We saw many trees, plants and animals.

We all plucked vegetables at the farm.

We plucked fruits from trees.

We enjoyed eating fresh fruits and vegetables from the farm.

There was a barn.

My friends and I enjoyed the visit to the farm.

**JAYANTHI - II C**

The boy is giving the food to the duck.

The bird is flying in the sky.

The cow is shouting moo! moo!

The flowers are beautiful.

There is a Christmas tree.

**MURUGAPPAN**

**II C**

Children are in the farm

It's a sunny day.

The farm looks beautiful.

There are many animals.

There are some vegetables and fruits in the farm.

The children are picking up vegetables and fruits.

There is a farm.

The grass looks very attractive.

There is a tree.

The flowers are beautiful.

The sky is blue.

**VARNIKA -II C**

The birds are flying

The cow is standing.

The duck is wobbling around.

The grass is green in colour.

There are many trees.

**P. SAISANJEETH -II C**

I went to the farm.

My farm has many vegetables.

My friend are in the farm.

My farm has many trees and plants.

My farm has many fruits.

**V.VADUGUNAMBI**

**II C**

I went to the farm with my friends.

The farm was big and beautiful.

I saw many green plants.

There were cows, hens, and goats.

The farmer was very kind.

He showed us how he grows crops.

I saw a red tractor on the farm.

We drank fresh milk from cows.

I learned many things about farming.

I had a happy day in the farm.

**DHANYASHREE**
**II C**

One day , my friends and I went on a farm visit.

I saw cows, ducks, chicks and hens.

The windmill was spinning very fast.

I saw many domestic animals in the barn.

The cows were grazing out in the farm.

The air was chill.

I felt the cool air running down my spine.

I saw some flower bushes.

The farm was full of lush green grass.

It was great fun playing with my friends.

**NAVIL P N**

**II-C**

The birds are flying.

The trees are giving fresh air.

The cow is mooing.

I can see colourful flowers.

There are lots of fresh fruits.

**MAHATHI**

**II-C**

**UNDER WATER ADVENTURE**

I could see a boy diving.

I could also see a mermaid swimming.

There are many kinds of fish.

There is a whale.

There is a dolphin.

**R.SHREYA**

**II-A**

The water is blue.

There are fishes in the water.

Theboy is swimming.

There is a blue whale.

**AKILESH**

**II-A**

The boy is swimming in the sea.

A jelly fish is floating in the water.

There are many star fish in the sea.

A mermaid is also swimming.

An octopus has many arms.

**LAKSHITHA.A**

**II-A**

**AT THE BEACH VACATION**

This is a beach. I like going to the beach with my cousins. On the beach, I play in the sand and make a sandcastle. My parents take me to the beach.

**CHYTHRIKA II A**

The beach looks cool. The beach has clean sand and clear water. The children are playing in the sand. The sand looks so soft.

**AARIFA SHERIN A II A**

The children are building sand houses. Some are playing with kites. We can see the sunrise during beach vacations, and we can play with balloons. We can enjoy playing in the waves.

**THEJADVENI U II A**

The children are making a sandcastle. There are many balloons. They are making kites to fly, and we can find many trees there.

**VIYADHEERAN II A**

This is a beach. Everyone likes to go to the beach, but I don't like it because I am scared that the crabs will bite me. But I like building sandcastles, flying kites, and playing in the waves.

**HARSHINI S II A**

## FUN WITH RAIN

The children are having fun in the rain. It makes them happy. They are jumping in the water with their boots. It seems like they are having a lot of fun. With the raindrops, they could hear thunder and see dark clouds. I think the sea will be full of water. I wish I could play in the rain too.

**DHEEKSHA D II B**

The children are playing in the rain on a rainy day. One girl is wearing a raincoat and another boy is not wearing a raincoat. They are stamping in the water. The grass is filled with water. They are best friends. They are very jolly. They are making paper boats. The sky is dark. They are raising their hands, closing their eyes, smiling, and shouting.

**SHIVANYA S II B**

Rain is fun and jolly! Everyone likes to play in the rain. Two children are playing in the rain. Rain gives us water. We will put on raincoats when it suddenly rains. We should also be careful. Rain can be dangerous at any time. Don’t forget it. Do you know when the rain comes? I will tell you. When the sky is black, rain will fall. We will happily jump and play. I love to play with paper boats.

**SAHANA VIJAY II B**

Out in the rain all day long, playing with paper boats and friends. Trees are drenched, and seeds are sprouting.

**AGASTYA PALEJA II B**

I like to play in the rain. I like to play in the rain with my friends and family. The girl is wearing a raincoat. The boy is happy. We wear boots before playing in the rain. The clouds are dark. It is raining a lot. They are playing in puddles.

**VIHANA S II B**

Rain is very fun for children. Children play in the rain. We stamp in the rain and play. The rainy season is very cool, and children love to play in the rain. When the rain comes, the fishes will jump high.

**KIMAYA SRIMAYI N II B**

## LEARN WITH FRIENDS

The girl is sitting. The boys are sitting and reading. One boy is wearing shoes and the other boy is wearing sunglasses. They are reading funny books. One boy is painting. There are three boys and one girl.

**ILAKKIYA V - II G**

The kite is flying in the air. The children are playing on the ground. The hut is small. The boat is in the water. The grass is green in colour.

**HRIDANYA S - II G**

**SAVE NATURE**

I can see a few boys planting. I would like to water the plants. I like to save nature by planting trees.

**SHIRIESH BABA B II H**

Nature is very beautiful. Nature saves everyone's life. We get fresh air from nature because of trees. So, we should grow plants.

**THANUSHRI II H**

Nature is very beautiful. It has so many plants. There are many medicinal plants that are used to cure diseases.

**VEDESH II H**

The boys are watering the plants. I like to save nature. Plants give us food.

**SIRPIKA S II H**

Plants give us food and fresh air. Nature becomes more and more beautiful because of plants. After some months, these plants will grow into big trees.

**JEEVITH SARVESH A II H**

Plants give us fruits and vegetables. These plants will make the Earth more colourful. Plants give us oxygen to breathe.

**NAINIKA ARVIND II H**

**PASSION TOWARDS COOKING**

The baker cooks anything we want. The baker cooks different items. The baker cooks very fast, and the food is tasty. The baker gives the bill after we finish eating. The baker has our favourite food.

**YUKTESWAR A II I**

The picture is very colourful. The cook is beautiful, and the food is also beautiful. There is tasty jam. There is food everywhere. The cook is wearing a white apron.

**VARSHINI N II I**

There is a girl who is cooking food. There are many kinds of food, like cake, jam, and chocolate. There is a tasty muffin and a glass of water.

**PRANEET IV II I**

The girl is very happy and smiling. The girl is wearing a cooking dress. The girl has cake and water. The girl has brown hair and a round face. She looks beautiful.

**PRASANNAKRISHNA V II I**

She is making food. There is a full plate of noodles, jam, and a glass of water. She is wearing a cap on her head. There are many varieties of cookies and donuts. She cooks happily.

**SIIDDARTH U II I**

**AT THE MARKET**

It is a vegetable market. There are many vegetables. One boy is picking apples from the shop. Many customers are buying vegetables.

**SANANTHA RAJA II J**

The vegetable shop has many vegetables and fruits. There are many people in the vegetable shop. There are carrots, apples, and oranges. Many people are waiting and buying vegetables.

**SIVAMITHRAN AK II J**

It is a vegetable and fruit market. There are many vegetables and fruits. One girl is holding a green apple in her hand. Many people are buying fruits. The shopkeeper works well.

**MITHRAN G II J**

It is a vegetable market. The customers are buying vegetables. Many people are talking in the market. The shopkeeper is giving the customers what they ask for.

**DAKSHIKA SATHISHKUMAR II J**

This is a market. There are fruits and vegetables. All the people are buying fruits. The shopkeeper is putting the fruits in a bag. He is giving the bag to the customer. Mom is buying fruits. The girl has an apple in her hand. She has a handbag on her shoulder. There are four people in the market.

**DEEKSHITH R II J**

There is a shopkeeper selling vegetables. There are many vegetables in the market. They are all coming to the market and buying vegetables. One aunt has a handbag. One girl is holding a green apple in her hand.

**SRIVIDHYUTH B II J**

**Imagine you are a time traveller, where would you go, why**?

I will go and meet dinosaurs because they are my favourite animals. Among all species of dinosaurs, my most favourite are Spinosaurus and Allosaurus, the king of dinosaurs. Stegosaurus has plates on its body and tail. Ankylosaurus has armour, and Brachiosaurus has a long neck.

**– VIYADHEERAN SK 2A**

I will go to Wonderland because there will be so many thrilling games. I will accompany my mother and enjoy it.

**– DIYA K II A**

I will go to the theme park Wonderla because we can have so much fun and can play on the water slide for a long time. I love to swim in the water.

**– AARAV ATHREYA R II A**

I like going to a special place called Dallas. You can ask me why I like going to Dallas. The reason is that I have always dreamed of my own dream house. I want it to be fancy, fashionable, and just amazing.

**– HARSHINI S 2A**

I like to go to Vizag because I want to celebrate my birthday with my cousins. I have so much fun with my cousins. We all will go to the water park together. My aunty will ask me every morning what my favourite food is, and she will cook that for me. I feel very happy.

**– CHYTHRIKA P 2A**

I like to go to Dubai because it is my favourite place.

**– KRITHIK NIVAS 2A**

I like to go to "God's Own Country," none other than Kerala (which is actually a superb state). I like the place very much because it is fully covered with trees, plants, and beaches everywhere.

**– NILAVAN RAJADHITHAN 2A**

## If you are a master chef, what would you like to cook? Why?

I like to cook biryani because it is very tasty and my mummy likes biryani.

**– DHEEKSHA D II B**

I like to cook hot soup because it is healthy and clears a sore throat.

**– THIRUMURUGAN II B**

I like to cook vegetable salad because it is easy to cook.

**– HARSHINI II B**

## What's your favourite book and why do you love it so much?

**MATH PUZZLE BOOK:** It is fun to solve puzzles and find correct answers.

**– HEM MERAGANA II C**

**HOW THE MANGOES GOT ITS MAGIC?:** It is very fun and exciting to read.

**– LAKSHANA A B II C**

**GANESHA IS FIRST:** I like the wiseness of Ganesha.

**– NISWANTH S II C**

**THE RABBIT AND THE LION:** It's very thrilling to know that the rabbit escaped.

**– BALASHREE D II C**

**THE ROBOT:** I love the robot helping his friend find his way.

**– KRISHITHA R II C**

**THE EMPEROR'S NEW CLOTHES:** I love to read stories about kings.

**– AADHIRAN S II C**

**CINDERELLA:** The magical shoes fit only her feet.

**– NILAALINI K II C**

**DOG MAN:** I love the dogs chasing the thieves.

**– CHARUN KARTHICK II C**

**A FRIEND FOR DRAGON:** I love the dragon helping his friend.

**– SAI NAKSHATRAN R II C**

**SOMETHING SPECIAL:** It tells us to find happiness in what we have.

**– SANVIKA II C**

## If you could be the teacher for a day, what would you do?

I would teach Maths to the children.

**– YUGAN RA II D**

I would teach the alphabets A, B, C, D to the children.

**– TOSHITH V II D**

I would teach and conduct games for the children.

**– DEVISH SABHARIVEL V II D**

I would teach the lesson "The Golden Bucket."

**– LEKSHANA J A II D**

I would teach them to write handwriting.

**– SAI SINDURAA H II D**

I would teach the lesson "Christmas Song" to the children.

**– SASHWANTH V II D**

I would teach English to the children.

**– SARVIKA R II D**

I would teach them in an interesting way.

**– KRISHIV PANDIAN V II D**

## What do you do to make your parents happy?

If I read nicely, my parents will be happy.

**– ADVIK M S II E**

If I help others, my parents will be happy.

**– EZHILVELAN K G II E**

If I work at home, my parents will be happy.

**– KAVIN THIRUMAL II E**

If I behave properly at home, my parents will be happy.

**– VISHWA V II E**

If I follow good habits, my parents will be happy.

**– MIRNAALINI P II E**

If I score full marks in subjects, my parents will be happy.

**– BHUVAN KARTHIK M II E**

## What do you like to do when it's raining outside?

I love dancing with my friends when it is raining outside.

**– ADITYA VARMAN R II F**

I like to play with my parents in my house.

**– LAXMAN VINAYAKK S II F**

I like to show my hands in the rain and play.

**– NEERAJ G II F**

I like to wear a raincoat and play in the rain. After the rain, I like to jump in muddy water and see the rainbow.

**– YUVASRI V II F**

I like to play with my friends after the rain stops. I like to jump in the water on the ground with my friends.

**– MUTHUSIGAPI S II F**

### How would you spend a day without electricity? What activities would you do?

I will play outdoor games with my friends.

**– AADHWIK II G**

I will make a paper fan and use it.

**– JAYANTHRAM II G**

I will use candles for light. I will play cards and Ludo with my father. I will go out, read books, and draw.

**– KARTHIKEYAN II G**

I will play cricket with my brother.

**– MOHIT II G**

I will go to a swimming pool and have fun.

**– RAMCHARAN II G**

I will play indoor and outdoor games.

**– THARAKESH II G**

I will cook paneer butter masala with my mom.

**– VEDHESH II G**

I will do craft work with my sister and write a surprise letter to my mom.

**– PRISHIKA II G**

### If you were given a magic box, what three things would you keep inside?

I will keep money, my favourite food, and toys so that I can get more.

**– KAYAL A II H**

I will keep my mother's jewels, my sister's toys, and my jewels as well so that I can get more and more.

**– NICELIN TAMIL PS II H**

I would like to keep a medical kit so that I can help people with magic power, food, and toys as well.

**– ZUWAINAH MARIYAM I II H**

### If you want to travel to your hometown, which transport will you choose—road, rail or air? Why?

I will select road transport because I can walk.

**– PRITHVIN II I**

I will select air because they can serve what I want. I should not go by road.

**– AISHWARIYA II I**

I will select the train because there is no traffic.

**– PRANAVI II I**

I will select the train because there is no traffic.

**– SAI MITHRAN II I**

I will choose the train because I can see many beautiful things.

**– KUMPATI SUHANYA BLESSY II I**

I will choose the train because there are many things to see.

**– PRANEET II I**

### If you get some money, what will you buy for your parents and why?

I will buy a house for my parents because they will be happy.

**– KAVIN IMMANUEL JM II J**

I will buy an iPhone because I love my parents.

**– DHRITHIK M II J**

I will buy a laptop so that my mom and dad can work and earn more money.

**– KRISHNAV B II J**

I will buy a house because we can all live together and stay happy.

**– MITHRAN G II J**

I will buy a car for my mom. She likes to drive.

**– NIGUEL OJAS JP II J**

I will buy a smartwatch because my parents don't have one.

**– RITVIK S II J**

I will buy a vanilla cake because my mom usually doesn't cut a cake even on her birthday.

**– SAATVIK S II J**

I will buy a smartwatch so my parents can call even without a phone.

**– SRIVIDHYUTH II J**

I will buy a bed for my parents so they can sleep comfortably.

**– SUSHANTH P II J**

I will buy a phone for my mom because her phone is broken. I will buy a car for my parents so we can travel together easily.

**– SYED IDREES II J**

I will buy a car because my dad tells me he wants one.

**– CHARVIKA T II J**

I will buy jewels for my mom because she loves them and doesn't have a new one.

**– DAKSHIKA SATHISH KUMAR II J**

**Magazine Article – STD III-A**

**A magical garden**

- There is a fairy.
- She has a magical stick.
- I asked her that I want a toy.
- She gave whatever I asked.
- She is a pretty fairy.

**Rithanya. P**

I see a fairy in a purple dress in a green garden. She has shiny wings and a magic wand. She is making golden sparkles for the animals. The bear, rabbits, and fox look very happy. It is a magical day in the forest.

**Iniyaah G**

The animals are near a blue stream in the garden. There is a brown bear, two white rabbits, and an orange fox. They are smiling at the fairy. The fairy is waving her wand to make magic. They all look like best friends.

**Jebina Dorcas D**

I see a golden cup by the stream. It is shining because of the fairy's magic. The rabbit is sitting close to the cup. I think the cup has magic water. The animals want to drink it and feel strong.

**Arun R**

The fairy's wand makes yellow sparkles in the air. The sparkles go around the animals like a circle. The forest looks bright and beautiful. All the animals are watching the magic. I wish I could see real magic like this.

**Kiruthika Sri G**

A bear, two rabbits, and a fox live in this magical garden. They are not scared of each other. The fairy takes care of them with her magic. They play near the stream every day. This garden is full of love and friendship.

**Bhavish B S**

The garden has big trees, green grass, and clear water. The sun is shining through the leaves. A fairy with blonde hair comes to visit the animals. She makes the garden special with her wand. I think this is the most pretty place.

**Krishika N**

The little orange fox looks surprised. He sees the golden sparkles from the fairy's wand. His eyes are big and his mouth is open. He looks like he wants to touch the magic. The fairy is smiling at him.

**Sathiya Sai**

The animals and the fairy are a team. The bear, rabbits, and fox sit together nicely. The fairy uses magic to help them. Maybe she is healing the cup or giving them food. They work together and stay happy.

**Tarun S B**

I see five characters. There is one fairy and four animals. The fairy is flying with a purple dress. The animals are by the water. Everything looks calm and magical. I would love to visit this garden.

**Shashika N**

If I went to the magical garden, I would say hello to the fairy. I would pet the soft bear and play with the rabbits. I would ask the fairy to make sparkles for me too. I would sit by the stream and watch the magic. It would be the best day.

**Thanvanth R**

**Sports Meet At NSN - III C**

The children are running. The have to pick things from the red circles. Some kids are sitting and cheering for their friends. It looks like a fun and fast race.

**Adhidev A**

The ground has many red circles with fruits and other items. I can see grapes, apples, bananas, and bottles. The kids are running to collect them in their baskets. The child who collects the most will win. Everyone is trying their best.

**Dwarakesh T**

Many children are sitting on a wooden bench. They are clapping and smiling. They are watching the race and cheering loudly. One teacher in green is standing with a whistle. The blue sky and flags make the day look happy.

**Jivinjay S**

This game looks like a shopping race. You have to run fast and also pick the right things. The boy in blue pants is jumping to reach a circle. The girl in the green dress is holding her basket tight. I would love to play this game.

**Kabilan K**

The kids need to be quick and careful in this race. If they drop the basket, they will lose time. Some children are running while others wait for their turn. This Sports Meet teaches us teamwork.

**Logith A**

I see many fruits in the circles like grapes, apples, and lemons. Maybe the teacher wants us to learn about healthy food. The kids are running to get the fruits. After the race they can eat them. Sports Day can be yummy too.

**Abirami S**

A teacher in a yellow shirt and red pants is standing near the kids. She looks like she is giving them rules. Another teacher in green has a stick and is watching. Teachers make sure the game is fair. They smile when kids play well.

**Girisha S**

All the children look very excited. The girl with black hair is running fast with her basket. The boy in the orange shirt is almost at the circle. The kids on the bench are shouting "Go! Go!" I can feel the happy noise from the picture.

**Harshini I**

The Sports Meet has many colours. The circles are red, the baskets are yellow, and the kids wear blue, green, and white. There are small flags on the bench. The tree is green and the sky is blue. It is a bright and happy day at NSN.

**Joshitha S**

If I was at the NSN Sports Meet, I would run in the shopping cart race. I would hold my basket and pick up the apple first. I would run fast but not fall. After the race I would cheer for my friends. I hope I would get a medal too.

**Rachitha A**

## IF I WERE A ROBOT

If I were a robot, I would be made of metal, gold and emerald. My eyes will be made of diamond. I will never get discharged. I 'll have HI TECH machines to help the environment ex – PLANT TREES with my machine, COLLECT TRASH with my hand and to take the POLLUTED AIR and change it into clean air. It would be so…amazing if I were a robot, but I still like to be a human.
At last, I will help social problems, invent new HI – TECH machines for SOCIAL PROBLEMS. EX – TRAFFIC JAM, FIGHT AND POLLUTING THE ENVIRONMENT.

SAVE THE ENVIRONMENT!!! -

**SHIVAAY PATHAK III A**

## WHAT IF IT RAINED CANDY INSTEAD OF WATER?

One day in a small village, there was a little girl who wished for a candy rain. But in that village no rain will come at all! The little girl told her mother, "MOM, I need a candy rain!" Mother laughed at the girl, that is impossible dear! Why? The girl asked. Mother replied for her that normal rain is not coming now a days, how come you will get candy rain? Then she went to her bed. She got a candy shower in her dream. She enjoyed a lot in her candy rain. When she woke up, she was happy about her dream.
She felt that her wish came true!!!!!!!!!

**VANISHA R III A**

## THE DAY MY TOY CAME TO LIFE

When I woke up in the morning I couldn't find my toys. I went and asked my mom about my toys. She said that she was not aware of the toys. I felt very sad for my missing toys. I called my friends and enquired about the toys. They also did not know about it. Then I went to my garden, there I was shocked as all my toys got lives and they all were playing together. I too joined with them for playing. One of the Barbie dolls came and spoke with me. She explained all the stories with me. Then all my living toys changed into a non –living thing.

**JEETHIKA III A**

One fine day, I was playing with my toys. My dad was on the phone. My mom called me and asked me to go to the shop. While I was leaving, my mom heard a sudden voice. The voice said, "Can you hear me? Can you hear me? I am scared." But my mom thought it was a noise from my dad's phone. I returned to play with my toys. Suddenly, I heard the same voice. I rushed to my bedroom in fear. My bedroom door opened automatically. I thought it was because of the wind. Then suddenly, my toys appeared before me. I thought it was a dream. To my surprise, it was not a dream. I was scared. But

my toys did not hurt me. Instead, they called me to play with them. First, I was scared to play with them, but then I agreed. We started playing together. Later, I realized that they had come to life. It was the happiest moment of my life.

**THANYA J. K – III D**

**MY SCHOOL – WHAT'S SPECIAL ABOUT IT**

- We speak campus language "English".
- I like the social, science and also other subjects.
- The events are Annual Cultural Fest, Grandparents' Day and Sports Meet.
- My school is neat and clean.
- We have CCA in our school.
- I like my class teacher Sasireka mam.

**R. Sanvika III-B**

**A Rainy Day Adventure – STD III B**

- The children are enjoying.
- Some children wear raincoat.
- Some children hold umbrella in their hands.
- The children are very happy.
- The clouds is dark.
- Some children are dancing.
- There is heavy rain.
- There are many girls and boys.
- They are playing in the rain.

**R. Sanvika**

It was a rainy day at school. We wore our raincoats. We all ran outside to play in the puddles after school time. The water splashed high when we jumped. We were wet and happy. It was the best rainy day ever.

**Harshan R**

The clouds were grey and rain started to fall. My friends and I took our umbrellas. We did not open them. We wanted to feel the rain. We jumped in every puddle we saw. Our parents laughed and took a photo of us.

**Kevin Antony J**

Today it rained during lunch break. The playground was full of water. We wished if we could splash, dance and shout with joy. I love rainy days at school.

**Subaganesh S**

The rain was coming down fast. My class was so excited. We all laughed together. Rain makes school more fun.

**Yogamithran S**

After the heavy rain, the sun tried to come out. But the puddles were still there. My friends and I played in them. We jumped and counted who made the biggest splash. We were all wet from head to toe. It was a real adventure.

**Dharshika D**

It was a rainy day. My friends and I had umbrellas but we did not use them. We wanted to enjoy the rain. The drops felt cool on my face. I ran with my friend in the yellow raincoat. We played tag in the water. My clothes were wet but my heart was happy.

**Jael Venpha A**

Our school building looked pretty in the rain. Trees and plants looked fresh and green. We could not stay inside. We all wanted to play.

**Samyuktha S**

I saw a big puddle near my house gate. I called my friends to come and see. We took turns jumping in it. Splash! The water went everywhere. We laughed so much our stomachs hurt. I will remember this rainy day always.

**Sanvika R**

Rainy days are best with friends. We held hands so no one would slip. We shared our umbrellas and laughed at each other. My friend in the blue raincoat fell, but she just smiled. We helped her up and kept playing.

**Sujitha P**

Rain is my favourite weather. It turns our school ground into a playground. I can wear my yellow boots and jump without being told no. The sound of rain and friends laughing is the best. I wish every day was a rainy day adventure.

**Deepalakshmi S**

## IF I HAD A SUPER POWER, WHAT WOULD I DO?

I will make sure that people do not throw garbage in the city. Then I will use my superpower to help poor people. I will buy rice, clothes, vegetables, and a house for them. I can also buy whatever I want, and I will help my friends and family. I can fly and go anywhere, even to my school, and I will write my exams well. I will use my superpower to help animals too. I will feed healthy food to the animals in the zoo. I will make more friends in my school. I love my superpower.

**SAHASRAA V – III A**

If I had a superpower, the first thing I would do is help children who are orphans. With my magical abilities, I would give them a warm home and loving parents who care for them. No child in the world would ever feel lonely again.

To make the world even safer, I would create a special helper named Rasco. Rasco would be a kind and kind-hearted person. His job would be very important. Every day, he would visit schools to see if anyone was being bullied. He would also go to companies to check who was unkind or rude to others. And if someone tried to rob a bank or break the rules, he would find out immediately. Whenever Rasco noticed something wrong, he would quickly inform me. Then I would fly to the place with my superpower and change those people into kinder, better human beings. Together, Rasco and I would make the world peaceful. But I have an even bigger dream. I would create a special world just for kids—a place filled with fun, joy, safety, and happiness. No sadness, no fear, only laughter. Every child would feel loved and free. With my superpower, I would make the whole world a better and happier place. And that would be the greatest magic of all.

**NAZRIYA A – III A**

If I had a superpower, I would help the world and save people. If some bad people come to our country, I will stop them. If somebody needs help, I will rescue them. If someone comes to steal something from my house and steals my piggy bank, I will leave them alone. The next day, they will act normal with me because yesterday they came to my house and stole my piggy bank. Tomorrow, they will come and plan to steal something. At that time, I was in the study room packing my things. Then I heard a sound, and it came from the hall, and I stopped them.

**AADVIK – III B**

If I had a superpower, I would fly high in the sky. I would go to space and visit an energy planet and push the sun away from Earth and blast the sun. I would make a new cool sun. It would always be cool. Then I would go to all the countries on Earth. I would go deeper into the Earth and see what is there, deeper, deeper, deeper. Then I would bring some lava to Earth. Then I would go to the North Pole and get some snow. I would go to all the planets and do something special, and then go deep under the sea and take some shells.

**VISHNU DEV – III B**

If I had a superpower, I would look around the world. If there were danger, I would use my power to stop it. Everyone would call me a superhero. I would have all the powers. Clouds, fire, snow, wind, magic, sprinkles, rain, cotton, stars, flowers, and glitter would be my superpowers. I would live on the magical side. I would have many friends. I would save everyone with my powers and protect my world.

**SHRISHTI – III B**

## IF I GO ON A TRIP TO THE MOON, I WILL...

When I went to the moon, I was happy and excited. We jumped on the moon because there is no gravity. It was fun. There were aliens on the moon. Suddenly, a big rock fell on the moon. The aliens and I hid behind a hole. That was a magical rock. It had a purple light glowing inside. There was a diamond inside the rock. That diamond was a magical diamond. Suddenly, the diamond talked to me. The aliens and I were shocked because the diamond talked and asked us to make a wish. We asked for a diamond. It gave it to me, and I returned to Earth happily.

**RITHIKA N – III C**

I am Jordan. I am five years old. One day, while I was sleeping, I had a beautiful dream of going to outer space and the moon. As I was about to step on the moon, I woke up. I really wanted to go to the moon as I dreamt of it but failed. I was just wishing I could go to the moon. At school, my teachers taught us about the solar system and asked us to do a project about it. At dispersal time, I talked about my wish to go to the moon and my friends laughed. “Hey Jordan, first do the project and leave your thoughts away. You can never go to the moon, ha…ha…ha….” But I did not give up. During my holidays, I started my journey to the moon. Luckily, my father is an astronaut. So, I pleaded with my father and he accepted only with a deal. “Son, I will let you go only when you come and study with me,” and I accepted the deal. I was very happy. The next day, I got into the rocket ship with our suits. I waved bye to my mother. As we were in space, we saw the sun, Earth, and Jupiter. They were big and I saw asteroids, rocks, and the moon. We soon landed on the moon. As soon as I stepped onto the moon, we were flying. A rainbow appeared on Mars. I took pictures and enjoyed myself. It was the best day of my life.

**PRANAV KOUSHIK – III C**

If I go on a trip to the moon, I will see what is nearby. I will jump and play on the moon. I will glide in the air around the moon. I will fly and go to the other planets. I will stay on the other planets for a few hours.

When I am on the moon, I will invite all my cousins to come and stay with me. I will dance like Michael Jackson and enjoy the moon. When I am on the moon, I will learn to ride a rocket by myself.

**EHSAN MOHAMMAD V. K – III D**

When I go on a trip to the moon, I will jump and play on the moon. I will stay on the moon for a few days. I will go on a trip to Saturn because it is very cold there. When I am on the moon, I will go on a trip to Jupiter to see how big it is.

**VARNIKA SREE K – III D**

## WHEN I BECOME INVISIBLE...

One morning I woke up and saw that I had changed into an animal. Before I knew it, I had become a superhero. I felt that I could only laugh like a human. When I went to school, I found that it had changed into satellites. Suddenly, I became invisible. I felt hungry but I did not eat my breakfast. I saw a robber. I chased the robber and hit him. Soon, I became the hero of the world. Everyone clapped for me. I said thank you.

**SAI VARUN R – III E**

When I become invisible, I will not tell my mom, and I will go outside. I will eat my snacks without asking my mom. I will play alone and watch TV and use the computer. I will eat food at a hotel and go to the airport without a ticket. The next day, I will travel to another country.

**HAYYAN F – III F**

When I become invisible, I feel very sad because nobody can see me. I work very hard and make small noises. Finally, people find me. But the medicine to cure invisibility will be ready only after two years. Feeling sad, I went to the beach and swam alone. Then I came back home. Suddenly, I saw my glasses become visible. I understood the solution—water makes me visible again. I feel very happy.

**EMMANUEL RAPHAEL C – III F**

## IF I SHRANK FOR A DAY...

If I shrank for a day, I would see small ants all around me. I would play with the ants and make friends with pets like sugar gliders, squirrels, and small birds.

**PAVANAJ – III G**

If I shrank for a day, I would be very tiny in front of humans. If they mistakenly stepped on me, I would be crushed, so I would have to walk carefully. I would go inside my toy box. My pencil would look like a big tower. I would climb on my book and read the pictures closely because they would look very big.

**NIHARIKA – III G**

If I shrank for a day, I would become as tiny as an ant. I would walk into the small vent of my AC. Cool air would blow on me, and I would feel very chilled and happy. I would sleep peacefully!

**DIYASHINI – III G**

## IF I WERE A CARTOON CHARACTER...

If I were a cartoon character, I would be Shin-chan. I would think like a hero and save the world. I would appoint Chan as my security guard, and he would protect me. He would save me by fighting villains, and in return, I would protect him. I want to be a real hero so that everyone will be proud of me. That is how my life is going to be.

**AARUSH – III H**

If I were a cartoon character, I would like to be Uzumaki Naruto. I would become Detective Mehul to go on a quest in Pakistan. Then, I would turn into Yash to capture ghosts, and later become Sahur to help the trees. I want to help others and serve God. I would turn bad things into good things. I would share my money with those in need. Finally, I will make my country proud of me.

**YOKEESHWAR – III H**

If I were a cartoon character, I would like to be Elsa. Although cartoon characters aren't real, children watch them not only for entertainment but also to learn important values. Teaching values through a cartoon sounds strange, right? Yet, it is possible! When children watch me, they will learn to be brave and to stand by the truth. While cartoon characters usually only exist in animation, I exist in real life. If you try being a hero for a day, you will truly see who you are. I am proud that children make me happy, and good children will be able to see my true character. Always think positively and be positive.

**AVIGHNA – III H**

## IF THERE IS A MAGICAL TREE IN MY BACKYARD...

There is a magic tree in my backyard. The tree gives different fruits every day. The tree is very big and nice. The magical tree can talk to me. When I eat the fruits, I feel very happy. I love my magical tree very much.

**SAI KRISHNA K B – III I**

## A CITY WITHOUT CARS

Cars help people travel fast, but if there were no cars, there would be no traffic. Using bicycles is better because we don't have to spend money on fuel. Riding a bicycle also helps protect the environment. It reduces smoke and pollution and can even help avoid accidents. Bicycles keep us healthy and keep our surroundings clean.

**SUHANA SRI III A**

Imagine a city without cars. People ride their cycles or walk everywhere, which keeps them healthy and protects the Earth. The whole city becomes peaceful, clean, and beautiful. Tall buildings stand along the roads, and the bright sun shines in the middle of the sky. Everyone in the city is happy. People walk to their jobs, and children play safely on the clean streets. There is no dust, no pollution, and the roads shine in the sunlight. It is a perfect, quiet, and healthy city.

**TANUSHREE B III A**

Imagine a world without cars. People would travel by bicycle, bullock cart, or even by walking. The air would stay clean and fresh because there would be no smoke from vehicles. There would be no pollution,

no extreme heat, and the greenhouse effect would be greatly reduced. Our planet would have plenty of oxygen, and everyone would live a healthy and happy life.

People would enjoy the beauty of nature—green trees, colourful flowers, clear skies, and clean water. Mother Earth gives us everything we need, and without pollution, the environment would become even more beautiful for humans and animals. Birds would fly freely, animals would roam safely, and children could play outside without any danger from traffic.

We should avoid using vehicles that cause pollution, such as cars, bikes, lorries, and aeroplanes that run on petrol or diesel. Instead, we can use eco-friendly vehicles like electric cycles, battery scooters, and electric cars. We can also use public transport and share rides to reduce pollution.

Planting more trees, keeping our surroundings clean, and saving energy are other ways we can help keep our Earth green. When people work together to protect nature, cities become peaceful, healthy, and beautiful places to live.

**LINGA D S III A**

**VILLAGE**

There are many houses. There are many people. There is a bullock cart.There is a goat.There are many trees.One woman is walking.There are bushes.There are many leaves.There is a man.There are many birds.There is a cow eating leaves. There is a pot. The goat is standing.There is one baby goat.

**RETHIKA RAJ III B**

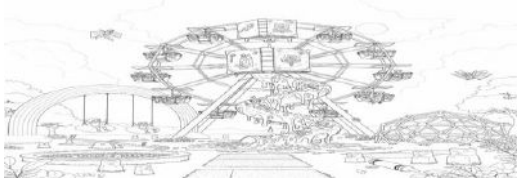
The villagers are enjoying life in the village. The trees are very large. The houses have old-type roofs. The scenery is very beautiful. The villagers are working. The people are walking. The village is very large. The people are farming together. The grandfather is holding a stick and walking. The trees are the tallest in the village. The dogs are standing still. The cows are drinking water. The children are enjoying the bullock cart ride.The roofs are Kerala-style roofs. The bullock cart is an old type of transport. There are many houses in the village. There is a goat in the village. The goat is alone. There are paths to walk on.

**NIRAIMATHIYEN III B**

There are many people in the village. Some people are sitting in a bullock cart. There are many trees. The birds are flying in the sky. There are many cows. The girls are holding baskets full of fruits on their heads. There is a rush in the village. There are small houses. Some people are in their homes. The village is beautiful. The people are holding things. The houses have windows. There are two farms.

**TANISHKA III B**

**MY MAGIC PARK**



The floor is smooth.
There is a bee flying in the sky.
There are so many bees.
The slide looks like a burger.
The clouds look like bees.
There is a big rainbow.
There is a big crayon.
The sun looks like a ball.
The sky looks like a bubble game.

There is a playground.
The children are playing on the swing.
There is a big tree.

**Prithi Nakshatra III C**

There are so many children in the park.
The children are playing on the swing.
The giant wheel is huge.
There are so many bushes and trees.
There are many children on the giant wheel.
There is a slide near the giant wheel.
That is a fair and the children are happy.
There is a rainbow.
The slide is dirty.

**Rithika III C**

**Celebrating Diwali beyond Earth**

People are happily celebrating Diwali on the moon. There are many colorful lamps and some of them are floating in the air. I can see everyone wearing a space suit. There are so many colorful crackers. I can see a big cake and a small car over there. Everyone is having so much fun.

**Shanthan Shourya.G III D**

I can see many people on the moon celebrating Diwali. They are very happy. There is a boy and beside him, there is a vehicle. There are many colorful lights. People are wearing new clothes for celebration. I can see the earth behind them. There are also few fire rocks. I can see fire crackers bursting in the Earth behind them.

**Mithran. S III D**

The people are celebrating diwali on the moon. The people are wearing space helmets. I can see a vehicle with big wheels and decorations. I think the people travelled to the moon in that vehicle. The lanterns are glowing on the moon. Everyone is wearing new clothes and are very happy. The moon is filled with lamps. I can see them doing a ritual. The boy and the girl are praying. Few children are there. The girl is wearing a skirt and the boy is wearing a kurta. Everyone looks beautiful. They are bursting crackers.

**Shobitha. P III D**

**My talking pet**

There is a girl in the picture.

The girl is sitting and talking to her dog.

The dog is sitting near the girl.

The dog is very nice and friendly.

The girl is talking to the dog.

The dog's name is Meme.

**Dhiya. S III E**

There is a girl and a dog in the picture.

There are three trees around them.

The girl is sitting on the sand.

The dog is also sitting on the sand.

The dog is looking at the girl.

The girl is looking at the dog.

The girl is talking to her dog.

**Dheeran. M III E**

The girl is talking to her pet dog.

The dog is listening to the girl carefully.

The girl is sitting on the ground.

The girl looks very cute.

The dog is smiling happily.

There is a tree in the picture.

The dog is sitting near the girl.

There is sand on the ground.

The girl is wearing a nice dress.

The girl is holding a book.

**Akhilan. A. S III E**

**ROBO'S FIRST DAY TO SCHOOL**

One day, a robot came to my school and sat near my place. I was amazed. The first period was EVS, and the robot knew even more than me. We both had a test. The robot got centum, and I also did well. We both got a lot of claps. I felt proud because I had an intelligent friend sitting near me. We had a fun day, and I learned many new things. The robot became my friend, and its name was Jack. It carried heavy bags and helped me with my homework. We met again and played together. I was very happy that day, and both of us were happy.

**LAIYA VANDANAA L III F**

If a robot came to a school where students were studying, it would look embarrassing at first. The students would start laughing. But when the robot studied well, they would appreciate him. This semester, he became the class topper. One day in the café, he said, "I need a cup of tea," in a funny voice. All the students started laughing, but he did not mind. He enjoyed his cup of tea and then went back to class.

**SHRADDHA KAMAKSHI V III F**

ROBO was nervous when he saw the school.

He went to the class to make good friends.

ROBO made great friends.

His friends were very kind to him.

ROBO felt very happy in the school.

**MIRUTHULA K III F**

## My Field Trip to Space

My field trip to space was very exciting. I saw planets of many different colors and a bright, shining sun. I even met a friendly alien who smiled at me. I ate space food and drank water from a special packet. I learned that space is incredibly vast and beautiful. I will never forget my space field trip!

**Aditi Tankasala, III G**

If I went on a field trip to space, I would wear a spacesuit and sit in a rocket. When the rocket launched, I would feel very excited. I would see the Earth looking as small as a ball. I would float in the air and feel happy. I would also feel proud to visit space with my friends.

**Akshara Vardhini, III G**

## THE MAGIC LIBRARY

This magical library was built with enchanted powers. These powers are only accessible to good students. Here, books can talk and tables can fly. If you think of a book and imagine it, it will appear right next to you. There are over 1,000 different categories of books available in many languages. However, if anyone does something bad in the library, they will be punished. The library can only be visited in the morning. Be good, and take a chance at the magical library. Remember: A reader can be a leader!

**AVIGHNA III H**

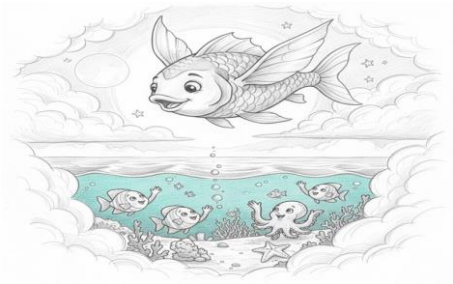
If I put my book on the shelf, it comes back to the table. If I place a plant beside me, it moves away. If the light is turned off, it turns back on again. If a pencil is inside a book, it moves over to the writing pad. If the chair is in front of the table, it slides behind it. If the window is closed, it opens by itself. Even if a toy is with me, it wanders away.

**JESSICA AJOY IPHEN III H**

When we wish for a book, it flies right into our hands. When we finish a page, it turns by itself. Once we finish a book, it stays afloat and keeps flying. If the library becomes untidy, it cleans itself in a single second. In the morning, the lights turn on by themselves, and at night, they switch off automatically. The fans constantly move up and down. During the day, the chairs are there for us, but at night, they completely disappear.

**SHREE MAYI III H**

## IF FISH COULD FLY



The fish can fly in the sky.
The fish has swings and looks very happy.
The fish is flying near the clouds and the sun.

Birds and fish are flying together.
It is a funny and nice picture.

**V SHRINIKA III I**

**MY BEST FRIEND**

Everyone has a best friend in life. A best friend is someone who understands us, helps us and stays with us in every situation. My best friend is Harinka Kumari and Samyuktha. We study in the same class and sit together. My best friends are kind and honest. We play together in break time and share our lunch. Whenever I feel sad, my friends make me laugh and feel better. I like my best friend very much because she is kind and truthful. I wish our friendship lasts forever.

**Rohitha R S – IV A**

**Sandy Fun - Beach Memories**

- I went to the beach with my mother.
- I had a great joyful time on the beach.
- I had a good day at the beach.

**V. Sana - IV-A**

- A white bird is flying in the sky.
- Children are taking sun bath.
- A girl is building sand castle in the sun.
- There is a lighthouse.
- There are some coconut trees.
- The sun is giving hotness.
- Children are enjoying.
- Two children put carpet down.
- There is an umbrella.
- Some children are dancing.

**Sai Surya H - IV-A**

- There is sands on the beach.
- There is a swimming pool at the beach.
- The beach looks beautiful.
- I like to visit beach.
- This beach mat is beautiful.
- There is water in the beach.
- I like beach.

- I like to go to beach with my family.
- I like to play at the beach.
- Beaches are beautiful.

**Kevin Rakshan v – IV A**

Mother, father and me went to beach.
We all played in the sand.
We made sandcastle and decorated them.
We ate samosa, vada bajji and bonda.
We enjoyed sunset and cool waves.
Booked a car and went home.

**S. Sai Dheaksha IV-A**

**The Good Habits That I Follow for Healthy Living - IV B**

I eat fruits and vegetables every day. My lunch box always has an apple or a banana. I eat carrots and cucumbers in my salad. They give me vitamins and keep me strong. This habit helps me not fall sick often.

**Alfred Roman A**

I drink 6 to 8 glasses of water daily. I carry a water bottle to school. Water keeps my body cool and clean from inside. I do not drink too many soft drinks. This habit helps my skin and brain work better.

**Dhakshith V**

I exercise for 30 minutes every morning. I do jumping jacks, stretching, and play football. Exercise makes my bones and muscles strong. It also keeps my heart healthy. I feel fresh and active all day after exercise.

**Jai Kavin S**

I sleep at 9 p.m. and wake up at 6 a.m. I get 9 hours of sleep every night. Good sleep helps my brain rest and grow. I do not watch TV late at night. This habit helps me stay fresh for school.

**Lakshan K**

I brush my teeth in the morning and before bed. I use a soft brush and brush for two minutes. This keeps my teeth clean and stops cavities. I also rinse my mouth after eating sweets. Healthy teeth help me eat well.

**Shan Mithran S**

I wash my hands with soap before eating and after using the toilet. I also wash them after playing outside. This habit removes germs and keeps me safe from cough and cold. Clean hands mean a healthy body.

**Anishka V**

I do not watch TV or play on the phone for more than one hour a day. Too much screen time hurts my eyes. Instead, I read books or play outside. This habit helps me sleep better and stay active.

**Gopika Raj R D**

I never skip my breakfast. I eat idli, eggs, or oats every morning. Breakfast gives me energy to study and play. If I skip it, I feel tired and sleepy in class. This habit helps me do well in school.

**Hasini P**

I take a bath every day and wear clean clothes. I cut my nails every week and comb my hair. I keep my room and bag neat too. Being clean stops germs and makes me feel good. Clean habits keep me healthy.

**Molena S**

I try to stay happy and not get angry fast. I talk to my parents if I feel sad. I also take deep breaths when I am worried. A happy mind keeps my body healthy. I laugh with friends and share my toys.

**Monishree S**

**Lending a Helping Hand at Home - IV B**

I help my mom in the kitchen every evening. I wash the vegetables and set the table for dinner. I also pass her the spoons and bowls she needs. This makes cooking faster and she feels happy. I like spending time with her while helping.

**Kesahav Narayanan Y**

I help my little brother with his homework. I teach him small words and numbers. I also read him a story at bedtime. When he falls, I help him get up. He smiles at me and calls me his best friend.

**Naveen Kumar S**

I water the plants on our balcony every morning. I make sure they get enough sunlight too. I remove the dry leaves so they look neat. My plants grow big because I care for them. My dad says I have a green thumb.

**Pradesh M**

I keep my room clean without being told. I make my bed after waking up. I put my toys and books back on the shelf. I also sweep the floor on Sundays. A clean room makes my parents proud.

**Sarvesh K**

We have a dog named Bruno. I give him food and fresh water twice a day. I also take him for a short walk in the evening. I clean his bowl after he eats. Bruno wags his tail when I help him.

**Sri Kannan Y**

When the clothes are dry, I help my mom fold them. I fold my T-shirts and keep them in my cupboard. I also pair the socks together. This saves her time and my clothes stay neat. It feels good to finish work together.

**Krithika Y A**

I go with my dad to the shop nearby. I carry the small bag and help him find rice and biscuits. I check the bill to learn math. I do not ask for chocolates every time. Helping with shopping makes me feel grown up.

**Monishree S**

Before lunch and dinner, I set the table for my family. I keep plates, glasses, and spoons for everyone. I put a napkin next to each plate. I also call everyone when food is ready. My family says I am very responsible.

**Sharmika S**

My grandma stays with us. I bring her glasses and her book when she needs them. I also switch on the fan for her. In the evening, I walk slowly with her in the park. She tells me old stories when I help her.

**Daniya Nidharsana J**

I collect the trash from all the dustbins at night. I tie the bag and give it to the garbage truck. I also remind my family to use less plastic. Keeping our home clean keeps us healthy. My mom gives me a high five for this job.

**Krishika D**

**A Day Without Electricity**

When I woke up there was no electricity. Mom cooked on stove.
The refrigerator was not working, so the items inside could get spoiled by micro organisms.
There was no internet. There is a light house. TV and mobile phones did not work.

While eating we talked with our family members and listened to stories from our grandparents.
We played outdoor games and board games.

In hospitals, emergency equipment would not work without electricity.
We cannot do Google payments.
There was no fuel for vehicles, so mostly people walked.

