR’S NOTE

What a memorable and productive academic year it has been, after a sudden jolt by the Pandemic which halted the regular functioning of the school for close to two years. The energetic little ones with their radiating smiles, have spread their vibes to everyone in the campus, keeping us on our toes thinking what next, what else, what more can we do to nurture them. It’s that time of the year to do a self-audit of our performance and reflect on the areas for improvement. Self-audit helps us to stay updated in all dimensions, keeping our minds fresh, leading to growth, change and transformation. Learning never stops as our life is a work in progress in terms of knowledge acquisition, skill building, personality development and so on. With the larger cause called “Education” as a purpose of our lives, let us fix a target for ourselves with clear checkpoints to monitor during the course of the next academic year. This also helps us to groom ourselves well and be an inspiration for others. Let us be energy on the move!!!