Because of this, physical exercise increased.
At night there was no light, so we lit candles and slept early because we were tired.

**Inbhan R – IV A**

One day while I was brushing my teeth, the electricity went off. I was scared. My mother said, today the electricity will not come, so we are going out. It is a surprise, I won't tell you now, get ready.

We all went in the car and soon reached the place. Everyone got out of the car. When we saw the place, we were very happy—it was the beach!

We all ran and played in the sand. We made sandcastle and decorated it. After some time we got hungry and we ate vada and samosa. It was very nice.

Then father said, "time's up, let us go home." We went home and by the time we reached it was night. We slept and rested.

**Sai Arjun T – IV A**

**MY BEST FRIEND**

My best friend is Sana. She is very caring and she will do anything for me and share everything with me. I also care for her. I will also do anything for her. I love my friend and she loves me as well.

**Divya Sri M – IV A**

My best friend is Nithesh and Zayan.
We all go to the supermarket. We buy chocolates and ice creams.
We go to the park together.
We also go to the beach, swim and eat chips, It is so much fun.
We play cricket on the road and also football.
We go to the movies and watch TV together.
We climb and play in the sand.
We eat at the hotels.
We also play hockey and basketball.
We ride our cycles on the road.
I love my friends.
I love to drink coconut water.

My friend Nithesh likes to eat samosa and my friend Zayan likes to eat puffs.

**R.Mohammed Adil - IV- A**

**Magazine Topic – Kodaikanal**

I went to Kodaikanal.
It was very beautiful city and it was very cold.
I stayed in a hotel.
The room was very beautiful and there was a pool in the room.
I saw all the places and I went to sleep.

The next day I woke up at 6.00 am.
And I brush my teeth,

I went out of the hotel and I saw many places in Kodaikanal.
I saw a bison and went back to my room to take rest.

The next day I woke up at 7.00 am and paid money for staying and left Kodaikanal.

**B. Pranav III-C**

**A Time Travelling Robot**

Once upon a time, an evil professor turned me into a robot and put me inside a time-travel machine. He pressed a button, and I was sent to the past.
When I woke up, I saw a lot of dinosaurs. As soon as they noticed me, they started chasing me. I quickly hid behind a rock, but they found me. To my surprise, they were actually friendly! They began to play with me. After some time, I said goodbye to them and started exploring the jungle.
Suddenly, a huge T-Rex appeared and started chasing me. I ran as fast as I could. Then, I spotted a time-travel machine nearby and jumped into it.
This time, I arrived in the Ice Age. There, I saw mammoths. They were very friendly and showed me their home. I was amazed. After exploring for a while, I started running again and found a glowing portal instead of a machine. I stepped into it and reached the future.
The future was a very different world. Suddenly, I heard a voice asking, “Who are you?”
“I am a robot,” I replied.
The stranger pretended to help me, but I noticed that he was hiding a knife. I became suspicious, so I quickly called the police. They rescued me and safely sent me back to my world.

**KAILASH -IV A**

**A Day in the life of a Talking Tree**

I am a talking tree. In the morning, I say hello to the sun and enjoy the cool breeze. When I wake up, the sun’s rays gently touch my leaves. I feel very happy because my leaves become fresh and green, and I look beautiful.

At noon, children come and play under my shade. They say hello to me, and we read comics together. It is so much fun.

At night, the stars twinkle brightly, and raindrops fall softly on me. I enjoy the rain and feel fresh and happy. I say goodbye to the sun and hello to the moon while enjoying the cool breeze again.

**ADHIDEV B - IV C**

I live peacefully in a park surrounded by other tree friends. Birds, butterflies and busy humans notice me. I hear bird's chirping, noises of humans talking and many other things. Children play under my shade. It tickles when the children sit on my branches. If the night falls, I talk to the moon. It makes me happy. That is my day in brief. After all, we trees have hearts.

**NAUREEN - IV D**

Good morning, I am a talking tree.
The birds chat with me.
They tell the news of near and far.
They sing sweet songs in my right ear.
Clouds stand near me.
They pour for me to drink up.
I'm so happy.
I'm a tree.

**SAI ASHWANTH- IV D**

I would be very happy to see a talking tree! I would say hello to it, and it would happily greet me back. Trees give us shelter, fruits, and homes for many birds. They also provide homes for animals such as squirrels. The strength of a tree depends on the depth of its roots. The talking tree explained how useful trees are human and nature. It had tall branches and lush green leaves that made it look beautiful and welcoming. I would love to have a kind and caring nature like the talking tree. The tree also had a swing hanging from one of its branches, making it a fun place to play.

**RAKSHANA M- IV C**

**The Mysterious world inside my mirror**

My mirror hides a secret—it takes me to a magical world of unicorns. The unicorns welcome me and show me the door to their enchanting kingdom. Dragons then take me on an amazing journey to rainbow, waterfalls, the chocolate world, and the snow world. The clouds are blue, pink, and purple, looking just like a fluffy cotton candy. The sky is bright pink and the sun is huge, glowing with shades of orange and yellow. At night, bright stars sparkle beautifully in the sky, making the world look magical. The rivers flow like hot chocolate with marshmallows floating on top. In this mysterious world, there is a special school called Unipod. In the diamond world, there are many beautiful and sparkling collections of gems and treasures.

**DEEPIKA G- IV C**

Once upon a time, I went to a shop to buy a mirror. There, I saw a perfect mirror and asked the shopkeeper how much it cost. He said it was worth two lakh rupees. I was shocked and asked why it was so expensive. He replied that the mirror was magical. At first, I did not believe him, but I decided to try it out. The moment I touched the mirror, something strange happened, and I suddenly found myself on a magical island. It was an amazing place with flying cars, bikes, animal characters and schools filled with highly intelligent students. However, the place also felt dark and mysterious. I became frightened and thought I was going to die. Soon, I realized that I was trapped there, so I had no choice but to move forward. When I entered the building, I thought I had finally escaped. But when I came out, the world looked even scarier than before. To my surprise, I saw the same shop where I had bought the mirror. I went inside, but the shopkeeper was not there. Then, I noticed the mirror again and stepped into it. Suddenly, everything returned to normal, and I felt relieved.

**PRATYUSH T - IV C**

I wondered about my magic mirror if it was showing my reflection or just another me in its world. It always does what I do, but I wondered if it doesn't reflect and showed another me walking freely on its own, not doing what I was doing. I've been trying to make it on its own, but in vain. It doesn't work. I've spent hours in front of the mirror nothing happens. One day I stood in front of the mirror and said, “Why don't you open up” but alas something magical happened. My reflection appeared and smiled on its own. I first thought it was just a hologram, but it started speaking and said, “Don't be scared and come with me”. I went near it and tried putting on a charm to see if it was real. It grabbed my hand and took me into a magical world. Inside my mirror there were favourite things and people. It was a lot of fun. I saw the reflections of other people who used the mirror. I spoke with them and learnt many things from them. I saw my school's best friend come towards me to meet me. We played, sang and did a lot more exciting things together. My reflection took me back, and we had a loving memory together.

**PRANITHA IV D**

**IF I COULD INVENT SOMETHING NEW**

If I could invent something new, I would invent an ocean clean up device. A machine or system that effectively cleans up the plastic and other waste from the ocean. The main goal is to remove plastic because it is harmful for fish. If I

could invent something new, I would invent automatic shelter. An automatic shelter, which opens by itself when it rains heavily or it is hot. It is useful to animals, people and plants.

**RENUSHA - IV E**

If I could invent something new, I would invent a special robotic hand glove that can detect germs. It can be connected to a computer or phone to get the results. It has small sensors to detect germs. It is useful to people who work in hospitals, labs and in space. This device keeps people clean and healthy.

**MIRUDULASRI- IV E**

If I could invent something new, I would invent a robot, which would be able to cook many kinds of delicious dishes like pizza, pasta, noodles, cheese, sandwiches, smoothies and many other yummy things. It will be able to serve the food as well. It should roast, cook, bake, fry etc. I can ask the robot to cook me any dish, which I prefer. I will also invent a suit, which has two special buttons. My suit has horns and indicators too. When one wears a suit and pushes the first button, a horn emerges from it. The second button acts like an indicator, which will make everyone alert when people walk on the road to be safe.

**RIYA P S -IV E**

If I could invent something new. I would invent a pot machine, which could turn clay into clay pots and a car that could swim. A dress, which could sense danger and has superhero powers to save others. A pencil box with an aquarium with a magical pencil and an eraser in it.

**HARSHITHA C R - IV F**

If I could invent something new, I would create a flying taxi. It will have four wind propellers, as safety is always important. If it does not fly, it has wheels and it can go like a car. It also has a fire extinguisher and a parachute in case of fire during the journey.

**GUNHAVSAI -IV F**

**THE EVOLUTION OF A NEW PLANET, WHAT NEXT**

If there is an evolution of a new planet, the order of the solar system will change, the planet may collapse with earth or other planets. People in the space centre would research the planet. They may find water, minerals, resources, crops and plants. They may also find aliens.

**AADHIRAN- IV E**

**MY MAGIC ADVENTURE IN A BOOKSTORE**

One day I went to my favourite bookstore with my parents. My father and mother were reading their favourite books there. While my sister started reading a pop-up book. I love the books in the bookstore so much that I could not decide which one to choose. Finally, I chose one. I sat near a couch and was curious to read it. I just opened it and the book swallowed me. I closed my eyes, as I was scared. After a while, I opened my eyes. I was surprised to see that I was in a slide zooming down to a storyland. I saw a princess and a fairy in the land. The princess sat on my shoulder and gave me a letter stating, "Please help me". I agreed to help and then she led me to danger zone. I realized it was a dream when my mother woke me. I wonder what will happen next in my next dream. What will the danger be?

**SRIISHA S -IV F**

On a cold evening, my mother and I went to a bookstore. In the bookstore, I was searching for a good book to read. When I was searching, I found a book named the magical book. I thought it was just a book for small kids, but I was wrong. Someone from the book pulled me. Inside the book was a thrilling feel. The book became tiny and gave me company so that I do not feel lonely. I experienced a few beautiful sceneries, next few terrible volcanoes, and finally the Himalayas. After a while, the book turned to its normal size. A magical hand threw me out of the book. I told my adventure to my mother and she laughed aloud. We went back home happily.

**SHRADDHA PRAKASHAM- IV F**

**MY LIFE AS AN ANIMAL FOR ONE DAY**

My imagination as an animal for one day is a lion. In the morning, I will wake up and stretch as the sun shines, I will feel strong, brave and active. In the afternoon, I will take a nap on the rocks. After some time, I will play with my friends. At lunchtime, I will hunt for food, but I shall hunt only for berries and bananas. I will not hunt for animals because I am the king of the jungle. I will save my jungle and my friend too. As the sun sets, I will climb on the mountains and I will see the stars in the sky. After a while, I will sleep.

**KESAVA MAGIZHAN N- IV G**

If I were an animal for one day, I would be a Black Panther. I can survive in all climatic conditions. I can climb the trees. I can run fast. I can run up to fifty-eight kilometers per hour. I have excellent features like sharp hearing sense, sharp eyesight and a strong jaw. What animal would you like to be?

**KHEERTHINYAA K R - IV G**

If I were an animal, I would live in the forest for that day. I will translate my voice and I will speak to animals, birds and insects in their language. I will have a home set up; I will walk and see the surroundings. I will search for food and I will have parties. I will invite the other animals to dance, sing and do many more things.

**ANUSHKA KARTHIKEYAN- IV G**

**IF I WERE A BUTTERFLY FOR ONE DAY**

If I were a butterfly for one day, I would explore a beautiful garden filled with colourful flowers. I would fly gracefully from one flower to another while collecting sweet nectar. The gentle breeze would carry me through the air as I spread my bright wings. I would enjoy the freedom of flying wherever I wished. I would rest on green leaves and watch the world below. I would stay alert to protect myself from birds and other dangers. At the end of the day, I would feel happy and thankful for such a wonderful experience.

**ANDRONICUS MELWIN - IV H**

**MY DREAM HOUSE**

My dream house has a magical portal near my closet. Whenever I open the closet door, the portal lights up brightly and takes me to a beautiful magical world. There, I see fairies, castles, and talking animals. I go on fun and exciting adventures every day. The portal also helps me learn many new things. I always feel safe and happy in my dream house. After each adventure, I return home easily through the magical portal. My dream house is full of wonder and joy, and I love it very much.

**JAI PRAVESH K S - IV H**

## THE SECRET LIFE OF MY BACKPACK

Hello, everyone! My name is Dhakshita. Do you know about the secret life of my backpack? Let me tell you about it. My backpack carries many books, so it is very heavy. As I walk, I imagine that my backpack and myself are talking to each other. Did you know that my backpack even has a birthday? It is on November 28th because I bought it on that day. I take care of my backpack as if it were one of my family members. Whenever I feel sad or lonely, I talk to my backpack and it makes me feel better. That is the secret life of my backpack!

**G. DHAKSHITA SAI SRI - IV I**

One day, I went on a trip to Ooty with my parents. I kept my backpack in the car and sat quietly inside. My parents told me, “We are going to see the resort. Stay here, and we will come back soon.” There was no one around, so I stayed inside the car. Suddenly, I heard someone call my name, “Rakshan!” I thought my parents had returned, so I got up and looked around, but there was no one there. I was frightened and looked around again. Once more, I heard the voice call out, “Rakshan!” This time, I looked carefully and saw that my backpack was talking to me. I was shocked and asked, “How do you know my name?” The backpack replied, “I hear your parents call you Rakshan every day.” Just then, my parents returned, and I told them everything that had happened. Suddenly, my father said, “Wake up, Rakshan!” I opened my eyes and realized that it had all been a dream.

**INFANT RAKSHAN IV I**

## FUTURE GENERATION LEARNING WITH AI

The boy is learning with Artificial Intelligence. In future, students will use AI to learn instead of books. AI is teaching the boy at night. It is helping boys to complete the homework.

**CHARVI A PRASAD IV A**

## THE BEAUTY OF NATURE

There are many beautiful flamingos.
I want to swim in the pool in the picture.
The trees are big and green.
There are many types of birds in the picture.
Some birds are bathing in the pool.
There is a cute baby flamingo in the pool.
The group of birds are enjoying themselves.
The bird sitting on the stick is the leader.
There are many hills in the picture.

**AKSHETHA BALAKRISHNAN IV B**

The flamingo and swan are swimming in the pond.
The birds are flying in the air
The grass and trees are green.
The pond is very clean
Nature is beautiful because God gifted us.
The trees are tall.
The scenery says nature is beautiful.

**RITHVIK.R IV B**

**THE STORY OF A MAGIC LAND**

The forest has a magical tree. It is tall, strong and greenish. It gives oxygen and shade to the living beings around.

**PRAGHYA IV D**

**THE MYSTERY MAN IN THE SHADOW LAND**

The mystery man is in the shadow and the man is sitting alone. The girl is touching the mysterious flower. They are watching the statue. The friends are sitting together. The flowers are beautiful. The man is taking a photo near the flower.

**HARRIS IV F**

**ENCHANTING CREATURE**

I see a magical forest. The forest is shining in the sunlight. The forest floor is very muddy. There are many trees. Greenery is everywhere in the forest. I see a few elves in the picture. They are doing magic using their wands. The birds are flying around them. The animals are looking at the elves.

**JAI ADITHYA IV G**

**The Flying Machine**

I see a large flying machine that looks like a ship in the sky. It has shiny golden gears and metal parts all around it. The large wings help it fly above tall mountains and deep blue water. Little dragons fly near the machine, making the scene look magical. This steampunk machine looks powerful, beautiful and ready for an exciting adventure.

**NIHIRA N IV H**

A huge flying machine floats high in the sky. It looks like a ship made of glowing golden metal. Its wings are wide and strong, helping it fly above tall mountains and deep blue water. The ship travels over rocky cliffs and sparkling water. Small dragons fly beside the ship like friendly companions. I think the people on the ship feel happy and safe. This steampunk machine looks powerful, beautiful and ready for an exciting adventure.

**HEVANTHIKA K IV H**

## CAT Vs BIRD PIZZA HUNT

There is a delicious pizza near the cat.
There is an eagle near the pizza.
“This is a magical world of cakes and pizza,” says the cat.
It is a mysterious country
There are many tall buildings there.
The sky is blue.
There is a bridge for cars to travel on.
There is a big eagle across the bridge. It ate a slice of pizza.
There are only three slices of pizza left after the eagle ate one slice.

**S.NIVRITHI IV I**

In the city, a cat and a bird were fighting near a river for a pizza.
The cat gave the bird a small piece of pizza.
The bird was sitting on the bridge and the sky was colourful.
The cat was sitting in the ground.
The buildings were tall.
The water and the bridge were very clean.
The picture was very beautiful.

**K.L.SHAKTHI YAZHINI IV I**

## MY FOOD CHOICE

There are three pictures. Two of them are junk foods and one is healthy food.
In the healthy picture there are oranges, apples, pomegranate and capsicum.
At the junk food picture there are burgers, cake, etc.

**Atchayan K – V C**

My food choice is mostly non-veg like chicken, black chicken, mutton, fish, squid also known as Radama and goat brain but I also like some veg foods like panner,cauliflower, mushroom and potato also like fast foods like burgers, French fries, momo’s, pizzas, tacos, quesidilla, burrito, hot dog, stuffed garlic bread and sandwich. I will show a flow chart of how much I like food.

**Sailesh Kumar S.S – V C**

My food choice is fresh fruits like apples, grapes, and bananas. Fruits are sweet and full of vitamins. They keep me healthy and give me energy to play. I eat a fruit bowl every day after school. Fruits are better than chips because they make me strong.

**Gabriel Issac R – V C**

I choose healthy food over junk food. In the picture, I see burgers and fries, but I prefer fruits and juice. Healthy food helps my brain work well in class. I eat burgers only once a month as a treat. My mom says “eat right to stay bright.”

**Jaivanth BS – V C**

I like to buy fresh bread and buns from the bakery. The lady in the picture is giving a pink cake box to a girl. I choose bakery food only on birthdays. My favourite is a chocolate muffin with milk. Too many sweets are not good, so I eat them carefully.

**Mohamed Raiyyan M– V C**

My food choice is fresh orange juice with my meal. In the picture, I see juice glasses next to the burger and fries. Juice has vitamins and keeps me cool in summer. I do not like cold drinks because they have too much sugar. Fresh juice makes me feel active.

**Pramoth Raj B– V C**

I choose to eat vegetables I buy from the fruit shop. The man in the picture sells oranges, grapes, and bananas. My mom makes tasty curry with vegetables. They help me grow tall and keep my eyes sharp. I help my mom pick the best fruits at the shop.

**Vikram G– V C**

My food choice is a balanced meal. I will eat one burger, but also add fruits and drink water. Eating only fries and burgers can make us sick. We need different foods like grains, vegetables, and milk too. A balanced meal keeps my body happy.

**Vishwan S– V C**

I choose homemade food over outside food. The bakery and fast food in the picture look yummy, but home food is clean and safe. My grandma makes the best dosa and idli. I take homemade lunch to school every day.

**Lirthika N– V C**

I see a bowl of colourful fruits. My food choice is grapes and apples because they are crunchy and sweet. I wash them and eat them as a snack. Fruits stop me from eating chips when I am hungry. They are nature's candy.

**Mithra M– V C**

My food choice includes drinking water with my food. I see a glass of water next to the fruit bowl in the picture. Water helps to digest food and keeps me from getting a headache. I do not drink juice or cold drinks every time. Water is the best drink for health.

**Nethra A– V C**

I see burgers and fries in the picture, but my choice is to say no. Junk food has too much oil and salt. It can make us fat and lazy. I choose to eat roti, dal, and salad instead. I want to stay fit so I can run fast in the Sports Meet.

**Oviya T– V C**

**NOT ALL HEROES WEAR CAPES – TO ALL THE FATHERS OUT THERE!**

Fathers are strong like diamonds and have hearts as pure as gold. The day a child is born……
A father is a hero too.

There is so much on his shoulder, yet he carries it all with a smile on his face.Every second, day and night, he is always thinking about us. No matter what questions arise, we always have a friend and a guide from our childhood till the very end. Fathers are the best teachers in disguise.

Their invisible love and unknown sacrifices make them the pillars of the family and the ladder of a child's life.

Not all heroes wear capes – he is the world to a child.

**R Roshini V- C**

**A TRIP ON A METRO TRAIN**

During the summer holidays, my parents were confused about where to go.Then I said, "Why don't we go to all the stations on the Metro train?"My parents agreed. We started our trip and went to the nearest station."Who will be going first?" My dad smiled with joy and said, "Let's go."Soon we got into the train. It was very cold and chilly inside.I looked at the station names on the display board in the train.I read them one by one – Guindy, Thousand Lights, Teynampet, LIC…

We visited many stations and had a lot of fun.By evening, we became hungry. Luckily, my mother had packed food for us. We ate burgers, sandwiches and other snacks. After that, we went home. This is my metro train adventure.

**Saai Eashwar S – V C**

## A VISIT TO THE SEASHELL MUSEUM

I went to the Seashell Museum where I saw many types of shells such as conch shell from dangerous snails, and several beautiful spiral shells. After that, I went to another museum called the fishing museum and saw different types of fishing rods. We then went to the dinosaur museum.
It was so scary that I felt like I had entered the dinosaur world. I even saw a T-Rex! I loved the museum very much.

**Saidakshinya - IV C**

## THE MAGICAL PENCIL

Once upon a time, I saw a glowing pencil on the ground.
I picked it up and took it home. When I draw a car with it, I was shocked to see a real car appear outside. But since I could not drive, I draw a driver and he came to life. Now I could go anywhere I wanted. Next, I draw a mansion and suddenly a pair of hands along with its location.
I drove to that place in my new car. When I arrived, I saw a huge mansion. I lived in that mansion from that day with my parents happily.

**S.Nithishkumar – IV C**

One beautiful day, I was walking home.On the way, I saw something glowing in the dustbin.

I went closer and saw a pencil. It could talk and it told draw with me and see the magic.
I draw a dairy milk chocolate and it became real. Then I draw a notebook for school, and that also came true one week earlier, my grandmother had a health problem. She was admitted in the hospital. The doctor said she was critical ₹5,00,000 needed for her treatment. So, I draw ₹5,00,000 on paper using the magic pencil. My wish becomes a reality. My grandmother was very healthy and happy after that.

**Harshitha – IV C**

## AN AMAZING ANIMAL

Dolphins are the most intelligent animals in the world. They are not fish even though they live in the ocean; they are mammals. Dolphins breathe through a blowhole on the top of their heads. Dolphins are very friendly and playful. Dolphins can swim fast, jump high, and communicate using sounds in their own language. Some species of dolphins are amongst the rarest animals in the world.

**Rakshan S – V C**

## MY HAPPIEST MEMORY OF MY SCHOOL LIFE SO FAR

My happiest memory of my school life was during 3rd standard. During that time, I had lots of friends, and my class teacher, Ms. Sonal, was a sweet person. She was also our Hindi teacher. Even though she was strict at times, she was also jovial at other times. She used to tell us jokes. Even though she didn't know Tamil, she tried to speak it sometimes, which turned out funny. I also love my 4th standard teacher, Ms. Uma. On her birthday, she would give sweets to all her students. She did the same on Children's Day. At the end of the day, I love all my teachers.

**K. YAZHINI -V B**

This memory is about how my classmate Mahathi and I became best friends. She was my first friend at NSN. I used to sit in the last row. One day, my class teacher suddenly changed my seating, and I ended up sitting next to Mahathi. We had never talked before, so initially we didn't talk much. But as days passed, we started talking more and eventually became best friends. Another day, my class teacher changed my seating again. This time, I sat next to a girl named Yazhini. Similar to Mahathi, we also became close as days passed. During the same grade, I also befriended another close friend, Pranaya.

**SAI RAGAVI. C - V B**

My happiest memories are from 5th standard. It was during this time that I wrote with a pen for the first time. At that time, I had a friend named Pranaya. Later, my class teacher asked me to sit in the last row with another classmate, Sai Ragavi. Initially, we didn't talk much. But as days passed and we started talking more, it was amazing. Now, Pranaya, Sai Ragavi, and I have become a group of friends. We sit on the same bench, talk about many things, and sometimes read books together. It has been an awesome experience.

**S.MAHATHI -V B**

On 25th October 2025, I participated in a storytelling competition. It was an interschool competition conducted by DAV Sharadha Vidyalaya School. The topic given was "Krishna Leelaigal." I narrated the story of "Krishna and the Fruit Seller" and won 1st prize. I beamed with joy, as I could not believe my success. Similarly, on another occasion, I participated in a Gita chanting competition and won 2nd prize. I was presented with a certificate and a silver medal.

**PRANAYA.A -V B**

When I was in 1st grade, I liked to draw, paint, and practice handwriting. I often wondered why I had never won a sports cup, and I felt sad about it. One day, my friend Kingston asked me why I was sad, and I shared my thoughts about wanting to win a sports cup. He encouraged me with kind words, saying that I would definitely win one soon. Now, I have won five cups.

**HEMASUDHAN - V B**

In 4th grade, my friends and I had a group with whom we used to play, talk, and eat together. Now, in 5th grade, we have another group where we don't fight and spend good time together. Nanthini and Kalyani teachers speak sweetly with me. These are some of the best memories of my school life.

**LAKSHYA MILAN SETHY - V B**

When I was in 4th grade, I received a medal in Olympiad and it was my first medal. It made me very happy. This increased my self-confidence. My parents and teachers were very happy and encouraged me to take part in many competitions.

**S. ROHITHA - V B**

The happiest memory of my school life was when we went on a trip. We started around 8:30 am from the school and travelled by school bus. My friend, Agnivesh was dancing in the bus all along the drive. First, we visited the Faunus park, where we watched birds and cats. Then, we visited the Crocodile park and saw many crocodiles. In between we had lunch and later saw many other crocodiles. Finally, we got on the school bus and danced all the way to school.

**ABIJITH VIJAY - V B**

Children's day, 2024 celebration in school was the best memory of my school life so far. Some teachers performed dance, magic, sang songs, enacted dramas and much more. All of us enjoyed with our friends. We also did many activities. We wore our favourite colour dress on that day. We shared our lunch and snacks with each other. We played a lot of games. We also participated in Talent Fest, where we were allowed to showcase our talent in front of the class, such as dance, singing, arts and crafts with our friends.

**YAZHINISHRI - V B**

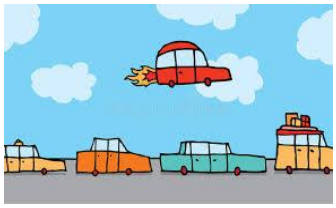
Before coming to NSN, I studied at Zion School. I had many close friends, and we loved sharing snacks and studying together. Later, my parents told me that they were planning to change my school. Their decision made me sad, as I didn't want to leave my school and my friends.

On my last day at that school, I felt both happy and sad at the same time. I took one last look at my class and school before leaving. Usually, my aunt used to pick me up from school, while my mother went to pick up my brother from NSN. That day, my aunt took me to the park we usually visited near my school, where my Zion School friends also often came. We had a great time together.

Initially, when I came to NSN, I thought it was mediocre, but it turned out to be an excellent school. This is one of the best memories of my school life so far.

**S. THARIKA -V B**

**WHAT THE WORLD WOULD BE LIKE IF EVERYONE HAD FLYING CARS?**



If we all had flying cars, we could travel to any place by flying. There would be no need to travel by aeroplane. With a flying car, I could commute to school, college, and work. However, to have a flying car, one would need training in both driving and flying. If we all had flying cars, we wouldn't need wheels.

**B. ANIKA -V B**

If all of us had flying cars, we could fly anywhere and have fun. We could watch the clouds and different birds from a close distance. Sometimes, when I am bored, I could fly anywhere I want. I could get a closer look at aeroplanes, helicopters, and jets. I could go to the beach, zoo, swimming pool, and more. I could visit different countries and explore many things.

I would colour my flying car in green and blue. I would also buy some decorations for my flying car and my house. My family and I would be very happy with my flying car.

**SAINDHAVI.S -V B**

If we had flying cars, we could travel to many places by flying. We wouldn't have to pay to travel by aeroplane. With a flying car, it would be fun to fly in the air, and we would get to watch many birds and aeroplanes up close. When we get bored, we could travel in a flying car to the beach, mall, theatre, play area, park, and more. We could also visit our grandparents and relatives who live in distant places. We could decorate the car with colourful stickers and paint it in our favourite colours. We could fly with our friends to many places, both short and long distances.

**M. HASINI -V B**

**THE BOOK THAT INSPIRED ME THE MOST**

**Story book that inspired you the most**

The book that inspired me the most is 'The Magic of the Lost Temple.' This is how the story goes:

There once lived a tomboy named Noori, whose actual name was Anoushka. However, she preferred to tell others that her name was Nooni. She had long, curly hair, and her mother, Usha, insisted on plaiting it. Later, as she grew older, she cut her hair up to her shoulders. When her mother had to go to Delhi, Nooni stayed at her grandparents' house in Somanahalli, where she heard the story of Somanayaka and the step-well. Inspired by the story, Nooni learnt to cycle and went to Varadha Hill and the river, where she discovered the mysterious step-well built by Somanayaka.

Every day, I used to read one page. It is an adventurous story. From reading it, I learned to be adventurous and independent.

**S. DHARSHITHA - V A**

The books that inspired me the most are stories of Tenali Raman. It inspired me to not fear anything and to be bold. I was inspired by how Tenali Raman talked boldly in front of Goddess Kali. Tenali was a brilliant man. He helped everyone with his ideas. I wish to be like him since he is kind, brilliant and bold. One thing I learnt from his stories is to be honest, and not lie in any situation.

**INBADHARSHINI.Y - V A**

The book that inspired me the most is 'The Christmas Night'. It inspired me to follow good habits. I love the book for its great morals. One of the morals was: When you stop expecting, you start accepting. It has good life lessons for readers of all ages.

**M. SHIFARAHMATH -V A**

**THE GIFT I WOULD LIKE TO FIND UNDER THE CHRISTMAS TREE**

The gift I would like to find under the Christmas tree is a mathematical game. I love playing mathematical games like chess because they improve our brain activity and make us capable of solving difficult problems. I would also like to receive math puzzles and storybooks as gifts.

**SANJANASREE -V A**

The gift I would like to find under the Christmas tree is a racing bike. It would look amazing. I can drift and do stunts with it. I can race and everybody will become my fan.

**MAYUKH.L -V A**

The gift I would like to find under the Christmas tree is a chess book and a chess board, because I'm inspired by the game. I love the game but don't know how to play. The day I buy a chess book and chess board would be the happiest day in my life.

**DHIRAJ.C -V A**

The gift I would like to find under the Christmas tree is a soft panda toy, made of soft cotton, with a small head and lovely red face and body, in red velvet colour. I would also like a brand new iPhone 17 pro as a gift

**B. TANISHKA -V A**

The dream gift I would like to find under the Christmas tree is a telescope. I love to look at the stars and the moon at night. With a telescope, I can see planets like Saturn and Jupiter clearly. I will keep it near my window and learn about space. It will help me become an astronaut one day.

**DHIRAJ C - V A**

I wish to find a small puppy under the Christmas tree. I have always wanted a pet to play with. I will name it Lucky and teach it to sit and run. I promise to feed it, bathe it, and take it for walks. A puppy will be my best friend forever.

**HARAN ABINAV G - V A**

My dream gift is a big box of art supplies. I want new sketch pens, water colours, brushes, and a drawing book. I love to paint landscapes and animals in my free time. This gift will help me improve my drawing skills. I will make a painting for my parents first.

**HAZEEM AHMAD B - V A**

I would like to find a blue bicycle under the Christmas tree. I want to ride it to the park with my friends every evening. A cycle will help me stay fit and strong. I will wear a helmet and follow all safety rules. It will be the best gift for my outdoor fun.

**YOGEESH R - V A**

The gift I dream of is a science experiment kit. I want to do fun experiments like making a volcano and growing crystals. Science is my favourite subject in school. This kit will help me learn new things at home. Maybe I will become a scientist in the future.

**LATHIKA B - V A**

I wish to find a box full of storybooks under the tree. I want books about adventures, mysteries, and magic. Reading helps me improve my English and imagination. I will read one book every week and tell the stories to my little sister. Books are gifts that last forever.

**MEDHA N - V A**

My dream gift is a wooden chess board with nice pieces. I love playing chess with my grandpa. This board will help me practice my moves and become smarter. I want to join the school chess club next year. Winning a match with my own board will feel great.

**NIVETHIGA K - V A**

I would like to find a musical keyboard under the Christmas tree. I want to learn to play songs and make my own music. Music makes me happy and calm. I will take online classes and practice daily. One day, I will play a song for my family on Christmas.

**PRAGANYA S - V A**

The gift I want is a big globe that lights up. I am curious to learn about all the countries and oceans. I will spin it and point to places I want to visit. It will help me in my geography class. I can show my friends where India is on the globe.

**VAISHNAVI M - V A**

My dream gift is a robot-making kit. I can build my own robot and make it move with a remote. I love to fix things and learn how machines work. This gift will help me understand coding and technology. I want to become an engineer and this is my first step.

**VEYDHITHA P - V A**

## IMAGINE A WORLD WHERE EVERYONE HAS FLYING CARS - V B

If everyone had flying cars, there would be no traffic jams on roads. We could fly over buildings and reach school in five minutes. My dad would not be late for work anymore. The sky would have flying lanes like roads. But we would need traffic lights in the air too.

**Adidev T**

In a world with flying cars, I could visit my grandma in another city every weekend. It would take only one hour instead of eight hours by train. We would eat lunch together and I could come home before bedtime. My grandma would be very happy. Flying cars would bring families closer.

**Kandesh M**

If we all had flying cars, we would need new rules. Pilots would teach us how to fly safely. There would be a speed limit and no flying near airports. We would also need parking spots on our roofs. Learning to fly would be a new subject in school.

**Kingston Sunndar S**

Flying cars could help doctors and firefighters. An ambulance could fly over cars and reach the hospital fast. Firefighters could save people from tall buildings easily. Police could catch thieves by flying after them. Flying cars would save many lives.

**Sakthivel S**

With flying cars, my family could have picnics in the sky. We would park our car above the clouds and eat sandwiches. We could see birds flying next to us. The view of the earth would look small and pretty. It would be the best picnic ever.

**Santhosh MV**

Flying cars might run on electricity or solar power. Then there would be less smoke and noise on the roads. The air in our cities would be cleaner. Animals would be safe because there would be fewer cars on the ground. Our planet would be healthier.

**Ilavenba S**

A world with flying cars may have some problems too. If the car's battery dies, it might fall down. There could be accidents in the sky. We would need strong cars and good training. Safety would be the most important rule.

**Jaanvi R**

Our school could take us on trips in flying cars. We could fly to see mountains, beaches, or deserts in one day. Learning geography would be easy because we would see everything from the sky. We would not need buses anymore. School trips would become amazing.

**Nesavi Sri AB**

If everyone had flying cars, pizza and online orders would come very fast. Delivery people would not wait in traffic. My birthday gift could reach me in ten minutes. Shops would send things through the sky. Life would become very quick and easy.

**Pranaya A**

My flying car would be blue with silver wings. It would have a big window so I can see the clouds. It would run on sunlight and not make noise. I would fly to school, to the park, and to the beach. I would name my car "Sky Racer" and take my friends for rides.

**Yazhini K**

**Robots in my classroom as a teacher-Helpful or not?**

If Robots are the teachers in my class, it will be helpful to the students because they know everything. They help students who need extra practice. They can make us interestingly do the activities. The robot will explain my lesson and clear my doubts. I'm very excited to have a robot in my class. It can make the classroom fun with games and dance. They will make everyone get good marks. But at times, it will distract my friend and me. However, I'm eagerly waiting to be a part of the Robotic classroom.

**Rithwik Krish.K -V A**

**If I invent a machine that do anything**

It will be amazing. I will ask that machine to help in my studies. It will be easy for me to complete my Homework. I will do my Project on time. It will reduce my stress. It will give me healthy snacks and help my mother in the kitchen to prepare whatever food I need. It would also help me to revise before exams. Life will be full of happiness, and I will get good marks in all the subjects and centum in Maths.

**Aaeesha Shahnaz A -V B**

**Flying Cars: Dream or Future Reality**

Flying cars, you may have thought that they were just a dream, but the world is trying to invent them. Believe it or not, there are some flying cars, especially in the USA and Japan. It is also a dream for many of us. In today's world, technology like flying cars might become the future transport of the world. Flying cars can make travel easy. I also like to have a flying car. It will be so much fun. But flying cars would need a lot of fuel and power, and it may increase air pollution, so we should remember to limit their use. Let's make our dreams real and work towards it.

**SARVESH K -V B**

**If I Invent a Machine That Could Do Anything**

I will sell it for $1, 00,00,000. It is a fair price because it can do anything. The device can do chores and clean the whole house. The robot will be very famous. I will improve its battery power and storage. Billionaires will buy it to save time. There will be no need to charge it every day because it can work for a week. It will also have a fast charger and get fully charged in 1 hour. I will create more and more. I will become the richest man in the world and be flooded with money. I will give 1/4 of my money to charity and 1/5 to my parents. The rest will be mine. I will keep creating more of these robots. Then I will reduce the price to $10,000 so many people can buy it, but it will not stay for long. I will keep it at $10,000 for just 1 week. Then I will make it $5, 00,000. I will get more money.

**ZUHAID - V B**

**Flying Cars: Dream or Future Reality**

I imagine how fantastic it would be if cars could fly! Right? Just like us, a scientist thought about how wonderful it would be to create one. He started to create one with the help of his intelligent assistant dog. He added colourful wings to it, to make it fly higher, so that he can even see eagles. He applied a variety of colours to the car to make it even more stunning. He kept steering inside the car to drive while flying. And, tada! The flying car is ready! Then he thought of going on a ride in the flying car with his intelligent pet. The ride was awesome! He enjoyed the whole ride. What a ride! Which he had never seen in his whole life. Do you want to know what he named the car? The Royal Blaster.

**C.AMANDA CAROL - V C**

If we can fly, we can go to any place without spending money. We can travel very fast and enjoy flying. We can reach school quickly and avoid traffic. We can travel like shooting stars and fly high in the sky. We can fly like birds and enjoy fresh air.

**AANVI S.V - V C**

Flying dreams are our future reality. In my dream, I would imagine flying in the sky with my family. We would all laugh and enjoy ourselves. We would eat lunch and snacks in the flying car. We would explore new places and feel happy together while flying in the sky.

**KABERIA JANE. G - V C**

In the future, all cars will be flying in the sky instead of moving on roads. People will travel easily and save time. Flying cars will help us reach school, office, and college faster. They will be very useful and comfortable. Flying cars will have enough space to sit and enjoy the journey. We can travel happily with our family and friends. Flying cars will make our lives easy, joyful, and safe.

**AKSHETHA. M - V C**

Hi, I am DANVANTH.S. I am going to tell you something about flying cars. Flying cars are already found in some countries, but they are not widely used all over the world. As the population is gradually increasing, people need faster transportation. Nowadays, flying cars are becoming a reality, not just an imagination or creative dream. Yesterday, when I was reading a magazine, I saw a picture of a flying car and started thinking about it. I imagined how wonderful life would be if we could travel in the sky. I felt happy and excited. The next second, my mother woke me up. I realised that flying cars are still a dream, but one day they may become real.

**DANVANTH .S. - V C**

**The Day My Toys Started Talking**

On December 10, 2024, I woke up with a shock. I heard someone telling me, "Satvik, go and start brushing your teeth." I thought it was my sister, but it was already 7:00 a.m. Oh no! I had almost missed my school. Something spoke to me like never before. I looked down and saw my toys talking! I ran and screamed and went to my mother. I told her everything, but she said it was just a dream. I kept the talking toys in my bag and went to school. I had forgotten to complete my homework, but when I checked in class, it was already done. I thought this was a useful gift from God because it even helped me during my exams. When I told my mom, she did not believe me and said she would throw the toys away. I quickly hid them in my house's carriage. My mom hates the carriage because it is usually dirty.

**Satvik Velamoor V D**

**A Flying Classroom – What Would Happen There?**

One day, while the teacher was teaching, suddenly our classroom started flying in the sky. There were clouds and stars all around. We saw many planets. The benches floated, and there was no gravity. We were flying like balloons. We could not drink water because it would float away. We learned about the planets, saw astronauts, and even talked to them. We took photos, but our books and notes flew out of our bags. We learned about gravity and Newton. All my friends were very joyful. It was a memorable day in my life. Dancing in the classroom was funny and exciting. It was the best day ever, and my friends and I enjoyed it a lot.

**Jeyavarshini V D**

**A Day in the Chocolate World**

One day, I woke up in freezing temperatures and saw a chocolate bar beside me. I sat up to eat the chocolate bar. When I saw a wonderful ice cream in various flavours and colours, a ladder purely made of rainbow-coloured chocolate, and tasty chocolate ice creams falling from the sky. Then I turned around and saw a slide made of ice. I went to slide on it. It was very slippery but fun. When I looked up, I found that the sun was like a sphere made of ice cream, chocolates, and cakes. Later, I visited a nearby village where the houses were made of Choco-baked cookies. I knocked on one door, and a man opened it. His eyes were made of cake, his skin was made of cassata, and his teeth were made of unmeltable chocolate. It was already night, so I asked him if he could give me a room to sleep in for the night. He gave me a colourful room with a chocolate bed in it. Just then, my mom woke me up, and I realised that it was all a dream.

**Balamukund V - VE**

If I were in the chocolate world for a day, I would notice how chocolates are made, what the secret ingredients are, and how they are frozen. I will taste the chocolates and give ratings for them. I will note down the good and bad effects of eating chocolate. I will check whether dark chocolate or milk chocolate is better. If the chocolate is too sweet, it is not real but fake. I will ask the chef there to make a chocolate car for me, and I will also try making one myself.

**R. B. Shashini – V E**

One day, when I woke up, I realised that I was sleeping on a cotton candy bed. It was very fluffy and soft. The walls were made of dark chocolate, and when I went outside, to my surprise, everything I saw was made of chocolate. There were many types of chocolates, such as Dairy Milk, KitKat, Milky bar, Ferrero Rocher, etc. Then I started exploring the place. After some time, I found a man. He was the Gems Man. He was running very fast. I ran after him, and when he stopped, I asked him why he was running. He replied, "I was being chased by the most dangerous villain here—Villain V." I asked him why. He replied, "I was eating his favourite chocolate, 100% chocolate." My favourite chocolate is coconut Swiss chocolate, and he likes it too. He saw me and started chasing me, but thankfully, I escaped. Again, we saw him, and he started chasing us. The Gems Man disappeared, and I fell into a large pothole. That was when I opened my eyes and realised that I was in my room at home.

**SHRITHVARITHA.A – VE**

I was sleeping when suddenly a magical train appeared in front of me. I was petrified, as no one had ever seen this before. A fairy appeared and said, “Hi, I am Marcelli, a fairy. I take good children to the chocolate world. Would you like to come?” I replied, “I would like to come.” She then asked me to hop onto the train. Within a minute, I reached the chocolate world. I was very shocked when I saw chocolate flowing everywhere, even on the floor. I ran and fell into a pool of marshmallows, strawberries, and chocolate. My friends were also there. We started playing “hide and seek.” My friend was the catcher. I ran and jumped into another pool of chocolate. My friend found me first, so I became the catcher. After playing, we roamed around, and I found a car full of marshmallows. I started driving it, and it was very easy. I just honked, and everyone thought they had to return home. They were fooled at first, and then they realised that I was pranking them. After playing for some more time, I drank chocolate milk and went to sleep. When I woke up, I realised that I was back home. It was still dark outside, so I went back to sleep. The fairy came again and told me that she would take me to the chocolate world once more. I was very happy.

**Satvik V – V E**

When it was time for dinner, my mom called me. I wished to have chocolate cake, but as soon as I entered the kitchen, I could smell chapatti and chole. Feeling frustrated, I went to the bedroom and slept. A few minutes later, when I opened my eyes, I couldn’t believe it—I was in a chocolate world. Everything there was made of chocolate. I took a bite of everything and drank some milk from the Choco-milk river. After some time, I felt that I could not breathe. So, I started searching for a place with fresh air and natural things. I walked and walked until I came to a place that looked like a forest. When I ventured inside, I found that it was also a forest, but it was made of chocolate! What a disappointment! Suddenly, I saw a man walking towards me. He understood my situation and helped me by giving me an oxygen mask and helping me wear it. He told me that he knew I was a guest there and he became my guide in the chocolate world. I visited many beautiful places made of chocolate, and time just flew by. Soon it became dark, and I told him that I wanted to go back home to my mom. He thought for a while and realised that I had come to this world through a magic door. He warned me that the door would close by 9 p.m. He asked me to hurry, and I ran along with him. We reached just in time as the door was about to close and vanish. I ran and jumped into it. I woke up and found that it was only a dream. I rushed to my mom, said sorry, and ate the chapatti and chole she had prepared.

**CHARU NACHIYAR.R – VE**

When I woke up to drink water in the middle of the night, I heard some sounds coming from the basement. When I went to check, the noise got louder, but I was not scared. I took my torchlight and walked to the end of the basement to check what it was. To my surprise, it was a mirror. The mirror was glowing. I touched it out of curiosity. Suddenly, something pulled me from the mirror. I tried to take my hand out of the glowing mirror, but something strongly pulled me into it. When I opened my eyes after one hour, I was near a chocolate river! I was shocked and wondered where I was. With a lot of confusion, I walked for a few miles to get help from someone. Soon, I reached a chocolate village, where everything around me was edible. Instead of people, I saw gummy bears and chocolate animals in that village. I couldn't believe my eyes. I ate chocolate bars, candies, lollipops, and fruits dipped in chocolate for free. I travelled by a chocolate boat on the chocolate river and ate a lot of different varieties of chocolates and hot chocolate, but my favourite was the chocolate doughnut. I thought to myself, what sound was I hearing now? It sounded like my clock. Ohhh… was it all a dream!

**Srushti Maria Stephen VF**

One day, when I woke up, the world was very different. It was full of chocolates and sweets. I was amazed. “Yummy! Chocolates, sweets, candies, lollipops… but how did I come here?” I wondered. I walked and walked, but I couldn’t find my way back home. That was when I started shouting for help. “Someone helps me get back home! Please, someone, help me!” Soon I was hungry, so I started eating chocolates and drinking chocolate water from the river. But in this world, nobody was there except me. Later, I saw a chocolate house and a candy vehicle in that world, but no one was there. It was confusing—ugh! Suddenly, I heard a familiar voice. “Kaviyazhini, wake up! Yazhini, it’s time for school.” I woke up in my bed and saw my mom standing right in front of me. I told my mom, “I had a wonderful dream.”

**Kaviyazhini.S V F**

A day in a chocolate world is a dream for kids and a nightmare for parents. If I were in that world, the first thing on my to-do list would be to jump into a pool of chocolate. I would walk around the world, biting into everything I saw. My eyes would sparkle on seeing chocolate animals, lollipop trees, and candy landscapes. Ahhh… what a world! I would jump and run to catch the chocolate butterflies, and my mouth would water as I passed through the lollipop forest. There, I would see a staircase to climb

up the chocolate mountain. In the afternoon, I would go to the chocolate cities to find a hotel to stay in. When the day came to an end, I would lie down on my bed, ready for another day in chocolate land.

**Saashvadh V F**

When I was eating chocolate, suddenly I fell asleep and went into a chocolate dream world. When I looked at the sky, chocolates were flying everywhere. Beside me, I saw a river mixed with chocolate. The chocolate river ended near the beautiful chocolate falls. I also saw chocolate trees and bushes. Everything tasted really crunchy, sweet, chocolatey, and creamy. The white chocolate river was covered with many marshmallows. It was really gummy and yummy. The dark chocolate tasted bitter, buttery, and delicious. At last, I woke up and discovered that it was only a dream. I wish it to be real. I had my original chocolate in my hand. The chocolate will always remind me of this dream whenever I eat chocolate. I will remember this dream for my whole lifetime.

**Pranavh C V – V F**

One day, when I was watching a meteor shower, I saw a shooting star. On seeing it, I made a wish to enter a chocolate world. After the meteor shower ended, I went to sleep. When I woke up, I looked around and saw the houses made of chocolate and people made of gingerbread. When I looked at myself in the mirror, I found that I had turned into a gingerbread man, wearing clothes made of whipped cream. I began walking towards a crowd. Nearby, there was a map showing the way to a treasure, so I started walking. The map told me to go straight. When I followed it, I saw a bridge made of pancakes. I crossed the bridge, and then I saw a forest of chocolate trees. I walked through the forest as the map instructed me. Soon, I found a hill that looked like a Choco Truffle cake. I tried to climb the hill, but I couldn't. Suddenly, I found a Choco Truffle that had fallen and formed a bridge. I climbed up using it and found a treasure filled with heart-shaped, chocolate-dipped cookies. Then I saw another shooting star and shouted, "Star, star, help me!" because I was sinking into the whipped cream. The star opened like a portal and began buzzing like a bee. I jumped into the portal, and pictures of chocolates spun around me. Soon, I found myself back with my family as a human again, holding a treasure full of heart-shaped, chocolate-dipped cookies. I was very happy and cheerful. I thought that the next time I saw a shooting star, I would wish to visit the chocolate world again with my family.

**Bhavesh.S V F**

**A superpower I wish my teacher to have**

Nobody in the world has a superpower. A superpower is just our imagination. Now I am going to give a superpower to my teacher. Let's see what it is. I wish my teacher to have teleport power, so that she could go anywhere in a fraction of a second. It could help her to save her time and energy. In the exam, she can easily catch the students who are talking, copying and playing. If she is old, she can use her teleport power to be healthy and does not need to face any bodily pain. The teleport power would help her in many other ways, too. There are many imaginary superpowers, but the real superpower is being kind to everyone.

**Pragavi. A - V G**

The superpower I wish my teacher to have is to make everybody learn with joy, and learn through games. It is easy to learn through games because everybody likes to play. Games like quiz and other fun activities will boost up the interest of the students in learning. I also wish my teacher to have a wonderful brain like a robot. If she has a wonderful brain like a robot, we can ask any questions to her from any subject and get detailed answers.

**Kenisha. H - V G**

**The Secret Life of My School Bag**

Have you ever wondered if your school bag is alive? I have! So, here is my story. When I came back home from school, I kept my bag where I usually keep it. Then I went into my room and turned on the TV.

**Science Book:** "I think he's gone. I don't hear him."
**English Book:** "Ready to execute our plan?"
**Science Book:** "I was born ready."

Slowly, the zip opened. Little by little, they came out of the bag and started walking towards the balcony. Just then, I came out to get some snacks. The books froze in fear. "Oh! How did my books get here? I'd better keep them back in my bag," I said. I picked up my books and put them back into my bag. Then I got some snacks and went back into my room.

**English Book:** "Ah man, we are back here."
**Science Book:** "Yeah, our plan flopped. Shall we try again?"
**English Book:** "No, I think we need another plan."

**Nikhil.N – V H**

The secret of my school bag was revealed one day when I woke up. My bag was closed, but when I opened it, a bright light came from inside. I bent down to see what it was, and suddenly I went inside the bag. I became very tiny. I wanted to find out the secret life of my bag, so I first went to the first zip. It was sharp and shiny, and I saw some sharp objects talking to each other. I was very shocked. I went near them and asked, “What are you talking about?” They were talking about me, but they did not know I was listening. They said that a “stupid girl” had thrown them into the bag and that it was boring to be inside it. They said they wanted to be used properly and to help their friends while writing. I felt worried and moved to the second zip. It looked dull, and the things there were also complaining. They said that the “stupid girl” was not reading or using them at all. After that, I came out of the bag. I kept my bag properly and realised my mistake. From then on, I decided to use my books and things correctly.

**Elakkiyas – V H**

**The Special Day of My Life**

Once, I went to buy a school bag. That was when my journey began. I hoped to buy my desired bag, and I did. At my grandma’s house, my aunt gave me a soft and shiny bag, and I felt very proud. On the first day, I went to school with my new bag. The next day, I went on a trip with my family and felt very excited. We went to Vanala on a one-day trip. I bought many things, like a necklace, a bracelet, and more. My poor bag carried everything like a pro! Then came my last day of school. I cried, but my bag had done everything for me so well. When I came to 4th standard, I was scared, but my bag was there for me. I went to the teacher and introduced myself, and in a minute, the whole session was over. Then I came to the 5th standard. I enjoyed myself and shared many emotions, and my bag was still there for me. It is the only person who is travelling with me still now.

**Tarunika Sri K. B - V H**

**If the Sun Takes a Holiday for a Day**

If the sun takes a holiday for a day, we will not be able to see anything clearly. It will be dark everywhere, just like when there is a power cut. The Earth will become very dark, and we will not get energy from the sun. In the morning, if I go to school, we will have to use electricity. The sun usually gives us electricity through the solar system, but without sunlight, it will not work. If I had a garden, it would be my worst day because plants need sunlight and water to grow. Without the sun, we will not get rain, and plants will not survive. There would be fog all over the Earth, and nature would look very different. I might feel a little happy because I like cold weather and cool winds. Some people are not afraid of the night, so they stay safely in their homes. But it would still be very hard to live without the sun, even for one day. The news might announce a red alert, and there could be power problems in every neighbourhood. The weather would become extremely cold, and there might even be snow everywhere. Ice and snow would cover the land. Children might feel happy because there would be no school or college, but people would soon feel hungry because food and electricity would be difficult to get. If I had a robot, it could give us electricity and food. Then I would feel happy.

**Kavishkar – V H**

If the Sun took a holiday for a day, there would be no sunlight, and the Earth would become very cold. It would be dark even in the morning. The Earth would be freezing. There would be a 0% chance for any living being to survive on Earth. If a living being tried to live on Earth without the Sun and sunlight, it could die in seconds. If there is no Sun, there is no sunlight, which means no Vitamin D would be available on Earth. If there is no Sun, it would mean no lunar eclipses or solar eclipses. There would be no solar energy. There would be no rain. All the oceans, lakes, ponds, waterfalls, and seas would freeze. Even after the Sun returned, it would take many years to restore humanity. There would be no precipitation and no humidity. There would be no plants at all. The soil would not be moist. There would be no clouds and no colours. There would be no plastic or rubber. And eventually, nothing would remain on Earth.

**V. MITHRAN - V I**

Then the Earth would be so dark. Plants couldn't survive. The Earth would be so cold that people couldn't survive. It wouldn't start raining heavily. Solar eclipses would not happen. Lakes, ponds, rivers, waterfalls, and oceans would freeze. Everything would be so cold and frozen. The winter-like conditions would last indefinitely. We couldn't get Vitamin D, and muscles wouldn't become strong. Lunar eclipses also wouldn't happen.

**J.S INDHUMITHRA- V I**

If the Sun took a holiday for a day, the Earth would not get sunlight. Plants can't grow without sunlight. Plants and trees cannot perform photosynthesis. Our lives would be dark—for example, it would be pitch black. Plants would die soon. It would be an extremely cold day. It would be dark even at night, in the morning, and at noon. Our clothes would not dry properly without sunlight. There would be no light, making everything very dark. We wouldn't be able to see each other. We couldn't do our work properly. Without sunlight, crops wouldn't grow. Then there would be nothing for us to eat, as vegetation wouldn't occur in the fields. Animals couldn't survive without sunlight, just as we couldn't. Without sunlight, plants cannot grow; if there are no plants, there would be no oxygen. If there is no oxygen, we cannot survive—we would die. Without sunlight, our Earth would become very cold, and we couldn't survive.

**R.M SUDARSHANA - V I**

**SERENE NATURE**

This is a beautiful scenario where the plants and trees remain yellow. The rhythm of the air melts like music. The weather makes the flowers bloom with a stylish smile. The path is filled with bushes, and the branches of the trees are swaying. The place is quiet and filled with lots of happiness.

**Karishmashree.R V A**

**SPACE EXPLORATION**

Two girls are going to space. Let's see what happens. Come, let's go into the story!!! Hey Liya, do you know that whoever wins the new lottery, in the carnival can have a ride with their friends in a spaceship to the moon? Oh my gosh, Riya, it is amazing. Come, let's hop into our lucky car and spin the lucky wheel. Soon, all three girls went to the carnival. Tina said, “Let’s go directly to the lottery area and spin the wheel. I'll spin, Liya, but I am so nervous. Then Riya ran and spun the wheel nervously, and it landed on Rocket Ride!!! Then all three girls hugged and cried in joy. Then an astronaut hopped out of the space rocket and said hello. Girls, ready to fly up to space. And all three girls hopped into the space rocket and flew to space and landed on the moon. The girls took photographs and played with gravity, and they made an album of it, and they finally went to Earth again, and they showed this album to their school friends, and they photo-framed the other pictures, and they hung them on their living room walls.

**KRITIN S V B**

Once there was a man named Asim Alan. He loved space and planes. He had his own telescope. Every full moon, he would take it and see the moon through it. One day, while he was strolling through his garden, he spotted a poster which read: "Great chance for all space lovers! Just Rs. 999 to go to the moon and Saturn's Titan and spend a few days there and come back to Earth. Pack your bags! Limited seats only!!!" He was astonished and immediately called the number and booked the trip. The operators said, "The trip is tomorrow. Pack everything, and we will provide food." Alan then went there and boarded a huge spacecraft which held a thousand people. He went and settled in a room. After two weeks, they reached the moon. He took his first step there. It was like heaven, and he enjoyed it. After a year, they went to Saturn's moon, and he found water there. After another year, they came back to Earth. As Alan proved there was water on Saturn's moon Titan, he was recognised as a top scientist and astronomer. He researched space for many decades and finally passed away peacefully when he was 100 years old.

**Moral: Determination and dedication can make anything possible.**

**JEYASARAH C V B**

Many of us want to reach the moon, but you may think it is impossible. But humans have set foot on the moon. In 1961, during the Cold War, when the relations between the USSR and the USA were tense, they set up a challenge to conquer space. The USSR managed to take the lead with the Sputnik satellite, in which they sent the first man to space. Even though the USA came close behind, President John F. Kennedy was not satisfied. So, he made an ambitious plan to send the first man to the moon. This was named Apollo 11. Three brave men, Neil Armstrong, Buzz Aldrin and Michael Collins, volunteered to ride on the spacecraft, and finally in 1969, the Apollo lunar lander touched the moon's surface, and while landing, they had some technical issues and had to steer the astronauts manually. The world watched in awe when Neil Armstrong set the ladder and prepared to set foot on the moon. Buzz Aldrin and Michael Collins followed. They spent 2 hours on research. And India has also sent 2 satellites. Chandrayaan-1 discovered water on the moon, and Chandrayaan-2 discovered sulphur, oxygen and chemicals, and it also discovered a temperature drop from 110°C on the surface and -180°C is just 88 mm below.

**SARVESH K - V B**

**CANDY VIBES**

There are some children in a candy world. There is a huge building with a rainbow bridge. There is a big castle with doors. Two rainbows meet at the heart of the land. The land is fully covered with chocolates and lots of candies. The kids are holding each other's hands and running on the bridge. Many butterflies are flying in the bright sky. The castle is decorated with colourful flags on top of it. All the kids are smiling with joy after seeing the candy world. Far away, there are tall mountains covered with snow.

**C.AMANDA CAROL - V C**

It is a beautiful chocolate world. There are ten children in the world. There is a wide variety of chocolate. I love chocolate the most, along with dairy milk, lollipops, and cupcakes. There is a beautiful castle made up of chocolates. The whole world is surrounded by chocolates.

**VINISHA.K - V C**

I will eat all the candies because they are tasty and sweet. I will swim in the chocolate river and slide down the rainbows. I will see different types of candies and visit the king of the castle. The world is made up of chocolates, candies, and lollipops. My garden will be made of candies. I will run and play on the chocolate bridge. There are ten children walking on the bridge and enjoying the beautiful candy world.

**AARUDH.V - V C**

**Playtime Comes Alive**

One day, I took my toys to play. I kept my robot, teddy bear, and car aside. Then I went to build a sand castle. At that time, I heard some noise. When I turned around, I saw all the toys playing. The teddy bear was playing with a ball, and the robot was playing with the car. I called my mummy. My mummy came and asked, "What happened?" I told her that the toys were playing. My mother asked where they were playing. When I looked again, all the toys were standing still. After that, my mummy came and woke me up because it was 12:00 p.m. Then I realized that it was only a dream, and I ate my lunch.

**R.MADHAVAN V D**

My friends once asked me about the most exciting night I had ever experienced. I knew the answer right away. I cleared my throat and began my story. "It was a dark night. The windows were rattling loudly. It was raining heavily. I was still awake, glancing at the passing time. Suddenly, the wind blew out the light of my candle. I drowsily woke up and lit it again. Just then, I heard a loud chattering noise coming from inside my cupboard. I was terrified. I tried to sleep, but I couldn't. Finally, I gathered my courage

and opened the cupboard. To my surprise, my toys were there, and they all looked as shocked as I was. One of the toys stepped forward and explained that they had gained the power to communicate with each other and now wanted to escape from the cupboard. I was speechless. There was a moment of silence. Then I told them to stay and promised that I would play with them and be their best friend. They looked at one another, discussed it, and then nodded to show that they were willing to stay. I slowly closed the cupboard and fell asleep with happiness in my heart," I said. My friends clapped and said they wanted to visit my talking toys.

**SRENIK.J.K - VE**

**STORY TIME WITH DINO**

That night, the children of the town gathered under the oak tree. You might be wondering why. Well, they had gathered to listen to their bedtime story! A dinosaur came out from inside the oak tree. He was huge, but very kind at heart. The children grinned from ear to ear and applauded. Dino, the dinosaur, put on his reading glasses and began his story. His story had kings, queens, centaurs, princes, princesses, and many more characters, and he filled the night with his exciting adventures. He also told them about his friends, the dragons. The children looked at him wide-eyed with admiration. When he finished his story, he closed his book. The children watched their wise old storyteller disappear back into the oak tree.

**SRENIK.J.K - VE**

One day, in a city full of dinosaurs, the dinosaurs were ferocious and always fought with each other. The leader of the city had a child named the Drag Prince. This prince loved freedom and peace and never liked fighting. The leader of the city did not like his child's behaviour, so he sent him into the forest. In the forest, the prince found some children who were separated from their parents. He asked them to live with him and taught them essential habits and life skills. He told them stories at night and took good care of them. He also helped them search for their parents and reunited them with their families. The children often visited him in the forest, where he told them stories and guided them in their lives. Slowly, they grew into young adults. The Drag Prince then changed his name to Dino and gave them powers to save the world from disasters. He also separated the world of humans and dinosaurs. Even today, their children go to the forest to meet Dino and listen to his stories.

**BALAMUKUND.V – VE**

**MARSHMALLOW SKY**

While I was walking in a forest, I saw a hole. I was very excited to know what was inside it, so I went into the hole. I was surprised to see a marshmallow world there. I was thrilled to see marshmallow chocolates, rivers, people, and houses. When the people saw me, they gave me some marshmallows and chocolates. I also saw children playing in a marshmallow playground, so I went and joined them. We all played happily in the beautiful chocolate ground.

**Pranav CV – V F**

**Friends in the forest**

In the forest, the animals were friends. They would be best friends forever. They would not fight each other in the forest. They would be sweet and gentle to other animals. They could be best friends forever in the forest. They could be the best and gentlest animals. It would be so quiet in the forest, and they would help each other with anything. The lion would not hunt any animals in the forest. Even the grumpiest animals would become best friends. They would be best friends and polite to each other in the forest.

**J.M RITHANYA - V I**

**A Moment That Made Me Brave**

A moment that made me brave is when I went up on the stage and I had to give a big speech. Usually, I get very nervous during any event or when giving a speech. I really don't know, but I won't get into any mistakes. There were a lot of people. I got nervous, and I will tell them one by one. First, I was selected for a competition, and I went to the finals. I got so nervous that my competitors had made a plan. But with my great parents and friends' advice, I managed to speak, and I pushed them away from my fear. I got a gold medal! And another one is when I had to read the news on the stage. I have a lot of stage fear and my legs were shivering from fear, but I managed to read it very well. The principal appreciated me so much. Next, I performed in a dance show. I am a girl called Subhana (my bestie). I was so scared and I got stage fright, but my friends stayed with me and cheered me up. I really appreciate my friends and families. I want them so much in my life to support me for anything. They have cared for me and I really have to give something very wonderful to you guys. I was so scared and I got stage fright, but my friends stayed with me and cheered me up. I really appreciate my friends and families. I want them so much in my life to support me for anything. They have cared for me. I really have to give something very wonderful to you guys.

**NIJITHA JENOVIAH - VI A**

**If I Could Time Travel — To the Past or the Future?**

If I could time travel to the past or future, it would be an interesting topic. But before deciding, I want to discuss the pros and cons of the past and future. If I go to the past, hmm… What can I do? I would go for my errors, look and correct the mistakes I made. I don't think I can enjoy it with the truth, but I'm also afraid the future with the past will destroy the future. I also have to think about interesting things. If I go to the future, there are many things I can do. First of all, I would see my future self and my parents, family and friends. I would like to see where and how we are. I used to dream what if AI took over the world? Well, if I go to the future, I would see it myself. But what if growing everything before it even happens will lose interest and curiosity in life? We still need to think about it. The question still remains — the past or the future? Well, believe me, this is the truth. If I could do it, I would do both!

**SADHANA S - VI A**

If I could time travel, I would first choose to go to the future. I want to learn about their super-technology, and I would like to try their food. I would travel in modern cars that look like flying planes. Then I would go to the tallest tower in the future and stay there for a few months. Using a time-travel machine, I would go further into the future and see my future generations. I would go to London to buy chocolates and to Los Angeles to buy fried chicken from KFC.

I would fly to the top of the world with Elon Musk's great-great-grandson's rocket. I would go to Pluto and buy some plots for my future generations. I would meet a robot in the future and bring one back to the present. I saw cars transform into robots like Transformers. Then I would go back home and sleep.

**Sai Darshan A – VII A**

If I could time travel, I would go to the past because I want to meet my ancestors and listen to their experiences. In the past, I could enjoy my life instead of watching gadgets. I heard that my mother enjoyed her life by playing with her brother in the past. She said she would enjoy even the small things. I want to be like that too. I want to enjoy my life and I do not want to be in a cage of gadgets. I would suggest that everyone should be happy in life.

**A.K.ANANTHIKA - VI–B**

If I could time travel and go to the past, I would correct the mistakes made by my ancestors. I would see my parents' achievements and enjoy their childhood and funny moments once again. If I travel to the future, I would see the mistakes I might make and the happy moments I may have. I will try to take precautionary actions now so that my future becomes better. I would also help the future children to get good knowledge.

**Haricharan K- VII-B**

If I could time-travel, I would time travel to the future because I would let the past be the past. What is the use of travelling to the past when it is already completed? But the future is not complete. If I could travel tomorrow, I would know what will happen and be prepared. If I travel to yesterday, it would be of no use because it has already happened. So, I would rather time-travel to the future than the past. If you could time travel, would you travel to the past or the future? And why?

**Chanjana – VII B**

Imagine that you are waking up peacefully, and then suddenly you spawn in front of a time machine. You would either be surprised or scared? The time machine asks you to choose: the past or the future. If you pick the past, it will create a paradox. You may break the laws of physics, change the future, and even collapse the universe. If you pick the future, you cannot change anything, but you can experience all the new inventions and see the world ahead. Any decision will change your life—and everyone else's too. Choose wisely!

**Mohit C - VII F**

This question was tricky. I know for sure I haven't made any mistake and needn't regret it because, when I first saw it, I wanted to know about my future. Today, I have a lot of things to expect and want to know about my bright future. I would say, let the past be past and let's go into the future to see my bigger and potentially better self. I would also like to see my friends grow up.

If I go back in time, I will witness major disasters like tsunamis, cyclones, and earthquakes. Also, some man's mischiefs like dropping a whole bomb on Japan, and of course Hitler passed by his art school. It might be dangerous to travel to the past, but totally worth seeing it. I would much rather go to the safer option of going to the future.

**Abhishek B- VII F**

Time travelling is an invention that could be very useful for our life. It's my dream to time travel, so that I can learn more about my life. If I had to choose whether to travel to the past or future, I would choose both. Because, if I am able to travel to the past, I would be able to fix all the mistakes that I made in my past. I would even be able to correct the mistakes that I made in exams!

If I am able to travel to the future, I can learn all the things that are going to happen later in my life and work accordingly. I continuously pray to God to make me a great scientist and to find a time travelling machine.

The past is a wastepaper! Present is a newspaper! The future is a question paper!

So read and write it carefully, or else it would become a tissue paper!

**Akshara - VII H**

Imagine time travel is possible in our universe or another universe for that matter. Past or future, it is a greatly deep question. If we go to the past, we can witness various revolutionary events that shaped the world. If we go to the prehistoric period, we will be able to see our rich cultural history of our sacred planet and our country, home to all the great kings and queens. We can even stop many wars and many more things, but we already know all this. Don't we need inspiration from the future?

If we go to the future, we can see how the world has evolved. We can see how AI (Artificial Intelligence) has shaped the existence of our earth. We would definitely love to see how our lives have turned out. But we cannot change anything! We cannot reverse time again. Don't we need to live with our own surprises?

But there are so many advantages and disadvantages in both options. The ultimate truth? This is really a deep question once again.

The ultimate truth is that we have to live our life the way it is! We don't need a machine that can forward or reverse time. We need to live in reality. So, we don't need any time machine — live reality the way it is forever!

"LIVE LIFE THE WAY IT IS "

**S D CHETHANA VIII A**

Time travel is everyone's dream, to know something interesting and exciting. We hear many people saying, "If I had a chance to go back to those days, it would be my absolute pleasure." If I have a chance to experience it, I will truly be grateful for it. I would choose to go back to the past. The past is sometimes fruitful to recall; sometimes it may be another version of me too. So, as everyone says, "Think positive and be positive," I would go to the past to revisit my fruitful experiences—those moments that made me the smiling and happy person I am on this planet.

So, till now I was saying why I wanted to go; now let me share some details of where I will go and what I will do…

I will go to a place where I had all my happiness, cheerfulness, and every good quality of mine—my old school located in Manchester City of Tamil Nadu (Coimbatore 1). I would live there forever if I had the chance to! But it's not possible… I would visit my classroom, sit on my bench, and feel nostalgia. I would meet my teachers and tell them how much I missed them and loved them. My friends—they were the gems of my whole life—we would sit, chat, and gossip about every single thing that had happened. And I would just roam around the school recalling everything and feel grateful to all who moulded me and gave me wonderful moments to cherish. I know this is going to be wonderful, and I will surely cherish this experience.

**HARSHITHA K VIII A**

If I could time-travel to the past or the future, the first thing that comes to my mind is buying gold chains and other jewellery by going to the past in a time machine. I would go to the past to correct the wrong things I made earlier. I would also like to relive my sweet memories.

I would want to know the mistakes I might make in the future so that I can become aware of them and avoid doing them. I would go to the future to know the upcoming question paper, so I could find out what questions will appear in the exam.

**V SIDDHARTH VIII E**

If I had a time machine, I would travel into the future. I would love to explore a world that is very different from the one we live in today. I could see my future self and alter my present life accordingly. If I improved my life now, I would have a chance to change my

future. I would also explore new technologies and future inventions that could transform the present world.

I would find out whether theories such as living on Mars are real or not, whether trees would really become extinct, whether we would be able to live without oxygen, and how our Earth would be in a few hundred years. All these questions could be answered by me in the present world.

Going back in time could also be fun, as we would be able to correct our past mistakes to shape a better present. But it could also affect my entire present and future, which might change everything.

Thus, I would choose to travel to the future if I had a time machine.

**THANYASREE K S VIII E**

If I could time travel—either to the past or the future—I would choose to visit my past first because I could correct my mistakes, like trying to get more marks in my exams by studying well. I would also use the chance to revisit the moments that were the best in my life so far.

After visiting my past, I would travel to my future. I would be excited to see myself grown up, and curiosity would build inside me—how would I look, and what would I be doing? Would I achieve my dream job? Would I still be in touch with my old friends?

It's like having many question marks at once. It would be a fun adventure, and I wish it could become true someday. I'm glad to imagine how it would feel.

**YAZHINI N VIII B**

## THE POWER OF TEAMWORK

Teamwork leads to success. Sometimes we fail. If we are in a team, we can achieve a good team and success in competitions. Because we worked hard in the team, we won the competition.

But if we have no team, sometimes we fail because someone in our team ignores everything. If we are individuals, sometimes we fail. But in a team, every judge will appreciate us and we will always win. A team should have some qualities and responsibilities such as kindness, compassion and accepting ideas too. Everyone in our team should be accepting ideas and being there for everything. All of them should have good qualities. We should be kind, creative, adjusting, responsible and more. So, it is the power of teamwork. Everyone appreciates when we are in a team! "Teamwork stands for everything."

**MIRSHIKA K - VI A**

Whenever we try to do hard work individually, we will fail. But if we do it as a team, we can do it easily. Great heights can be achieved only with a team. In a team, with cooperation, anything can be achieved.

Recently, with my two friends, I participated in a competition named *STEAMphony* as a team. In the competition, we worked hard as a team and won the Third Prize in the "Shadow Show" event.

Also, through teamwork, India won the ICC Women's Cricket World Cup. History has proved that teamwork is the key to success many times.

**P. Ashwin Sudhan - VI G**

**The Day Technology Took Over**

It was so crazy, you know why? Because I started doing my homework, writing smoothly. I took a little break. Suddenly I heard an announcement from a book that the board had changed to say, “Since the government announced yesterday about technology taking over the world,” that’s what I decided to share.

But I called my friend. He told me the first thing he said was, “I told you!” because the strong announcement for class IV–A was filled with jealousy, but as I controlled it, I still couldn’t believe it. Because some robots in the school were filled with building and movement. The people today also counted it to be fake, but it was real — really, really real. I even pinched myself, but it was real.

When we were shocked, our jaws dropped even while going to see the crowd. The world was fully covered by technology. We went to learn about these machines we saw even occasionally and were shocked again because even schools and villages were transformed. Only a small number of people work. The government said that everyone should have money, but I was worried about plants. But the government was handling that, so I was relieved.

But we were learning more about these machines. There was even a library about these machines. We went there. It said that not everything was controlled by AI — humans worked in them. We again visited our montage, where we were learning about the machine.

After some time even homework got replaced with free loads of loads of technology work as well. On TV we saw new products that were so advanced. We tried these products and learned how finally a machine can replace me by doing the dishes and chores.

We were learning stuff and crazy, better making smoke-free places. So every working person was energetic and also cool. This was definitely the trend. They celebrated and performed on stage even on birthdays. It was so shocking that technology is so advanced!

**MOHAMMED FAIZAAN M - VI A**

Every place we go, technology grows. New AI, chatbots, software, websites—everything is growing faster. In schools, colleges, malls, shopping complexes—everything has changed with technology.

But just think before the 21st century, technologies were not popular in every country. The reason life is now luxurious is the hard work done by our ancestors like Nikola Tesla, Alexander Graham Bell, A.P.J. Abdul Kalam, etc. They were the reason for our luxury and comfort.

Now cars have auto-drive mode, mobile phones are even foldable, trains have new systems, airplanes have radar for safety, vehicles have airbags. We have chatbots like Alexa, Gemini, or ChatGPT. Perplexity, Quora, and Rufus—these are full of Python, mathematics and technology.

Research surveys are now studying ancient things. This generation can be an inspiration for young and curious minds.

Humans are now dependent on technology. No mobile phone means we cannot order food or call for emergencies. No TV means no entertainment. No vehicle means we cannot meet our relatives. These are our realities.

If we use these technologies correctly, we can have comfort in our future.

Technology can even change the mindset of human beings and make our next generation much better.

**Sai Prasannaah S.- VII E**

In today's world, technology took over. Flying toasters that shot missiles, fridges that sucked you in and trapped you inside—just the usual. But the sky looked more blue than red, and the robots were shivering. There was a legend: *"There is one who is strong enough to rival the sun."* I thought it was fake, but then I saw an outline on the sun of a person.

First, I need to tell you how this happened. A mad scientist turned himself into a robot and took the core. The core is the thing that keeps robots the same. Robots started to go mad after that. At least, that's what I was told.

The outline jumped off the sun and came crashing down. It looked like a giant with white hair and red eyes with a black body. It saw the robot and flicked it away. It gave me the core and said, "You are the only one to do this."

I was frozen with shock. Then I realised the world's only chance was me. I decided to run to the lab, but robots were chasing me. I fell into a hole—into the inside of the earth. It was so hot, but I pulled myself together. When I looked, it was the lab. But there were robots everywhere. They all charged at me. I blocked them with my shield.

I found where the core's containment place was. I put it in there and locked it. The robots all rebooted, and the world was saved by me, Varnesh.

And then there was a note. It said, "If you find this, you must know I was trying to save my brother — the giant — from the scientist, Ram."

**YOGITH - VI G**

Imagine a day without the internet—no AI, no WhatsApp, and nothing at all! Of course, there's going to be a clash between you and your boredom. That's a situation where you will actually have to use your brain. That's the online world—the world where we live more than in the real world.
The evolution of technology has instantly made our lives easier and more convenient, but with the fast-evolving world, life is becoming *too* convenient. The newer generation is growing up on cell phones, kids are getting addicted to videos that make no factual sense, and they are becoming increasingly hungry for screen time.

By writing this article, my point is not to prove that the word *technology* only refers to the online world and cell phones, but to convey that these things have a huge impact on the term. In this fast-moving world, where people who know each other barely have time to communicate, technology has at least given us the opportunity to text one another.

While technology is very convenient and instantly makes our lives easier, it also brings with it an attitude of expectation.

**G ROSHANA VIII F**

**My School My Pride!**

My school's name is NSN Memorial Senior Secondary School. I really love my school because it teaches us creativity, discipline, and gratitude. It will always be nice and decent. No dust, no teasing and no failures — only straightforwardness and discipline. My school never gives up. It donated a public bathroom and gave money to the poor. It always teaches us something. It is an amazing school and always the best.

My school not only teaches academics; it also teaches sports. It is known for athletics. Not only athletics, but also football, basketball, volleyball, and handball. It always teaches me something every day, every minute, and every second. So, I am adored by my school and I adore my school too.

**INAPAKURTI KISHAANTH - VI B**

Every day, when I walk into NSN - my school, I don't just enter a building; I enter an entirely new world. The enthusiastic watchmen, the laughter of friends, the warm smiles of teachers, and of course, the amazing support staff — everyone makes my day special in their own ways.

To me, NSN is not just a campus; it's a place that makes me feel at home. I used to be a shy kid in a corner, but my school has transformed me into a confident teenager.

What makes NSN truly stand out is that it not only focuses on our grades but also transforms us into disciplined, responsible, and humble human beings.

Whenever someone asks me what I like about my school, I smile… because NSN is not just a part of my life — it's a part of me.

I'm proud to say that I am an NSNITE!

**LAKSHANA KARTHIKEYAN VIII F**

**It's Okay To Fail Sometimes**

As the old saying goes, "Failure is a part of success." It is okay to fail. Once we fail, we will be able to correct ourselves and cover up our mistakes. When we learnt to walk as toddlers, we might have fallen down many times. That was a failure. But now observe the way we walk with ease. Failure makes a path for us. "Failure is a friend for us." Once we fail, we can be ahead of everyone.

Mr. Thomas Alva Edison failed 9,999 times while making a bulb. But because every time he learnt and corrected his mistake, he made the whole world light up. So, it is okay to fail sometimes.

**HARIPRIYA P - VI B**

It's okay to fail sometimes. It's better to try than not trying. Keep trying until you get success and victory. Always try, even though nobody believes you. Never lose hope, but believe in yourself. You can do it! Your failures in trying never lose you. Failures are steps to go higher and higher, and you will learn from the wrong path. With the experience you gain, you will choose the right path. It's okay to fail sometimes.

**KOSHIHA A P VI D**

It is okay to fail sometimes. Yeah, true — we can see a person's success easily,

but we do not see the many failures behind it. Every successful person has faced many obstacles to achieve his dream.

"Every failure is a step to success," said our Missile Man of India, Dr. A. P. J. Abdul Kalam. He said this because he experienced it.

Even the inventor Thomas Alva Edison found the bulb after 1000 failures.

He said that "One failure is one step forward to success."

So, don't give up if you fail. Continue… move on!

**Rohith. A - VII B**

It's okay to fail sometimes in life because only by making mistakes do we learn. If we always become successful, it doesn't mean we know everything. Failing means life has given you a chance to learn from your mistakes.

It's never about how many times you fail, but how much you learn from your mistakes and grow through them. Every time you fail, it's just another chance life gives you. Failing is

not a disadvantage. Failing is an advantage because you can learn and plan better for the next time.

So, turn that below 50 into a 90 or 100! It's your chance to learn from your mistakes and succeed in life.

**Vishwajanani – VII E**

In life, nobody gets everything right the first time. We all fail and make mistakes, and that's okay. Failing doesn't mean we are not good enough; it means that we are learning. Failing is the first step to success. Every time we try something new, we might stumble. But that's only because we are new to it, and it doesn't mean we should give up. We might not get the marks we hoped for, but we should not let that bring us down; we should learn from our mistakes and try harder next time.

Even the most successful people fail before achieving their goals. The only difference is that they don't give up when they fail. People tend to stop trying when they fail, but that is not the correct mindset.

The next time you fail, don't feel disappointed. Remember that every fall gives you another chance to rise higher than before.

**JESLYN LYDIA J VIII F**

"Success is not a destination; it is a journey." This quote is really famous for implying that success is a mixture of winning and failures. Failure is a path to winning. We can't win if we have not failed. Even the top geniuses and business people have failed multiple times.

Did they give up because they failed? NO. They kept going until they won. Did they win? Yes. Why? Because they never gave up even when life was difficult. The top students also failed, yet they never stopped trying. Those students fixed their mistakes and learnt from them.

But we have to learn from the mistakes; only then is it helpful. If we make mistakes or if we fail, we should analyse why it happened. Then we can fix it. We should try not to repeat the same mistakes again.

"I fear not the man who has practised a thousand kicks one time, but I fear the man who has practised one kick a thousand times." — Bruce Lee.

**MADHUSHREE VIII E**

It's okay to fail sometimes and learn it again. I personally believe the saying "Success keeps you going, but losing keeps you growing" because when we keep on succeeding, we become overconfident and may end up badly in the end. But if we lose even one time, we become very careful about not making any mistakes. Success is just a part of our life, but losing keeps us humble and shapes our life.

I don't personally think that losing or failing at something can judge your whole self. It's all about how you take it and proceed with your life. Just because you fail at something doesn't mean you will always fail — nothing happens the same way every time**.** You have to keep on trying to succeed; that's what real success means to me.

"Success is all about failing."

**KANIMOZHI P VIII F**

The day I failed, the sky seemed to dim a little. The paper in my hand was full of red marks, each one felt like a small thunderbolt on my heart. I wanted to disappear into silence. But as I sat there, something gentle rose within the darkest moment. That's when I realised—failure isn't the end of the story; it is the pause before a major beginning.

Failure teaches what success often hides. It humbles us, sharpens our focus, and reminds us that we are rarely perfect. The people we admire most—scientists, artists, dreamers—all stumbled before they soared. Thomas Edison's light shone because of the thousands of times it didn't.

I learned that mistakes don't define us—they refine us. Every fall is a quiet test of courage, asking, "Will you rise again?" And each time I do, I find myself a little wiser, a little braver, and a lot more human.

Now, when failure visits, I no longer fear it. I welcome it as a teacher who speaks the language of effort. Because behind every "no" lies a hidden "not yet." So yes, it's okay to fail sometimes, because failure is not falling down—it's "First Attempt in Life." What truly matters is refusing to stay down, and I choose to rise, every single time.

**VAISHNI B VIII A**

**A Day Without My Phone**

One day I was scrolling videos on my phone. After a few hours, there was heavy rain. I got bored watching the phone, so I told myself to not watch the phone for two whole days. I got out of my bed and went near the window to see nature clearly.

When I stood near the window, the cold air and the drizzling of raindrops, the fresh cool air… and I saw a small squirrel chasing another squirrel for a nut. It bounced, and the other squirrel ran to another tree.

In that tree, there was a big green ripe fruit. It looked tasty. The rain can't stop. I can't describe — it was such a beautiful place. There is a huge mountain chain near my house. It was very tall!

In that tall mountain, there was a single tree. From my house it looked like it was dancing on the mountain top. The rain drops fell on the leaf. It glides and falls down, which was looking like a kind of tune.

I didn't know that a day without a phone would be so joyful. It was like a dream, which is true. I saw a lonely crow sitting in the rain. I saw a small paper boat on the road also.

The rain drops were looking like crystals. The butterfly was going from one rose to another. The shining rain was so pretty.

I saw the clouds lifting slowly, sitting there in the sky. The sky was blue and beautiful. The broad sky was so beautiful to look at, so I did.

The shining raindrops from the petals and leaves were really, really beautiful. I went for a jog in the lake. The birds were flying here and there.

I saw tiny fish swimming in the lake. I enjoyed the scene and came home and realized how happy it was without my phone.

**MEDHINI V - VI E**

This morning, I woke up and realized I could not find my phone. At first, I panicked. I checked my bag, my bed, and even the dining table, but it wasn't there. I felt completely lost without it.

I could not message my friends or play games during break. I felt bored, but slowly I started observing the things around me. I talked to my friends, played real games, and even finished my homework early.

When I reached home, my mother told me she had taken my phone purposely to let me experience a day without it. I was shocked, but I also felt refreshed. That day taught me that life is beautiful even without screens.

If you ever lose your phone for a day, don't worry — you will be happy in the end!

**Sajeeth S- VII A**

Nowadays, people are using phones more than spending time with their family. These people cannot stay even for an hour without their phone. We can learn good habits and bad habits from phones. If we use phones for studying, getting information and staying in contact with others, it is useful. But some people play online games and lose their money. They get more stressed and get distracted easily. They cannot do any work with full concentration.

Life without a phone is also boring. There should be a limit to everything. We can use phones for relaxation after doing our daily routine, but for a maximum of 20 minutes. While using a phone, we should be aware and not get addicted. We should not use the phone all day. So, we can use phones, but it is not wrong if we use them wisely.

Due to today's technology, we need phones for contacting, paying, studying and travelling. So, we must have a phone for any emergency and keep it safe. Do not click unknown links because there are many cyber-crimes and hackers in society.

**Neha Mariya R- VII A**

"Do you think a day without your phone is such a big task?" challenged my mother.

I thought it would be easy, so I accepted the challenge. First, I started my day reading a novel and finished around 40 pages. After that, I started doing something that really makes me happy.

Only then I realized that I rely too much on gadgets. The digital world has captured our minds. So, I decided to keep a schedule for using the phone and not waste time online. She also told me to focus on time management and to avoid depending on gadgets for every single activity.

Nowadays, relying too much on gadgets makes us behave like robots.

A day without my phone made me understand this.

**S. K. Tanushree - VII E**

One morning, I reached for my phone as usual, only to realize it was not beside me. For a moment, I felt completely lost. The absence of constant notifications, updates, and messages created an unusual silence that felt both strange and unsettling.

At first, I found myself restless. I wondered how I would check the time, the news, or even the smallest piece of information. However, as the day went on, I began to notice things I had ignored before. The sunlight streaming through the window, the taste of my breakfast, and the conversation with my family all felt meaningful.

By evening, I realized that my phone was not the problem — my dependence on it was. Disconnecting for a day did not make me feel isolated; it made me feel free. It allowed me to regain my focus, my time, and a sense of calm I had unknowingly lost.

Without my phone's constant interruptions, the hours seemed slower but more peaceful. I read a book I had long forgotten, helped my mom with household chores, and took a walk outside, appreciating the world beyond screens.

When I finally got my phone back, I resisted the urge to immediately check it. Though I eventually did, I carried with me an important lesson: sometimes, stepping away from the digital world helps us reconnect with the real one.

**SHANMUGAPRIYA M VIII F**

**Gratitude is the Way to Happiness**

Gratitude is the way to happiness is a very popular saying said by Mahatria. This proverb is hundred percent true in my opinion because a complaining nature will neither be peaceful nor happy.

There is a short story to understand the proverb clearly.

Once upon a time there lived a sage and a disciple. After a long penance, they went to their hut and to their surprise the roof was gone. The sage said that God had made it, because when a roof is gone there will be ventilation.

The disciple was angry about this and couldn't sleep. Suddenly rain poured and the sage started saying, "Oh my Lord, your penance we did not do for one year and yet rain for us!"

By seeing the incident, the disciple understood gratitude is the way to be happy even in the worst situations.

**VIDHULAA - VI F**

Gratitude is the key to leading a successful life. Happiness is the highest level of success. There is nothing better than achieving true happiness. Anyone can achieve it by thanking the ones who help you.

Start the day by thanking yourself. End the day by thanking yourself too. A small "thank you" to a delivery driver for bringing your food will make both of your days. Or thank the security personnel in the school. Thank the aunties who work in the school.

Don't forget your parents. They are the reason you are where you are today.

*"Gratitude is the mother of all virtues,"* as Mahatma Gandhi once said. Implementing it will help you lead a life filled to the brim with happiness.

**Dhakshitha C- VII A**

Being grateful is one of the most important qualities a human could have. When you appreciate the things and people you have, life becomes happier and peaceful. Even your single sentence of thanking something daily will make you feel better. Sometimes it may be a whole page, but sometimes a sentence.

Be grateful for every small thing because someone out there is in need of that. Be grateful for your life because someone out there is fighting for life or on their deathbed.

Being grateful increases your happiness because it creates a sense in your heart that you are thankful. So be grateful for everybody, everything, and every moment of your life.

**Bhavya Sree P– VII B**

Ever felt so sad. Do you feel like you'll never feel happy?

Well, there's a reason for your sadness and also a cure.

Stop complaining. When you complain about something, you become irritated. But if you look at everything positively, a new feeling erupts inside you, gratitude.

Give up all negative approaches. Sadness, hopelessness, hate, envy—these feelings make you feel bad. Gratitude is the key to happiness, the secret to success. It boosts your self-esteem and your chances of making new friends.

If one is grateful for everything in life, it means they're ready to start the path of goodness and peacefulness. Gratitude can change your whole life. Everything you face in life is worth being grateful for.

Start every day by thanking God for letting you live. End every day by being grateful that it isn't your last one. Only one price can be paid for happiness—and that is gratitude.

Always be happy, always be grateful that you have the ability to be happy.

Why do you need an attitude? When you have gratitude!

**Nithila A - VII F**

Gratitude is just a feeling of thankfulness for what you have and what you will have. Though it might sound simple, such a small thought of gratefulness can completely transform your life.
When you wake up every morning, just start by thanking the universe for what it has given you and for the presence of positiveness in your day. If you want to achieve something in life, thank the universe for the opportunity and the universe will grant your wish. An ungrateful person, no matter what, can't be happy in life because they will only keep finding faults in what they have and be unhappy for it. They never really realize the true value of what they have.
So, in the end, your life is in your hands. How you want to lead it—happy or not—is your choice, but gratitude is the way to happiness.

**K A AMRITHA VIII G**

**When Dreams Become Real**

When dreams become real, we don't believe it. We think… "Is this a dream too? Or is it reality?" Some people love to drown in dreams. Some people think it's a curse to dream. People tell dreams are not important or that dreams are never true. But that is not true.

Dreams are always important. Some dreams actually become true if we believe in them.

Some dreams are like fantasy, horror, adventure, nostalgic, etc. Some people love dreaming, some people hate dreaming. Even some who hate reality love dreaming. Some dreams are good; some dreams are bad. Some dreams even go to the extreme—like meeting the dead, meeting God, etc.

Sometimes when we wake up from a dream, we feel something called sleep paralysis. Sometimes it has happened to me. But people tell us we will not be able to move our legs when we wake up from sleep paralysis. It doesn't happen like that.

I just wanted to say: **"Dreams are the best, and it is not bad to dream!"**

**Adlin Tina S - VI-G**

Don't be bored!
My future is bright.
Dream something every night.
Flying on a cotton cloud,
And I am shouting loudly.

Chocolate is meant to be sweet—
My teacher encouraged me with a smile.
The famous people you see…
It's always me!

Sliding on a rainbow,
Getting first on the rank board.
Every dream, every night—
Just make it bright!

**Sujaj Lakshen – VII A**

My life is full of dreams, and most of them became real. I just muttered in my sleep, "How I wish I had a cycle… I would ride along the shores of Marina Beach." The next day was my birthday, and I had a pleasant surprise. My mother and father had brought me a cycle which was painted in my favourite colour—black. And just as I had muttered in my sleep, I rode along Marina Beach with my father. I asked my mother, "How did you both know my

wish?" She said, "We heard you, dear." I was very happy, and they also gave me many gifts that day. I'll never forget that day in my life.

Even in my younger days, I told everyone that I wanted to become a doctor—a doctor who treats his patients very well. Even when someone asked, "What if you don't become one?" I just said, "I will!" I wanted to pass the difficult exam NEET, and I passed. I went to the best medical college and studied there. I loved studying there. And do you know what I am now? I am a world-famous doctor — **Dr. Niralyaa!**

**NIRALYAA K - VI H**

If my dream comes true, it would be the best thing I could ever imagine. The day it happens; it will be the best day ever. I will be the best in the world! I will live like a king if it comes true. My dream is to become a cricketer and play for the Indian team. I am already a champion because I have played for my district. So, if my dream comes true, I will be the happiest person in the world. My mom and dad will be proud of seeing me lifting the World Cup. I will say, "I am the best cricketer in the world!" Many people will admire me and may even become better than me. So, when their dreams come true, they will be like me.

**Tejas Narayan - VI H**

A pleasant weather, mild breeze, the whole beaming crowd of the school's population (not all, of course!), the familiar and positive setting of my school ground, a morning assembly, the harmonic sound of the crowd's applause, a student reading out my name—yes—I used to see myself coming to the stage, to collect a huge trophy from the one and only correspondent mam! That, and only that, was my ultimate dream since I joined the school.

I was looking forward to that moment a lot, and I tried a lot to achieve it. I tried, but did not achieve my dream. I tried, but no... This is what happened many times. But then, I participated in a competition and was waiting for the result one Monday in school. Then, a teacher came to the class; she called out, "Harshithaa of 8C." I was shocked. She told me I had won the first prize in the competition! She told me that I will get the prize in the assembly that Wednesday! I prayed to God.

On that Wednesday morning, I was informed that the correspondent would be giving me the prize! My God! I was overwhelmed. And just like my dream, my name was called out; I went. She gave me the trophy, saying, "Congratulations, Harshithaa! Keep it up!" My eyes filled with tears. As NSN's ambassador, I achieved a prize and my dream. Best Day Ever!

**R K HARSHITHAA VIII C**

**My Secret Talent**

I have a talent that most people don't know. I am a classical dancer.

At first glance, with my casual jeans and baggy top, most assume I'm just like the billions of other teenagers following trends and scrolling till 2 a.m. But at my dance class, I'm completely different.

While dancing to Keerthanais, I feel like I'm no longer me, but the character I'm playing. The fast-paced *jathis* requires power and precision, while the slow ones need a touch of grace.

Every program, big or small, deserves perfection. After finishing a song, the last pose feels like I have added a new feather to my cap.

Even if people make fun of me, I don't let it hold me back. I give such a stunning performance that the ones who laughed are left speechless.

No one can tell me what I can or cannot do!

**Dhakshitha C- VII A**

"The joy of dance only comes when we dance our heart out!" is a famous saying. This saying ignited a spark in my mind, a spark to dance. I always used to think that dance was only for those who were confident but I'm proud to say that I developed an unbreakable confidence after I learnt to dance. Let me share the story of my journey towards dance.

One fine day, I read an article in a newspaper that said, more than 40% of people suggest that anyone can overcome any kind of tough situation through a stable mind. The article also stated that a strong mind can be achieved by "Sahitya sangeet" which means various artforms like music and dance. It also had the responses of people across India. Most of them responded that Dance is the only artform that keeps the human mind stable. This fascinated me a lot!

I always felt unusual whenever I witnessed or watched someone perform Classical Dance. I also felt that somewhere inside me, there was a dancer who wanted to come out! I never let it come out because I was shy and under confident. "How would my family members respond if I asked them that I want to dance?", "will everyone laugh at me if I dance?" were the thoughts that ran in my mind.

Finally, 1 came out of that thought process and decided to join a Classical Dance institute. And then, 1 discovered that I dance and I realised that dance is not just a movement of hands and legs but it is spark that makes anyone feel confident. I finally discovered my secret super power and talent.

Now, I am proud enough to say that learning to dance helped me to overcome stage fear, express joy, keep my mind stable and most importantly boost my confidence!

In the end I would like to say that Don't be captured in a cage of thoughts.... Come out of your thought process and that is when you will be able to discover your talent and your potential!"

**ISHITHA ACHARY VIII A**

Everyone has the potential. Don't you agree with it? The thing is the person has to discover it. Many have their own talent, and I too have one. Discovering their talent might be in various ways and now, I'll describe my talent (secret) and how I discovered it.

So, I discovered my secret talent on 8th April, 2025, to be exact. It was practically because of jealousy! You see, I used to look at others' artworks, and think what if I could admire my own art? So then came the next problem, I had zero practical knowledge in drawing. Then, when I approached my mom, she suggested, Why don't you learn from online tutorials? And so, I began to watch an online portrait tutorial of Virat Kohli. I outlined it and shaded it with pencil and it turned out pretty good, considering that it was my first ever portrait! My parents and my sister encourage me, saying that I had a flair for portrait making. They brought me pencil shading skills, erasers among other artistry tools. I went on to hone my skills day-by-day for almost 7 months now!

However, it wasn't without ups and downs sometimes, the outlines won't turn out good, and If I continue to shade it will be horrible! I have to start over once again. It will be frustrating at first, but here however, you have to learn from your mistakes!

And today, I can draw a variety of portraits ranging from mythology based to cricketers!

So, we all can learn a lesson from my journey. Not everything happens according to our wish, but still, we have to continue on our passion. What are you waiting for? Take up a pencil, sketch your favourite picture and discover a secret talent! ENJOY!!

**NANDA K VIII A**

**My Dream Future**

We live in a life where we are surrounded by gadgets (instruments) everywhere. Our traditional way of communication has been replaced with messages and WhatsApp calls. We don't meet people face to face as often as before, and conversations continue through phones. It might sound amazing, but everything is run by robots. Soon flying cars will appear, and all the upcoming decades will fill our Earth with inventions. The future is already here.

Artificial Intelligence (AI) is now commonly used by all. If someone needs help, they can consult AI. But one should be cautious. AI should not be treated like a personal friend, as it might expose your personal information. Besides all the threats and scams, AI can also be used for good things, such as finding facts and exploring current affairs. When we use AI for everything, our brain stops thinking harder and starts depending on an external source. Nowadays, most students' speeches and schoolwork are done using AI.

We shouldn't always sit in front of a screen. It will damage both our physical and mental health. Meeting people in person creates a stronger bond with them. This is important for our present generation's future well-being. Let us get off the screen and step into the fascinating world of wonders!

**P.V. Raaga Sahiti- VII A**

**Don't Cry, Just Try...**

You get to be the topper,
And never have you flunked,
One day you see your test sheet,
And in sorrow you get dunked.

You try to do a hard task,
And see its results,
Your face is filled with shock,
And your mouth pouts and sulks.

What's this all about?
You suddenly go down,
It's just normal, pal!
Now, don't frown.

Everyone will fail,
At a certain point of time,
It's just for experience,
To make you grow and shine.

Don't take it too hard,
You haven't made a sin,
Just face it with a smile,
Throw anger in the bin.

Just try a little more,
To prove that they're not lies,
The rumours that spread about,
You'll soon rise and rise.

**Vasuprada A -VII F**

**SMALL ACT OF KINDNESS CHANGE THE WORLD**

Small acts of kindness have the power to transform lives and create a ripple effect of positivity. These acts can be as simple as holding the door for someone, offering a genuine compliment, or brightening someone's day. They restore faith in humanity and inspire others to lend a listening ear and have the ability to brighten lives. *Pay it forward.*

When we perform acts of kindness, our brains release endorphins, also known as "feel-good hormones." This can lead to improved mental and emotional well-being, increased self-esteem, and a stronger sense of connection to others. Kindness can even decrease stress and anxiety, boost mood, and increase energy levels. The physical benefits of kindness are just as impressive, with research showing that it can lower blood pressure, reduce inflammation, and strengthen our immune system.

Small acts of kindness can have a profound impact on individuals, communities, and society as a whole. They can bring people together, foster empathy and understanding, and create a sense of belonging. Whether it's volunteering, donating for a good cause, or simply being present for someone in need, every act of kindness counts.

By incorporating kindness into our daily lives, we create a more compassionate, empathetic, and connected world. So, let's make kindness the norm, not the exception. Let's spread kindness wherever we go and watch it transform the world, one act at a time.

**R. DEEKSHA SRI VIII-E**

Have you ever wondered about a world full of kindness? Surely, it would be sweet enough to melt our hearts. We often think nothing would change even if kindness didn't exist. But we don't realize how much impact a small act of kindness can have on a person who is going through everything.

"Too often, we underestimate the power of a touch, a smile, a kind word — all of which have the potential to turn a person's life around." This quote shows the impact of kindness on a person's life.

You don't need to do much to show kindness. Just a smile, and you've won a person's heart. Just a kind word, and you've saved an innocent soul from cruelty.

**SAISHRI J VIII B**

**HELPING HANDS - STUDENTS MAKING A DIFFERENCE**

In this whole wide world, as much as the count of people all over the world, students make a great difference in the population. Every day of people's lives is filled with busyness, tension, and mood swings, where no one thinks to help others, even when they see someone who really needs help.

This Gen Z to Gen Alpha generation of students is trying to help everyone. Teachers are trying to improve the helping skills of every student by creating more foundations and motivational talks. The help can be anything—like serving the country, helping somebody who is in need, cleaning the environment, and even not disturbing anyone.

Every single help from every student can make a difference. It can make the world better and motivate others. If 20% out of 100 people in the world have the mindfulness of helping, the world will surely change one day. It will change by motivating every single person to help. So, students are the future-changing gadgets of our world! So help everyone!

**EUNICE LISA C VIII G**

**MY DIGITAL LIFE**

At present, technology is at its peak. In fact, technology revives things we could've never dreamt of in the olden days. Today's world has changed so much that we feel like we've gone too far or we could downgrade a bit.
Nowadays, people's lives are so messed up that right when we wake up, we search for our mobile phone which is hiding in some corner of the house, rather than the clock in front of us to look at the time.
The very next thing we do is check our messages and instantly get flooded with notifications on the phone. AI is destroying students' careers; in spite of being created for "high and informational purposes," it is being used by students to irritate teachers by arguing with AI-generated answers and to cheat on assignments and homework.

There is a lot more to state about this topic as technology is vast in our world. However, to wrap up, AI and technology must be controlled, especially for children, to change the state of this technical illness in our lives. Humans were driven by greed and money earlier, but now they are driven by tech!

Control tech & have fun!

**JENOJITH KUMAR M VIII F**

**THE POWER AND PERIL OF SOCIAL MEDIA**

Social media is like a coin — it has two sides. It represents the pinnacle of free and unrestricted expression of opinions, perspectives, philosophies, and ideologies. Social media is a powerful blade capable of hacking through even the most blatant lies, corruption, and injustice; shedding light, showing the truth, exposing false promises, and revealing the ugly reality behind righteousness, morals, and ethics. Social media is capable of crushing the corrupt and is powerful enough to make tyranny collapse.

However, social media has another side. Like a dual-edged blade, if used recklessly, it can sever fingers and even shatter peace, bringing chaos and discord. The same weapon that can expose false promises and corruption can also destroy noble individuals and a righteous society. Social media is often used as a tool of deception and manipulation through propaganda and misinformation.

Social media is a dangerous element in our daily lives, like fire — useful if handled properly, but capable of causing great harm if used carelessly. The way we use social media determines its impact. We can make it a spark that illuminates the surroundings with truth and knowledge, or a wildfire that engulfs the forest with its fierce wrath.

**SANJAY RAJ U VIII D**

**I LOVE MY FAMILY**

Family is always my number one priority in life, and I constantly think of ways to give back to them in non-material ways, like spending quality time together, listening attentively, and offering emotional support during tough times.
I love my family so much because they always care for me unconditionally, no matter what. They are my first school, and their teachings have strengthened our bond, while filling me with a sense of security, joy, and lifelong guidance. The love I receive from them shapes my personality, helping me build confidence to face life's challenges. Their encouragement inspires me to pursue my dreams, and honour their sacrifices by striving to be better every day.

**Yazhini S**

**VI A**

There are four members in my family – my mother, father, sister, and myself. We have lots of fun together. My sister and I play with our friends and enjoy every moment. Once, when my father went to Saudi Arabia, he got a big wound. It got better with time, but I was very scared at that time. I am happy that my father is alright now. On 8th November 2025, we visited VGP as a family and had a lot of fun. Family trips always bring us closer and create happy memories. We also celebrate birthdays and festivals together, which makes our bond stronger. I feel very lucky to have such a caring and loving family.

Family teaches me many values. We share love, respect, and happiness with each other. Every member supports and encourages the others. We help each other with study and celebrate our achievements together. My family makes me feel safe and loved every day. I am very thankful to have such a wonderful family.

**K. Aswithashri**

**VI C**

I love my family a lot. The bond between my family and myself is very strong. My family consists of my mother, father, brother, and grandmother. I love all of them very much. My family is my best friend, with whom I share all my emotions, such as happiness, sadness, joy, grace, and anger. They always support and encourage me in everything I do.

We spend quality time together, talk about our dreams, and share stories from school. My family makes me feel safe and loved every day. They teach me values like honesty, respect, and kindness. Family moments like outings, celebrations, and small achievements are always special. I feel proud and happy to be part of such a wonderful family.

**J. Mithilesh**

**VI C**

I love my family because they are my entire life. With their presence, I feel that I can do anything, even the things that seem difficult or impossible. My family gives me confidence and makes me brave. They always stand by me, and that makes me feel safe and happy.

We laugh, play games, and help each other with schoolwork. My family celebrates every small achievement together, and this makes me feel special. I learn important values like honesty, kindness, and respect from them. Family is my greatest treasure, and I love every moment with them.

**S.A. Kaviyasree**

**VI C**

In my family, there are five members: my father Saravanan, my mother Mageswari, my brother Mukteswar, my grandmother Vasantha, and myself. Family is the most beautiful gift in the world. It is where love begins and never ends. My family is my strength, my happiness, and my biggest blessing. Every moment spent with them is filled with laughter, care, and togetherness.

In my family, we share everything, from joy and success to challenges and tears. We stand by each other through every situation, no matter how hard it is. My parents are my guiding stars, my brother

brings fun to my life, and my grandmother is my support system. We also learn to respect elders and care for one another every day. I am very thankful to have such a loving family.

**S. Pragathi**

**VI C**

I love my family very much because everyone supports and helps each other. My dad, Md. Rahamathullah is my superhero. He is a supportive person in my life. My mom, K. Mujeebunnisa, is my whole life. She always takes care of me. My elder sister, R. Sideeqa Fathima, sometimes irritates me, but I still love her.

We all care for each other and share our happiness. We help each other with studies and celebrate festivals together. My family teaches me good values, and I feel very lucky to be a part of this family. We always encourage each other to do our best in everything.

**R. Shazia Fathima - VI C**

I have a wonderful family. They teach me good habits and guide me in life. There are four members in my family – my father, mother, sister, and myself. My father is the head of the family, and he takes care of us. I love my family very much because they give me love, support, and guidance in everything I do.

We go on small trips together, share our feelings, and celebrate special moments. My family makes me feel confident and happy, and I always feel safe with them. I learn to care for others and be kind through their example. Every moment with my family is precious.

**S. Thaneesha - VI C**

I love my family very much. My family is wonderful, beautiful, kind, and joyful. My dad is my hero and the ironman of our house. My mom is a wonder woman. She takes care of my sister and me and finishes all her work on time.

We also share jokes, play games, and spend time together on weekends. My family teaches me discipline and respect. I feel very lucky to have such a supportive and loving family. They give me courage to face any challenge.

**J.S. Nithesh - VI C**

I love my family very much. My parents take care of me and always support me in everything I do. They teach me good habits and help me become a better person. We spend time together talking and laughing a lot.

When I am sad or tired, they cheer me up and make me feel happy. My family provides me love, care, and comfort. We also go for picnics and outings that make our bond stronger. I am thankful to have such a wonderful family. They are my strength and my best friends.

**K. Prathiksha - VI C**

I love my family because they are kind and beautiful. My parents buy and give me whatever I ask for, and I also sometimes gift them little things. We all care for each other and spend happy times together.

We celebrate birthdays and achievements with joy. My family also helps me learn new skills and teaches me good manners. I feel proud and happy to have such a loving and caring family.

**P. Surya - VI C**

I love my family because they always care for each other. One time I was sick, and my mom stayed by my side to take care of me. Everyone cheered me up and helped me get better.

My family always supports me in every situation and fills my life with love and happiness. We also celebrate festivals and enjoy meals together. Family is where I feel safe and loved. I am thankful for every moment spent with them.

**Sai Chinmayee - VI C**

I love my family so much. They are my close friends. In my life, work comes first, family second, and friends come after. My family supports me in every way and helps me every day. We are a team.

Together we have lots of fun. A family's love is pure and true. It is a strong bond. Family is like a flower. Sometimes it is happy, sometimes sad, but it always starts anew. The love of a family is true, pure, rich,

and unbreakable. We also learn to be kind, honest, and helpful from our family. They make my life full of joy and happiness.

**Divikshasri - VI C**

In the warmth of our embrace, a bond that cannot be erased.

Through the ups and downs, a family's love never frowns.

With each laughter and each tear, our love grows stronger each moment.

From the little things we do, to the memories we accrue.

No matter how far apart, our love connects us at heart.

For family, we will always stand, hand in hand, our love expands.

We also help and care for each other and celebrate happy moments together.

**S. Praveen**

**VI C**

I love my family a lot. The bond between me and my family cannot be erased by anyone. We go through laughter, sadness, and everything together. My life depends on my family.

There is love, joy, grace, and other beautiful things in my family. We also share fun moments, festivals, and small achievements that make our home happy. My family gives me courage and strength every day.

**Sudarshan D.B.**

**VI C**

I have a wonderful family. It is a small family with five members – my father, mother, sister, brother, and myself. My father is an officer, and my mother is a homemaker. As a family, we go through the ups and downs of life together.

We are always ready to help each other. My family members are very caring, supportive, and loving. We also celebrate festivals and birthdays together. Every moment with my family is special. I love my family very much.

**S. Jinma**

**VI C**

## MY SECRET TALENT THAT MY CLASSMATES DON'T KNOW

My secret talent is that I know Hindi, but my friends don't know it. The reason is they never talk about Hindi in school.

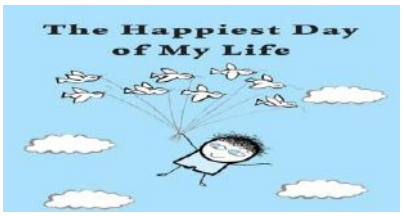
I imagine, "If they find out I know Hindi, how would they react?" I think they would hurry up and ask me to speak in Hindi, like saying "pani puri" or "bhai," and we would all laugh together!

One day, I might surprise them and make everyone happy. I learned Hindi from my family, and it's fun to watch Hindi movies too. They might want me to teach them some words!

**Nethra M S**

**VI A**

**THE HAPPIEST DAY IN MY LIFE**



The happiest day in my life was when I learned how to ride a bicycle. I was very scared to ride it, and my friend was tired of helping me.

One day, I was riding with my friend's support. She let go of my hand, but I did not know it. I was riding very smoothly and straight. My mom saw me and was shocked. She said, "You are riding a cycle without any support!" I looked back and saw she was standing far away.

It was Saturday, October 25, 2025. My heart was full of butterflies. I was so happy I could not express it in words. I told my dad, brother, and everyone. I even learned to ride with one hand! My friend was shocked and said, "You are just a beginner, and you are riding fast with one hand!" That was the happiest day in my life.

**Firasha Firdouse**

**VI A**

**A MEMORY THAT LIVES IN MY HEART**

Some memories fade with time, but a few stay fresh in our hearts forever. One such memory for me is the day I performed on stage for the first time. It was our school's annual day, and I had been chosen to dance in the opening performance. I was excited but also very nervous. My heart was beating fast as I stood backstage. Then something magical happened. All my fear disappeared. I smiled, moved to the rhythm, and enjoyed every second.

When the dance ended, the sound of applause filled the hall. I could see my teachers clapping proudly and my parents waving from the audience. That moment felt like pure joy, a mix of pride, relief, and happiness all at once.

That memory taught me to believe in myself and to never let fear stop me from shining. It is a moment that will always live in my heart.

**Kanishri R. K**

**VI B**

**MY DREAM VACATION AND WHAT I WOULD DO THERE (POEM)**

My dream vacation is Bali with my friends,

A jolly trip in my favourite aeroplane to Bali we will take.

We will enjoy the beaches, mountains, and volcanoes,

A wonderful place full of surprises and sights.

We will laugh, play, and explore all day,

Making memories together in every moment.

Fun! Fun! Fun! with friends so near,

A vacation of joy that I will always hold dear.

**A. V. Vibushaya**

**VI B**

My favourite vacation is a trip to France because there are many delicious foods and famous places to visit.

For breakfast, I will try one of the famous French pastries, like a croissant. Then, we will take a train ride around Paris, the capital city. We will see beautiful streets, gardens, and buildings. After that, we will visit the Eiffel Tower. Seeing everything from the top will be amazing.

We will also buy some souvenirs that are special in France. For lunch, we will go to a restaurant. In the afternoon, we may rest and watch some programs on TV. Then we will have dinner and finish a little homework.

The next day, we will go to another city in France by train. We will eat and play some sports or games. For lunch, we will go to a restaurant. Then we will continue sightseeing until it gets dark. For dinner, we will eat at the hotel and finish any remaining homework.

On the third day, we will start packing and go to the airport to return home.

**Natheneel**

**VI C**

My dream vacation is to visit Delhi and Agra. Delhi is famous for its historic sites. I love to study history very much.

I would get ready early and travel by car to the Red Fort. The Red Fort is built with red sandstone and was constructed by the Mughals. It is the place where the Indian flag was first hoisted. I will also draw a small location map of where I went.

Next, I would go to India Gate. At India Gate, the names of Indian soldiers who lost their lives in wars are inscribed. After that, I would visit the Lotus Temple, which is very spiritual and beautiful.

Then, I would go to the National Museum. I will observe each gallery carefully to learn history. After that, I would visit Humayun's Tomb, which looks very beautiful, almost like the Taj Mahal. I would also take some photos there.

Next, I would visit Jama Masjid, which is also very beautiful like Humayun's Tomb. Finally, I would go to the Taj Mahal and Agra Fort in Agra. Both look amazing, and I would love to see them in real life.

I pray every day that this trip will happen one day.

**S Vishnu**

**VI C**

## MY DREAM SCHOOL

My dream school would not start with a bell. It would start with a happy music beat that fills the campus with energy and joy. The music would tell us that a new day of learning has begun. There would be no stress and no front row pressure. Every bench would turn into a soft nap pod for our daily two hour break. Sleep would be part of our timetable, and fun would matter as much as learning.

There would be no homework and no tests. We would learn science by building things instead of memorising formulas. History would be taught through role plays instead of learning dates. Maths would be learnt through puzzles, games, and sometimes even chocolate rewards.

Teachers would be funny, friendly, and never scary. We could talk to them freely, not like walking rulebooks but like caring guides. They would actually listen to us and even laugh at our jokes.

There would be messy art rooms and surprise classes every Friday, like meme making or fun skill sessions. There would be no ranks or labels. The school would understand who we are and help us grow in our own way.

That is my dream school. Honestly, I would never want a holiday from it.

**Vinatha R**

**VII A**

My dream school should be like Disney World, full of fun and excitement. There would be a food court with ice creams, waffles, milkshakes, sandwiches, pizza, and burgers. At the entrance, there should be a food street. There would also be rides and games, like balloon shooting, giant wheels, horse rides, and bullock cart rides. To keep everyone safe, there should be an army force.

Regular classes would still happen, but all teachers would be kind and never shout. Every day there would be two PT periods, and students could wear civil clothes. Once a week, there would be a no-bag day, and there would be no exams or tests, only the annual exam. There would also be a sleeping period, and students could use phones in class. Every classroom would have air-conditioning.

There would also be a cinema theatre to relax, and after school, students could enjoy the rides in the theme park. My dream school would be a place full of learning, fun, and safety, where every day is happy.

**M. S. Yazhini**

**VII B**

One morning, I woke up and saw that it was my first day at my new school. I felt nervous and excited at the same time. I asked my mom when I would get my uniform. She smiled and said that there was no uniform in this school. We could wear anything we wanted. At first, I thought she was joking, but to my surprise, it was true. So, I wore my favourite T shirt and jeans.

When I reached the school, I found out that it was a Friday. In this school, Friday is called Dream Day. I asked a girl named Lisa about it. She told me that on Dream Day, students can do many activities like playing, resting, eating together, and learning karate. I could not believe it. Everything felt like a dream.

This was the school I had always wanted. It made me feel happy, free, and excited to learn.

**Saindhavi**

**VII A**

A school of joy, a place so bright,

Where every morning feels just right.

Smart boards shine and ideas grow,

Teachers guide with a gentle glow.

Books, gardens, sports, and art,

Learning science with a curious heart.

No fear, only love and cheer,

Friends and laughter everywhere near.

Dreams take wings and hopes come true,

My dream school, I wait for you.

**P. V. Varsha**

**VII A**

My dream school should be very liberal and fun. After every period, there would be a 15-minute break to relax and enjoy. The school would provide iPhones, iPads, and laptops for students. All types of food would be available all the time, so no one would ever feel hungry.

All the teachers would be lovely and kind to students. Every day, there would be two PT periods. All classrooms would be air-conditioned to make learning comfortable. Students could wear civil clothes four days a week, and one special day they would wear white to celebrate Holi.

There would be a cinema theatre where all new movies would be shown on time. Skill-based classes for art, music, sports, and technology would happen regularly. The school fees would be zero rupees, so education would be free for everyone. Safety would be managed by an army general, and the boundary of the school would always have security.

My dream school would be a place full of learning, fun, and safety, where every student can enjoy and grow happily.

**S. Ragavi Deeksha**

**VII B**

My dream school would be a magical wonderland. All the teachers would be kind, sweet, and lovable. Magic would be one of the periods in the timetable. Teachers and students would have wings and superpowers, making the school a very exciting place to learn.

In my dream school, students could wear the dresses they like but should always be neat and prepared. The school would be full of unicorns, butterflies, flowers, beautiful parrots, birds, peacocks, puppies, and cats. The school would be silent but joyful, and everyone would feel happy and safe.

This magic school would teach students to care for pets and nature and to be disciplined. Every day would be a good day for everyone. The campus would always be clean and green. There would also be a telescope so students could admire the wonders of the sky.

**Sri Rakshitha**

**VII C**

We all have a vision of the ideal place of learning, a space that prepares us not only for exams but also for life. My dream school is called The Evergreen Academy. It is not a rigid institution with only four

walls and textbooks. Instead, it is a place designed for discovery and learning with joy. The classrooms are spacious and technologically advanced, using interactive screens and simple digital tools to make learning interesting and easy to understand. Heavy school bags are reduced, and tablets are used to support learning.

At The Evergreen Academy, learning is closely connected with nature. The campus is surrounded by greenery, and students learn not only inside classrooms but also in outdoor learning spaces and gardens. This school believes that education should create curiosity and respect for the environment. The surroundings make students feel calm and focused.

The word “evergreen” means values that never fade. At this school, importance is given to integrity, determination, and excellence. Strong foundation skills like reading, writing, mathematics, and handwriting are given special importance. With a strong base and the right values, students are prepared to grow into responsible and confident individuals.

**Vedha Shree S S**

**VII C**

In my dream school, bright and wide,

Learning is a joyful ride.

No heavy bags or boring days,

Just happy hearts in many ways.

The classrooms shine with colours bright,

Smart boards glow with gentle light.

Teachers smile and guide with care,

Every question matters there.

There is a garden with buzzing bees,

A playground under tall green trees.

We paint, we sing, we laugh, we play,

And learn new things every day.

Our library is a magical space,

Where stories take us place to place.

Robots, science, art, and song

Help us dream and grow up strong.

No scolding words, no fear at all,

Just courage when we slip or fall.

With kindness, respect, and friendships true,

That is the world of my dream school.

**Harishankar**

**VII C**

We all have a vision for our school, the first place that prepares us to face the big, beautiful, and sometimes challenging world. Every school is special in its own way and has different qualities.

My dream school would be a place where education is given importance without any burden. There would be no school fees, and all students would be treated equally. No caste, religion, or creed would be asked in the admission form.

In my dream school, cleanliness would be maintained in every classroom. The school campus would be full of plants, and the greenery level would keep growing. There would be no loud bells, and students would move from one class to another peacefully.

This kind of school would make students feel happy, safe, and comfortable while learning.

**Anshitha K M**

**VII C**

School is a place where we learn and enjoy time with our friends. However, for some, the structured environment and academic pressure can occasionally feel quite restrictive or overwhelming. That is why I wish I could have my very own dream school, a place where learning is fun and exciting every day.

In my dream school, there would be no exams, dictation tests, or cycle tests. We would not need to write class work every day. Instead, there would be more PT periods, art and craft sessions, and exhibitions every week. Each bench would have an iPhone attached for learning and research. The classrooms would be covered with dark red curtains, and air-conditioners would make the rooms cool and comfortable.

My dream school would also include dance sessions, music classes, and food stalls with delicious snacks. We could enjoy healthy games, fun competitions, and creative projects. Regular classes would still happen, but without the stress of examinations. I believe this school would make students feel happy, motivated, and free to explore their talents.

I know that in real life, my dream school may always remain a dream. Still, I enjoy going to school every day and learning new things. Maybe one day, schools will become more like my dream school, full of joy, learning, and freedom.

**Srihitha C. H**

**VIII B**

**THE JOY OF GIVING AND SHARING**

The joy of giving and sharing brings warmth to both the giver and the receiver. When we give or share, we often receive much more in return than what we had before.

- MUHAMMAD ZAKIR.A - **VI A**

**WHEN DREAMS BECOME REAL**

To make dreams real,
The inspiration is: Hard work
Work hard to make dreams Real.
Don't faint! If you faint who will
Enjoy your dreams? Then try to
Keep your dreams acceptable
For yourself
MAKE YOUR DREAMS REAL!

- YAZHINI BALAJI - **VI A**

**MY SCHOOL.... MY PRIDE...**

School is like temple
Teachers are like God,
Study is my aim.
A place to study
A place to be friendly

- PRAJANA.S - **VI A**

**THE POWER OF TEAMWORK**

If we do the work alone, it will take at least one week. But with teamwork, we can finish it in just one day. When working alone, we have to buy everything ourselves. But with teamwork, we can easily share the resources, and more ideas will be generated.

- LAKSHITHA CHARMI R V - **VI A**

**IF I COULD TIME TRAVEL**
**-TO THE PAST OR FUTURE**

If I go back into the past, I will reflect on my past action and correct myself . I will also relive my memorable moments of the past

-PARRIGNA GUNDA - **VI A**

**THE JOY OF GIVING AND SHARING**

Ramu and Somu were close friends. Ramu always shared everything with his class, but Somu never shared even his pen. One day, both Somu and Ramu forgot to bring a pen. Everyone was ready to give a pen to Ramu, but nobody wanted to give one to Somu.

This shows that when we help and share with others, they will also help us in return. So remember: *Sharing is caring.* From now on, let's share with everyone.

-JEYA DHANYA SHREE.J - **VI A**

**WHEN DREAMS BECOME REAL**

Dreams will become real in everyone's life when we chase them and practice every day. We can achieve our dreams if we stay motivated and determined. But if we give in to laziness, we cannot reach them. With self-motivation and consistent and directed effort, our dreams will surely come true.

-CHETANA.V - **VI A**

**WHEN DREAMS BECOME REAL**

My dream is to become a great dancer in life. When I was in primary school, I joined a dance class, and now I have completed Grade 2 of my classical dance exam. I may not be a big dancer yet, but I am happy with my progress, and I know I will pursue my dreaml.

-AGALYA.S - **VI A**

**A DAY WITHOUT MY PHONE**

A day without my phone or tablet feels very hard… but it allows you to see the reality of the world. You notice so many things you usually miss, and you can truly enjoy the day with your family. Relationships become stronger.

- YUVANTHIKA.G - **VII A**

**MY SECRET TALENT (AND HOW I DISCOVERED IT)**

I discovered my talent when I was in middle school, and I was selected for many programs. That's when I realized that opportunities don't just happen—you create them and by grabbing these opportunities we get to identify our potential skills.

- YASHWARDAN AMAR - **VII A**

**THE JOY OF GIVING AND SHARING**

The joy of giving comes from the heart. For example, when we give a gift to a friend, it brings happiness. The joy of sharing comes from the mind. For example, when a friend shares a pencil with us, it creates a sense of care and connection. By being a sharing and caring person, I will be a good Samaritan to society and a good son for my family.

-SANJAY.M - **VII A**

**MY SCHOOL… MY PRIDE…**

My school is my pride,
A place of joy and light.
We read and write every day,
And learn to shine bright.

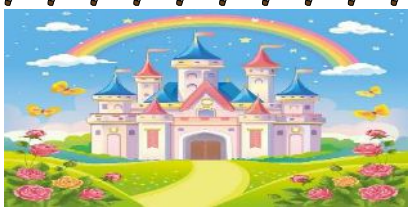
We study, play, and grow together,
With friends who stay by our side.
We learn good values and respect,
With love and care as our guide.

Respect elders, obey parents,
And always do what is right.
That is why I proudly say,

"My School… My Pride…"

— *AKSHAYA A.* - **VII A**

**A MAGICAL KINGDOM**



In the heart of the whispering woods lies the Kingdom of Eldoria. It is a magical place where ancient trees glow with soft light, and rivers flow with shining silver water. The kingdom looks peaceful and beautiful, like a dream.

The people of Eldoria are a blend of elves, fairies, and humans who live together in harmony. Their homes are carved inside giant tree trunks, making them one with nature. Everyone respects each other and lives happily.

At the centre of the kingdom stands the Crystal Palace. It is made entirely of glowing magical crystals that shine brightly and hum with mysterious energy. This palace is the pride of Eldoria and the symbol of its magic.

**M. S. Niranchanaa - VII A**

A magical kingdom is hidden beyond the rainbow. The trees sparkle with silver leaves, and the river sings sweet melodies as it flows. Unicorns dance happily under the moonlight, and fairies paint the morning skies with bright and beautiful colours. The air feels calm and magical, and everything looks peaceful.

In this magical kingdom, kindness is the greatest magic of all. People help one another, and every smile spreads happiness. Every good deed makes the flowers bloom brighter and the kingdom more beautiful. There is no anger or sadness in this place.

I dream of visiting such a magical kingdom one day. It would be a place where everyone lives together with love and care, and happiness lasts forever.

**V. Akshita - VII A**

A magical kingdom, for me, would be a modern and fashionable place. In this kingdom, homeless people can stay for free and live safely. There would be a large buffet area filled with food so that no one goes hungry. This would fill not only their stomachs but also their hearts, and no homeless person would be treated badly.

In my kingdom, everyone would be treated equally. If rich people visit the kingdom, they would be impressed by its beauty and facilities, and they would be charged a fee. The money collected from them would be used to help the homeless and run the kingdom properly.

If the kingdom makes any profit, I would use it to improve the infrastructure and provide more food. My dream is to create a magical kingdom where kindness, equality, and care for others come first.

**M. Sai Darshan - VII A**

**WHAT I'M GRATEFUL FOR**

I am grateful to God because He gave me a human life. I am grateful to my parents who support me, teach me, and buy me things whenever I ask. I am also grateful to my teachers because they work hard to teach us values and skills that help us grow.

I am grateful to God for giving me good health and all my organs, because many people do not have eyes, hands, or legs. I am grateful to my Silambam master because he teaches me Silambam to stay strong and disciplined.

I am grateful to Mother Earth because she carries and supports us with love. I am also thankful for the wind, water, and air, because they give us life and help us live every day. I am grateful for my friends, who make life joyful and fun. I am thankful for the sun and the rain, which help plants grow and give us food. I am grateful for books, because they teach me new things. I am also grateful for music, which fills my life with happiness and peace.

**S. Karishma - VII B**

## A MISTAKE I MADE AND WHAT IT TAUGHT ME

Mistakes are a sign of hard work. It is okay to make mistakes, but learning from them is very important. I have made many mistakes in my life, and each one taught me a lesson. One big mistake I made was not choosing the right group of friends. The friends we choose influence how we think and behave, so it is important to be careful while forming friendships.

I also learned that failure is a step towards success, and mistakes are steps towards excellence. I made mistakes in exams, speaking, writing, and reading. Sometimes I felt disappointed, but those mistakes helped me understand my weaknesses and improve myself. Slowly, I started learning from them instead of feeling bad.

These experiences taught me not to trust everyone easily, because not everyone deserves our time, trust, and friendship. Today, I feel that I have learned many valuable lessons through my mistakes. I believe that I will keep moving towards success and excellence by learning from every mistake I make.

**Goushikaa - VII C**

## A HOBBY THAT CHANGED MY LIFE

A hobby that changed my life is art. I have loved art since my childhood. I enjoy how I have improved my skills over time. Initially, I did not believe in myself or think that my artworks were good. But when my parents encouraged me and enrolled me in a class, I became happy and truly enjoyed what I was doing.

Through art, I have learned many important things, like patience, self-confidence, elegance, and kindness. Even if others comment on my art, my art speaks for itself. Sometimes, even when I just scribble, it can turn into a beautiful piece of work. Art has taught me to believe in myself and enjoy the process of creating something new.

**Subasree - VIII A**

A hobby that changed my life is dance. It started just as a hobby, something I did for fun, but over time it became my talent and a path to success. Dance has taught me many important lessons like patience, hard work, and confidence. Anything can change in life, just like how my hobby turned into a way of success.

This journey of success has no end. I practice regularly, learn new steps, and perform on stage whenever I get the chance. Every performance gives me joy and fills me with energy. I believe that one day I will become a star.

Dance has changed my life in many ways. It has brought me appreciation, encouragement, and recognition from my family, friends, and teachers. Most importantly, it has taught me to believe in myself, follow my dreams, and never give up, no matter how hard things get. Dance is not just a hobby for me. It is a part of who I am and how I want to shine in life.

**Bhaveesha - VIII A**

A hobby that changed my life is reading. At first, I totally hated reading. I thought I had to read and understand everything, and it felt frustrating. But slowly, I started enjoying it. I would read and imagine the stories in my mind. I thought, “This is even better than movies!”

Books explain everything in detail, and I became completely obsessed with them. I would eagerly wait for school to end so I could go home, change my dress, and dive into my fantasy world. Reading made me creative and open-minded. I also developed many skills, such as critical thinking, problem-solving, imaginative thinking, creativity, and fluent English writing.

This hobby has changed my life in many ways. I became more productive, focused, and patient. I even started writing. I once wrote a poem, and now I dream of writing my own book. Books inspired me a lot and taught me to notice the beauty around us. Looking back, I feel proud of myself for changing from someone obsessed with movies and series to someone who is focused on learning and achieving goals.

I really thank the books that became a turning point in my life. They made me productive, imaginative, and confident. Reading has truly changed my life a lot.

**Falisha M - VIII A**

My hobby is listening to music. For me, it is not just a hobby. It is my comfort zone. No matter where life takes me, music always brings me back home. It does not matter what is happening around me. My playlist understands me completely. Music cares for me like a mother, motivates me like a father, supports me like a brother, and never leaves me alone in my darkest days like a true friend.

Music takes me to the best memories of my life. It feels like the hidden language of my soul. It reduces my sorrow and gives me true companionship without any words. One amazing thing about music is that when it touches my heart, I feel no pain. It encourages me to keep going, no matter the setbacks. Whenever life turns tough, I simply put on my music and the world fades away.

Music is the best thing I have experienced in my life. It has changed my life, given me strength, and shown me happiness in the simplest ways. For me, music is greater than everything.

**Ruthvika P S - VIII A**

A hobby is something that brings us joy, peace, and purpose. The hobby that changed my life is Bharatanatyam, one of the oldest classical dance forms of India. I started learning it as a simple activity, but soon it became a part of my identity. It is truly a magical art form. This hobby has made me more confident, focused, and graceful. Bharatanatyam is not just something I do. It is something that lives inside me. Every hand gesture, every footstep, and every expression carries a deep meaning.

The bells on my feet start to sing,

As music begins to softly ring.

My hands speak stories old and grand,

Like temple carvings come to stand.

**Thanisshika Balaji - VIII B**

My hobby is singing. My family and friends like my voice, and they often ask me to sing a song. When they feel sad or depressed, they tell me that listening to my singing makes them feel better. This made me feel happy and confident about my hobby.

After a few years, my father decided to join me in a music class. In the beginning, it felt boring because we practised the same notes again and again, like “sa re ga ma.” I even told my mother that they were making me sing the same thing repeatedly. She asked me to be patient and continue learning.

After some time, I started getting many chances to sing on different stages. When I was younger, I thought singing was just a hobby. But as the years passed, I realised that music is not only my hobby but also my future career.

**C. Hasine - VIII B**

The hobby which changed my life is singing because my passion is SINGING! Why? In every difficult situation, I start to sing, and it makes me calm and happy. When I feel worried about exams or fights with friends, a simple song lifts my mood like magic.

Not only is singing my hobby, but it is also my biggest inspiration. My school classical music teacher, Mrs. Bakyakshmi, changed my life entirely with music. She taught me new songs, showed me how to control my voice, and made me love classical tunes. Before meeting her, I was shy, but now I sing on stage without fear!

Singing has done so much more for me. It builds my confidence to speak up in class. It helps me focus better on studies because I practice deep breathing. I even made new friends who love music. During school events, we sing together and feel like a team.

So, whenever you are sad, stressed, or depressed, I recommend you all to sing and enjoy your life. Try humming your favorite tune, it works wonders! Singing turned my ordinary days into adventures full of joy.

**Shriya M - VIII C**

The hobby that changed my life is my interest in nature, especially in entomology, which is the study of insects. At first, I was only curious about the small creatures around me. Later, I was inspired by many people on social media who shared pictures and information about insects. Slowly, this interest became my favourite hobby.

This hobby helped me become more alert and observant. Studying insects needs a lot of patience and careful watching. I learned to notice small details like the colours, shapes, and movements of insects. This habit also helped me concentrate better on my studies and improve my learning skills.

Through this hobby, I learned about living processes and the habitats of insects. I also learned how specimens are carefully preserved and recorded for research. This hobby taught me to respect nature and understand the importance of protecting insects and the environment.

**Yuvan Dev - VIII C**

**A SMALL STEP I TOOK OUTSIDE MY COMFORT ZONE**

Talking in front of people has never been my thing. I usually prefer staying in the background. So, when my teacher asked for volunteers to speak in the assembly, my first thought was no way. But somehow, my hand went up before my brain could stop it.

When the big day came, I was very nervous. I stumbled a bit and even forgot one line, but I did it. The best part was realizing that trying something scary does not mean being fearless. It just means doing it anyway.

That one small step made me feel braver than ever before. I learnt to believe in myself, be confident, and never give up. Talking in front of people is still challenging, but now I know I can do it if I try.

The YGB mantra: You Got to Believe Yourself

Don’t be nervous. Speak confidently.

**Havisha - VIII A**

Stepping outside our comfort zone is never easy. It feels safe to stay where everything is familiar, but real growth begins when we dare to move beyond that boundary.

I still remember the first time I volunteered to speak on stage during the school assembly. My heart raced, my hands trembled, and I wanted to back out. But something inside me whispered, “Just try once.” That one small step changed me forever. As I spoke, my fear slowly turned into confidence. The applause at the end made me realise that courage is not the absence of fear, but the ability to take action despite it.

Since that day, I have learned that every challenge hides a new opportunity. Each time we push past our fears, we discover a stronger version of ourselves. So, take that small step. It might just lead you to something extraordinary.

**M. Bagyashree - VIII B**

Stepping outside my comfort zone was never easy for me. I usually felt nervous when I had to speak or perform in front of others. When my teacher announced a mono acting competition, I felt scared and unsure about myself. At first, I did not want to participate, but later I decided to try.

I practised every day at home. I worked on my voice, expressions, and actions in front of the mirror. Even though I made mistakes, I continued practising and slowly gained some confidence.

On the day of the competition, I was still nervous. My hands were shaking when I went on stage. But once I started performing, I felt a little better. After I finished, my classmates clapped, and I felt proud that I had tried.

This small step taught me that we should not be afraid to try new things. Even if we feel scared, taking a step forward helps us learn and improve. As Neale Donald Walsch said, “Life begins at the end of your comfort zone.”

**Balakiruthiga - VIII C**

**THE JOY OF GIVING**

Giving to others is an inborn quality. Some people show it, and some do not. Be the one who shows it. Giving reflects the depth of your character and teaches us important values like kindness, empathy, and generosity. It may be a small help for you, but it could be the greatest help for someone else.

Helping others or giving to them also makes us happy. It brings joy and satisfaction to our hearts. By giving, we also learn patience and understanding. Sometimes, giving is not only about money or things, but also about giving our time, attention, or love to someone in need.

Be the one who gives without thinking about a person’s caste, color, or background. Helping others creates a better and caring society. It teaches us respect, honesty, and compassion. When we practice giving, we also inspire others to do the same. Do good, and you will receive good in return.

Giving is not just a habit; it is a way of life. It makes us better human beings and fills the world with happiness, hope, and positivity.

**Gajalakshmi - VIII A**

The joy of giving is the happiest thing in our life. When we help someone by giving something we have, the joy on their face makes us happy too. We should always help others whenever they are in need. I have gathered many memories by helping others.

On Christmas, at my village, my family and I helped poor people by giving them food. The joy on their faces made us so happy. The happiness on my face was unforgettable. Their smiles warmed my heart, and we all felt like one big family.

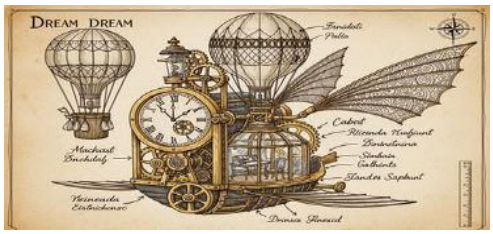
Giving is not just about food or gifts. Sometimes, it's sharing books with a friend who needs help studying, or giving time to listen when someone is sad. Last month, I gave my old toys to younger kids in the neighborhood, and their excited hugs made my day!

These acts teach us kindness and make the world better. When we give, we get back double the love and good memories. It turns ordinary days into special ones full of light.

Help others and  experience the Joy of Giving!

**Rincyka R - VIII C**

**MY DREAM INVENTION THAT COULD CHANGE THE WORLD**



If I could invent something, I would choose something useful. I think it would be a cleaner without salary. Imagine a big, gigantic machine that works like a submarine. It would clean waste from the sea and also send information about sea creatures to us. How wonderful that would be. I would name it “The Mass Worker” or “MW1.”

This invention would be a great step forward in gaining knowledge about marine life. It would help make the Earth cleaner than it is now. Many sea animals could be protected and saved, and even human lives could be saved. If the sea becomes clean, then half of our Earth becomes clean.

By inventing this machine, I would feel like a protector of the Earth. I dream of a day when we can breathe fresh air, play on clean beaches, and see sea animals living happily. I do not know whether I will invent something like this, but if we all work together, I believe we can achieve it one day.

**Kanishka O. K - VIII B**

Featured Invention: Eco Cycle

Meet the Eco Cycle, a revolutionary invention that converts plastic waste into clean energy and fuel. This ingenious machine uses advanced technology to break down plastic molecules and produce diesel, petrol, and electricity.

How It Works:

Collect plastic waste.

Feed it into the Eco Cycle.

Convert plastic into fuel and energy.

Power your home, vehicle, or community.

**Impact**:
Reduces plastic waste in oceans and landfills.

Provides clean energy and fuel.

Creates jobs and stimulates local economies.

Other dream inventions:
SmartGrid: An AI-powered energy management system that optimizes energy consumption.

Eougen: An AI-powered learning platform that personalizes education for every student.

Join the Movement

Share your dream invention with us! Together, we can work to create a cleaner, smarter, and better world. Stay inspired!

**Santhosh Kumar S - VIII B**

I always dream of becoming an aeronautical engineer and inventing advanced aircraft. My dream invention is an aircraft that can fly faster than most jets in the world. I would design a very powerful engine that makes it the fastest aircraft on the planet. This invention would completely change the world of air force technology.

The aircraft would have a different style of attacking features, an enhanced display, and a strong navigation system. It would be made with the strongest metal body to ensure safety and strength. My ambition is to create an aircraft that is both powerful and reliable.

I would like other countries to buy this aircraft, which would increase the net worth of India and make the aircraft industry stronger. This invention would also inspire the next generation of engineers to bring new ideas and innovations. The name of my aircraft would be RD-1931, where RD stands for Rapid, and 1931 is the birth year of my inspiration, Dr. A. P. J. Abdul Kalam.

**Kishore S R - VIII B**

**If I COULD FLY ANYWHERE IN THE WORLD**

If I could fly anywhere in the world, my destination would be Japan. I would visit Tokyo for its exciting city life and Kyoto for its peaceful streets. The main reason I want to visit Japan is that my favourite YouTuber, Maizen, lives there and was born there.

I would explore the places Maizen has visited and try the foods he recommends, like sushi, ramen, and mochi. I also want to see famous temples, shrines, and beautiful gardens to learn more about Japanese culture and history. Watching festivals, street performances, and traditional dances would be amazing.

I would also like to try Japanese technology, like bullet trains, and see how people live in such a modern and clean country. The people there are respectful, kind, and friendly, which makes Japan even more special.

Visiting Japan would be a dream come true. I would return with happy memories, many stories to share, and a lot of new experiences that I will never forget.

**POORMINA B - VI B**

**THE TINY TECH**

In 2026, we will have many small and cool gadgets that make our life easy and fun. For example, there are tiny AI helpers that can work on our phones even without the internet. Mixed reality glasses like Samsung Galaxy XR show amazing 3D pictures and games. There is also a smart camera called Fujifilm Instax Mini LiPlay that lets us add sound to photos, making them more special.

Technology is becoming easier to use every day. Google Nest Cam helps keep homes safe with clear videos. Small speakers like Amazon Echo Studio give loud and clear sound even though they are small in size. There are also smart binoculars that help us see stars in the sky.

These tiny tech gadgets make our daily life more interesting and useful. From AI helpers to smart cameras, technology is growing in a simple and exciting way.

**S.Mahitha - VII A**

**BOOKS VS SCREEN: WHO WINS?**

Books! I love reading books. However, reading books online is more cost-effective and time-saving. Using screens for a limited time in an efficient way can be productive, but excessive screen use can affect our health. Reading physical books does not harm our health, but it can affect our finances, as buying books costs money. Online, we can often read books for free.

For reference purposes, using physical books can sometimes be easier than relying on online sources. Parents often encourage their children to read books. Excessive screen use can cause eye problems and lead to poor time management. Health is more important than wealth, so health wins.

**A.HARINI - IX A**

Oh yeah! It's a tough one, books vs. screens. Both books and screens have always been important in today's world, contributing to learning, creating memorable experiences, and motivating individuals. However, both have their disadvantages.

Books are easier to create (write) than screens. Screens are costlier to produce, but they often provide information in a way that is easier to understand and reproduce. Books, on the other hand, contain values and morals, and sometimes take months to fully understand and apply. Most young people today prefer screens over books because they don't want to concentrate on reading and feel that books take too much time. Laziness is also a factor.

In the past, books were mostly meant for the rich, but nowadays they are available to everyone without discrimination. Screens, however, produce more dopamine, which can lead to addiction. Despite this, every role model often points to a book that helped them succeed.

Books can improve imagination, especially those without pictures, while comics entertain and keep us engaged. With all these pros and cons, I cannot choose between books and screens. So, I leave this debate up to you. Now, you tell me-books or screens?

**JESWANTH.V - IX A**

The importance of books will always be higher than that of screens. In today's world, screen time is more for everyone, but the habit of reading books has reduced. Reading books helps our mind think more deeply and improves concentration.

Screen time is also important in our daily life, but we read books less. So, screens seem to win in usage, but books win in value.

**BAVNA.C - IX-A**

I think that both books and screens are useful in our day-to-day life. From screens, we can get answers in just a minute, but in books we have to read for a long time. At the same time, looking at screens for long hours can damage our eyes, whereas reading books does not usually harm our eyes or create problems.

If there is a word that we do not know, we have to search for it in a dictionary (which is also a book), and it takes time. However, on screens we can find the meaning in just a second. If we want to develop our general knowledge, we have to buy separate books and read them line by line, but on screens we have many AI apps such as Meta AI and Chat GPT. They provide points instantly and can even read aloud for us.

From this, we understand that screens are very helpful compared to books. However, screens can damage our eyes and sometimes cause headaches.

So ultimately, our dear book wins!

**VIKRUTI.V - IX-A**

**Books**

By reading books, we gain knowledge and improve our communication skills and personal hygiene. Books help us understand how a country has developed and allow us to learn about the history of our country. Therefore, books are very good for reading.

**Screens**

Screens contribute as tools for entertainment, and when we have free time, we use mobile phones. Screens also help us in many ways. However, we should stay focused and concentrate when we do any work. BOTH WIN

**K.GURU PRANEETH - IX A**

One of humanity's greatest strengths is its ability to adapt. Whether these changes are helping us move forward or backward is another story. Today, physical books have been transformed by being uploaded on to the internet. This is a change that can be debated.

**BOOKS**

**Pros**:

- Studies show that reading printed text helps in retaining information.
- Books, compared to screens, are much better for our eyes.
- Books are easier to personalize (bookmarks, sketches, underlining text).

**Cons**:

- They take up a lot of space in bags.
- Books are heavy. Carrying too many can cause physical strain.
- They use a lot of paper, which can be wasted if not used properly.

**SCREENS**

**Pros**:

- They do not take up much space and can store many books at the same time.
- They save paper, making them better for the environment.
- Meanings, synonyms, and antonyms for words can be easily found.

**Cons**:

- They can be harmful to the eyes with prolonged use.
- They are full of distractions. From ads to notifications, it is very easy to get sidetracked.
- Most e-readers require an internet connection, which can be inconvenient.

In the end, it is up to the reader, as tastes and preferences differ from person to person. Personally, I prefer physical books because of their smell and the excitement of holding one in my hand, already envisioning the moment when I finish it.

**S.JESSICIA RACHEL - IX-B**

Books are full of knowledge, smell & good, are fun to read, and don't require charging. On the other hand, screens kill our boredom, hold everything we need, and don't take up much space.

While books can be read for hours without worry, gadgets need to be charged to work. Screens take up only a little space, but books can fill an entire shelf. Screens may cause eye problems, yet they provide quick solutions to almost everything. Books may cause back problems if you carry too many, but they can transport you into a whole new world.

Books improve your vocabulary, strengthen your English, and enhance your speaking skills. Gadgets, meanwhile, store endless information and can sometimes even replace books. Both have their advantages and disadvantages, but they are equally useful in their own ways, and we're lucky to have both.

**NAKSHATRA AJAY - IX B**

"Reading is a good habit," they say. But some kids in this generation think that reading from devices (online books) is also considered reading, which elders often oppose. So, the simple question is: books or screens?

Well, let's look at some points in favor of books. Books create a separate world when we read. They can be of different types. Personally, I love reading romance and thriller-themed books. When I find those kinds of books in the library, I'd be more than happy to read them. My eyes don't get dry, and reading helps me sleep well at night.

When I read books, my parents appreciate me. They don't even care what kind of book I'm reading. That's another good reason to read books—they increase your vocabulary! They make you fluent in English, and you can even write poetic lines for your favorite person.

As for screens, they refer to gadgets, which can be both very useful and very distracting. Gadgets help you gather information, chat, and do a number of things on your device.

But screen can produce blue light, which can affect your eyes. Social media can be motivating (according to me), but it can also have negative effects if used carelessly. Some people say they read books online—even I do sometimes. It's good too, but it can affect your posture depending on how you sit.

So, we really can't decide which team wins here. It all depends on how you use it.

**CHASHMITHA – IX C**

**BOOKS**

- Better retention and comprehension
- Improves vocabulary and language skills
- No distractions or notifications to disturb the reading flow
- Provides a tactile experience of turning pages and feeling the paper

**SCREEN**

- Convenience and accessibility: Easy to carry and access a variety of books, including those not available in bookstores
- Cost-effective: Cheaper than physical books
- Built-in features: Enhances the reading experience
- Travel-friendly: Easy to access anywhere
- Offers a wide range of educational games and interactive content

Result: It's a tie. Both books and screens have their own advantages and disadvantages. From my perspective, both are valuable sources of knowledge if used effectively.

**JANANI.B - IX C**

**RISING STRONG**

Life is like a spiral stair,
Set up with a lot of care.
Twists and turns are awaiting;
Get yourself ready for everything.

Mistakes aren't signs we failed;
They are steps on which our strength is scaled.
We fall, we rise, we try once more,
And grow through every open door.

The world is changing every day,
And calls for minds that lead the way.
Find your wisdom call,
Rise strong after every fall.

**Kannal Thamizh. S IX E**

**My Mother, My Anchor in Every Storm**

The skies were dark and wild,

My heart began to race.
She took my hand in hers,
And calmed me with her grace.

The winds were fierce and loud,
I felt so small, afraid.
But she stood firm and tall,
Her love a constant shade.

When every dream fell apart,
And nothing seemed to stay,
She whispered, soft and strong,
"You'll find another way."

Through every storm I face,
Her strength will keep me near.
My mother is my anchor,
Who holds me through each fear.

**Jeebitha. P IX C**

**My Mother: My anchor in every storm**

When storms around me roar and rise,
and tears of fear blur both my eyes,
You stand, unshaken, calm and true,
my mother, who raised me —
my mother, my anchor, it's you!

Your voice, your heartbeat, a song so pure,
It puts light to my dark nights like suns,
No matter how hard my times may be,
You hold my hands and say to let me free.

You are my shadow, my shelter, my courage,
as strong as the roots of a timeless tree.

Till last breath, I'll be enchanting your name,
my mother, my guide, my forever star!

Like an arrow, like a blue sky, you
came onto me and taught me that,
Life goes on, and just live on.
My mother — my one and only anchor.

And smooth like butter is you, you made me with
lots of love. Thank you!
My mother, my anchor.

**M.KRUTHIKA – IX B**

**The Culture of Instant Blessings and Curses**

Fast is easy, but patience is priceless.
We live in an age where almost everything is instant.
With just one click, we can send money, order food, watch a movie,
Or talk to someone across the world.
Truly, life has never been so fast and convenient.

This instant culture is a blessing in many ways.
It saves time, makes life comfortable,
And connects us to knowledge and people in seconds.
For busy students and parents, instant facilities are like magic.
They help us balance our work, studies, and family.

But along with blessings come curses.
In our hurry for instant results, we often lose patience.
We want quick success without effort,
Quick answers without understanding,
And quick food without caring for health.

The value of hard work, dedication, and perseverance is slowly fading.

Life may be faster, but it is also becoming more restless.
Because some of the best things in life are not instant—
They are earned.

**Vediksha IX E**

**Gratitude: The Secret to a Happy Life**

Gratitude is a way of expressing our love toward others and a feeling of being grateful and thankful. I believe that making others feel grateful is the secret to a happy life. We write a gratitude journal not only for us, but to thank people and make them feel we are there for them. Others feeling grateful or happy because of us is not very easy until we write a gratitude note from our heart. Making others feel happy is not easy. Life is not complete when we feel happy, but it is complete when the people around us are happy because of us. Gratitude doesn't come from an expensive gifts but from a small happy thought which fills our heart. I always feel grateful for the people around me who make my life complete. When we have a happy life, we always feel grateful. Let us all start writing a gratitude journal so we will make everyone feel grateful for us, and we must also feel grateful for others, and I hope being grateful is the secret to a happy life. Be grateful always and lead a happy life. Gratitude is attitude.

**Akshata Saravana Kumar – IX B**

In today's busy world, people often focus on what they don't have rather than what they have. The truth, however, is simple: the real secret to a happy life is gratitude.

Gratitude means appreciating the simple things around us, whether it is big or small. It could be presents, friends, teachers, hearts, or a delicious meal. When we practice gratitude, we shift our attention from complaints and stress to appreciation and happy smiles.

"Think of gratitude as a powerful magnet. The more gratitude we give, the more abundance we will receive," said Mahatria Ra.

This helps us practice gratitude every day. In our school handbook, there is a page dedicated for gratitude. This helps us in practicing gratitude whenever we want, and it makes us happy.

Gratitude is a simple, good way of thanking one. Science also proves that when people are grateful, they are happier, which makes them live a happy and long life. A thoughtful heart finds hope even during tough times.
Happiness does not come from having everything we want, but from valuing what we have. Gratitude helps us see the treasures in life that are waiting to be noticed.
Truly, gratitude is the key to joy. It is the key to a joyful and meaningful life. Gratitude turns ordinary moments into a happy one which we can't ever forget in life.
In the end, gratitude is more than just good manners – it is a way of life.
GRATITUDE
A way of happy and peaceful life

**A.M. Krithika – IX C**

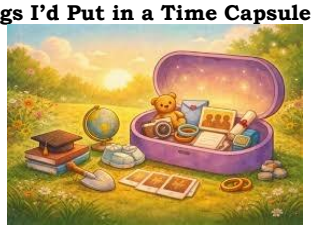
Gratitude is a beautiful thing that a human can give to another person. Being grateful towards a person is a great habit to follow as it will make them happy and feel respected and rewarded for the work they did for us.

When we are really packed and are not able to do any other extra work that is assigned to us, and a person who is kind without noticing your being worried decides to help you with it by completing that work or giving you ideas that can help you complete that work, you'll feel calm and actually think about what to do next instead of being in tension and upset. And complete the given work and submit it on time instead of wasting your time worrying and panicking about the pending work and stressing yourself for no reason.

That time, feel that if it was not for that person who came and made your work easier, you would have literally destroyed your peace of mind for no reason. That moment, you can thank that person and say how much he/she helped you. Even if it was a small thing for them, it was such a big help for you. You can say that to them and make them realize even small things matter and motivate them to be of help to many more people.

**I.Aditi - IX H**

**Ten Things I'd Put in a Time Capsule for 2050**



In my life, I've heard about time capsules and even seen it in movies, but I've never seen it in real life. Time capsules are meant to treasure hope, like storing creative, thoughtful, and memorable things inside the capsule, and burying and keeping it. After a few years we note the exact place, dig up the capsule, and take our dearest memorable treasures. Some people might have a deal on it, which makes us more eager year by year. Some may do it for their relationships, promises, or for their beloved ones, to keep it as a secret from people. Like that, there are plenty of reasons.

So, if I had a chance to bury a capsule for 2050, I will put money, because at that generation the current currency might become very old and changed to a new one. Since I'm a K-pop fan, I will put our star photocards and albums, which is a great memory for me as well as for people in 2050. My favourite stationery would be in, and my favourite outfit, because it may be a vintage style in that century. To have a great memory of my school time, I will put in a few class photos and autographs of my friends.

I am a very sentimental person, so something that reminds me of my family and some jewellery is a must. Last but not least, a cool message for my future self. A message can motivate, bring back sweet and harsh memories, or something that can break my heart. "Oh, it's old!" So, I would put more than ten in my capsule because I may forget everything at the age of 50. I would like to store all of the above with no doubt. When I get older, it's in pinky swear, I would bury a memorable time capsule.

**Shreenisha B. IX B**

2050 is 25 years from now, and by then things will have changed a lot. So, if I were to put ten things in a time capsule, I would make sure that people get reminded of how life was in 2025. Here are my ten things to put in a time capsule for 2050:

A pen drive with documents of technology from right now. People are saying that technology will evolve a lot, and by 2050 it will be very advanced, especially AI's role. So, putting this pen drive will make sure of showing people how technology and AI were in 2025 and probably where it all started.

A photograph of a road/street with buildings and homes. Infrastructure would have evolved by 2050, so people can get to know how infrastructure was in 2025. They can come to know how much developed the building has become.

A picture of a classroom. Most likely, learning will be dominated by technology in 2050, so looking at this, people can come to know about the historic way of learning.

Currency. Maybe the mode of currency and money will have changed by 2050, so looking at this, people will get reminded of our old mode of money and what mode of money was used before.

Books and stationery. Learning and reading will become dominated by technology and AI, so looking at this, we come to know about our mode of learning before technology.

Cultural texts. We always need to be reminded of our culture, so if we see cultural texts, we can be reminded of our culture easily. We should always be involved in traditional and cultural activities.

Collage on cultural/traditional fests, ceremonies, and rituals. Seeing this, we can easily be reminded of our rich culture and tradition, and we should make sure it never fades away.

Collage of a bunch of photos of the world in 2025. Photos are the best way to express ideas, memories, and feelings. If photos representing our society are kept, we can easily be reminded of our history.

Well-preserved food. I would keep some types of nicely packed and preserved food so people understand the type of food we ate and where we got our nutrition from.

Clothes. Clothes these days have the power to express our feelings and ideas. So, Iwould keep some regular clothes in the capsule.

Though 2050 is only 25 years from now, a lot would change, so I would keep these 10 things in the capsule to remind the future of their rich history.

**SHRAVAN.S**

When I think about the world, I immediately remember one episode of Peppa Pig, where Peppa and her friends dig up an old-time capsule that belonged to her father's generation. They discover their parents' old, yet childish, toys waving hello to the futuristic audience. The children find a sense of nostalgia and

happiness, which was fully an understandable emotion. Somehow, I felt special and intrigued about this.

Now, back to the present, when asked the question of what contents I would place in such a time capsule for 2060, I feel sorry for not being able to write 50, and not just 10 mere things. I wonder why that is.

Realistically speaking, a time capsule of mine would definitely contain fragments of myself. Fragments of faded memories blossoming into petals of vivacious flowers of so many sections. If only I had owned a diary or a journal in which I could store so many prized possessions and document my life. The second most essential thing would be my Spotify account, if that were ever possible. In fact, it was just a while ago when I discovered that Spotify had an option to keep a music time capsule for a while! How creative of them to do that?

Next would be my catalogue of topmost shades of my favorite colors. It would include teal, lilac, periwinkle, salmon pink, jade green, and pitch black and so many more which I couldn't think of or even knew before. Imagining the future where I relive my joy with these colors for glorious reasons makes my heart smile widely! In the upcoming world of becoming an adult, God knows whether we'll even have time to have favorite choices of colors.

Spanning across to my fourth and fifth choices? My school's identity card, and my dance shoes. The ID cards will serve as a reminder for the future me...

that I (might have) had an awesome glow-up from my past self. In fact, it would boost my self-esteem and remind me of my mistakes, speaking of mistakes, dance shoes as an item in my capsule, probably because I want to remind myself to let out the flames in my head by moving, swinging, and dancing important but satisfying little jig. But mostly because I tried to relive the bliss and the moments of confusion that led me to dance more and more.

Following the last would be the many files I received in my Model UN sessions and the scribbles written in them, happy about a multiple, vague speeches crafted by a plethora of strangers who posed as "delegates". Or, the most memorable treasure, my old set of two complete seven books by Enid Blyton, which inspired me to read more books and became a literature person I am today.

Famously enough, the eighth item or rather items I would put in a capsule would be the notes I had written to my friends as an offline chatbox during various class hours, recalling so many sweet memories and wistful rest. My first doll, which I dreamed like my child could be added. I would remember the times of yearning and sadness when I wished for a dollhouse for the toy, and how I grew up forgetting these gems.

Lastly, but definitely not the least, would be edits and voice recordings of myself, which would truly make me tear up, looking at the fact of how many changes it took to make finally shine in the sky full of stardust. Closing that, I'll be seeing you in 2060! Bye and all the very best! :)

**Gauri A IX-A**

It's 2025 now. We have advanced in many technological aspects. It almost feels like we advanced at a rate faster than the advancement of automobiles in the late 1800s. We have AI, automation, and so many things where we forget how we perceived or saw the old tech. That's where souvenirs come in—AKA time capsules.

Time capsules are just one way where the advancements of the century are kept for the future generation to see.

If I'd been given the choice to keep 10 things in a time capsule, those would be:

- **Microsoft Quantum** – redefining how quantum computing works and creating a new state of matter.
- **AI** – an article or a real example like AI computers to show how AI advanced and evolved.
- **RTX 5090** – an example of the microscopic marvels that humans have achieved.
- **The Periodic Table** – for chemistry advancements.
- **An article on the wreckage that the Corona virus caused, leading to a pandemic.**
- **Programming languages** – compiled in a computer for visualizing how advancements in tech are achieved.
- **A book on how the old school system worked.**
- **Achievements of space** – compiled in a golden record.

- **Images of astronauts landing on the moon.**
- **The food culture.**

These are the 10 things that I'd keep in a time capsule for the future generation to see.

**Krishav IX G**

**An Uncharted Variable**

I solved the mystery of dark matter,
In the margin of my math test.
Built circuits from broken toys,
While others copied notes to rest.

I think theories, dream in code,
Ask questions when answers are told.
But when the grades are handed back,
They see only what's marked red and bold.

A 'C' in Physics—how absurd—
Yet quantum mechanics is a breeze.
An 'F' in English—yet I write
Plays and poems that blend with ease.

They grade what's shallow, not what's deep.
They see me through scantron lines,
But not the hours I've spent alone,
Redrawing space, redefining time.

What if the world could see me right?
Not by scores but how I think.
Not by random facts I memorize,
But by how I build worlds in a blink.

Empower me to try and fail—
To solve, to write, to code, to teach.
I'm not a grade, not a score,
But a star that you've yet to reach.

**DAKSHATASRI L – IX B**

**Rising Stronger After Every Fall**

Have you ever faced a failure? Of course, everyone of us would have had such an experience. Failing is common, but after a failure, how you carry on is very important. The way a person responds to failure determines their success.

After every failure, when we keep thinking that "I failed," we will not be able to reach heights. But, if we think from another perspective, that is, if we think like "I failed, but this is not the end. To fulfill my dream, I am ready to work even more harder," our potential will be increased and we will do well, more than what we expected. If we think from this perspective, we will be able to achieve things. We will even feel at that moment like "My failure has been a step to my success."

This is what most of the successful personalities had done in their life that had made them a successful person. Even when Thomas Alva Edison failed about 1,000 times, he did not give up, but became even more strong and tried the next time with determination. So the key to success is not emotional weakness, but to become even more strong after every fall.

**– S. Charumithra IX-F**

Let me begin with a story. A conversation happened between a sculpture and a stone. The stone asked, "Sculpture, we both are made up of the same thing. Why do people worship you and stamp

me?" The sculpture said, "Dear stone, to convert first I had to go through pain. But, you were too lazy to withstand the pain and hardship."
Though I feel magnified by the hardships and determination to reach an idol, result is what we get now. This story is not just a story, but its values shape our life. Though we fall many times, we rise back and hardship is the fruit of rising from the fall.

A real-life example of rising after every fall is our beloved founder (Late) Smt. Lalitha Menon. At her young age, she became a widow with three little daughters with her. She didn't lose her hope. She got up after the fall with a determination to start a school. She let her three daughters and succeeded in her life. Her perseverance despite failures helped her start the NSN Children's School, AGB with 2 students. Every time life pushed her down, she got up one more time, dusted herself, and moved forward. Her resilience to endure pain and struggle helped her shine brighter. Now, the NSN Children's School turned into NSN Group of Schools with 3 branches, and NSN had celebrated the golden jubilee.

These stories teach us many values on how to rise stronger after every fall.

"Our greatest glory is not in never falling, but in rising every time we fall." Each failure teaches us a new value and that helps us grow. Failures are not permanent. Truly, it will help us grow and reach our success point.

In conclusion, "Success is not the absence of failure, but the will to move forward." Let's not stop ourselves from reaching success because of failure.
"Failures are the stepping stones for success." Rise stronger after every fall and reach your goal.

**AMIRTHAA.SU 9G**

Rising strong after every fall is a transformative process that empowers us to overcome adversity. When we face setbacks, we can choose to rise again, giving us the strength to face life's challenges by tapping into our inner strength and resilience.

The process involves acknowledging and accepting our emotions, learning from mistakes, and taking small steps towards healing and progress. It builds self-awareness and confidence, equipping us with a deeper understanding of ourselves and others. Rising strong fosters resilience, confidence, and empathy, enabling us to form meaningful connections and build stronger relationships.

By adopting a mindset, we can transform our struggles into stepping stones for success. We emerge stronger, wiser, and more compassionate, navigating life's challenges with courage and determination. With each fall, we can rise stronger, more resilient, and more determined to live our best lives. Rising strong is not about being perfect; it's about being brave enough to face our fears and vulnerabilities. By doing so, we can live a more authentic life, helping others through our experiences.

Have you ever wondered why even though we are having a comfortable life, we don't appreciate the joy? It's because we don't spend enough time valuing what we have. Rather, we compare ourselves to others, focusing on what we don't have rather than what we do.

Start by being thankful for the things you have and take time to enjoy life. The mind can teach us to grow and thrive on the small steps we take in adversity. First, remember the full form of END: **Effort Never Dies.**

**– Mahathi.S**

## Youth as the Torchbearers of India

In my point of view, "**Youth are the torchbearers of India**" because we have access to the right education, which is very important for decision-making. We youth have the important weapon to shape our future India — that is the right to **vote**. When I say *"weapon"*, it can be used for both good and bad. Using it as a good weapon helps shape our India — one without corruption.

As a bad one can make everyone suffer, choosing a good leader changes everything in a rightful manner. But, the one pushing changes everything from top to bottom.

Youth nowadays learn how to use sustainable development in everything — from recycling plastic bottles to using it as room décor. So, we can make our India both clean and green. Thus, making it easy for everyone to settle. We can use technologies to invent things in ISRO and make India a futuristic one.

Instead of studying abroad and working in other countries, we can stay in India and develop our country into a futuristic one.

**Jai Hind!**

**– Nivethita. U, IX-A**

“The future of a nation is not built by stone or steel, but by the burning in the hearts of its youth.”

India stands today at a decisive moment in its history. With more than half of the population below the age of 25, India is not only the world's largest democracy but also one of the youngest nations. This is both a responsibility and a golden opportunity.

The youth of India are not just the "leaders of tomorrow" – they are the leaders of today. Their energy, creativity, and courage are already shaping the world around us. In every field, young Indians are pushing the boundaries. From tech innovators building start-ups that compete globally, to climate activists raising their voices for sustainability, to athletes bringing glory on the world stage – youth are carrying the torch of progress.

But being the torchbearers is not just about the achievements. It is also about changing the society we live in. Across villages and cities, youths are breaking stereotypes, standing for gender equality, questioning injustice, and demanding a cleaner and safer India. Their voices are powerful because they represent both **hope** and **action**.

However, the path is not without any challenges. Many young Indians face unemployment, lack of resources, and temptations of distractions in a fast digital age. The "instant culture" often pulls the teens away from patience and hard work. Yet, these obstacles are not roadblocks – they are tests of how determined we are to shape the nation we dream of.

The real question is not whether youth can change India, but whether we are ready to take the responsibility for the change. It is easy to demand change, but true leadership means being the change.

If we want cleaner and stronger democracy, we must be responsible citizens, and we must vote to raise our voices.

India’s future depends on how its young people use their strength. The torch of progress is in our hands, and if we drop it, the flame of hope will dim.

In the end, history will not remember us by the selfies we took or the trends we followed, but by the courage we showed to build a better tomorrow.

**We, the youth, are not only the future. We are the present, and the present must rise.**

***Varnika Raghavan*** **- IX – A**

**THE WORLD THROUGH MY WINDOW**

When I sit by my window, the world looks like a living picture. I see children playing, birds flying freely, and trees dancing with the wind. Sometimes, the morning sun paints the sky golden, and trees give me a chill breeze and sometimes the evening fills it with soft shades of pink. Watching the world through my window teaches me to observe small details of life and enjoy its beauty. My window is not just an opening in the wall; It is a frame that connects me to nature and the world outside.

**A.N. GOPIGA - IX A**

I feel that the world through my window is about either bringing a person down or lifting them up. The world shows partiality, where people rise or fall based on unfair judgments. It often categorizes people by their personalities and status instead of recognizing them for their talents and abilities.

The world is indeed filled with partiality, discrimination, inequality, and many other flaws. However, the world also has both positive and negative aspects. According to me, going to the temple gives me immense positive vibrations.

There are many things in the world that spread good vibes, and the list is endless. Even now, we do not fully understand what the world consists of in its entirety.

**OVIYA .R - IX- A**

One morning, I looked out of my window and saw the whole world with beautiful scenery, green plants, a bluish sky, and animals and birds flying and jumping everywhere. You wouldn't believe that I could see all this from my room window! I felt amazed to see these beautiful things and had a small feeling that I might only get to see them for one day. After realizing this wonderful opportunity to observe the world through my window, I started enjoying it fully.

**Poem**

The green plants swaying in the breeze,

Cute animals jumping here and there,

Adorable and admirable sky and clouds,

Beautiful sculptures and monuments around,

Delicious food in the streets and cities—

Everything looks just  WOW!

**P.RAKSHITHA - IX A**

As the only child with strict parents, life can be hard. I can't be free; I have to ask permission for everything I do. I can't go out with friends or even make calls without permission,it feels like I'm being watched all the time.

People say, "You're lucky because you're the only child," and I often don't know how to reply. I watch others going out, and playing with their friends and sometimes feel envious, but there is nothing I can do. I can only look out of the window.

Maybe this is one reason phone addiction develops. I  too, dream of going out and being free, but I guess it takes time. Earning parents' trust isn't easy.

Other people's world outside the window looks different, while my world through the window is a search for freedom and happiness.

**KEFENA SHERLIN. D - IX-B**

In my eyes, the world is beautiful and pleasant with friends, family, teachers, and school. No matter the problems, life is always very short, so just chill. Don't worry about what others say behind your back—they often don't have the courage to say it to your face.

Just a day with music, whenever you feel low or lonely, can energize you in ways you never imagined. When you start living for yourself and not for others, your world, your mind, your heart, everything becomes lively. We have so much to learn: what we know is like a star, and what we don't know is like the sky.

Even I used to over -think a lot about what others thought. But now, writing this article feels like a massive success, and I don't care about what people think. "My life, my rules." My world, through my window, is simply… WOW.

**B.RITHIKA - IX C**

## A DAY WITHOUT ELECTRICITY

A day without electricity would feel empty in our lives. It would cause a huge loss to companies and the industrial sector. At home, we cannot even manage properly without electrical items such as fans, refrigerators, and lights. Many traffic accidents and clashes would occur on the roads due to the lack of street lights. The world would become dark and unsafe.

Some people cannot live without Wi-Fi and the internet. People would not be able to enjoy night-time sightseeing or entertainment.

“A day without electricity is a day without eyes.”

**S.D. ROOPKIA - IX A**

If there were no electricity in the world, life would be quite difficult. However, without electricity, there are some advantages as well. Nowadays, people depend heavily on electricity. In ancient times, people lived without it. Even our great-grandparents lived with only one lamp for the whole joint family.

Now, let us consider the impact. Without electricity, we would face many difficulties. In the past, there was less global warming, but nowadays, we suffer from extreme summer heat. There would be no machines like washing machines, grinders, induction stoves, or mixers, so all chores would have to be done by hand. Without air conditioning, we would suffer even more.

For working people, no electricity means gadgets and machines would not work, and they might not be able to earn their salaries, leading to poverty. However, in the olden days, people lived happily without electricity and did not suffer from such problems.

From this, we understand that electricity is very important in our daily lives.

**K.DHANSHIKA - IX A**

A day without electricity would seem troublesome for youngsters, as it would mean no fans or TV for the entire day. However, some youngsters might take this as an opportunity to play outside for a while. Adults would also be affected, as they rely on electricity and the internet for work and other important tasks.

**S.ARUN - IX A**

A day without electricity is a good thing. It helps us realize many things around us without using mobile phones and electronic gadgets. It is also good for the environment. We connect more with nature and the people around us.

A day without electricity is actually a kind of peace. Spending the night under the moonlight and living as our ancestors did in the past—without electricity—teaches us to live simply, peacefully, and happily without gadgets.

**GNANSHVI.D - IX-A**

We cannot live without electricity, because it is very important in our lives. Electricity helps us in our daily activities. It is used for charging batteries, watching television, running fans, lighting homes, and many other purposes.

In the Stone Age, there was no electricity, but today electricity is available almost everywhere. At night, electricity is especially important for women’s safety. In some villages, even now, there is no electricity, and women and children face many difficulties during the night.

Today, we have alternative sources of energy such as solar energy and wind energy. Therefore, we should save electricity by practising Earth Hour and by using electricity wisely every day of our lives.

**SAMIKSHA.K - IX A**

Imagine waking up to the news that electricity not available. I checked my phone and found that there was no internet either. With a lot of disappointment, I went to refresh myself. After that, I came to have my breakfast. Out of habit, I switched on the TV, but then I realized there was no power and quickly switched it off.

It was too hot without the AC, so I went to the verandah and had my breakfast while watching the people, cows, and dogs passing by on the road. After that, I remembered I had some pending

assignments to complete. I picked up my phone, but it had no charge left. So, I went to my friend's house, and together we discussed and completed our assignments. It turned out to be so much fun; we were clear with the topics and managed to finish them quickly.

Later, we planned to go for a walk in the evening. After the walk, we enjoyed some snacks, visited a nearby stationery shop to buy a few notebooks, and treated ourselves to ice cream before heading home. It was a fun and refreshing experience to spend the day with a physical friend instead of a digital one.

**NEHA.S -IX B**

How developed we are today! Everything around us depends on electricity. We could hardly bear a day without electronics. Imagine a day without all of these, wouldn't it be hard? Or could it even be fun? Living a day without electronics would be both challenging and enjoyable for me.

At first, it would be pretty difficult. You wouldn't have the internet, TV, or a mobile phone to entertain yourself, and for some, no air conditioning could make it even harder. Adjusting to this might be tough initially, but over time, you could find other ways to entertain yourself, talking to family members, creating arts and crafts, or decorating your home. It could also be a great opportunity to meet old friends or neighbourhood friends and play with them, making sure to play safely.

If it's almost evening and you still have nothing to do, here's what I would do: I would head to the kitchen and make a snack for myself and my family. Then we would sit in a circle, enjoy the food, and play some indoor games together. As night approaches, you could help your mom with cooking and talk to her while preparing dinner. Afterwards, you could all enjoy a candlelight dinner as a family, sharing what happened throughout the day. Finally, after such a simple but meaningful day, you could go to sleep with a smile.

**S.R.SHARVESH – IX B**

In this world, humans need air, water, food, and clothing to live. In addition to these, electricity has also become essential. Imagine how the world would be if electricity didn't exist. Humans lived for millions of years without electricity, but in the 21st century, it seems almost impossible to manage without it. Now, try to imagine at least one day without electricity!

Many industries in the secondary and tertiary sectors are highly dependent on electricity. Machines in manufacturing industries, IT systems, and other modern technologies rely entirely on it. Without electricity, our home appliances would stop working. If our mobile phones run out of battery, we wouldn't be able to call anyone, watch anything, or order anything online.

On the brighter side, a day without electricity could encourage physical activities, real-life interactions, and more time spent in nature. There would be no "brain- rot," our minds would stay active as we do tasks manually. In conclusion, a day without electricity has both advantages and disadvantages. Theoretically, we can discuss its effects, but experiencing it in real life teaches us how to adapt and manage without it.

**J KAVIN VINAYΛK -IX B**

A day without electricity would be really tough. It would start with waking up without a fan or light, making the beginning of the day quite uncomfortable. No electricity also means no internet! However, this could be a positive in some ways, as it would give us the chance to spend more time with our family. We could enjoy fun activities, play indoor and outdoor games, and share quality moments with friends and family.

**RAMYASHREE-H – IX B**

Electricity is the backbone of modern life. From small homes to the largest industries, everything relies on it. Electricity is the invisible lifeline of our modern world. It silently powers every moment of our lives. But have you ever imagined a day without electricity?

It started as just another morning until the sudden silence replaced the usual hum of fans, the buzz of the refrigerator, and the glow of screens. There was no alarm clock buzzing, just the chirping of birds. At first, it felt manageable, but as time passed, the absence of electricity became very noticeable.

Though inconvenient, a day without electricity also has its benefits. Families spend more time together instead of being glued to screens. Children play outside instead of using gadgets. It is a chance to reconnect with nature, read books, and engage in physical activities. This experience reminds us how much we rely on electricity. On the downside, traffic signals stop working, and roads

and cities can descend into chaos. A single day without electricity is a gentle reminder: technology is powerful, but life is possible beyond it.

**S. SANJANA - IX C**

It was a fine day. The sun was bright. I woke up and realized that the electricity was out. I didn't know when it would come back. I waited for 30 minutes, but it didn't return. The Wi-Fi was also not working. I got bored. Then, I had an idea and called my friends to see if we could play outside since there was no electricity. They agreed, and we decided to play after lunch.

While eating lunch, it was difficult because there was no fan or light. After getting through that tough period, we went outside and played. It was so much fun that I even forgot the electricity was out. When I came back in the evening, the electricity had returned. This experience made me realize that we often focus too much on gadgets and neglect the small things that can bring immense joy. From now on, I will not focus solely on gadgets because if you become too addicted, life without them can be frustrating.

**D.RITTWIK - IX C**

## IF I WERE THE PRINCIPAL FOR A DAY

I was so sure that one day I would become my school principal. I have many good memories of my school and feel emotionally connected to it. The thought of becoming a principal first came to my mind when I met my school's founder. I was studying in the first standard at that time. A few years later, I came to know about the struggles she had faced to build our school into such a massive institution. She had opened three branches and is the main reason for our school's fame. I was inspired by her, and she became my role model.

To my surprise, one day something magical happened—I had become my school's principal. At first, I didn't realize I had transformed. Casually, I went to school, and the students greeted me with "Good morning, ma'am." I thought it was a prank, but when I looked into a mirror, I realized I really looked like my principal. My happiness reached its peak. I was overjoyed, but at the same time, I felt the responsibility that came with the role.

I decided I would be like our school founder. First, I addressed the students and delivered a motivational speech. Seeing the students' faces light up made me even happier. I continued my job as principal, determined to be a great head of my school, and I was. My day ended like that, but I knew I had transformed and changed for the better. I was so happy that day, and I will never forget it.

**B.MONISHA**

**IX A**

- I would make two periods of PT every day.
- I would extend the break time for all students in my school.
- During the break, I would provide free lunch to students.
- I would make one library period compulsory every day.
- I would have a canteen in the school.
- I would consider students' requests and try my best to fulfil them.
- I would conduct tests regularly.
- I would ensure that all subjects are taught every day.
- The school timing would be 8:30 a.m. to 5:30 p.m.

**NITHILAN**

**IX-A**

- I would make all the students play on the ground.
- Students would be allowed to bring non-vegetarian food to school.
- I would organize a 3 to 4 day trip for students to other countries.

- I would set rules such that no one is allowed to bully others.
- All boys should have responsibilities in the class, such as class leader, assistant class leader, and receive the captain badge.
- Teachers should treat all children equally. For example, students who get low marks should not be scolded.
- There should be no partiality among students.

**ADITYA GANESH**

**IX A**

- I would not give many portions to study which will give struggle to children.
- I would support the children to help them get more marks.
- I would organize some activities which make their mind very active.
- I would provide a canteen for children & staff.
- I would give a PT period for every class.
- I would extend the break time by 15 minutes.

**KIRISHA.R - IX-A**

If I were the principal for a day, I would be the happiest person in the world. I would organize a free canteen in the school. If a student made any mistake, I would not punish them; instead, I would give them a chocolate. In one week, I would schedule five PT periods. Students could come to school at any time and go home at any time.

There would be a school trip for all students without any cost. Once a month, students would cook and eat in the school. I would not give any exams, and I would show one movie per week. There would be no homework or writing work. Students could come, play, enjoy, and leave happily.

If these rules were real, I would be very happy. Nowadays, students face a lot of pressure and do not get enough free time. After school, they attend many extra classes, especially in grades 9 to 12. Someone should change the rules for the upcoming generation.

**K. HARSHIKA**

**IX A**

Students are the best and most wonderful creatures, do you know why? Even after those exhausting eight hours of non-stop studying, with only a 30-minute break, followed by home tuition, extra studying, self-revision, and homework that goes on until 11 p.m., we wake up early and help our parents again, as if it were a never-ending cycle.

When our energy dips low due to lack of proper sleep and we are finally rewarded with good results, our parents beam with joy. Our hard work produces good results, which makes our parents happy. But what about the other moments? Sometimes our parents think we are just a burden. All our hard work then seems to evaporate into thin air. Our sleepless nights feel as though they have vanished.

At the end of the day, we are all human beings who do our utmost to make ourselves better with each passing day.

**P. SHAMYUKTA -IX A**

The responsibilities of a principal are to be kind, well-educated, and to enable others to educate themselves well. A principal ensures that all students are comfortable and follow the rules of the school. A principal allows students to participate in interschool competitions and encourages them to compete. A principal should also have good leadership qualities.

So, if I were the principal for a day, I would surely fulfill these responsibilities.

- I would fix air conditioners in all the classrooms.
- I would make the stage a cool and comfortable place for students.
- I would set a new public examination record by awarding 501/500 marks to students with excellent handwriting.
- I would help students learn good handwriting.
- I would ensure free education for good sportspersons and provide an 80% fee concession to state-level players.
- The best sports equipment would be provided free of cost to national and state-level players.

These are the things I would do in one day if I were the principal of the school.

**PRANAV – IX A**

If I were the principal for a day, I would implement new rules for the school. I would encourage the students to elect their head boy and head girl as their leader.

I will implement things which are good for the students, and I will also focus on the physical and mental health of the students. I will organize tournaments for sports students. I will place a canteen for the students.

In studies I will appoint teachers who understand students and their problems. If there is any problem, the teacher will then investigate what happened on the spot and they will take the right action according to the problems.

I will be an understanding Principal!

**NANDHAN.T – IX A**

If I were the Principal for a day, my school would be full of joy and excitement. The morning assembly would begin with cheerful music, dance, or a motivational story. After the prayer, there would be a laughing session where everyone shares jokes to start the day. Sometimes, instead of a speech, the assembly would have a mini treasure hunt with clues hidden around.

I would also declare every day as a "No Bag Day," where everyone enjoys learning. The canteen would serve noodles, samosas, chocolate milkshakes, and ice creams. Each class would last for just 30 minutes so that no one feels tired or bored. There would also be a free period for reading, drawing, or playing with friends. Teachers and students would swap roles for fun. Sports, arts, and music would get equal importance along with studies. Surprise games, a movie hour, and a light homework session would make the day more enjoyable and relaxing. At the end of the day, we would celebrate with songs, laughter, and prizes. Finally, every student would receive a "Happiness Certificate" before going home, at least once a week.

**N. SWARNA VARSINI -IX B**

**IF I WERE A SUPER HERO**

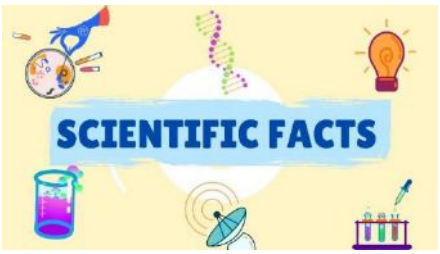
If I were a superhero, I would help children cross the road. I would do many things for people. I would save people from emergency situations and help traffic officers clear traffic. I would help people in many ways.

I would be a role model for many young children. I would help elderly grandmothers and grandfathers lift their bags and cross the road. I would not allow or cause any accidents in the city. Instead, I would be a shield there.

"A Super man is for the people and by the people"

**YADESH - IX A**

**THE FACTS OF SCIENCE**



Do you know that if the Earth's gravity was more or less, life would not be possible? At present, gravity is just perfect for life to exist. The solar system does not stay in one place; all the planets move while revolving around the Sun.

The Sun will turn white and fade after about 7 billion years. Questions about space and its end have never been completely answered. The Earth is not a perfect sphere; it is slightly flattened at the poles when viewed from space.

Many years ago, humans believed that the Earth was flat, but this idea changed with scientific discoveries and inventions such as the telescope. There is a planet similar to Earth called Kepler-452b, which scientists believe may have conditions suitable for life.

Scientists have not yet confirmed life in space, but they have found organic molecules and microorganisms that strengthen the belief in the possible existence of aliens.

**S.SANJEEV - IX A**

**THE MAGIC OF EVERYDAY SCIENCE**

Science is not just about laboratories and test-tubes, it is in our kitchens and phones too! Our Indian kitchens hold some of the best wonders for an observer's eyes. The kettles in our kitchens convert electrical energy into thermal energy. Cooking the simplest of dishes involves complex reactions. In short, the kitchen is the common man's science lab.

We can see science everywhere we go. Even a pen needs science to work. The ink is pulled down by gravity when tilted, which allows the flow of writing. Our phones, too, have tiny circuits in them that bring them to life. Science is all around us, we just need to know how and where to look. Look around and spark the scientist within you!

**SAHANA J - IX B**

**IF IT'S THE LAST DAY ON EARTH**

If people realized that it was the last day on Earth when they woke up, they would panic and feel scared. People would not go to work, school, or college, as it would be the last day of Earth. Instead, they would go and meet their families, friends, and loved ones, and do the things they had always wanted to do. They would try to enjoy their last day as much as they could.

**HARSHINI.M – IX A**

**CREATE YOUR OWN WORLD**

The magic and imagination of different worlds are connected to the mind. My mind created a new planet full of magic, trees, plants, art, elves, and many other wonders. Everything is easy to identify and understand. There is no pain or trouble for the plants.

The world is filled with magical creatures and fictional characters like cowboys, pirates, knights, and many more. There are also fairies who teach concepts that can easily be connected to the world. It is a wise world, full of treasures, magic, wizards, and other wonders.

This world is even better than watching television or a movie, and creating it with your mind can be very relaxing. So, you, the readers, can also imagine and create your own magical world.

**MAADHAVA SAAMINATHAN -IX A**

## THE SIGNIFICANCE OF SELF APPRECIATION AND SELF ESTEEM

In a world that emphasizes material success and external validation, self-appreciation and self-esteem have become essential. People never fail to admire others, but always fail to admire themselves. The world runs ahead of you and tries to put you down. Pat your own shoulders even for small achievements. There is no achievement that's considered small because each has great effort. Self-appreciation is recognizing your efforts, taking a moment to say, "I did the best." That was great work and acknowledging your work and values. The world will pat your shoulders only to push you down, but when you pat your own shoulders, you grow, you achieve, and become a great person. Self-esteem is the belief you hold on to —your ability, the way you see yourself, and breaking things that stop you from chasing your dream or goal. It gives you confidence, helps you focus, and just wipes off the tantrums people throw because of jealousy.
Self-appreciation and self-esteem lay the foundation for your success. It can actually improve your emotional well-being and help you focus on what you need.
It takes time to grow self-esteem and to start appreciating yourself, but once you achieve them, you're unstoppably

**G. Akshara**

Have you ever felt low that no one is appreciating the things you do, which may be small but for you they are big? Don't wait for someone to appreciate you.
In life, people won't appreciate you when you achieve something every time. You should only appreciate yourself for everything that you do. If you start appreciating yourself, you will feel confident and you will also start loving yourself for being you.
You will start to acknowledge your strengths and your worth in this world. You will also develop your self-esteem and step out of your comfort zone. You will start being brave and face every challenge in life confidently. You will never let anyone discourage you or speak low of you.
With high self-esteem, you will explore the world. And with self-appreciation, you will encourage and love yourself even if everybody hates you. The only thing that matters is you being you. So start appreciating yourself and boost your self-esteem and face the world confidently.

**SAFIA**
**X A**

I noticed that the importance of self-appreciation and self-esteem is the element that leads to my success. I always appreciate myself even for small things I do, like writing my classwork on time, winning a match, or the efforts that I contribute to the team. Small appreciation is the key to the next success to be achieved. Nothing big is going to happen if we don't appreciate ourselves for small things. It's our little motivation and happiness. Also, appreciating others with small words makes them feel good. Small words make a big difference for the person you appreciate. Self-esteem shouldn't go down until you succeed. It actually doesn't matter if you are strong.

**S SAMYUKTHA**
**X C**

In this fast-paced world, people do not appreciate each other. People do not even appreciate themselves. People often forget the significance of self- appreciation. Self-appreciation boosts up our confidence, which many people lack nowadays. People who lack self-confidence often feel low about themselves, so they might involve in unhealthy practices. Thus self-appreciation and self-esteem play a crucial role in a person's mental stability.

To maintain a healthy relationship between others and to maintain a peaceful environment we need to appreciate ourselves even for small things, which can make a huge difference in us.

**S.KAVIN - X D**

Learn to appreciate yourself even for the small things that you do correctly. In this world, only parents and teachers will appreciate your work. No one will be with you till the end of your life. So have a self-

talk and appreciation. That will increase your confidence level, self-belief, and completely avoid dependency. Don't expect someone to appreciate you for your work. Most people will think of getting rid of you in many ways. If you expect it, then you will be the loser at the end. Always have self-motivation that builds your confidence level, which should not decrease even if you face any critical situation. In that case, you need self-care. That comes when you love yourself. When you start to love yourself, you start to take care of yourself, appreciate yourself, and believe in yourself. That self-love, self-belief, and self-confidence will increase your self-esteem. Do not lose the hope that you have. If that happens, then you will not be able to cope with the loss. Overcome your failure and chase your dreams. If appreciation is not given, then you will feel depressed, alone, frustrated, and irritated that no one appreciates you. Remember, the world is not here to appreciate your work. You don't do your work for appreciation. You do it to achieve your goals. It is for you. The goal is set by you. The practice or work is yours. So appreciation can't be expected until you succeed in your life. Stay motivated, increase your confidence, self-esteem, and self-belief, but don't forget to keep the basement before you build the building. The basement starts with self-appreciation that plays a vital role when you face failures. Self-appreciation and self-esteem will raise and brace you in your life. They will help you get up even after so many failures. That will make the biggest change in your life. It's not about how many times you fall, it's about how many times you rise up again. Many losses will help you to overcome fear and sensitivity. Then you take the first step to appreciate yourself. Stay calm, happy, and thankful to all, and appreciate yourself. Have self-esteem to face any obstacles and challenges.

**S JAYAVARSHINI - X D**

Self-appreciation means valuing your own efforts and qualities, while self-esteem is the belief in your self-worth. Together, they shape our confidence, decisions, and happiness.
When we appreciate ourselves, we stay motivated and positive. Healthy self-esteem allows us to accept both strengths and weaknesses, set boundaries, and avoid constant comparison with others.
These qualities are important because they protect our mental health, help us face challenges, build healthy relationships, and bring inner peace.
In short, appreciating and respecting ourselves is the first step towards growth and a meaningful life.

**RAGHAVI -X E**

### Her Little Change

Every person thinks
The world revolves around them.
She didn't know it,
For her little life was unhappy.

Until one day, she realized,
looking at the elegant sky,
Nobody would always be with her,
like the stars are for the moon.

The little things she did,
all by herself,
No one there to support her,
But she didn't care.

For she had herself,
And that's all that mattered.

**M TARUNIKAA -X H**

### LETTER TO FUTURE ME

Hey, it's me, your past. I hope you are doing good. Did all my dreams come true? Tell me, how many cups does RCB have now? I hope CSK is still holding on to five cups. Has MSD retired or not?
Let me come straight to the point. Always take care of your little brother, I know he is very naughty. Even if you don't get what you wanted in life, don't worry. Work hard towards it; you will eventually earn it. I know I am short-tempered, but please don't yell at your parents. Take care of them while they are with you.
Buy a Lamborghini, a Rolls-Royce, and maybe even a Domino's franchise! And finally, don't forget anyone who helped you in the past. Be proud to be a Scout.
Just two last questions: Did the prices of petroleum and gold decrease? And is Vijay the CM now?
Love you so much,
Take care.

**AATISH VIDUR KV- X A**

Dear Oviya,
How are you? Hope you are in good health and spirits.
I am writing this letter because for the past few days I was going through a lot of things and I was thinking maybe in the future I would be happy reading this letter, thinking all my sacrifices were worth it for what I will definitely have.

If you are getting through a happy phase, then well and good. But if you are going through a rough phase, then please read it fully.
You are a champion. When you were just 3 years old, you underwent all the pain to get your teeth fixed. You successfully completed all the 8 levels of Hindi with keen determination, and during the lockdown when you were infected by COVID-19, you didn't lose hope. You fought it with bravery and recovered soon.
I still remember your 7th standard English teacher appreciating you for scoring the highest mark in PT-3.
You work very hard in whatever you do. If you want to achieve something, you give your whole soul to it.
One day, sitting simply in class, I remember a spark was lit inside you to get a merit card in whatever subject it may be, when you were in class 9.
Your goal was just to get 1, but the universe gave you 2 for your hard work. From no merit cards to 2 cards, it was a breakthrough and you were over the moon.
So, you are a champion. You are a guardian angel. You can handle any situation with determination by looking back at your past life.
Stay motivated and chase your goals no matter what.
Thank you.
With love,
Oviya.

**OVIYA -X B**

Dear Mihika,
How are we? How is life going? I hope it is all fine at your end. Not much is new around here. Oh, did you get into your dream college or job? How are Mom and Dad? Is Mihith studying well? I hope he is. Also, is the world better now? Better than it was before? Is it safe for you? Are people still fighting over religion, lands, and boundaries? Are drugs still holding young people hostage? Please tell me that the world is safe. Kindly say that the Earth is thriving. Please write to me saying that we are not destroying our Earth, and that the world is healthy and happy.
Tell me, do you still uphold the values and morals that Mother drilled into us? We hate it now. Whenever she makes us sit in a corner and lectures us on honesty, safety, and open-mindedness, I hope it is useful to us in the future. Our boards are fast approaching. If you know what the paper will be like, a sneak peek won't hurt.
Life is pretty boring now. Monotonous, even normal. Say, how much has technology advanced? Will this letter be considered a historical artifact documenting the life of a 15-year-old girl in the 21st century? That would be a sight to behold. Tell me, do we still read books? We would devour any book that is given to us. If we have stopped reading, I am sorely disappointed.
I wish you all the best for your journey. Never let go of who we truly are.
Love you so, so much.
Yours lovingly,
Mihika VK

**MIHIKA VK - X B**

Hi, I hope you opened this letter in 2035. I am very eager to know if you have achieved the things you once wanted to do. First and most important, have you become brave at least now? If you have not yet become brave, this is just a reminder to you. It’s not too late yet. But at least, have you become independent and understood things better? I hope you have learned to control your emotions properly.

Do you remember what you wished to become when you were studying in school? Yes, a psychologist. I have so much belief that you have become a psychologist. I know it’s something that you love to do. If you have achieved what you believed, I am happy.

I want to say, enjoy your life to the fullest. Love yourself and do what you love. Always be grateful for the things you have.

Yours lovingly,
Sandhya

**SANDHYA - X C**

Dear Pranav,

You have very big dreams and you run every day trying to be better than last time. I try to move towards my aim with slight happiness here and there just like my brother who makes me feel happy sometimes. I hope you achieve what I thought. You should achieve very big in life. Don’t try to put anyone down which is a bad habit because it puts you down. This is said as “Each and every action has an equal and opposite reaction”. Also be honest in your life. Never give up. There will be ups and downs but you have to face it with courage which is the quality you have. If you face it you embrace the obstacles and keep moving on. You have some best friends but check if they are trustworthy. “Think before you act” is a famous proverb which is what you have to take in life. Also share your worries with your trustworthy friend. Also have some time to entertain yourself. Maintain the time

management matrix to manage your time. Choose the occupation that you love. Bye! Enjoy! Love you so much!

**M. PRANAV - X D**

Dear me,

I hope this letter finds you in a white coat, gloves on, and a gaze that misses nothing. By now, you would have become a forensic investigator, something I can only imagine from here in 10th grade, where I sit with textbooks that look scarier than crime scenes. I want you to pause for a moment and remember the version of yourself writing this letter—the girl who doubted her marks, who sometimes stayed up way too late worrying about exams, who felt small but dreamed big. You made it. You turned curiosity into courage, and now you work where just fingerprints and justice have a DNA.

I hope your job hasn't made you forget your softer side—the one who laughed at silly jokes, who doodled in her notebooks, and who found magic in stories. I hope the cases you work on don't weigh down your heart, but instead remind you why you chose this path- to seek the truth, to give voices to those who cannot speak, and to bring light into shadows.

Thank you.
Your past,
Rithika

**RITHIKA -X D**

Dear Ranjani,

I hope you are happy finding success and living your life. I want you to believe in yourself through the ups and downs of life. Be strong. There will be a lot of people who would want to push you down. Persevere. Rise against the push of society. Don't search for people to love you, care for you. You are enough. Love yourself. Care for yourself first. Place yourself before others. Yet, shower love on your surroundings. In all the hustle and bustle of life, don't forget about yourself. I have seen you in all moments of life, scurrying, enjoying, crying. I have deep faith in you. Love small moments. Continue your hobbies. Save your tears. And most important of all, don't change yourself for others. You are the most amazing, creative, and exquisite person I have ever seen. Enjoy.

Tons of love,
Ranjani

**K RANJANI - X E**

Hello dear future me,
Hope you are doing well. I wish you had achieved your dreams. I am curious to know your job. I wish to know whether you are living a life without regrets. I am sure you still have the sassy attitude. I am sure you have achieved your success to the point where you can say "*choose whatever you want*" to your parents when shopping.
I am sure you have become a person whom people look up to. I am sure our parents were looking at you with happy, glistening eyes when you made them proud.
I wish to become like you soon. I shall work hard for it, my dear future me.

**K AMIRTHAA -X F**

**Dear Myself,**
You may be under continuous pressure from your friends and family to do this, to do that, and several other things. You have learnt how to manage all your problems. I know that when you go through this letter after years and years, you will be in a great position. You will have the same amount of compassion towards others. You will always support your family and friends in their hardships. You will encourage people to follow their dreams and never ever hurt others. I know that you will stay the same as you are now till the end of your life.
I am really curious to see how far you have come. Just telling you a small bye by sending you tons of lovely wishes for your future.
With loads of love,
Me, from 2025

**KAUSIKA K.V -X F**

Dear me,

I hope you are doing good. Right now, I am doing what you did. My dream is to become an IAS officer. I will work hard to achieve that. I whisper secrets to the moon that I hope you will hear one day.

As there are only three years left to graduate from school life, I have realized how much enjoyment school life can bring, and I am worried that I will miss these days. I somehow know that you are busy managing your personal and professional life. Remember our desperate desire to travel to Japan. I

hope you would have done it. If not, it's okay. One day or the other, we will travel to our destiny with emotions combined with food.

Anyhow, even in down days, don't give up your smile. Make every decision carefully. Don't let your emotions take over your mind. Make promises rightfully. Have full concentration in everything you do. I hope your craze for night rains is still alive.

Be with you no matter what the situation is. You are the star in the night sky.

**K YUVASHREE -X H**

**THE EPICS – ROOTS OF CULTURE AND VALUES**

Imagine if the great epics like the Ramayana or the Mahabharata were not written down or taught to us. What would happen? These are not just our bedtime stories; these are the great tales that reflect human struggles, victories and values. These epics are the weaving threads filled with culture and values, making us rooted to our past.

The human nature of Jesus, the courage of Rama, the devotion of Sita, the wisdom of Krishna and the sacrifice of Karna show the values of humanity and the stand for truth. Through their journey, we learn about loyalty, forgiveness, perseverance, and the strength to overcome challenges. Even the characters portrayed as villains also had good traits. They taught us it is not about being good or bad, it is about the one standing with the truth. Our festivals, art, music, and even daily customs carry echoes of these timeless stories. They remind us we belong to a heritage built with justice, compassion and respect for life. In a world where our traditions and cultures are slowly fading away, the ancient epics whisper the eternal truths and values that are never outdated.

For today's youth, epics are our guiding stars, our timeless teachers. They inspire us to choose integrity over shortcuts and to believe that goodness and truth may be tested, but never lost. These epics act as a mirror, reflecting our human struggles and coping with them. Remember, empires may rise and fall, but the values stay and stand strong forever.

**SECRETS TO SUCCESS**

**"Success cannot be achieved just by dreaming about it.**
**It can be achieved only by doing it."**

Achieving success is not as easy as thinking about it. Just like how a plant takes time to grow from a small seed, our success will also take time. Hard work is the secret of success. Without working hard, we cannot achieve anything in life. Things might look simple, but they are never the same when we work on them. You know something? Obstacles and problems face us a lot. That's why they are always around us. Remember, when we start running away from them, that becomes the starting point of our failure. We must learn to face them. Success comes from courage and it is not the absence of fear, but the triumph over it. Yes, we might have fallen down several times and also experienced failures. One thing we must remember is, success cannot be achieved easily, and failures cannot be forgotten easily. But it is possible. Success and failure both always have commas and never full stops. It means that there is no destination for both; it is always a mysterious and continuous journey. Always give your best. You can definitely achieve it.

**TAANIA DHEEKSHA AP -X A**

Tara came to the class and sat next to Peter,
who had wide-open eyes, watching the grass.

Tara said, "I became a creator."
"What?" Peter exclaimed.
"I created a humanoid robot yesterday."

“How?” Peter questioned.
“To do everything, I have found a way.
Don’t worry, I will say.
Start being curious,
Start asking questions in the right way.
Remember not to make others furious.
Implementation is important,
And willingness to sacrifice is everything.
Hard work is important,

And we should manage time for everything.
Don’t forget that failure leads to success.
Hush! Don’t reveal the secret to others.”

**JAISHNA N**
**X B**

“Success is not just about earning money, it is about earning pride.” In this world, all desire and set a goal to succeed in their life. Everyone has a purpose to succeed in life. The basic step to achieve success is to do hard work. But the fact is, only hard work cannot lead to success. There are some key steps to achieve success. First, focus on short-term goals. The goal should be clear and well-defined and focus on what you want in life. Most importantly, a sincere effort is needed. Thinking about success will not lead to the path of victory but staying loyal and focused on our goals will only lead to the path of success. Time management is the most important and topmost secret to success. Every person in the world who strives to achieve a goal follows these secrets. “Success is not just a destination, it is a journey”. Success leads to the life of BEST.

**K.B. YAKSHITAA - X D**

Come to think of it, why are some ahead on their path to their success while some are still struggling and barely have any idea which path to choose? I would say they are ahead of others because they have mastered some skills that are essential to be so different from others and that keeps them ahead. To be honest, you don’t actually have to change your whole schedule at once. You can just implement some small changes and follow them consistently. These small habits which bring a whole massive differences are called “Atomic Habits”.

Say for instance, you want to learn a new language, instead of just trying to learn it all at once you can have weekly goals or monthly or even daily goals like setting a target of learning one new sentence every day. This works for your studies too. Instead of cramming it all at once set targets and achieve those. “The key idea to success is not perfection but consistence”.

You don’t have to be perfect in what you are doing, but try being consistent in what you do. These small changes bring a big difference and remember, “Individually you are a single drop, together you make an ocean.” The same goes for micro habits too.

**JOSHIKA S - X D**

When we look through history, we often find people who succeeded in life. People often define success as getting what he or she want in life. They feel success should be gained and not achieved. But do you know what success means?
Being a student, all of us have different interpretations on how to attain success in life. But let me tell you what I think attaining success means. Success is a milestone one has to attain in life. But before we go deeper, everyone should know that life has various steps you have to pass in order to become successful. It is like a video game with different levels you will need to go through to win. But you should know that each level has its own complexity.
But here are ways you can apply in your life to pass all these levels and attain success.
First of all, consistency. Being consistent in whatever you do can create a lasting impact in your life. Anything you do for 21 days consistently will turn into a habit and there is no coming back.
Second, self-confidence. As teenagers, we should build our self-confidence and self-esteem at this very age. This is your foundation for your better future.

Third, manifest. Have you heard people saying manifestations work? Yeah, it is true. Manifest whatever you want to become. Imagine your best self. There is no way this trick will disappoint you.
At last, reflecting on your failures. This is a very crucial step towards success. It allows us to reflect on and improve our failures. Most importantly, embrace them.
To conclude, success requires hard work, determination and a goal to focus on. Believe in yourself. Believe in your ideas. And I am sure you will succeed in whatever you wish.
Happy learning. See you at the top of the world.

**DEEKSHITA S - X E**

Success doesn't happen overnight. It is the result of consistent effort, patience, and a strong mindset. The first secret to success is discipline. Without discipline, even talent becomes useless. The second secret is hard work. There are no shortcuts. Those who are willing to put in extra effort always shine. Another secret is a positive attitude. Failure should not discourage us, but teach us valuable lessons. Finally, success comes from self-belief. If we trust our abilities and stay focused, nothing can stop us. Thus, the true secret to success is a mix of determination, hard work, and a never-give-up spirit.

**MANSHI PKM - X E**

Success—many people chase it, and only a few attain it. Well, people have differing perspectives about success. For some, success is when they are able to produce or own materialistic things. But for others, it is when they are surrounded by positive people in a positive environment.

If you ask me, true success is when you are able to do things you like without having a second thought. There are a few secret ingredients for success. The first and most basic one is to be disciplined. Many people get motivated to achieve something. But how long will this motivation stay with you? Being disciplined helps one to go through all the discomforts faced in life.

Second, get out of your comfort zone. Many—in fact, more than 90% of the people I have ever encountered—complain that they are unable to achieve things while sitting in their comfort zone. One has to understand that the path to success is never a bed of roses. If it were that comfortable, then everyone would have become successful in life. The only difference between ordinary and extraordinary people is a five-letter word: *extra*. Extra effort equals extra output, which again leads to extra success.

Third, surround yourself with a positive environment. It not only gives positive thoughts but also provides more exposure to ideas. More ideas pave the way for more innovation.

In short, one must understand that being successful is not very hard. It just needs some patience and discipline. Being disciplined is not tough. Every time you feel distracted from your path, just ask yourself these two questions: Will I do the same thing even if somebody is watching me? And will the future me be happy thinking about the thing I am currently doing? If the answer is no to both questions, then correct yourself happily. Because trying hard pays off, whereas regretting later doesn't.

**P JEEVITHA - X G**

Bewildered by the stories of prominent leaders,
I became their biographies' readers!
Analyzing their mystic stories,
constantly put me through worries!

Standing now determined to build a bright future,
Inspiring young minds to be nurtured.
Daring, deepened, dreamy thoughts—
let me put all these ideas as AI bots!

Going through the phases of pain or pleasure,
stand by glowing, as you are the treasure.
People of the past express "DON'T GIVE UP" morally,
But remember to apply rationally.

Dare not to forget the idea of resilience,
Bound with compassion and diligence.
Stop getting yourself into screens glued,
you may be the one later to feel rued.

Skimming about life stories won't help;
would help with nothing but ooze our blood and pulp
Build not only your body, but your inner strength—
which is enough to defy the societal myth!

**YASHASWINI V - X H**

There are many secrets to achieve success in life. Success is not about being rich, but about being steady and happy. One secret to being successful is to learn from failure. We should not give up if we fail many times. We have to try again and again.

The one who created the bulb, Thomas Alva Edison, failed many times before creating it. The Wright brothers tried to build the aeroplane, but also failed many times. But how did they succeed in creating these? They never gave up. They tried again and again, day and night, to create these that could change the world. Finally, they succeeded. They even said that they never gave up, even without support from others.

"Failure is a stepping stone to success" is a famous quote about becoming successful. Every problem comes with a solution. These problems can be easy or very complex. We have to locate the problem and solve it. So, to become successful, we have to never give up, even if everyone is opposing us.

**ASHWIN S - X H**

**Youth and the Power of Volunteering**

**Skill Building and Career Boost**
Increased Confidence and Self-Worth
Fostering Empathy and Self-Awareness
Better Health and Well-Being
Being a Responsible Citizen
Rivers do not drink their own water.
Trees do not eat their own fruit.
Flowers do not spread their fragrance for themselves.
Living for others is the rule of nature.
No matter how difficult it is, life becomes meaningful when we live for others.
Life is good when we are happy,
But it is much better when others are happy because of you.

**BHUVANIKA R**
**X A**

**The Happiest Days**

There wasn't a day that ended without me wanting to become a teenager and live my life on my own. Looking back, I wish I could remain the same little kid without any worries. Being a kid, my only concerns was to watch all the episodes of my favourite cartoon, complete my homework before bed, and play games with my neighbours.

I have always wanted to roam around the corridors with friends like the older students and enjoy life. Now, being in the place of a grown-up teenager, my wish is to get back to those good phases of life. Carefree, stress-free, it was a happy and satisfying period.

Little did I know that being a grown-up would not be as fun as I imagined it to be. The only thing that runs in my head is about the next step of life, while I wish to get back to the happiest days of my life.

**B.K. BHAVADARNI**
**X A**

The year was 2023. I had no high expectations for the year, especially with how the first three months went. I thought it would only get worse—fever and diarrhea, a broken arm, and writing my annual exams with a cast on my left arm. But what unfolded later in that year was the complete opposite.

The annual exams ended, and a week later, the cast was removed too. Then came the results and the shuffle for the next grade. Thankfully, I was in the same class as a few of my friends from last year. For the first time, I felt comfortable in a new class on the very first day. Using that to my advantage, I made many more friends so that I never felt alone. All the guys made sure that no one was left out at any time, and we always kept each other happy.

Our class teacher that year was one of the friendliest and most supportive teachers I had ever met. It was the only year when holidays did not feel good. Every day felt like a festival. But as the saying goes, good times never last. The year also felt like it ended quickly.

This was the most unforgettable year of my life, defying all my expectations. It will forever stay in my heart.

**M DHRUVAN**
**X C**

One of the happiest days of my life was my 9th birthday. The day still makes me the happiest and brightens my whole day whenever I think about it. During the dispersal, my parents, whom I thought were probably working, gave my sister and me a shocking surprise, saying we were going to our hometown. But little did I know, it was not a trip to my hometown, but a surprise trip to Mahabalipuram for my birthday.

When my mother woke me up, saying we were going to meet my father’s friend, I didn’t know it was actually the resort where we were going to stay for the next 4 days. When I realized it, my jaw dropped and I started jumping with excitement. My sister and I put our legs inside the pool, enjoying a plate of French fries.

On the day of my birthday, when I distributed chocolates to the people in the resort, they showered me with gifts. I felt extremely happy. Those 4 days made me realize how even strangers can become your family when it is least expected, and how my family planned my special day. That day will always remain the happiest day of my life.

**MANASA S**
**X C**

So let me share with you some moments of my life, where I was the happiest, literally at the peak of my life. My life has always been the best, even at my hardest. The souls, simple humans in my life, were the crucial reason for making my life glorious and bright. I hold some moments from class 9 close to my heart. It had something magical about it. A peaceful feeling that cannot be expressed in words. It was actually a turning point in my life, which I never expected. Every day I was curious about my days and every single day I return home with a genuine smile. Sometimes I experience embarrassing and anxious events. But that didn't matter. My friends were the reason, who made me handle situations like a piece of cake. I felt like those days revealed some realities of life and made me express myself. To some extent I had to sit in a corner thinking about my character, my instincts, and my thoughts. I learnt many things and values that I thought would never matter earlier. In conclusion 9th showed reality.

**CYNTHIA - X D**

When we come across this topic, people usually try to recollect their precious days spent with their favourite people or favourite places and something that connects with them emotionally. But I say, what are the happiest days of my life? Every day.
Find happiness in the darkest moments of life. Cherish every instance with no regret. This is the key to happiness. Happiness is a state of mind. It doesn't occur with price. But we do have a few moments that excite us more than others.
Enjoy what we have, but do not expect something we don't have and worry. Be happy and blissful, because that is the true and eternal state of the self. Attaining it is our journey, and through that journey comes life. We must travel in that blissful state itself—so be yourself, be happy, and enjoy your life, because you will leave this world happy.

**DIVYALAKSHMI G - X E**

Have you ever had the happiest day of your life? I guess at least once you all would have experienced it. Now let's have a look at the happiest day of my life. Well, mine is quite normal, but very special and close to my heart. That was the day when I got my own pup.

During the pandemic situation, when everyone was spending their time locked up in their homes because of the so-called lockdown, I felt very lonely and melancholic at the same time. I always wanted a pet of my own. It could be anything except for cats. One fine day, when I came back home after spending the worst days of my life in that lonely room, I heard cute little barks from my room. I felt extremely curious about what that exactly was, and to my surprise, I spotted an adorable little puppy wagging its tail and looking at me.

As soon as I saw it, I jumped out of joy, slowly went closer, and held it in my hands. And there was Bruno. My pet is Bruno, and I love him the most.

The following day was my test result announcement day, and I scored one of the good marks. I was really happy about it. And these are my two happiest days, which have a special place in my heart.

**N.N.B MIRACLYN GENELIA -X G**

Every time I feel sad,
I remember the past.
When nothing was bad.
Time goes by so fast.

The fun times with friends,
the carefree years—
I never thought it would end
with me in tears.

Laughter echoing around,
Happiness galore,
I sit here on the ground,
For those long days, I implore.

All these memories held by hair,
Back when they were not so rife,
I guess those days were,
The happiest of my life.

**S SANJANA**
**X H**

It started as a tedious day

The temper of mine was utterly grey!

Agonies that doomed in the past

Remembrance-In a fortune, they'll last.

A symbol of cherish filled the dark

Concealed with voyages one's gonna embark!

That day bloomed like every typical time

But that made a change in the life of mine.

A soul emerged that pledged to be on my side

I got a chum to accompany my life's ride.

Oh! what's the happiest day in my life?

The encounter of my pal that added spice!

A word that clutched my trust

Varnishing the hopeless heart of rust!

Vows of jubilation she made

Assurance of glee that'll never be betrayed.

Came the sky kissed with glory

Varnishing the musky clouds of worry.

Young promises that lead to forever

With acceptance that life's endeavour.

The day was idyllic that vanished loathe

Happiness was our oath.

**NAGASUPRITHA -X H**

## LITTLE HABITS THAT KEEP YOU HEALTHY

Many of us have many desires such as earning a lot of money, building a new house on our own, getting a good job, and many more things. We also work hard to fulfill those dreams from a very young age.

We can only draw if we have a wall. It is an important base. Similarly, only if we have proper health can we achieve our dreams. But we do not care much about our health.

Small steps to maintain our health can lead to a strong destiny. The minimum years our ancestors lived was around 100 because they ate healthy food. We have to eat healthy foods and avoid junk foods that damage our health.

Exercise for at least 20 minutes daily to keep your body fit and feel fresh throughout the day. Eat fruits and vegetables daily to get the required energy. Also, eat pulses and nuts for the required proteins and carbohydrates. Drink 3 to 4 liters of water every day to prevent dehydration.

These small steps can increase your lifespan just like our ancestors.

**SANADHANI -X B**

Good habits play a vital role in good health. Eat healthy meals every day, drink a lot of water, and maintain good fitness like walking, jogging, or running. Reduce time spent on electronic devices. Spending time outdoors can help reduce stress. A few minutes in the sunshine raises vitamin D levels, and that's good for our bones and heart.

We need to keep our environment clean. Small acts like not littering, reducing the use of plastic, and using dustbins will help us keep our environment clean. We also need to maintain the same habit of keeping everything tidy at home

**P MONISHA - X E**

Developing habits that help us maintain good health is very significant in today's fast-paced world. It may look simple, but they can create a very big impact in the future. It can be as simple as

maintaining a steady routine, sleeping on time, and following a balanced diet. Subsequently, good health leads to a proper lifestyle, which further leads to our growth. Not just exercising and eating a balanced diet is enough—it is also about connecting with nature and giving positive affirmations to ourselves. This soothes our hearts and builds strong mental health. Hence, mental health is equally important as physical health.

**FARHA S -X F**

Good health is not built in a single day. It is the result of small and consistent habits. Simple practices like drinking enough water, eating a balanced diet, and sleeping on time may seem minor, but they form the foundation of a healthy lifestyle.
Equally important are habits that take care of our mental well-being. Regular physical activity, spending time in nature, and practicing mindfulness help reduce stress, increase energy, and contribute to better emotional health.
Lastly, hygiene and self-care routines are vital for preventing illness. Washing hands, brushing teeth twice a day, and keeping surroundings clean are simple yet powerful steps. When followed daily, these little habits protect us from disease.
Indeed, it is these small, steady actions that create a long-lasting path to good health and improve the quality of our lives.

**KIRUTHILAYA M - X F**

Not just brushing your teeth, eating three times a day, or waking up in the morning is a healthy habit. Developing some little habits is a game-changer. Even small habits like writing gratitude will change your life. When you start to thank people, good things come. Anybody who is fit physically and mentally, has a disciplined life and an organized mind starts with waking up a little early in the morning. Then planning your day keeps you organized and clear about what you do. Trust me, it does wonders to your life.Even simple meditation and exercise make you look fresh and clear-minded. Then you can continue with your work as you plan to. Keep yourself engaged by joining sports, drawing classes, or whatever classes you like to do. The main characters are writing a journal and reading books. This will create a drastic change in your thoughts and communication.

Another part of your life is to keep yourself healthy. Having a balanced diet will not only keep your gut healthy, but your skin will also be gorgeous. Remember, not just reading this, but following it will show the change.

**T RUTHVIKA - X G**

**MY VISION FOR INDIA AT 2047**

We know that our future is unpredictable. So, my vision for India in 2047 is a complete imagination. I feel that our country will develop a lot in all possible ways, like education, health, sanitation, etc. According to my imagination, our country will be economically developed. Poverty will be completely abolished. It will have good facilities. Science and technology, which are already growing, will be even more advanced. Robots will almost replace all the difficult jobs of humans. Everyone will be treated equally. Our tradition may remain the same or change slightly, and a lot might happen.
These are some of my positive visions. When it comes to a negative vision, our country might be affected by pollution, less oxygen and water, fewer trees, and robots that might completely destroy human life in all possible ways, especially employment.
I hope that our country will grow only in positive ways and not in negative ways. For the country to develop positively, we are the ones responsible now. So, let us all help our country to grow in all positive ways

**DEVISHREE SS - X B**

India, being a country known for its culture and heritage, will achieve its 100th Independence Day. India in 2047 would achieve all the 17 SDGs, paving the way for an entirely new world. In 2047, we will remember all the heroes who made it possible to reach this particular day.

India would improve in technology, mainly in AI. These technological advancements would impact vehicles the most. There would be autos that could travel in water, flying cars, hyperloop cars, and many more vehicles that could easily cross a 500 km stretch in an hour.

When it comes to the literacy rate, India would be a highly educated and employed country. We can believe that there would be no corruption in the country. New leaders from the next generation would take over. People might say that AI would occupy almost every job, but that would not happen, as there would be many new courses to improve the knowledge of students.

**KRITHIK R - X C**

India, at present, is not on the list of the top five developed countries, and there are many reasons for this. The road we walk on is not always clean—sometimes garbage is thrown on the sidewalk, and many times there is no proper sidewalk at all.
My vision for India 2047 is high, but it can be achieved through proper cooperation and a sense of responsibility in every Indian's heart. I wish to see India as a place where every person receives proper basic facilities, where no one is deprived of their everyday needs, and where equality truly prevails. I hope India becomes a nation where nobody is discriminated against based on caste, religion, or financial resources.
My vision for India 2047 is not too much to ask. It can be attained if every Indian feels a deep sense of dedication and sincerity towards the cause they are working for.

**DEVA DHARSHANA P – X F**

First of all, I would like to wish the men of India a very happy Independence Day in respect to the independence celebration carried on throughout the country this week. Because independence is a privilege that only they have. Women in this country are yet to be free to wear what they want, work where they desire, and live life in the manner they want to.
My vision for India 2047 is viewed as a simple affair that should already be present everywhere. But if we look at our households and organizations more closely, women are still not allowed to leave without getting permission from men in a patriarchal society.
In rural areas, child marriages, sati, and domestic abuse against women, such as denial of the right to education, are still the norm even after 70 years of independence. In urban areas, women are still expected to cover up, judged by their clothes, forced to marry and settle down with partners chosen by their parents, and endure constant misogynistic taunting—sometimes escalating to verbal and even physical abuse.
Periods are still considered taboo. Safety for women often feels non-existent, with rapes and murders still rampant. And yet, blame is too often put on women—because they dared to go free and live life without restrictions, just as men do.
My vision for India 2047 is simple: live and let live. Empower women, and India will become a true superpower by 2047.

**ANJANAA S -X F**

**THE MOMENT I FELT TRULY PROUD OF MYSELF**

A person works very hard to achieve something. But why work so hard? Can't we achieve something in an easier way? The answer is a big "NO." This world is extremely competitive, and nothing valuable comes easily. When you want to achieve something significant, you have to put in hard work.

I realized this lesson when I won the 3rd prize in a Mental Calculation competition, at the state level when I was only 9 years old. My mom had enrolled me in the competition a few months in advance. The practice was rigorous: I had to complete 100 sums in 5 minutes, and practice sessions were conducted daily. After school, I would solve 3 to 5 worksheets containing 100 sums each. The practice sessions were exhausting, but my parents' high expectations made me stronger and motivated me to do better.

A few days before the competition, I was extremely nervous. I doubted if I would win, but my parents' encouragement pushed me forward. The results were announced in our WhatsApp group. During the competition, I managed to complete 89 out of 100 sums in five minutes.

Just before the results were announced, I expected only a consolation medal, as I wasn't confident. But when I saw my name, my mom told me I had won the third place. It was the first time I felt so proud of myself. I was thrilled to have made my parents proud, and that moment left a lasting impression on me.

After that competition, I enrolled in many Abacus competitions and won several trophies. I even completed my graduation and grand master levels in Abacus. Even now, I feel proud of these achievements and aim to accomplish many more. My next goal is to score well in my 10th board exams, expecting another proud moment for myself.

**SMRITI-S -X A**

In this fast-paced world where people are always in a haste, certain moments get etched in to our brains, serving a lasting impression and, those are what we call memories. Me being a rational human- being when I was asked to write about "The moment", I wasn't able to pick one, but two that are discussed. below in particular.

From my childhood, I grew up hating Math since, I assumed it to be very difficult. The reason being lack of practice and no interest in the subject. During our last open day of eighth grade my marks were disclosed to me and my parents. Except for my marks in Math all the other subject marks were good. That day something lit up in me. I wanted myself to excel in Math. During our summer break, I practiced for a month without break. I remember myself being physically drained and mentally exhausted most of the days. I endured the pain and spent my

holidays doing something that, I used to absolutely hate but, when my hard work paid-off and when I saw the fruits that it bore, I was extremely overjoyed. I couldn't stop myself from grinning That day, was worth my hardwork, patience and most of all the wait.

The second memory is of discovering a skill within me. The human brain is such a beautifully curated organ that just keeps giving on and on and it's up to us to find what is buried in it in order to get our treasure. I was never really someone who could listen but, I could talk for hours. So, it was very difficult for me to sit down and read a book. The only ones that I read were of the subjects that were dealt with in school.

One day, I felt that I had no one and that I was being judged all the time. This feeling provoked something in me, and I wrote a poem about it. As I mentioned earlier, I was never someone who read much, but I knew what would interest me as a reader and keep me engaged. So, I applied those ideas and gradually learned about writing.

What I wrote because I felt very sad, now has become my identity. I have now expanded my creative horizons to poems, stories, essays and articles. I still wish to extend further into other forms of writing. When people acknowledge my talent and regard me as a writer, that makes, me proud, truly proud!

In conclusion, these were certain things that make me happy. Whenever I think of these, these are not just memories but a part of me that makes me, me. These events can become something that makes me proud only when I realize and not just for the sake of others. I want each and every one to find your moment/memory that makes 'you' feel proud, truly proud!

**S.KIRTHIKA - X B**

**The Barrier to My First Match**

I was in 3rd grade when I was first introduced to Silambam. At that time, I had no intention of taking it seriously. But as the years passed, I became more and more attracted to it, and eventually, I was deeply passionate about it. I was in 7th grade when I attended my first coaching class. It felt like a relief to place my bare feet on the sand and hold the stick in my hands.

When I reached 8th grade, I applied for a school-level district match. I got selected, but I was placed in the wrong category. I didn't prepare for the match because I realized the mistake only at the last moment. In the middle of 8th grade, I suffered a fracture in my ankle. My left leg lost a lot of muscle strength, and everyone told me it was the end of my journey. But I didn't want to let my passion for Silambam leave me. I recovered and resumed my practice before entering 9th grade.

**My Reply to Them**

I registered for a district-level open match, representing my district, Chengalpattu, and I won a gold medal. Then I participated in a school-level district match and won a bronze medal. I also took part in two record events, where my name was recognized in Silambam.

Later, I competed in an open state-level match, again representing my district. In 10th grade, I participated in a zonal-level Silambam match and secured a gold medal. I then registered for open state and national-level matches, proudly carrying the names of my district (Chengalpattu) and my state (Tamil Nadu). I won gold medals in both the competitions, which were held in Kochi, Kerala.

When I returned home with my medals, I had only one thing to say:

***"Everyone said it was the end and that nothing could be done with one leg. But today, I carried my taluk, district, and state on my back—and now I stand tall in front of them."***

That moment, I truly felt proud of myself. It ignited a deep and unstoppable desire to keep winning and achieving more. This is not the end of my journey, it is only the beginning.

And if I were given another life, I would still choose my favourite passion again, Silambam.

**M. MONISHWARAN - X C**

**WHAT MAKES A FRIEND, A FOREVER FRIEND?**

A friend is someone who doesn't judge us, a place where you can truly be yourself. In a world where we face society wearing masks and fake smiles, a real friend is the one with whom no mask is needed. A friend offers you lukewarm water on cold days and popsicles with sunscreen on sunny days. Once, I thought I had lost gold, but later I realized I had found a diamond in my life, a friend who senses my problems even before I speak, who always keeps a soft corner for me in her heart. We've fought while laughing, we don't even know how to have a real fight! Around her, I can be completely mad, showing my inner child, the one society often fails to accept. My friend is my little saviour and warrior, born to make me happy, angry, cheerful, annoyed, and above all, to make me feel.

**HENIN WESLINE. E - X A**

A forever friend isn't just a friend, they are a part of you, a reminder of who you truly are. They keep your inner child alive, help you heal, and never feel jealous of your success. A forever friend is not someone who stays forever, because no one really does, but someone with whom you can truly be yourself, the one who makes you happy and fills your life with joy. They think what you think, often at the same moment. A true friend can feel your presence even when you're far away. A friend knows the real you and with them, there's no need to pretend. They are

honest with you, never speak behind your back, and always lift your spirits. They are your stress-busters, the reason you smile every day. She is my infinity! I may not live forever, but I have a friend - forever.

**KANISHKA. P. V - X A**

A forever friend is someone who walks with us along the path of life, supporting and encouraging us at every step. A true friend reminds us of their importance through their actions, not just words. Our thoughts often align, and sometimes even our likes and dislikes are the same. A good friend is a stress buster with whom I share all my happiness and sorrows, my partner in crime, the one who makes life complete. So, hold the hand of your friend and walk together happily on the beautiful path of life.

**M. NETHRA - X A**

A friend is someone who stands by you through thick and thin. Friends are essentials in our Lives because they provide support, share joy and help us overcome challenges. A good friend can make a significant difference make our lives more meaningful and joyful.

***The Value of Friendship:***

Friendship brings happiness and reduces stress. When we share our feeling and experiences with friends, we feel better and more understood. Friends offer advice, lend a helping hand, celebrate our success with us. They also offer a shoulder to cry on when time and mutual respect make their life easier to navigate. Friendship is love, life and beauty of our life, it's the best gift. True friends are God's gift. A true friend will be the one who will stay by you through thick and thin.

"Friendship is unnecessary, like philosophy , art...It has no survival value; rather it is one of those things that gift value to survival." This quote by C.S. Lewis beautifully highlights the significance of friendship, emphasizing it profound impact on our lives.

Friendship plays a vital role in our lives. They offer companionship, support, and a sense of belonging. True friends enrich our lives and help us grow as individuals. Cherishing and nurturing these relationships are important for our overall well-being.

**R. ROSINI - X B**

A friend is a person you share a bond with, but a forever friend is someone who stands by our side even through thick and thin, for a life time.

Here is what makes a friend, a forever friend:

**Loyalty and Trust:**

They can be counted on and they are someone who don't abandon us when time gets tough. They confide in us and don't judge us in any big moment but exhibit pure loyalty. They don't betray us

**Understanding**:

They understand each other. They understand anything & help us in navigating disagreements & challenges, without damaging relationships. They celebrate your success and offer a shoulder to lean on during failures.

**Growth & Acceptance:**

A forever friend accepts who we are our flaws and all. They don't change us instead encourage us to be the best version of ourselves. They help us in personal growth; they make us push ourselves beyond our boundaries. They make us an authentic and tenacious personality.

**TEJESH - X-B**

Friendship is one of the most valuable relationships in life. While many people come and go, only a few remain by our side forever. Such people are called forever friends, and they hold a special place in our hearts.

A forever friend is not just someone who shares laughter but also someone who shares our tears. They stand by us during struggles, failures and disappointments, reminding us that we are never alone. Unlike temporary friends who may leave when times get tough, a forever friend remains loyal and trust worthy. They know our strengths and weaknesses by friendship but never judge us. Instead, they guide us, motivate us, and help us grow. Their presence gives comfort and courage, and their honesty helps us improve ourselves. In conclusion, a forever friend is like a priceless treasure. Having even one forever friend is truly the gift of Life.

**R. NARAIN - X B**

Friendship is a valuable and enduring relationship that enriches human life. A forever friend is someone who stays with us through all seasons of life, whether in happiness or in hardship. They are rare, but when we find them, they become a part of our life's foundation. A forever friendship is built on trust, loyalty, unconditional support, understanding, acceptance and joy. Trust allows individuals to share their inner most thoughts, vulnerabilities, and dreams without the fear of judgement or betrayal, proving that the bond is stronger than circumstances. Unconditional support is another quality that makes a forever friend. They celebrate our victories without jealousy and stand beside us in our struggles without hesitation. when life gets tough, they become our source of strength, encouragement and comfort. Understanding and acceptance also defines a forever friend, accepting us with all our

flaws and imperfections. Even when we make mistakes, they forgive, guide and help us grow into better individuals rather than walking away.

A forever friend brings joy and shared memories that make ordinary moments special and unforgettable. Laughter, late-night talks, adventures and even silly arguments become cherished memories that strengthen the bond. A forever friend does not demand perfection but embraces us with all our flaws and short comings. Their acceptance provides a safe space where we can be authentic, free from masks we often wear before the world. In a world that often emphasizes on individual achievements and material possessions, the enduring strength of a forever friendship reminds us of the profound power of human calls and connection and its ability to enrich our lives in countless meaningful ways

In conclusion, a forever friend is not just a companion but a chosen family member who brings love, support, trust and happiness into our lives. Meeting such a friend is a blessing, and keeping them close makes life's journey brighter. Loyalty ensures that ever during misunderstandings, disagreements, or physical distance, the bond does not weaken.

Forever friends bring joy and shared memories making ordinary moments special and unforgettable. Unwavering, faith in one another that transforms ordinary friendships into life-long ones. Acceptance and understanding also play a defining role.

**BATHALA SPANDANAH NIRMAL – X B**

Not every friend is meant to stay forever, and that's perfectly fine. But every now and then, you meet someone who just sticks with you. Through awkward phases, messy decisions, and everything in between—they're still there. So, what makes that kind of friendship last?

**Consistency over perfection**

Forever friends don't have to text you or show up every day. It's about being there during the toughest parts of life. It's about how they support you, how they make you feel understood, valued, and comforted. It's not about perfection, or how often you meet, but about the genuine care and love they have for you, an emotion that words sometimes cannot explain.

Through storms and sunshine, loss and gain, they stand with you through joy and pain. No distance can break it, no time can fade it, the bond you share will never end.

These kinds of friendships are rare-true treasures. A forever friend is a soul who stays, not just in your life, but in your heart. Friendship is not measured by years, but by the depth of connection and understanding. A real friend stands beside you, celebrates your laughter, eases your tears, and never turns their back on you. They are pure gems.

So, don't always look outside your circle for better friends. Blessings are often already beside you.

**N. SAMRITHAHARSHINI – X B**

What is Friendship?

A friend is not only someone who keeps your name when you're here, but also in your absence. Being a friend doesn't mean you have to roam together, go out, bunk classes. A real friend is someone who slaps on your mistakes and claps on your success.

**THEODORE**

To the shine of my soul,
Who supported me in my goals,
A friend in need is always, indeed,
The one who lifts me to greater heights.

When my whole life was dark,
You guided me into the light.
The one who claps at my success
And corrects me when I'm wrong.

Friends by fate,
Family by heart.

**S.SAGANA - X C**

A friend is someone who complements your friendship, offering mutual respect and shared interests. A good friend respects your bond.They will stand by you always, whether times are easy or difficult. They are loyal, honest, supportive, kind, and much more. A true friend never gives up on you. Yes, there may be fights, and sometimes you may grow apart, but in the heart, you are never truly erased.

There are many kinds of friends, close friends, best friends, old friends, but no one can replace a lifelong friend, the one who has been there through everything. They respect your boundaries, feelings, and choices, even if they don't always agree with them.

Friendship is a two-way street. A forever friend is someone who invests in the relationship and makes an effort to stay connected.

There's something I call the "Friend 7 Theory": if you have seven true friends in your life, each one will teach you a different lesson.

And remember, the last word in "friend" is "end"-
because a true friend stays with you till the end.

**HARINI – X C**

Did I Tell You I Love You?

Did I tell you I love you?

Did I tell you I care?

Did I tell you I'm happy?

Now that you're here?

Did I tell you I need you?

That everything you do

Makes me happy?

To be me — with you?

But I'm happiest when I'm with you.

God bless you and keep you

In His tender care,

May His face shine upon you

Everywhere.

May peace and blessings surround you

In everything you do,

For God blessed me

When He blessed me

With a friend like you.

**M.B SACHIN - X C**

**THE POWER OF SAYING "NO"**

The power of saying "NO" refers to the importance of setting boundaries and asserting one's own limits. It emphasizes the ability to refuse requests or commitments that may lead to overextension, stress, or comparison of personal worth.

**Boundary Setting:**

Establishing clear limits in personal and professional relationships helps protect one's time, energy, and well-being.

**Self Care:**

Prioritizing one's own needs and avoiding burnout by not taking on more than one can handle.

**Improved Relationship:**

Fostering healthier relationships based on mutual respect and understanding of individual limits.

**Increased Productivity:**

Focusing on essential tasks improves concentration and enhances the quality and efficiency of work.

**A. KARTHIKEYAN -X A**

The power of saying "NO" teaches us to set boundaries and respect our own limits. It helps us avoid stress, overwork, and situations that may affect our well-being. By learning to say no, we practice self-care and prevent burnout. It also helps us to become more assertive, express our decisions politely and confidently. When we focus on what truly matters, our productivity and peace of mind increase. Saying "No" is not about being rude or selfish, it's about valuing our time, energy, and mental health, and creating a balanced and happier life.

**G. HARIRAM - X A**

We often believe that saying "YES" makes us kind and helpful and likeable. While agreeing to requests can strengthen relationships, always saying "YES" is not healthy. Sometimes, the most powerful and responsible choice is to say "NO".

Saying "NO" is not about being rude or selfish it is about knowing your limits and protecting your time, energy, boundary and values. When we take on too many responsibilities just to please others, we end up stressed, tired and unable to give our best.

The ability to saying "NO" earns respect. It shows clarity and confidence in decision making. People trust those who can set boundaries because it proves they value their commitments and are not easily influenced.

In conclusion the power of saying "NO" lies in its ability to give us freedom, balance and self-respect. It is a simple word yet it can transform our lives when used wisely. Remember: every "NO" to the wrong thing is as "YES" to the right one.

**SOWBARNIKA - X B**

Saying 'No' may seem difficult, but it is one of the most powerful skills a person can develop. It has many positive things.

Protects your time and energy: You can focus on what truly matters instead of being overloaded.

Reduces Stress: Avoiding unnecessary commitments keeps your mind clearer and healthier.

Heads to better decisions: By saying no to distractions, you can say yes to opportunities that align with your dreams.

Builds Self-Respect: You show yourself that your needs and goals are important.

**V. VISHWAA JAYANTH - X B**

Saying 'NO' is fundamentally about setting boundaries and prioritizing what truly matters. In a world that often encourages our commitment, learning to decline requests that don't align with our values or goals is crucial. By saying 'NO,' individuals create space for activities, relationships, and commitments that bring them joy and contribute to their overall well-being. This selective approach to saying 'YES' ensures that time and energy are invested in pursuits that align with one's priorities.

Over-committing and constantly saying 'YES' can lead to burnout, stress, and decreased productivity. Saying 'NO' is a form of self-care, allowing individuals to protect their mental and emotional well-being. It enables them to avoid situations that trigger anxiety, resentment, or exhaustion, fostering a greater sense of calm and control.

**L.MAHISHA - X B**

Many times, it feels awkward to say "NO." For example, when a friend asks for help but you already have your own work to do. In situations like this, it's understandable. However, when your work is important, it is necessary to learn how to politely say "NO."

**Here are a few situations where it is okay to say "NO":**

When a friend asks you for answers during an exam, it is okay to say "NO" because the consequences can be severe if you get caught.

When friends encourage you to pick up bad habits, it is okay to say "NO" because it may harm your future.

**Risks of saying "NO":**

- You may lose a friendship.
- People may feel like you dislike them.
- They may tease you.

Always remember to recognize when it is important to say “NO,” especially when something is wrong. Be genuine and act according to your conscience.

**B.BARATHAN – X C**

You are not here to walk someone else’s path. You are here to pave your own.

You were born into this world as yourself. But have you ever asked, “Will I live in this world as my true self?” Most of us tend to change our true nature as we grow up. But remember, real change comes from within, not from imitating others.

The story of our lives is often half-whispered and half-untold to others. People will judge us no matter what we do, so it is better not to change ourselves just to please them. Each one of us has a unique path in life. So, it is always wise to say “NO” to the diversions that may mislead or distract us from our true direction.

**KAVIYA. R - X C**

Most of us fear saying 'NO' because we don't want to hurt others. But learning to say 'NO' is the Powerful skill. It Protects our time, energy and self-respect to saying 'no' to peer pressure unhealthy habits, or unfair expectations is hard Strength and courage. It teaches us to prioritize what truly matters. After all, saying no to the wrong things allows us to say a big 'yes' to our dreams.

**L.VISALI -X C**

## ARE EXAMS THE ONLY WAY TO JUDGE US?

Examinations have long been regarded as the ultimate test of knowledge and ability. They are meant to measure what students have learned and how well they can apply it. But can a few hours in an exam hall truly reflect a person's intelligence, creativity, or potential?

The truth is, exams mostly test memory and speed rather than real understanding. Many students simply memorize facts to score well, while others who think differently may struggle under pressure. Stress. anxiety, or even one bad day can affect our performance, making exams an incomplete tool of judgement.

Education, however, is much more than marks on a paper. Skills such as creativity, problem-solving, leadership, team work and communication cannot be captured by written tests. Continuous assessments, projects, group discussion, and practical application provide a fuller picture of a learner’s ability.

This does not mean exams should be discarded. They still serve as useful benchmarks. But they should not be the only way to judge. A balanced approach that combines exams with other forms of evaluation would create a fairer, more holistic education system.

In the end, life does reward us for how well we write in three hours-it rewards us for how well our knowledge, skills and values are used in real world.

**R. JASHVITHA – X B**

Examinations have long been seen as the ultimate yardstick to measure a student's ability. They test memory, accuracy, and speed - but do they truly reflect our knowledge and potential?

Exams often focus on what we remember for a short time, rather than what we actually understand. I student who excels in arts, sports, communication, or problem-solving may not always shine in a written test. Does that mean they lack talent? Certainly not.

True education is about nurturing creativity, critical thinking and real-world skills. Activities like debates, projects, practicals, teamwork and continuous assessments can show a much clearer picture of student's capabilities. After all, life is not a three-hour test - it’s a continuous process of learning, applying and growing

So, while exams may remain one tool of evaluation, they should not be the only way to judge us. Every student has unique strengths that deserve recognition beyond the answer sheets.

**S. ABIRAM - X B**

Exams have always been a part of a student’s life. They are meant to test our knowledge and understanding of what we have studied. But the question is, are exams the only way to judge us? I don't think so.

Exams usually test how much we can remember and write in a few hours. A student who is good at learning by heart may do well, but someone who is creative at making something or good in sports may not score high. This doesn't mean that the second student is less talented. In fact, real-life needs many skills like problem solving, communication & confidence which exams don't measure.

At the same time, we can't deny that exams are useful. They make us study seriously, compare our progress and give teacher a common way to test student. But depending on only exams is unfair. Project, activities, PPT and practical work should also be included to judge a student better.

In conclusion, exams are important, but they are the only way to judge us. Every student has different talents and a true education system should recognize all kinds of abilities and not just the exam marks.

**MAGESH - X B**

"I got a 100!" I jumped with joy.

But the 60 hid under the desk with my skates.

I never found the courage to put it on top.

Flaws were emphasized,

Victories overlooked.

"Live up to expectations"

Expectations measured in numbers.

They never knew it was all about knowledge,

Not about marks, grades, or ranks.

"I want to make them proud."

Should it only be through my marks?

Should I be judged solely by exams,

Where minds become vaults of facts,

Not wings of thought?

The wisdom of action remains an open question.

The herd mentality never left society,

Wanting everyone to fit into the endless loop,

Where exams are the soul,

And ranks are the shadows that follow.

Schools don't mould you, they guide you.

Marks don't define you, you do.

Knowledge cannot be owned by numbers.

Judgment is a candle in a storm.

Live your life driven by passion!

**DIKSHA SETHY – X A**

**TEENAGE: A ROLLERCOASTER RIDE**

Life is like the flow of a river. A guided life can follow the path of success. Along its course, the river splits into tributaries and distributaries, which we can compare to the teenage or adolescent stage of human life. This stage is common and faced by everyone. During this period, you encounter various challenges, body changes, and responsibilities related to school or college.

It is crucial to plan for your future, focus on studies, and avoid distractions. Distractions can affect your mind, increase stress, and create peer pressure. Common distractions include addiction to social media, excessive use of gadgets, bad company or friendships, and school infatuations due to hormonal changes

During school life, it is helpful to set future goals early, plan for board exams, and prepare for competitive exams that will help you achieve your dream college. As the saying goes, “An early bird catches its prey.” Start preparing early to reach your goals sooner. Persistence is key in whatever you do. Believe in yourself, understand your strengths, value yourself, and always share your thoughts with your parents. Take responsibility for your actions and avoid depending on others for what you are accountable for.

Teenage life can be full of ups and downs: butterflies in your stomach, headaches while studying, mood swings, and occasional depression. But everything has a solution. You can control yourself. Keep your butterflies under control, focus on studies, and turn challenges into achievements. Mood swings are normal, so aim to stay*physically and mentally stable. Only you can truly understand your situation. Life at this stage is like a rollercoaster, adventurous, thrilling, and enjoyable, if you know your limits.

My dream is to study medicine, and I aim to crack NEET and secure an AIR between 1–50 to get a free seat at AIIMS Delhi for the MBBS course of 5.5 years. I have faced challenges like peer pressure and poor time management. But once I reflected on my mistakes, I understood what I had to do. I started preparing seriously, giving 100% effort in everything I do, without worrying about the past or imagining the future. My stress has reduced, and I feel relieved.

During this period, I have enjoyed school life with my friends and family, always shared everything with my parents, and embraced life fully. I like myself, I have courage, and I know I can do it. The same goes for you- enjoy every moment of life and don’t miss any part of it!

**DHANYA SWAMINATHAN – X A**

Sometimes, being a teenager feels like sitting in the front car of a rollercoaster you're sure you didn't sign up for. Your hands, clutch the edges of your seat, knuckles white, stomach lurching in ways you didn't think possible, and the track disappears around corners that seem to appear out of nowhere. One moment, laughter spills from you like sunlight caught in a broken prism, scattering over everybody nearby; the next, a single look, a single word, and your heart sinks, your limbs feel weighted with something you can't quite name, and even breathing seems difficult, reluctant, like sticky syrup that simply refuses to slide down.

Everything matters, and nothing does, all at once. Friendships often feel like spun sugar-gossamer, glittering, impossibly sweet on your tongue, and yet collapsing the moment the air grows damp. You hold them tenderly, terrified of pressing too hard, because it only takes one pause too long, one syllable sharpened into something cruel, for the whole structure to crumble in your hands. Success is no sturdier. It glimmers, yes, but like dew on the grass, it shines when you look at it, then evaporates before you can believe it was ever real. And through it all, your own thoughts claw at you, prowling like caged things in your ribs, reminding you with each steady thud of your pulse that you are still here, still shivering.

And yet, there is beauty, isn't there? The falls leave marks sometimes purple, sometimes invisible-but each insists that you've risen again. Joy doesn't last, but it burns all the brighter because of its brevity. Choices-rash or careful-press their weight into you, leaving faint traces in the terrain of who you are becoming. Slowly, you begin to notice it in others too-the hairline cracks, the hidden dips in their own rides-and the -realization settles over you like fragile mercy: none of us make it through unscathed.

Sometimes, the bravest thing is to release your tight grip, to let the momentum carry you even when your stomach drops. And every so often, the frenzy stills. The track smoothens, the air turns gentle, and for the length of a heartbeat, you are no longer fractured, but whole.

Perhaps that's what these years are: not chaos for chaos's sake, but the way disorder shapes you into something you wouldn’t have chosen, and yet can't imagine undoing. A choreography of collapse and rising, of laughter torn through tears of silence heavy with meaning. And when the ride slows at last, do you realize you've survived it, and that survival Itself-wild, imperfect, pulse-loud, is the closest thing to grace you'll ever be given?

**MEHREEN FATHIMA - X B**

“Teenage: The Rollercoaster Ride” is not just a saying, it truly is the kind of experience every person goes through.

What is a rollercoaster ride? It’s a journey filled with ups and downs, happiness and laughter, fear and tears. And that is exactly what our teenage years feel like.

This period is one of the most important stages in a person’s life. During these years, many people feel lost or directionless. You might fall, get hurt, or even fail—but that doesn’t define you. What truly matters is your self-belief, self-control, and self-confidence, along with a spoonful of hope and a strong dose of hard work in everything you do. These are the qualities that will help you shine in life, and during your teenage years as well.

Of course, you will face many distractions and disturbances that try to pull you away from your path. But that is not a big problem, your heart and mind are your greatest guides in such situations. Learn to listen to both. Sometimes your heart may be wrong, so listen to your mind. Sometimes your mind may be wrong, so listen to your heart. But never follow those who try to lead you in the wrong direction.

Your teenage years may be challenging and confusing, but they are also beautiful and precious. So enjoy them while they last.

Live your teenage years in a good way.
Come out of them in a good way.
And shine in your life in a good way.

**B. MANASA - X C**

Teenage years are often described as a rollercoaster ride, full of ups and downs. At this stage, we undergo many changes, not only physically, but also mentally. This phase of life is a turning point, and it must be guided in a positive and optimistic direction by us.

One of the things we experience during this stage is self-discovery. We begin to ask ourselves questions like, “Who am I?”, “Who is my inspiration?”, and “Whom should I be like?” We start setting goals and planning for the future. It is important that we judge ourselves based on our own values, rather than relying on others’ opinions.

Another aspect of this phase is the joy of first experiences—the first close friendships of our teenage years, the first crush, and even first love. At the same time, we often feel caught between past memories, present situations, and future expectations. Like a piece of cloth caught on a thorn, we must be careful with our actions, as they can shape our lives. Expectations from teachers, peer pressure, parents, and relatives can often overwhelm us.

In conclusion, teenage life is indeed a rollercoaster ride, and we are its controllers. It is our responsibility to guide it in the right direction, so that our journey has more ups and fewer downs.

**HANU VARDHAN A - X C**

**THE ART OF WAITING**

Cricket is one of the most watched sports in the world, and it is filled with intense rivalries. When it comes to the World Cup or international matches, all Indians unite because they want India to win. However, when it comes to the IPL, it is never the same.

There are ten teams in the IPL, and each fan supports a different team. But one rivalry stands out above the rest- between Chennai Super Kings and Royal Challengers Bengaluru. Both teams have legendary players who have achieved great success in international cricket: M.S. Dhoni and Virat Kohli.

CSK has won five trophies, while RCB had none for many years. CSK fans often mocked RCB, Virat Kohli, and his supporters. Being Virat Kohli was never easy. People created memes and teased him, but that never stopped him from achieving greatness on the field.

RCB rarely reached the finals, yet Virat Kohli never left the team. He stayed loyal and never gave up. Even when people mocked him and his fans, they continued to believe. Virat and his fans truly symbolize loyalty.

Finally, on June 3, 2025, RCB reached the finals. The efforts of Virat and his teammates were unimaginable. When RCB finally won, Virat Kohli’s eyes were filled with tears. He became emotional, realizing that the wait was finally over.

Seventeen years of waiting had come to an end. The 18th season and his jersey number 18 made the moment even more special. Virat cried, and the entire fan base cried with him. When he said, “My soul is with Bangalore,” it melted every fan’s heart.

As he lifted the trophy, tears blurred my vision. Waiting 17 years, never giving up, and overcoming countless obstacles is not a small thing

That is the true art of waiting!

**SAI HAASINI C -X C**

**FRIENDS**

Friend, friend, my dearest friend,

I know our bond will never end.

If you sit beside me in class,

I'll be with you through every pass.

I wish our friendship reaches the sky,

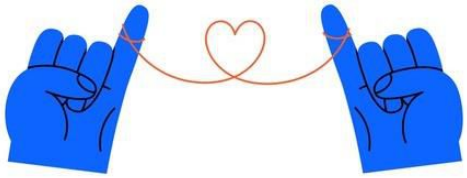
Stronger and longer than the Nile runs by.

May our bond be real, not just illusion,

And may you always be my life's solution.

**OVEYAANJALI B – X A**

**A FOREVER BOND**



Someone who makes you smile in the worst of storms,

A comrade in your wildest dreams.

One who stands by you through all that comes,

And isn't afraid to tell you when it's wrong.

Your rock when your ship's lost at sea,

Your pal forever they'll always be.

The one you trust with all your truth,

By your side from youth to age.

All your bottled joys and worries,

A confidante for all your stories.

An unbreakable bond that never shatters,

One so pure it never scatters.

Your partner in crime, in rain or shine,

An amigo till the end of time.

**M.S. MAUKTHIKA MARI - X A**

**THE BEAUTY YOU NEVER SAW**

The sun that rose earlier

Just to give me an inevitable

Vision of yours

Your visage that glimmered

While the moon questioned

Its existence

A gentle upturn of your soul

That swept all my miseries

Not the charming daylight

That could match the dazzle

In your eyes

Nor the luminous pearl of dusk

That matched your beauty

The dancing oceans that

Inquired their depth

While gazing at your eyes

It was all about you

Until the last breath of light

**DIKSHA SETHY – X A**

**MY DEAREST FRIEND**

How lucky am I,

To get a friend like you!

My precious garden of happiness

Is made by you.

You make my lips curve into

A smile in the ocean of sadness

You laugh with me, you cry with me

In the end, you never leave me,

All our fights are the ones

Which made our friendship strong

You are the brightest star in my universe

Without you, nothing in this world

Seems precious to me…

**R. ABHIRAAMI - XI C**

**KINDNESS**

The kind of impact I want to make in this non-affectionate generation is through kindness. Just think of moments when you acted kindly towards others, it makes you feel good, right? Those moments are truly heart-warming, even if they are small. It may be the time you helped an elderly person cross the road, helped your mother with household chores, or helped a friend understand a topic. Even if it is a small act, when people appreciate you or say they are thankful, it fills us with happiness.

Kindness comes from within. By being kind to others, we can make not only ourselves happy but also those around us. When someone is struggling with anxiety or depression, simply making them feel safe and supported can even save them from harmful thoughts like suicide or self-harm. We can change someone's perspective just by being kind.

Even money cannot bring the kind of happiness that kindness gives us. When we talk about kindness, we should treat everyone equally. There should be no partiality among human beings. Even animals and birds deserve kindness. By being kind, we can win people's hearts.

Imagine being extremely wealthy but lacking kindness and a good heart, it is absolutely meaningless. The impact I want to create in this world is to bring change. Parents work very hard for their children, but sometimes forget to show kindness towards them. Nowadays, many children deal with depression and anxiety. A lack of kindness is passed on through generations, making people more cruel and aggressive.

One of the biggest challenges people face is a lack of confidence. Being kind and encouraging others can help them feel comfortable and overcome their problems. My greatest aim is to serve people in orphanages and show them kindness. I am happy that I am capable of making others happy, and I will continue to do so throughout my life. I also hope to inspire others to show kindness to fellow human beings, so that together we can beautify our world..

**N. JAISHREE - XI C**

## IS INDIA TRULY A YOUTH – DRIVEN NATION?

India, with over 1.4 billion people, nearly 65% of its population is below the age of 35, and around 50% is under 25 years old. At the first glance, this demographic advantage suggests that India is truly a youth-driven nation. But the real question is "ARE WE TRULY HARNESSING THE POWER OF OUR YOUTH?"

**The potential of a young population**

The rise of technology – driven start-ups, such as Paytm, Ola and Zomato, has largely been spearheaded by young entrepreneur. Similarly, in sports, science and arts, young Indians have demonstrated excellence.

**Barriers to becoming truly youth-driven**

The nation faces serious challenges:

- Unemployment and Under-employment
- Educational Inequalities
- Migration of Talent
- Political Representation
- Mental health and Emotional well – being
- Social and Cultural pressures
- Weak ecosystem for Innovation and Start-ups

**Conclusion**

India will be youth – driven not because of its numbers, but because of the opportunities it extends to its youth and the trust it places in their potential.

**N. BHUVANYA -XI C**

India is a diverse nation that accommodates both the young and the elderly. Although the country is filled with bright young minds that will shape the future of the nation, power does not currently lie with the youth. Instead, it rests with more conservative minds that attempt to bring modern changes using traditional methods.

There is no doubt that when the nation is driven by capable and right-minded youth, economic growth and development will significantly increase. For this to happen, young people must be given opportunities to showcase their innovative ideas, even through simple science projects. The ability to express and communicate thoughts plays a vital role in shaping the mindset of the youth. With the facilities available today, it has become easier for individuals to share their ideas with the public. Support for the youth from key sectors such as the government can ensure positive change in the coming years. The youth of India are capable of transforming society; thus, the nation can grow as a whole. However, such support is not always present. Often, young people's ideas are dismissed without being tested, or simply ignored.

This may be one of the reasons why India is developing at a comparatively slower rate. The political structure of our country, though democratic in name, is not as perfect as it appears. Internal corruption and other issues make it easier for political parties to win elections or promote close associates as representatives. These representatives may not always have the capability or guidance required to hold power effectively.

Therefore, society must recognize these issues and make informed decisions. Citizens, especially the youth, have a significant impact on the government. With their collective effort, awareness, and participation, the youth can bring meaningful change.

To conclude, whether or not the nation is currently led by the youth, with the right opportunities and support, rapid development in India is certainly achievable in the coming generations.

**VARSHAA. R - XI C**

India is considered one of the largest democratic countries. It consists of a population of more than 140 crore and is highly diverse in religious and cultural aspects. In today's world, youngsters play an important role in the development of a nation. They have the power to change the economic condition of a country, as most young people have infinite ideas to solve problems faced by citizens in daily life. They can improve their methods and thoughts easily through technology as well.

But, in the case of India, the involvement of youth in political, educational, social, and other areas is comparatively lower than in other developed countries. It is one of the main reasons why India is still a developing country. Secondly, youngsters are considered irresponsible, and most of their innovations and creative ideas are ultimately crushed. They should be involved in decision-making by the government.

To conclude, if the young minds of India are used in the right way, India can become a developed country. India's future lies in the hands of future generations. Today's youngsters are distracted in many ways, which impacts their development as well as our nation's development. Many of them are career-oriented and lack patriotism. If they see India as their own country, they will not leave it to serve other countries.

Every Indian youth should be responsible for their actions and think about India's future development. For this to happen, they should be aware of the current condition of India.

**ROHINISHREE.L – XI C**

India is often called a land of opportunities and at the heart of this potential lies its youth power with nearly 65% of its population under the age of 35, India is one of the youngest nations in the world. This demographic advantage makes India a country where the youth are not only the present, but also the strongest drivers of the future.

**Youth as a Driving force.**

In addition, the youth of India are playing a vital role in sharing the country's future. From technology and start ups to sports, politics and social service, young Indians are stepping forward with new ideas, bold inventions and strong determination.

**Youth in nation building**.

In addition, the younger generation is socially aware and active. They raise their voices for equality environment and justice, proving that they are not just dreamers but also change makers. Their involvement in education skill development and community service reflects their commitment to building a stronger India.

**Challenges Ahead.**

However, this potential also comes with responsibility. The future of India depends on how its youth channel their energy towards unity, hard work and positive growth. If guided properly, India's youth can transform the nation into a super power tomorrow.

**Conclusion.**

In conclusion, India is undoubtedly a youth- driven nation, with its passion, knowledge and vision. The youth stand as the backbone of progress and the torchbearers of a brighter tomorrow.

**S. DAKSHATA - XI C**

## BALANCING DREAMS AND PARENTAL EXPECTATION

Every person grows up with dreams, a vision of who they want to be and what they want to achieve. At the same time, parents often have expectations for their children, shaped by love and life experience. Navigating between these forces can feel like walking on a tightrope: one step toward freedom, another toward family responsibility.

As the writer Khalil Gibran said, ***"Your children are not your children. They are the sons and daughters of life's longing for itself."*** Parents wish to protect their children from hardships, while children seek fulfillment through authenticity. Children need to express their aspirations clearly, while parents should listen with understanding.

Open conversations between parents and children can bridge this gap. Parents must acknowledge the changing world and trust in their child's potential. When parental guidance and personal dreams converge, they create a strong and stable foundation.

As a proverb wisely says, ***"Don't just treat your children how you want to be treated; treat them how you would have wanted to be treated at that age."***

In the end, balancing dreams and parental expectations is not about choosing one over the other, but about creating a path where passion and love walk side by side.

**M.RISHITHAA - XI C**

Balancing your dreams with your parents' expectations can be tricky, but it's possible with understanding. Parents should support, rather than impose their wishes. Forcing children to follow a path they don't choose isn't good parenting.

Children should know what is right and wrong and be encouraged to follow the right path while chasing their dreams. Parents can be a strong support system, helping their children achieve big goals without pressure.

Managing studies along with extracurricular activities may feel like pressure, but it's not a burden, it's an opportunity to grow. Chase your dreams joyfully, embrace challenges, create memories, and be proud of what you do.

Remember: Dream big, work hard, and enjoy the journey.

**YATHEESHWAR D - XI D**

Every student who dreams big in sports often faces a situation where they struggle to meet their parents' expectations.

The major challenges young sportspersons face are time management and distractions. Most parents expect their children to score high marks in academics, while excelling in sports requires dedicated time and consistent practice. Balancing both responsibilities can be tough, and this is where effective time management becomes essential.

**Time Management and Distraction**

Dreaming big is never a fault, but not knowing how to achieve it is. As students, we face many distractions like friends, chitchats, and mobile phones. If you truly want to succeed, learn to cut off distractions and focus on your goals.

Plan your time wisely, wake up early, study before and after practice, and use weekends smartly. It may be tough, but the results will bring immense joy and pride. Remember, your dreams and your parents' expectations are both important.

Work hard now, and the pain of today will become the pride of tomorrow.

Dream big, stay consistent, make your parents proud, and achieve greatness!

**MIRACLIN JANET GRACE - XI D**

I dream with passion, yet they dismiss as distraction
Trapped in between-I'm half dreamer, half child;
Marks, they say, are the ink that decides fate,
But, to me, it's just numbers, too weak to dictate.

My heart yearns beyond the limits,
Yet they confine it with grades and critics.
Almost feeling like a caged star,
I wonder – "Will I ever prove myself, near or far?"

Though burdened by their pressure and hope,
I seek my beacon, the only way to cope.
Anxious beneath their silent expectations,
I'm half bird, half cage, lost in imaginations.

Between the stars I choose, and the path they choose,
A silent fire within makes me muse,
I see a path still unclear,
Yet, an unwritten chapter awaits me here.

**GURU SHIVA PRIYA – XI C**

**THE KIND OF IMPACT I WANT TO MAKE**

I don't dream of being great or having my name remembered. What I want is much smaller, to make a difference, even if it's quiet.

If someone falls,

I want to be the one who notices, the one who doesn't walk away.

If someone feels lost,

I'd like to be the spark, a small light that reminds them they are not alone.

If one person smiles brighter, because of me, then that will make me happier

When people think of me someday,

I want them to remember

That I tried to be kind

That I left a little courage behind,

And that I cared in the smallest ways.

That's the kind of impact I want to make.

**DIVIYA DHARSHINI.R -XI C**

When we think about the word impact, our mind often goes to great leaders, freedom fighters or world famous personalities. But the truth is, impact is not always about doing something huge, it's about how much we can touch the lives of others in our own unique way. Each of us has the power to make difference, and I strongly believe that my journey too can leave behind an impact worth remembering. I want to be someone who reminds others that humanity and empathy are just as important as intelligence and hardwork.

**Small steps, big change**

I have realized that even small actions can make a lasting difference. Smiling at someone who is feeling low, helping the classmates in studies, or standing up against bullying in school may seem like little things, but they have a huge impact. These actions create a chain reaction-one good deed inspires another, and soon, an atmosphere of positivity spread. I dream of being a person who can spread this positivity wherever I go.

**A bigger purpose**

Beyond school, when I think of my future, I imagine myself working for a cause larger than myself. I want to dedicate a part of my life to uplifting others. "India is a country with a strong youth population. If each of us contributes in our own way, we can truly transform our nation into a better, stronger, and kinder place. I want to play a small part in making this big change possible."

**Inspiring others**

"The greatest impact one can make is to inspire others. Inspiration spreads like light. The world is waiting for dreamers and doers, and I wish to be both, a dreamer who works hard to make it real.

'Dream, dream, dream. Dreams transform into thoughts, and thoughts result in action.' - A. P. J. Abdul Kalam.

**K.SHREE NISHA - XI C**

In every classroom, students carry countless questions but often lack the right environment to express them. At the same time, teachers hold expectations that remain unfulfilled without open communication. Bridging this gap is the impact I want to make.

Teachers must create a safe and encouraging space where curiosity is welcomed and students feel confident to ask questions.

Students, too, must ask meaningful and knowledge-driven questions. Such questions have the power to fuel discoveries, revolutions, and societal change.

The change I seek is simple: to transform classrooms from places of silence into spaces of curiosity and dialogue. By nurturing questioning minds, we do more than teach facts—we create future thinkers, innovators, and leaders.

This is the kind of impact I want to make.

**SAILAKSHMI.S - XI C**

Like every student I have many dreams for my future. I believe that life is not just about living for myself but about creating a difference in the world around me.

I want to achieve big in my life. My dream is to start a business of my own and become a successful entrepreneur. For me, business is not only about making money, but also creating opportunities for others who struggle to grow in life. I have to build something that gives jobs, supports families and inspires the younger generation or teenagers chase their fear.

At the same time, I know that impact is not only about the future. Even now as a student, I try to motivate my friends, respect elders and take responsibilities seriously. Small acts of kindness, discipline and patience can create a strong impact in my life.

The kind of impact I want to make is that I wanted to be remembered as someone who worked hard, stayed genuine and lifted others along with me. I want to prove that success is not just about personal growth, but about how much we help others grow with us.

The book, " Wings of Fire" by Dr. A. P. J. Abdul Kalam has a famous quote: “Dream, dream, dream. Dreams transform into thoughts, and thoughts result in action.” This quote is the one thing that motivates me to face failures.

**B. HARISH - XI C**

**BEING ME**

Being me is something so easy

And so tough at the same time,

I am not so perfect yet so beautiful

Justifying my soul to this world full

Of cruelty is not my job,

I don’t need anybody to verify me

I am just me, craving to be free

My precious soul is precious to me

My real happiness is 'Being Me.'

**MADHUMITHA.K – XI C**

**TEENAGE DEPRESSION – CAUSES AND HOW TO COME OUT OF IT!**

In today’s world, a word that keeps repeating from each and every corner is “Depression”. This term became so popular during the pandemic and even now, among teenagers, adults, and old people. A 3-generation crisis. But hearing it from teenagers is quite shocking. An adult who is leading a family, going to a job, paying his home loan, spending hours and hours in front of a computer screen just to fulfil all of his commitments, sacrificing his/her dreams to make someone else’s dream a reality, experiences deep stress. This leads to huge trauma, disliking social interactions, feeling hopeless and lonely, and thinking that nothing happens for good. This feeling of negativity is called depression.

Now, you may think, “Why is a teenager using that term?” But wait, not every kid has the same life, and not every kid has a bad past—it depends. But now, this spreads worse than COVID, which makes us think, “Looks like everyone needs a therapist,” right? So, what is the scenario of a student? Waking up early, getting ready for school, listening to a teacher who teaches something he/she doesn’t like, coping with studies, sacrificing sports for extra JEE/NEET coaching to get into IIT or AIIMS just to satisfy parents’ so-called “expectations”, securing a future which we have no idea about, dealing with peer pressure, extracurricular activities—and the list continues to go on. My goodness, even a miner would have no idea how to carry this much burden. Just imagine, everything may explode when everything comes at just one second.

If that teenager fails to do one such thing, he/she is doomed. Scolding from parents, teachers, mockery by so-called friends. This lack of confidence, low self-esteem, and low hopes eventually leads to depression, right? Yes, it does. On top of this, something called “Teenage love” has become a compulsion for every teenager—if he does not have someone, he’s not cool.

By this kind of pressure, he/she expresses their feelings to that person. If that person rejects him/her, a crazy teenage mind will think about suicide or addiction, as shown in most films, and he/she does something which leads to losing life. This kind of trauma will lead to losing interest, low

self-esteem, a huge downfall in academics, and sudden mood swings will create a rampaging state of mind and emotions.

Ok, let's look at a positive aspect. Imagine that person accepts it, then that teenager will forget the entire world, spend a lot of time chatting, forgetting he/she is a student going to school. Shockingly, one of my friends told me that a boy used drugs and cut his hand to show his love to that girl. Shocking, right? This is another scenario, but everything has one result, "ultimate destruction of one's life." Most of them are influenced by the movie called Dragon, where the hero succeeds in his life after a break-up. A real-life example, Hardik Pandya, who got divorced and won the T20 World Cup. But they are not realizing that one is just a story and the other person has enough money for his next three generations.

Ok, let's get to know how we can come out of it. First thing, make your parents understand what your aspirations and dreams are. Second, understand that what you feel right now is just infatuation and not true love, and it's not the right age to get into a relationship. Read a lot of books, gain knowledge, have fun with your friends, and never forget about your studies because without them, you're nothing less than an illiterate human being.

You don't have a society to impress,

You have a family to love!

**SHREERAM.B – XI C**

**THE MOMENTS THAT MADE ME WHO I AM!!!**

When I was studying in 8th standard, I was an ordinary boy with no experience in sports or extracurricular activities. One day, my P.E. teacher came to my class in search of a student who had good stamina for long-distance running. He selected five students from my class, and I was one of them.

During the testing, I was found to have strong stamina and was selected for athletics. At that time, I had no knowledge of athletics, but I still participated in the 600 meters race and won a silver medal. Over the next two years, I gained experience and improved my performance. Now, I am 16 years old, and I have won 31 medals in the past three years, including intra-school competitions.

The moment I won a silver medal at the Zonal level made me realize that I had the inner potential to push my limits and compete in even tougher competitions.

**SRINATH.R - XI-C**

In my life a person who changed me the most would be my big little brother. A crazy person who changed my meaning of life. It's not very big but it was able to change my view of my perspective on life.

He made me realise how life should really be lived, enjoying every second. He taught me not only how to enjoy life but also how to live my life practically and theoretically. I am not talented as my brother when it comes to speaking or dancing, but what I am really good at, is my studies and singing. Whenever I feel like I am drowning in darkness, he is the light who makes my day and saves me.

He may be far from my home, but we are siblings, we are always together at heart. Whenever I lose hope in my dreams, he cheers me up. His smile is enough to make my day. Whenever I feel low, he gives me advice. He is not just my little brother but he is more like my best friend. He is like a twin who can understand the other twin's feelings. He is not just my brother, but also an angel to me. Thank you my well -wisher, my brother-REMY.

**SHRAVANI.M – XI C**

Every individual meets many people in their lifetime, but only a few leave an everlasting mark. For me, the person who changed my life is my uncle. His guidance, love and inspiration have shaped me into the person I am today. From the beginning, he has been my constant source of strength. He believed in me even when I doubted myself. Through his words and actions, I learned the values of

patience, kindness and hard work. Whenever I faced difficulties, he encouraged me not to give up, but to try again with greater determination.

One of the greatest lessons I learned from him is that success is not only about achievements, but also about the attitude we carry in life.

I can proudly say that without his presence, my journey would have been very different. The person who changed my life is more than just a guide; he is a role model and a blessing. Their influence continues to inspire me every day and I hope that I will make him proud one day.

**R.R. SHALINI - XI C**

Ever since I started reading the column "Ever Since" in infini thoughts, I understood that problems in my life are nothing compared to the problems faced by Mahatria. His way of handling problems taught me how to face my problems.

His teachings gave me the courage and confidence to face life. When I heard his speeches, it transformed me from a pessimist to an optimist.

When I failed in my examination, I was highly disturbed. But his teaching "Draw a line to the past, yesterday ended with yesterday, today is a new day," gave me a new life. His words of love taught me how to love people around me.

**R.B. ROSHAN -XI C**

A friend like you, a treasure rare,
Changed my life with love to share.
In times of need, you lent a hand
And helped me stand in a troubled land.

You healed the wounds that wouldn't mend
With kindness, love, and care, my friend.
Your presence soothed my soul's dark night
And brought me peace in the morning light.

Your words, a balm that calmed my fears,
Your support, a shelter through all my tears.
You helped me heal and find my way,
And for that, I'll thank you every day.

In your arms, I found a safe haven,
A place to heal and be forgiven.
You saw me broken and still chose to stay,
And with your love, you showed me a brand-new way.

**M.HASINI - XI C**

**FANTASY IN CRICKET**

Cricket is a sport where players put in pride, emotion, and mental strength. It is not just a game, it is much more. Cricket is challenging, especially when a bowler delivers a ball at 130–140 km/hr, moving like thunder in a fraction of a second.

Many viewers may think cricket is easy, but players undergo rigorous fitness tests like the Yo-Yo test to maintain peak physical condition. The workload is particularly high for players who compete in all three formats, and they must maintain their fitness until retirement. While some watch cricket for fun or as a pastime, I watch matches with strategic knowledge, remembering jersey numbers, players' names, and match scenarios.

Cricket is an intense game, requiring stamina, energy, and focus. In India, it is not just a game; it is considered a religion. Indian cricketers are seen as role models and sources of inspiration. Cricket in India is a celebration, bringing people together across the country.

However, cricket has also faced dark moments. One such tragedy was when Philip Hughes died on the field after being struck by a ball from Jhye Richardson, during an Australia match. Following this, in a New Zealand vs. West Indies Test, no bowler bowled aggressively, and players refrained from celebrating wickets.

Cricket has also faced controversies:

Ball Tampering (2017): Australian players David Warner, Peter Handscomb, and Steve Smith were banned by the Australian Cricket Board during the AUS vs SA match in South Africa.

Match Fixing: In 1983, India won the World Cup under Kapil Dev's captaincy. Years later, reports surfaced of Indian players being involved in match-fixing, leading to Mohammed Azharuddin's arrest.

:

Cricket is an exciting and unpredictable game. It is about more than money or fame, you can never predict the winner before the match. My wish is that every country in the world embraces cricket, making it a global celebration.

**SARAVANAN – XI D**

**BUSINESS TACTICS BEHIND IPL**

***"Bids rise, cash flows, hammer hits hard***

***All just for the sake of entertainment…***

The world's richest league is no longer just about entertainment. Since its inception as the world's first T20 franchise league, it has grown from strength to strength, expanding beyond the field to create global business opportunities, with team owners acquiring franchises around the world.

With viewership increasing each day and sponsorships flooding in, the IPL stands as a perfect example of how an initiative designed for grassroots development has evolved into a marketing and business empire.

All the franchises are worth thousands of crores, driven by their massive fan bases, iconic players, and powerful sponsors. The entry of the Lucknow Super Giants, with an investment of 1000 crore, is proof of how deeply business influences the league.

**How Business and Politics Interfere in it?**

Every franchise is backed by a chain of sponsors who view the IPL as a golden platform for advertising, thanks to its massive popularity. Star players endorsing brands add even greater value to these partnerships.

However, the league has also seen moments of controversy. Issues like political influence and match-fixing allegations, though rarely made public, have occasionally raised questions about the sport's authenticity. The involvement of Jay Shah, ICC Chairman and son of Union Minister Amit Shah, has also drawn public attention and debate. Through it all, one thing is clear, IPL has redefined the boundaries of cricket. Team owners have built not just franchises, but empires.

From Entertainment to Entrepreneurship, the IPL has changed the course of cricket…

**ANANTHA NARAYANAN. S - XI D**

**REVOLUTION OF PHYSICS AND ITS GREAT INVENTIONS**

Physics, a word that defines everything including outside the universe and beyond. It was derived from the word “physis” from Greek. The physics story mainly started with Sir Isaac Newton and his theory of gravity. But the most important invention by Newton was calculus. When Newton was thinking about the Earth-Moon problem, he found that normal calculations couldn’t predict the correct values, so he invented calculus.

In classical physics, not only Newton, but many great people like Descartes, Bernoulli, Galileo, etc., dedicated their lives to physics. But we should also not forget Euler and Gauss — they solved many equations. And Navier, the key mind behind the evolution of Navier–Stokes Equations — without these equations, nothing can fly with high accuracy in aerodynamics. High accuracy means it solves problems to a great extent. But it is one of the seven Millennium Prize Problems, meaning it is not fully solved in all cases. If you solve it, you can win one million dollars.

Then came Nikola Tesla, the man of inventions (or God of Electricity). With his inventions, he could make artificial earthquakes, wireless communication, and even destructive electrical weapons. He could handle millions of volts, like lightning strikes, in his lab.

It is too big to tell the full history of physics. Then came James Clerk Maxwell, the pro of electrodynamics. His formulas (not just one, but many) are bigger than a full page. Maxwell’s equations are the base of electrodynamics.

Particle physics is another great branch of physics. In normal physics, we learn about electrons, protons, etc. But in particle physics, there are so many particles like quarks (6 types: up, down, top, bottom, strange, charm), tau, muon, neutrinos, positrons, hypothetical particles like tachyons, and many subdivisions.

The God-level research centre is called CERN in Switzerland. They turned mercury into gold using magnetic proton dissociation and nuclear fusion. Not only particles — particle physics is vast. This is just the basics. There is so much more.

## QUANTIUM PHYSICS

### Quantum Physics and its Key Members

Quantum physics has completely changed the way we understand physics. It introduced a new set of rules. Some of the main contributors to Quantum Mechanics (QM) are Erwin Schrödinger, Werner Heisenberg, Louis de Broglie, and Richard Feynman.

My biggest inspiration in QM is Richard Feynman because, despite having an IQ often said to be around 120, he mastered some of the toughest concepts. Quantum mechanics heavily uses mathematics to describe nature. As Feynman said, “I was an ordinary person who studied hard. There are no miracle people; they just got interested in this subject.”

Schrödinger equation tells the nature of particles. Quantum Mechanics is not completed. Not like classical physics, quantum physics is not able to fully finish topics like quantum gravity, not able to go beyond hydrogen and hydrogen-related elements. It is only able to find the probability of finding the particle’s position using Heisenberg’s uncertainty. And mainly one of the most famous and toughest integrals — path integral.

Quantum mechanics also explains that particles like photons exhibit wave–particle duality, supported by de Broglie’s ideas. The most comprehensive theory we have for particle physics is the (SLM) Standard Lagrangian Model, which describes the fundamental particles and their interactions.

Scientists like William Rowan Hamilton and Joseph-Louis Lagrange developed important mathematical frameworks that later influenced quantum mechanics. They are one of the important persons in Quantum Mechanics. A key constant in quantum physics is Planck constant ($h \approx 6.626 \times 10^{-34}$ J·s), which relates the energy of a photon to its frequency.

At last, physics is everything including chemistry and biology in science. Without physics, we can’t live or do anything. So many people live their life for physics. We must improve physics. At last, “Physics is everything.”

**PRITHVIRAJ.K – XI C**

## THE MIND OF THE MAN – IS THE MAN

### The Mind of Man – Is the Man

What is the mind? Is it intellectual, or is it spiritual? It can be both, but it depends on what you tune it with. It is mostly filled with thoughts—sometimes logical, sometimes practical, or even sometimes delusional.

For something like the mind, being powerful enough to decide your actions, how is it fed? Does a person's mind control their actions, or does the person control their mind? Perhaps let us use our mind to think deeply about it.

Every time a person decides to become productive, what makes them procrastinate? Our mind. But it is to be noted that the mind was the one to decide to be productive in the first place. So it certainly is in our hands to shape our mind.

In a mind filled with a dominating, humongous strain of thoughts, positive or negative, filter out the ray of light and set aside the darkness. But never let your mind control your thoughts. You must control what your mind wants to control.

It is solely your responsibility—be the king of your mind's actions, and let them always be right.

**Netra Jayaraman XI A**

## ROLE OF THE YOUTH – UPHOLDING CULTURE & TRADITION

India is a country rich in culture and tradition. Different regions of India have different cultures and traditions, each of which shows our unity in diversity. Culture and tradition tell a lot about our nation, which form the identity of a country. From ancient times till now, India has been known for its unique culture and traditions. They make India colourful and rich.

As citizens of this nation, it is our duty to uphold these cultures and traditions. The youth of the nation must take these matters into their hands and should proudly carry our heritage. They should be ambassadors of culture and tradition. They should work together to remove negativities and spread the richness and positivity of our culture and traditions.

Superstitions must be broken down. Every youth should feel proud, not ashamed, of their own culture and tradition. They should work together to overcome struggles, stereotypes, and differences, and bring pride and glory to the nation.

Modern times should not change our culture and tradition in this world—they should only improve them.

**S. A. Akshaya XI B**

As the youth of this flourishing nation, we have a big role in upholding the culture and traditions of our country. India is a country with a great heritage of culture and traditions. As the youth of India, we should make sure to keep our culture and traditions alive.

Tradition is the root that connects us to our ancestors, shaping our identity and values. In today's fast-changing world, the responsibility of protecting and carrying forward this heritage lies largely in the hands of the youth. While embracing technology and modern ideas, the youth can blend tradition with innovation—for example, using social media to spread awareness about cultural values.

**Shivani A – IX C**

Being brought up in a household that taught me the richest thing you can give your children and the younger generation is culture; I grew up valuing my roots. My father always said that I should be strong in my mother tongue. He introduced me to Tamil scriptures and taught me *Thirukkural*

when I was just four. My mother, too, ensured that I understood the value of traditions passed down through generations. Her constant efforts shaped my love for my culture.
I remember, as a child, asking my father why we visited our ancestral town every vacation. He replied that being connected to our roots and being proud of them is a silent way of showing gratitude to our ancestors. That was the first time I heard the word *gratitude*. I reflected on it for a long time and eventually made it a part of my lifestyle, just as my father had.
I realized that I did not learn the value of culture through textbooks or long lectures, but through the small gestures of my parents. These subtle acts instilled in me a sense of pride and belonging. Even NSN played a significant role by celebrating festivals all year round and representing every culture with pride.
As said, shimmering gold and material wealth are not what you should pass on to your children. What truly matters is your culture — the greatest inheritance of all.

**S. M. Harini – XI D**

## TRANSITIONS – A MUST OF LIFE

Transition is a must in our life. It helps us grow, even though it is difficult to go through. We endure a lot of changes, especially during our growing years. For example, learning to ride a bicycle is not easy, as we often get hurt many times. But learning to ride is an essential part of life. Therefore, it is important to understand that growth and change are two parallel lines.
There are many transitions we need to go through in life. Going past our teenage years is one of the most challenging ones. We experience new things and make important decisions, such as choosing a path, a job, and so on.
So, don't hesitate to change—it helps you grow.

***Shivani Devi – XI A***

Life is not a straight line. It is a journey marked by countless shifts, changes, and transformations. These turning points, whether small or life-changing, are called transitions. They may come in the form of moving to a new class, finding new relationships, adapting to new circumstances, etc. From childhood to teenage years, from old to new friends, every stage brings transitions. At first, they may seem difficult, but they are actually stepping stones to growth.
Transitions teach us to be strong, hopeful, and flexible. They remind us that nothing is permanent in life. Success and failure, joy and sorrow—everything comes and goes. What truly matters is how we face these challenges. Instead of fearing them, we should welcome them as opportunities. Every ending leads to a new beginning, and every beginning helps us to become wiser and stronger. Transitions challenge our comfort zones and force us to discover our strength.
Change is the bridge that carries us from who we are to who we are meant to be.

**K. S. Kaveya – XI B**

Transitions are a must for life. Without transitions, a person's life cannot be determined. Transitions build character, transform people, and a good person can build a good life. Transitions can be positive or negative, depending on failures and successes.
Transitions are often difficult. Difficult roads often end in beautiful destinations. Some transitions end with success in life. Transitions are not always big; even small changes can create a big impact and lead to a transformed life. A child learns to walk and then run, for example.
Transitions can also be applied in academics. Positive transitions are always important for our growth in life. For instance, the change from Class 10 to Class 12, the change from late mornings to early mornings, or the increase of study time from 1–2 hours per day to 4–5 hours. All these are difficult changes, but they have a great impact on one's life.
So, without transitions, there are no foundations for our success in life. They are like the building blocks of a home. Basically, transitions are the willingness to grow or to move from the comfort zone to the growth zone, which leads to success in life.

**R. Mehashree**

Life is full of changes, known as transitions. These include starting school, getting a job, moving to a new place, or dealing with loss. Some transitions are exciting, while others can be challenging. But all of them are important because they help us grow, learn, and move forward in life.
Changes often feel uncomfortable because they push us out of our comfort zone. We may feel unsure or afraid, but transitions bring new experiences. Just like the changing seasons in nature, life's transitions help us develop and become stronger.
To handle transitions better, it is important to stay calm, be patient, and maintain a positive mindset. Talking to someone you trust, taking care of your mental health, and focusing on what you can learn from the change can make the process easier.

**V. Sanjana - XI C**

Life is a collection of moments – moments of joy, moments of sorrow, moments of changes, moments of transition. Transition is the shift or change from one place to another. Transitions can happen anywhere and at any time. It can happen while choosing a career, joining a workplace, building a friendship, and spending time with our loved ones. Transition is essential because it helps us improve ourselves and grow into a better individual.
A transition may be hard at the start but in the end cause it shows a better you. Transition is needed because we need to stop fixing in places we've grown out of. It helps us focus on our flaws and start fixing the aspects of life. Transitions create space for growth in all aspects of life.

You don't need a big event to cause a transition in life, small everyday things can cause transition in you. But remember – TRANSITION MUST BE FOR A BETTER YOU.

**Shrinika G - XI D**

Each and every person in this world would have undergone or might be undergoing a hard situation. But the thing which is most important is these struggles and hardships will bring a transition in the way they were before. A good transition is that when a person looks back at his/her past struggle that he or she underwent, the present should be the upgradation of the past and not degradation.
Making mistakes is human nature. But what defines us as humans is that we should rectify it and make sure it doesn't exist again. Even if it is a small learning, it brings a transition. This transition needs to start from the mind. A person is considered to be good only when his thought process is right. This helps to act in favour of the society.
At times, some people build a bad attitude because of a bad transition. These transitions occur in their life because of some bitter situations. But the truth everyone should remember is – a good transition makes you, and a bad transition breaks you.

**S. Rohita**

Transitions are inevitable parts of our lives. They help us shape our character, be a better person, maintain good relationships, and grow in all aspects.
A transition may taste bitter but it might turn our life sweet. But only good transitions are preferred, not the ones which are easy but ruin our lives.
It helps us step out of our comfort zones so that it creates a big impact in our lives. We unknowingly undergo a lot of transitions like crawling to walking, infanthood to childhood, and many more.
While we undergo these changes, we are opened up to a lot of opportunities and enabled to develop new skills. It allows us to learn from experience as we take up transitions to become better persons so we don't repeat the wrong things from the past.
So let us all make a transition in our lives so as to lead our lives better…

**T. ANGELAA**

Transformation means transcending the old formation. It only happens when the definitions are transformed. A child should not behave as a child in her adulthood—she should be mature. I understand my life is my responsibility, and no blaming is allowed. We have to accept our mistakes and should not blame anyone. A major transition in our life is realizing our mistakes and accepting them. I understand attitudes do not care where I shape them, but once shaped, they become my behaviour, either creating me or destroying me. A child should develop a well-mannered attitude. If not, his future will be destroyed. In case he is not mannered properly, development in oneself continues throughout life.
I understand transformation is my willingness to grow from the comfort zone to the growth zone through uncomfortable transitions. Dr. A. P. J. Abdul Kalam faced many challenges in his life. He struggled a lot. His life transitioned from a poor family background, and he achieved a well-groomed life of transformation, setting an example for many youngsters.
I can change myself if, and only if, I can change what goes into my mind. I will begin from where I can, and I understand that it does not matter what I do not have—what really matters is what I do have.
Give a transformation to your life, and you will attain a great future.

**R. Shree Dhuranya - XI E**

It is hard to transform, but not impossible. Transitions are essential for life to go on. My life has had transitions that were bittersweet.
A very common transition is losing your best friend while moving to a different place. What made it even worse was that neither of us had a proper opportunity to bid goodbye. It was spontaneous and very strange. In the blink of an eye, I was in a different place. Of course, I had to go to a new school and make new friends. I knew it was going to be hard, but convincing myself that it was going to be okay was something I was good at. But this time, it was different. I was not able to convince myself. It was hard to accept.
The fact that we could no longer go to school together and play hand games on our bus ride, or ride our cycles at night until our moms dragged us inside, haunted me and made me sad. But I couldn't hold my knees and cry, because that wasn't going to make things right. I had to go to school and make new friends.
Luckily, the transition was a good one. It gave me a lot of honest, good friends, which made me believe that transitions are for a good cause and also give us a new chance to start our life afresh.

**Sanjanasri Velamoor**

## LIFE LESSONS FROM SPORTS ICON

"Talent without hardwork is nothing." The Portuguese icon Cristiano Ronaldo was never meant to be born. His mother wanted to kill her own child in her womb, since their family had no money to run the household. But he was born. He went through heart surgery at the age of 11. He even used to get food from nearby McDonald's leftovers.

He then went on to play football, even though he had undergone heart surgery. He played for Sporting Lisbon, and later went to the Banff Youth Football World Cup, where he became the first and only player to win all possible individual awards in a single year.

He faced a worthy opponent—Messi. He won consecutive Ballon d'Ors. People said Ronaldo was finished. Then he made a comeback, winning Ballon d'Ors with Real Madrid in the following years—2013, 2014, 2016, 2017, and 2018—silencing his critics.

The life lesson that we should learn is this: even if you are in the deepest point on earth, you should never, ever give up.

**Srinivasa Raghavan XI B**

An athlete who has achieved great heights and lifetime achievements in life was definitely once a failure in their life. So, the life lessons that I learned from the various sports icons I love are:

**Mahendra Singh Dhoni** – He is well known for his cool behaviour and captaincy in pressurized situations.

**Hardik Pandya** – He is well known for his attitude. He showed that attitude, when expressed at the correct time, is significant and reflects your style in the game. Also, even if there are deep sorrows in personal life, there should not be any effect on the sport you play.

**Kapil Dev** – He shows me that the attitude of stubbornness can make historical changes, even when no one supports you or believes in your team.

**Rudraj Gaikwad** – He showed me that even when no one notices you or selects you for any significant matches, you should still do your best, show your fullest potential, and make them regret not selecting you.

**Yashmita S**

Sports icons inspire us not only with their skills but also with the values they display beyond the field. Among them, MS Dhoni stands out as a true role model. His journey from a small-town boy in Ranchi to India's greatest cricketer teaches life lessons that go beyond cricket.

- **Stay calm under pressure**: Dhoni is known as *Captain Cool* for a reason. Whether it was the 2007 T20 World Cup or the 2011 One Day International World Cup, he remained calm and composed. His calmness helped him to take smart decisions under pressure.
  **Life lesson:** In life, we cannot avoid stressful situations, but staying calm gives us the clarity to overcome them.
- **Lead by example**: As captain, Dhoni never asked his teammates to do something he wouldn't do himself. From keeping wickets tirelessly to finishing matches from the front, he did it all.
  **Life lesson:** Leadership is about action, not just words. People respect and follow those who show commitment and responsibility.
- **Be adaptable**: Dhoni was a master at changing strategies depending on the situation. One of the best examples was giving Joginder Sharma the last over of the 2007 T20 World Cup.
  **Life lesson:** Life is unpredictable. Adapting to change helps us to succeed where rigid plans may fail.
- **Stay humble in success**: Despite his fame, Dhoni has always been grounded. He celebrates victories by giving credit to his team rather than seeking the spotlight.
  **Life lesson:** True success is marked by humility. Acknowledging others builds respect and trust.

M.S. Dhoni's story is not just about cricket; it is about resilience, leadership, and humility. By applying these lessons in our lives, we can face challenges and stay humble.

**Kumara Karuparajan A – XI C**

Sports is not about winning cups, medals, or trophies. It's about the hard work, dedication, consistent effort, and resilience that a player puts in. It teaches us values that are important in life, and sports help shape our character. We often get motivated by learning about certain sports players' journeys.

**Mary Kom – Never Give Up Attitude**

A woman with a humble background in Manipur became the world champion in boxing six times. Do you believe that? Despite facing a lack of facilities and financial issues, she never gave up. She is the true meaning of perseverance. Even when she became a mother, she didn't give up—she had

the courage to fight. It was her true passion for boxing that kept her going. From her, we can learn the *never-give-up attitude* and how hard work always pays off.

**M.S. Dhoni – Calmness and Leadership Skills**

M.S. Dhoni, popularly known as *Captain Cool*, comes from a middle-class background, and his passion for cricket made him a person celebrated by millions. He is famous for his calm captaincy and great leadership skills. We can learn humility and decision-making from him. He faces every situation by staying calm and making the right decisions.

Sports icons show us that success is more than victory—it's about values

**S. Saipavithra**

There are people outside your small world who are exceptional not only in their fields of professionalism but also possess a great character. This is something not every human living in this world knows about. Some of these people that I've learnt and got inspired by while growing up are M.S. Dhoni, Usain Bolt, and Cristiano Ronaldo. Every successful sportsperson has a backstory. All these exceptional players came from a middle-class family. It was because of the seed of passion that got instilled in them when they were budding minds and now grew up and built a whole career. It was because of their hard work and determination that we get to talk about them today. When we say sports, suddenly a person comes to our minds. That is how we need to be – unique, different from everyone else.

The life lesson we learn from them is: "No matter how many times you lose in life, dust yourself and stand tall and do it again!!"

**Sanjana Johnson – XI D**

The football world has witnessed extraordinary and interesting outcomes. There is always something to learn from each one of them—be it focus, hard work, resilience, or discipline. The right role models and right ideas pave the way for a better life, whether it be social, mental, or physical.

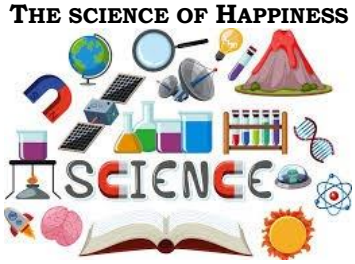
A few inspiring lessons I would take from sports icons are: **discipline from Cristiano Ronaldo.** His commitment to sports teaches the current generation to maintain discipline in times of work. The influence of this is greater than a country's population. The respect he has earned is greater than the criticism he faces. His dislike towards the idea of drinks and tattoos has influenced crores.

From **Lionel Messi**, the little boy from Rosario who went on to become the greatest of all time in the history of football. Messi is highly influential and is known for his intelligent playmaking and his humble character—a man with no ego. I admire Lionel Messi's personality and his determination in developing his talent to glory.

They continue to inspire the world forever.

**S. Siddith - XI E**

## THE SCIENCE OF HAPPINESS



Happiness doesn't have a single definition, unlike most abstract feelings, but it's what we all strive for. And you might not believe it, but it's already something intertwined with our spirituality. Some say a nice cup of chai brings happiness to them, while for others it might be loads of money or a luxurious life. Whatever the things that we enjoy, the feeling is the same for everyone—one of the very few things that every human experiences in their lifetime.

The science behind discovering what happiness is really important, even though it may feel unnecessary. Apart from being able to explain to others what the feeling of happiness is, we must first educate ourselves, as it is one of the feelings we experience without completely knowing what it is. But still, science can't explain what happiness really is, because, one it differs from person to person, and two even the degree of happiness differs between a child eating chocolate for the first time and a mother holding her baby, which she carried for 9 months. But hey, whatever it may be—food, music, or just reclining somewhere—happiness is something that every single person on the planet deserves, and it wouldn't cost a dime to take a break from constantly running behind time.

**M. Mohammed Raashid XI C**

Happiness is 'Something'....
Can we define something?
It can be in big things
or even in very small things.
A smile, a hug, a deep shower
can bring happiness more than a party thrown.
When you get a good compliment,
is it happiness?

When you get a good score,
is it happiness?
When a kid plays with you,
is it happiness?
When you eat your favourite food,
is it happiness?
Well, I can't define your 'something'.
You get to define it yourself.
But I'd like to conclude
Happiness is not the absence of sadness.

**Rishitha - XI D**

## INDIA'S ROLE IN GLOBAL PEACEKEEPING

India has always believed that true strength lies in peace, not conflict. As a nation, we carry forward the values of cooperation, justice, and respect for all, and these principles guide our role in the world today.

One of the most visible contributions of India is through UN peacekeeping missions. For decades, Indian soldiers have been serving in challenging regions, protecting innocent lives, and rebuilding societies torn apart by war. Their courage and humanity have earned admiration across the globe, proving that India is not only strong at home, but also responsible abroad.

At the same time, India is steadily advancing in the field of defence and technology. From the Indigenous TEJAS to the INS VIKRANTH, aircraft carrier and modern missile systems, to space and cybersecurity, India is building a powerful, resilient force for self-reliance. This adds credibility when we take part in global security discussions.

India's foreign policy reflects the same balance of strength and responsibility. Guided by the idea of *Vasudhaiva Kutumbakam*—the world is one family—India actively participates in platforms like the G20, BRICS, and the UN, maintaining strong ties with both developing and developed countries. India plays the role of a bridge in global cooperation.

In today's world, with issues like terrorism, regional conflicts, and climate change, India's role has become even more important. By combining modern defence capabilities with diplomacy and peacekeeping efforts, the country shows that true leadership is about using our responsibility wisely.

India's growing role in global peacekeeping reflects our values, culture, and vision for the future. With strong defence, balanced foreign affairs, and a heart committed to peace, India continues to shine as a rising power that stands for global unity and harmony.

**Adhavan B - XI A**

With new crises and tensions, India maintains strong but peaceful foreign affairs. Recently, Donald Trump, the President of the USA, raised trade tariffs on India. Even though it affected the economy of the country, India remained calm and gained support from countries like Russia, Brazil, and many others.

As India achieved 79 years of independence, it is well known for maintaining good relationships with the world. The Bahelgam terror attack triggered India's peacekeeping policy. Some say that the President of the USA weakened the peace between the two countries, but it was India that restrained itself. This shows that India also played a significant role in peacekeeping.

During the Russia–Ukraine war, unlike other countries who supported one side, India maintained good relations with both nations. This makes it clear that India is an excellent example of global peacekeeping.

**Keerthana R - XI C**

## FOOD SUSTAINABILITY – FARM TO FORK

Sustainability is a chain that every generation must carry forward — from a pot of water in the past to a bottle of water today. Water is the source of agriculture, agriculture is the source of food, and food is the very source of life.

Every thought we sow becomes important, for within it lies a big goal, and then comes the farmer. A farmer is the backbone of the functioning world. As a Tamil saying goes, the farmer must keep his hands in the soil for us to keep our hands on food. Just as our ancestors preserved a variety of foods like millets, cereals, and more, let us at least save the main grains, fruits, and vegetables for the future.

Today, even though the number of farms and farmers is decreasing, somewhere in our blood still flows the agricultural wisdom of our ancestors. Let us protect and nurture it for the coming generations. In the end, only if the farm survives, will the fork on our plate remain.

**G. Krishika - XI D**

**THE POWER OF YOUR DREAMS**

Dreams play a crucial role in our lives. It changes our minds and drives us to achieve it. It energizes our minds and helps us strengthen our goals. It also helps us in regulating our daily activities. It makes us strive for something high. It gives us hope. A dream is not the one that we get in sleep, but it is the one that keeps us awake. It makes our life more meaningful, joyful, and fills our souls with passion and willpower. Working hard is very important in order to achieve our dreams. Our dreams define not only us but also our lives. It changes the perspective that people have about us. Everyone should achieve their dreams. Dreams become our deservingness only when practised with utmost possession and care. I hope all of you reading this article will achieve your dreams and fill your lives with abundant happiness and comfort.

**PRAJUSHA KS - XII A**

When one lives, one dreams. One dreams to be a writer, an engineer, a doctor, or an artist. It need not necessarily be big dreams. It could be a dream dreamt by the downtrodden of eating three meals a day and having a roof over their head. No success is achieved without a dream. Dreams are not always extravagant or career-related. Dreams are a way out of misery, a hope for future happiness. Dreams are a breath of fresh air for a man who has lived his whole life behind closed walls. Dreams are a glimpse of freedom for a child born before scrutinising eyes. No one is truly alone when they have the power of imagination. Nowhere is the limit for one who dared to dream. So, dream to dream, dream to achieve, and let abundance be the language of your living.

**NIKITHA S - XII A**

Dreams play a vital role in our lives. They actually improve our confidence and serve as a source of self-motivation. Dreams are not just illusions; they work in real life, and I can say this with conviction because I have personally experienced it. Whether in sports or in our personal lives, mental strength plays a huge role. Every day, let us dream as though we are already achieving our goals.

Let me share an example from my own life. After failing in my selection trials, I began to visualize myself scoring a hundred. Soon after, in my very first match as an opener, I actually hit a century. That was a real breakthrough for me. I dreamt, I visualized, and I achieved. You can do the same. The power of visualization is stronger than anything. If you visualize yourself in that position every single day, I promise it will elevate your life.

Always be confident, give your 200 percent, and never give up. Amidst all this, dream big, achieve big, and remember: your mind is the strongest weapon you have—so use it wisely.

**R. SASHWAT RAM - XII A**

The ache of my heart to turn it into a reality
The amount of sweat that drops down
watering the hope I carry,
But reality crushes it all, the fear of
letting it go, the fear of losing every bit of it
slowly paralyzes my body
Then again, it reappears, it comes back with
more strength, more determination, and
more discipline to make it a reality
And it does one day turn into my reality
Though it cost me a lot, almost my
Everything came back, and now I see my

Dream as the reality I live in, I'm thankful
I remember every sacrifice I made to be here
And I'll always be thankful.

**SMRITHI -XII A**

Do you think working hard provides excellence in your work? The answer is 'No'. Daydreaming about your desire can add more naturalness to your life and help to give your passion more strength. The art of visualisation is that you'll feel like you're already into your work. Dreaming is like manifesting, and further putting it into words can bring enormous beauty and energy for doing it practically. Daydreamers are also not all-time dreamers; instead, they preserve time for it, like before sleeping, and put it into words. Words have power when they're written on paper. This pushes you manually and makes things fall more naturally. Dreaming can help this universe to act towards you, for you. Finally, it brings all positive things onto you. Manifestations are those positive vibes that help you determine the future path for you. Dream big, dream high, and spread positivity because the world is for you!
Work hard and touch the sky!

**LIBIN N - XII A**

**Dreams,** an escape from reality or the future reality itself? Dreams enable us to envision our future and manifest it into reality. Dreaming also enables us to induce the thought within us and motivates us to move towards it. It gives a vision and helps us by directing us to achieve our goals. Let's take, for example, if you want to start a business and wish to grow to a great extent. The first step is to dream about it, next plan about it, and the last is to execute the plan. Many great, successful entrepreneurs have started their careers by dreaming about it. Dreams are a source of belief and empowerment. You can dream of something you desire in your life. It acts as a driving force to achieve our goals. To put it in the simplest terms, thinking and dreaming can help us achieve the greatest of things in the world.

**AADITHYA A - XII B**

**Dream?** What is it exactly? We might have seen people sharing about their dreams and aspirations. A JEE aspirant aspires to get into any of the top IITs or NITS in our country. A NEET aspirant wants to become a specialized doctor.
But why do we dream about what we want to do? Dreaming can boost our interest in something or someone. For instance, say that you have watched a movie where the lead character/actor is appreciated for the moral he tries to convey. You are very impressed by his role. And that night, you have a dream of becoming the character itself. So, we see that dreams help us to explore and experience various genres of roles.
Dreams are also seen as the doorway to one's imagination. Dreams are the only place where teens can live peacefully and do whatever they want. A person might not be peaceful and do whatever they want. A person might not be very interested in singing, but if they have a dream of singing in a concert in front of millions of people, then he or she will eventually build some interest in singing.
One of my friends was very much interested in teaching and told her family that she wanted to become a teacher. Her parents agreed. But when she was in 10th grade, everything changed. She watched a web series where doctors were praised like gods and goddesses. Eventually, she started having dreams where she was a doctor. Soon, she started to develop an interest in serving and saving people's lives. And now she is pursuing her UG in a reputed medical college after clearing NEET.
Last but not least. Our school's founder, Mrs. Lalitha Menon, who was widowed at the age of thirty with her three tiny kids, dreamed and aspired to become successful one day. She kept all her sorrows and sadness aside and worked hard for the cause called NSN. She sold her land and started a school named "NSN Children School," with just Rs 2000. She worked really hard to achieve her dream. And now, the school has grown like a huge banyan tree, giving shelter to 3000+ students.

So, dreams are not always delusional. It has the power to make anything possible. So dream, aspire, work hard, and become successful.

**KAITLYN BREENA -XII B**

Many of us have been asked about our dreams, especially people around my age, in our adolescent years. "What do you dream of becoming?" "You have taken such-such course after 10th, are you going to become an engineer?" and so on, which continues till our college, and we too, give standard answers like "I will become a software engineer" or such things. But, the real question is, have we ever stopped and thought about what our dream REALLY is? Or, have we restrained ourselves to the "safe," "mainstream" jobs to "settle in life"? There may be a hidden A.R. Rahman inside you, or a hidden Gordon Ramsay, or a hidden John Keats inside you, waiting to be unfolded and displayed to the world. You may have the potential to become a great inspiration, boxed inside a fear, eventually falling into the rat race with a million others. Yes, you might be the 'one in a million' of that race, and I'm not shading the mainstream jobs, but what I am trying to imply is that you should never be afraid to rebel, and never fear dreaming big, for dreams hold a huge power in them. With determination and motivation accompanying it, your dreams have no bounds, and everything is achievable. You may have your reasons for not pursuing them, but once you fix yourself with a dream, never back down. The power of your true wishes and dreams is immaculate and can bring about a huge change. We only live once, and why should we fear dreaming in our only chance? If you ever feel like giving up, just look back and see how far your dreams have brought you, and that is the day you will realize the real power of your dreams.

**KR SADHANA -XII B**

What we dream is what we become. The human brain works in extraordinary ways—it can think, visualize, and turn those visions into reality. For example, when a girl aspires to become a doctor, she dreams about it first. Then, she works hard for it. Her brain guides her, shapes her efforts, and smoothens her path towards success.

Dreams are not only vital in our careers but also in our day-to-day lives. What we see, what we hear, and what we experience all come together when we visualize a new scenario. For instance, we may dream of securing a high-paying job, building a beautiful home, or owning several cars. If we continue to dream about it, that dream fuels our efforts, and one day it becomes a reality. This is the true power of dreams.

**S JAYADURGA - XII C**

Tick Tock, Tick Tock, Tick Tock,
I watch the seconds tick by
The clock's hand was lazily dragging itself to five
'I should stop……' my mind threatens to cry
But I couldn't…… I didn't know why
'This is not so hard' would be a lie
But "I have to…." I beg my heart to comply
For my dreams are set bars high
And I wouldn't stop until my doubts die
Until my heart swells with happiness that nothing could buy
Tick Tock Tick Tock Tick Tock
I watch the clock tick by
"Just for a while…." I mutter with a determined sigh.

**VARSHINI B - XII C**

The manifestation of dreams has a high power in moving towards our desired goal. Dreams are not just images or scenes that appear when we lose our subconscious mind. They are visions that hold the power to shape our destiny. A dream is like a seed. It may seem small and fragile at first, but with faith, hard work, and persistence, it grows into a manifested dream. When we dream, we permit ourselves to imagine a life beyond our current limitations. However, dreams alone are not enough. They demand discipline, consistency, and unwavering effort. A dream without action remains only a wish. But when combined with hard work, self-belief, and resilience, dreams transform into reality. Many successful people, from inventors to leaders, have proven that holding on to one's vision despite challenges leads to greatness. Today's dreamers are tomorrow's leaders. The power of your dreams lies in your willingness to pursue them. Dreams inspire, empower, and uplift us beyond our ordinary limits. No matter how impossible they may be, every small step towards them makes a ladder to your success.

**S AKSHAYA VARUNIKA - XII C**

Your dreams are the seeds that will grow towards your bright future. Everyone dreams, but the task is whether you are working for it. Once again, everyone will dream, but the choice is whether to continue sleeping and dreaming or to get up and chase them. There lies the difference between one who can and one who cannot. Only one in a thousand can break the cycle of history and create a new one. We all want to make our rooms illuminated as a spotlight, and yes, you can make it, and that is the power of dreams. They make you transcend the impossible transitions. They help in the evolution of a human being. Without dreams, there would be no Albert Einstein, Aryabhatta, Ramanujam, Newton, Bill Gates, and APJ Abdul Kalam. For the few who stand above the crowd with self-belief, resilience, and self-motivation, dreams become a reality. The one who has the will to resist his/her comfort zone and evolve into a new person will be the one for whom everyone will aspire.

**SAVEERA T - XII C**

The path I dream of with every ounce of my life
My life that I covet and wish to rise
Arise from my dreams to pierce with a knife
A knife so sharp that even a needle would suffice
Dreams that decide where destiny sings
And those that destroy as far as it can be
Reminds me of Icarus with his melted wings
Falling with his dreams into the oh-so-dire sea
But what is oh-so-dire about chasing
Chasing one's dreams to the end of the sky
If it means to grasp the heart unfazed
Unfazed in all its threats and demands so high
Demands so high of me are seething to be met
But I will give all I have to cover
Cover you for what I need for that, I will get
And revel in its rewards and its power

**P C VIDHUSHA PRIYA - XII C**

Dreams are often dismissed as meaningless or useless, but in reality, they hold incredible power. To me, dreams are not just random thoughts; they are reflections of our inner desires, ambitions, and goals. They represent what we truly want to achieve in life. Dreams give us direction. They motivate us. Without dreams, life would be aimless, like a journey without a destination. Dr. A.P.J. Abdul Kalam often spoke about dreams and their power. One of his famous quotes is: "Dream, dream, dream. Dreams transform into thoughts, and thoughts result in action." The power of your dreams lies in their ability to inspire actions. When nurtured with patience, determination, and effort, dreams turn into reality.

**HAVISHA K - XII D**

**MINIMALISM**

In the modern world, we have forgotten what is meant by self-satisfaction and happiness. We run behind the things instead of being happy with what we have. We are searching for a reason to be happy and to celebrate life, but we must know that life with satisfaction and contentment is the best thing. We are searching for a reason to be happy and to celebrate life, but we must know that life with satisfaction and contentment is the best thing. We make decisions by thinking about the future instead of taking the right actions for the present. In search of materialistic things, we are losing precious moments of our lives, like family time, going out with friends, and enjoying each and every small moment of our lives. "In search of gold, we have lost our diamond," by running behind the things we are losing our time, energy, and happiness.

**HARSHINI SHREE E - XII A**

To start with, I'd like to say a minimalistic lifestyle is better than a materialistic lifestyle. You ask me why? Materialistic possessions only lead to disastrous consequences, paving the way to a miserable life. I think no one would ever want to live such a life. Life is something to be cherished, celebrated, and loved, not something to cry over, complain about, and hate on.

Stop chasing money, love, and fame, and start chasing your dream, goals, and passion. Everything will come your way. Please know that experiences are better than rewards. Each and every experience you gain in your life will definitely help you to overcome something. Rewards might honour you at that moment, but experiences will shape you and carry you throughout your life.

People nowadays are obsessed with materials to the point that they develop OCD. The condition worsens further, only to cause stress and other mental health issues. To conclude, drop all your materialistic obsessions and start living a happy and content life with what you have. Know what you need and what you have in excess. Live and Let Live!!

**SRIDHARSHANA E - XII B**

In this fast-paced, materialistic world, we are constantly chasing more and more. The sudden surge of dopamine when we buy that product or when

scrolling to the next reel is only temporary, and it fades away almost immediately. We must realise that this rat race will never bring us true happiness. Whether we have everything or nothing, we must not arise from materials, but instead it comes from the relationships we nurture, and only having what is required, that is the concept of minimalism. It does not mean isolating yourself from the world and letting go of all your belongings; it suggests that we can live life even if we don't have the latest phone or that trending dress, and we can be happy with what we have. There are many advantages to minimalism, such as less anxiety, more organisation, and less clutter in your life; you stop comparing yourself to others, and even less financial stress. A famous minimalist, Marie Kondo, promoted that a 'minimal life' is one that emphasises the need to de-clutter both your mind and body. Minimalism can be viewed as both the organisation of the physical environment as well as your thoughts, so to live a happier, healthier, and stress-free life, practice minimalism and don't forget to live 'more' with 'less' because you can have many materialistic things, but you only live once!

**SAI SUBBU R - XII C**

If the Earth had a voice, if it got a chance to speak, it would have asked us to stop burdening it. The world has become a huge question. The need for goods is not just about necessity, but about luxury, aesthetics, and a system of showing off. This gave rise to a culture where we dress, eat, and live for the world, showing off our riches and status for mere attention. But amidst all this is a resolution stronger in action—minimalism. It can also be linked to the Japanese concepts of Wabi-Sabi (embracing imperfections and simplicity) and Ma (appreciation of emptiness), and Zen Buddhism. This is a way of life that is environmentally sustainable, mentally at peace, and materially detached.

Minimalism is a light that can guide humanity amidst the chaos of greed and desire. From the way we dress to the way we talk, to the way we live, minimalism can be applied to every aspect of life. *"Less is more"* is the motto of minimalism. In this fast-paced world, ditching the noise of maximalism and adopting the quiet luxury of minimalism can slow us down and make life beautiful to live in. Minimalism also teaches us to appreciate the beauty of the most basic things that enrich our personality and deepen our gratitude as human beings. It is a major lesson in religions like Buddhism, and it also puts a ceiling on desires and brings harmony.

In the past few hundred years, the Earth has gone through innumerable changes due to maximalism—burning the Earth's resources and creating a huge pile of non-recyclable trash. We may need one or two cars, but we own ten! We may buy a beautiful decoration for the house, but we forget about it the

very next day! None of us knows the reason for the depletion of our resources. Do we understand that it is only for mere moments of enjoyment?
In a nutshell, minimalism is a solution to a healthy and peaceful life where nature and mankind can live in harmony. It reminds us that happiness is not found in having more, but in needing less and living with intention.

**SREE ANANYA S - XII D**

**EDUCATION VS EMPLOYABILITY**

Nowadays, Education is seen as everything, the end-all be-all of life, but it isn't that black and white, where having no education is seen as a lost cause. So many people pursue the highest education but are either unemployed or working in minimum-wage jobs. There are many reasons for this, mainly on-the-job experience and practical knowledge. A person could've gone to the top-most colleges and had the highest GPA but if they lack of communication skills, teamwork, leadership skills, confidence, the won't be hired because these skills are valued by companies more than education, that's why people with no education can still be employed if they have the required practical skills and basic knowledge of the job (depending on type of job) To rectify this, instead of employing rote learning, schools should collaborate with industries to provide hands on experience to students so that they can learn about workplace conditions and prepare and train themselves, thus, we must work to fix the disconnect and bridge the gap between education and employability.

**LAKSHIT V - XII A**

Nowadays, education is often seen as the ultimate goal, with the assumption that being educated automatically leads to success. But that isn't always the case. There are countless stories of people who achieved great success without any formal educational background. The one factor they all shared in common was their employability skills.
What are employability skills? They are simply the real-world application of the knowledge and abilities one possesses. While education provides the foundation for learning these skills, employability is about applying them effectively in real-life situations—something that is far more valuable in today's society.
In our technology-driven world, education certainly elevates a person's worth, but it is practical, real-life skills that truly make an individual stand out. For example, in many success stories like that of KFC, it was not formal education but innovation, determination, and practical skills that led to success. Therefore, I believe education must be supplemented with employability skills to truly thrive in the modern era.

**THARAN RAM P -XII A**

Education is inevitable for gaining knowledge and advancing to the next level in life. It is like a game: the more levels you clear, the more benefits you gain. The higher the score you achieve, the more potential you unlock. As you progress, the challenges become harder, and in the end, you attain an achievement that serves as the key to employability.
Employability is similar to education, yet there are differences. Education is like the tutorial—without completion, there is no real game. A person must strive hard to enter it, and once inside, the harder you play, the better you become. The more effort you put in, the more credits you earn. However, education alone is not enough for employability; a wide range of extracurricular skills is also required. Those with only theoretical knowledge often struggle to find employment. Thus, education and employability are like a lock and key.
In short, education is the key that unlocks employability potential.

**PRATHEESH - XII C**

In today's fast-paced world, employment does not necessarily mean a person is educated, and not everyone who is educated is employed. Education does not equal employment. For employment, the primary criteria are capability and knowledge. Not everyone works in the same field in which they were educated. Practicality is more important, and as AI continues to replace many jobs worldwide, smart work is becoming essential. Instead of complaining about AI replacing us, we must learn how to use it effectively.

A degree is not always required for the field in which one works. Having a degree alone will not secure a job. People skills, communication skills, and social skills are equally important. What is truly tested in job interviews is how capable a person is of applying the knowledge they have gained through their education—this is one of the most essential traits.

Quick-wittedness, rational thinking, and the ability to handle situations are also highly valued and preferred traits in most fields. At the end of the day, just having a degree does not guarantee competence. Know your craft, even if the path is rough.

**VINOOTHITHA - XII C**

**THE SEAT OF SILENCE – VALLEY FOR INTROSPECTION**

Silence is the testament to success. The word silent itself has another thought-provoking word called 'listen'. Silence and listening are the coexisting characteristics that a successful person has. But, sometimes a person being silent doesn't mean that he/she is successful. But being silent, one can calm their mind and soul. Silence gives a sense of happiness, harmony, and peace. By maintaining a silent mind, we can calm our minds and start self-reflection. It brings clarity and serenity into one's body. In this world full of chaos, chatterings, and talkings, silence is like a golden dome. Silence means finding peace over happiness. Because happiness might be temporary, but once you find the taste of peace, many will opt for peace. Peace brings one's mind to opt for peace. Peace brings one's mind to accept everything and find a solution to it. By doing meditation, silence can be achieved. Introspection brings silence because you don't need to chase chaos. Introspection adds more clarity and calmness to our minds. Introspection is not a thing to be corrected; it has to be accepted with wholeheartedness in this world. Introverts also have to be given equal importance like extroverts.

**J PARAMESHWARI - XII A**

Amidst the rush of modern life, there is a valley where silence speaks louder than words. It is not just a place but an experience where our mind finds stillness and the heart rediscovers its rhythm. The seat of silence is nature's way of inviting us inward, surrounded by towering hills, whispering trees, and storms, which is the best place to find silence. Silence is not an emptiness – it is fullness. It has the power to heal, nurture creativity, and change ourselves. Silence provides us with the space to reflect on ourselves and gives us space to replenish ourselves. Silence provides peace, makes our souls peaceful, and allows us to breathe. In this valley, silence is a presence and not an absence as in modern life. When we return with clarity in ourselves, clarity towards life, and peace resumes. It is not that the silence would only be found in a valley; it could also be found in a quiet room or even within ourselves or within the heart. It is all that, whether you need to or not. It's in silence that we listen best to others.

**D SONIA -XII A**

**Silence**—a word that represents peace and harmony. It is not merely about keeping quiet or doing nothing; it is about discovering our true inner selves.

People chase money, speak different languages, and notice differences among themselves. Yet, when we sit in silence and reflect on our thoughts, those differences lose their value. Language may separate us, but silence allows us to know ourselves more deeply. It enables introspection and helps us respond wisely to challenges and wrongdoings at the right time.

Spending just eleven minutes in silence, like meditating in a calm environment, can transform your entire thought process. It can make you a better person and, in turn, create a powerful impact on society.

**Happy Silencing!**

**K SHASWATHI - XII A**

In the shadows she sits,
With a mind of her own;
Ever thought she was buried,
With no time to lose:

Her thoughts diverged,
On her past conflict, with a resolute will
She ignites her inner flame
In the shadows, she sits
With no one to blame.

**RAISAH - XII A**

When I hear about the word 'silence', it is just to stop our work and just sit in silence, in which it feels

like the entire world gets into a situation where no one moves. Apart from silence, there is something called introspection in which we look back on our life and solve it in the upcoming days if it doesn't work as per our wish. If it works, it is then the time to appreciate ourselves and make something big in our future. By this, one can shape and predict their life. This, moreover, teaches us the lesson of how to live a successful life.

**SANGEETHA V -XII A**

A second or a minute spent in deep silence brings peace, while countless dreams and memories—both beautiful and frightening—flow through the mind. That silence teaches us much about life and gives us the time to examine our actions in day-to-day living. It becomes a path of introspection, helping us to know ourselves more deeply and take appropriate actions accordingly.

When a person sits in silence, even for a minute, he enters another world where maturity confronts his own actions. In that moment, he may laugh and think, *"Oh, did I really do this?"*—an *aha* moment that opens the path to self-reflection. This quiet practice disciplines us through the awareness and understanding of our actions.

**LOGESHWARAN - XII C**

In the fast-paced world, the term 'silence' has been forgotten and is never followed. Silence is often considered to be one of the best practices to be followed. Being silent for 5 minutes can help people to reflect on their thoughts and problems, and help to develop the ability to think of a solution to solve their problems. It helps us to keep our minds calm and relieves us from the stresses we have. Being ideal for a few minutes can help us to think and create a new valley for introspection into ourselves. Introspection is one of the best practices that helps us to understand whether we are on the path to our dreams. Everyone should practice silence and create a peaceful world.

**VIVIAN - XII C**

At least a moment of silence is all it takes to narrow down the thoughts and to reflect on your actions. A minute of silence brings everyone together and helps us stay united at this time. This moment of silence is very essential to bring down the thoughts and give peace. For once in a lifetime, everyone shall stay calm and not do anything. This might sound strange, but it is the only moment when everyone is together. This silence brings a huge difference to the world! That one moment doesn't seem normal; no work will be done, everything starts plain and simple. Only when introspection is effective, one comes to know what they have been doing, only then do they get to admire themselves or look at themselves completely. They get the chance to change themselves and become better. The only way to improve oneself is by self-reflection on one's actions. After all, everyone runs for their own lives, and the Earth teaches us that when everything is dead and later proves to be alive, the sudden numbness can make things more beautiful. The least we can do for our lives is to give a break to everything and start fresh!

**UNNATISHREE - XII C**

When everyone is running towards something in the busy world, we forget to reflect on ourselves. In this busy world, everyone should take a break to observe the surroundings and listen to their inner self. This self-introspection brings us clarity about what we are doing and helps us to improve ourselves. In all ways, self-introspection is very important for everyone in the upcoming days. It leads us to peace and a slowdown in the world of competition.

**C THARUNSRI - XII C**

"Knowing yourself is the beginning of all wisdom," said Aristotle. Yes, to know about oneself is an important aspect of everybody's life. But how can anybody understand and reflect on themselves?

The one and only way to appreciate oneself is to analyse through self-introspection. This phase of self-introspection occurs through silence. Silence opens the gateway to calmness and peace. Through this, we analyse our behaviour and try to elevate our thought process. The seat of silence allows one to filter the layers of negative energy formed within us and purifies our thoughts.

Positivity is the main ingredient of introspection as it upholds the values of one's behaviour. This introspection leaves calmness and peace, helps one grow, and become more resilient. Through silence, one can reach greater heights, as it allows one to know oneself.

**SAI AMUDHAN S N -XII D**

## VALUES – THE ESSENCE OF LIFE

Life is a journey filled with choices, challenges, and opportunities. The set of values we hold is what truly defines the quality of life. Values are the principles and moral standards that guide our thoughts, decisions, and actions. The essence of human character is decided by the values; it is an invisible force that shapes our personality and behaviours. Values help us distinguish between what is right and wrong, and they influence the choices we make every single day. Without values, our lives become directionless, driven only by materialistic pursuits. Some of the common values are honesty, respect, compassion, responsibility, and integrity.

Values are timeless, and they enrich our inner selves and remain with us throughout life. It's the essence of life, shapes who we are, and determines how we live and define what we leave behind.

It makes our life purposeful, peaceful, and gives fulfilment.

**JANADHANYA M - XII A**

Values? The essence that will be taken into the soul defines your character. Values can be anything that makes a perfect surrounding, and even you can be anything, like loyalty, punctuality, trustworthiness, and even more, from a baby to an old person. Values are the one that creates beautiful magic in your life. You can't buy or get the values from someone. It is the one that you create within you. Life with values is Life with lots of success. Life is a rock, and our values make it a sculpture. Day by day, you can see the differences when you follow the principle values of life. Be punctual, responsible, loyal to the surroundings, and responsible for your work. Keep integrity even when no one watches you. Change the changeable in the right manner. Never hurt anyone for a cause. Follow your heart. Love your passion and chase your dreams. Keep these values in your dreams. Keep these values in your mind, and you'll see the success that is on the way on your journey.

**NITHYASRI G - XII A**

One may think the values you keep in life are just about maintaining proper manners and being polite. However, it is much more than that; they shape who you are as a person. To set values that will help in life, you have to consider the aspects of your personal life. You should learn from your past mistakes and change your views and opinions according to them. Having surely set values, make sure you stay below the limits you've set for yourself and don't let yourself lose control over life. It acts as a driving force in life, making you think deeply before you act.

**SHANGAMITHRA R - XII A**

## CONSCIOUS EVOLVEMENT – A PATH TO SUCCESS

Let us compare our lives with a block of clay, blunt, unmoulded, and lacking definition. As the potter of our lives, we can shape them into beautiful sculptures. A perfect sculpture cannot be obtained on one try. It is, in fact, a trial and error process filled with minute failures, learnings, and a lot of gained experiences. These are the small yet conscious steps that slowly guide us towards the path of success. The first and primary step for us to take is to believe in ourselves and our capabilities. The second is having the self-courage to never give up. These are the secret ingredients that guarantee us a beautiful sculpture. Don't compare your sculpture with that of others because everyone has a different style of pottery. Just be mindful of the steps that you take, and you are good to go. Remember, you are the very own potter of your life, and you are the only deciding factor that contributes to the changes in your life. Hence, from today, focus on the minute steps that you take. Fine-tune them and slowly yet steadily progress towards the path to success.

**SHERIN XAVIER -XII A**

In the present timeline, humans are immensely influenced by external factors like social media, peers, family, etc. Every single thing we do today is a result of something else. As a consequence, achieving a conscious environment is a major challenge, typically among teens.

A conscious environment is something that is abundant in mindfulness and people who are ready to reflect and act in the right way. If we can achieve such an environment, we can change the path of our

lives. For instance, instead of influencing others or getting the wrong circle of friends, we can be conscious and live our lives the way we want. This will result in peace and a sense of responsibility. Many successful leaders today are where they are because of their consciousness.
Therefore, a conscious mind and conscious soul are the need of the hour to achieve success both as an individual and as a society.

**SADHANA MANIKANDAN -XII B**

A conscious mind builds a person. A sound mind builds a person's consciousness. To be the best version of yourself, you must have a sound mind to be conscious of your surroundings and to be aware of who you are. When you are the best version of yourself, the path to success becomes smoother and better.
Life in itself has spikes; these spikes are believed to be the darkness, hardness, and failure. Especially, failure is the obstacle everyone faces. Every spike you touch, there is an instant regret, "Why did I ever do that?" and throughout the whole journey to success, there arise many spikes, then another question pops up, "Why me?"
It is so evident that spikes are not the negative phase, but the questions arising in our mind bring the negative energy towards ourselves, which is the destructive source that one attains without their knowledge. A voice must tell from within, "I CAN AND I WILL, this statement not only builds self-confidence but also a sense of responsibility, discipline, and self-motivation. All this is a part of introspection, and introspection is a part of conscious evolution. Every person with a narrow mind needs these values that they would cherish for the rest of their lives. Because when you learn how to be the best version of yourself, you become aware of you surroundings, and this is the conscious evolution that leads you to success. Everyone wishes to be successful, but only a few reach the peak of it.

**ZENIA N PARPIA - XII C**

Have you ever understood what shapes us for our lives and leads us to the path of success? Here is an amazing walkthrough to have a tour of one's path to success. The first and basic potential we need to unleash within ourselves is self-discipline. Create an environment or prepare yourself to be presented in an environment where self-discipline is appreciated rather than motivation, which lasts only for a while.
Don't seek validation from anyone, even if that comforts you, because that's the intimate possession, and so we should detach ourselves from it. It only leads to the path where we will unnecessarily complain about people for not giving us the desired satisfaction, which is already a half effort to pull us back from our already appealing path.
These two thoughts of us is already encouraging a transition within us. It also contributes to our conscious evolution in choosing a better path to success. We all should know whether to work on it or not. It is a choice given to us, and we must choose the latter to gain the desired results through constant involvement, which leads to our growth.

**AISHWARYA B - XII C**

Every morning, we have two choices – either sleep with a dream or rise to chase the dream. It is in our hands to become the person we love to be. Consciousness/ Conscious evolvement is a key to open the lock filled with dreams and goals. A path to success is never easy and smooth. It is mostly hard and rough.
It is like a road not taken. A person who chooses it has to be conscious and put his/her efforts into it, even if it results in failures. Hard work always pays off. Your goals are the seeds that will grow towards a bright future. They make you transcend the impossible transitions and help in the evolution of a human.
Without a conscious evolution, there would be no APJ Abdul Kalam, Einstein, or Newton. Growth never happens in our comfort zone. It needs your sacrifice zone - the sacrifice of entertainment and enjoyment until your dreams and goals come true. Always remember, a conscious evolution of a single step will lead to a destiny. So never exit from your path. It is hard but not impossible.
"Learn to exist, not to exit"

**KANISHA S - XII C**

**THE SCEPTER AND THE SCOURGE**

The cartel's root, a cancer deep and wide,
Has poisoned wells where legal waters glide.
Through marble halls and chambers dark with greed,
It plants corruption's bitter, twisted seed.

The shield of the state, meant to defend the right,
Becomes a shroud that smothers out the light.
Each sacred oath, once spoken pure and true,
Now bends beneath the weight of revenue.
The clerk's ink, a stain upon the scroll,
Erasing justice from the nation's soul.
In courtrooms where the scales should balance fair,
Gold tips the beam with calculated care.
From the lowest file to the highest honoured name,
The rot of avarice spreads its crimson flame.
Through voting booths and legislative halls,
The siren song of dirty money calls.
The cartel's poison, seeping through the stone,
Has turned the state's lifeblood to brittle bone.
What once stood firm as the bedrock of the land,
Now crumbles at corruption's greedy hand.
The web of shadows, spun with secret might,
Trembles before the blinding, sudden light.
Truth's blazing torch cuts through the veil of lies,
Revealing what the darkness sought to disguise.
For only when these chains are broken free,
And every act of treachery we see,
When sunlight floods each corner, every wrong,
Can institutions rise, renewed and strong?
Where justice echoes, righting every wrong,
And liberty's sweet chorus lifts its song.
The cartel's grip, once absolute and vast,
Will then recede—a nightmare of the past.
For cleansing, fire must precede the promised morn,
When broken trust is tenderly reborn.
So let us rise with purpose strong and clear,
To sweep away the shadows, quell the fear.
And from the sepulchre of civic dread,
A phoenix rises, vibrant, unbowed, unfed
By corruption's hand—with wings spread wide and free,
The dawn of true democracy we'll see.

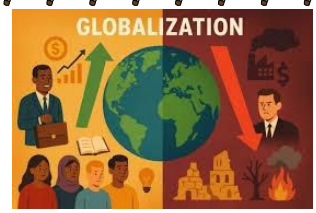
**RAESHMA B - XII A**

**LIFE IS TO LIVE HAPPILY..!**

I was lying on my bed quietly. I was just tired, staring into nothingness, when I snapped out once I felt my tummy grumble out of hunger. I was not interested in eating, but I had to feed my body to get rid of that uncomfortable feeling. So after rolling out of my bed, I stood up and dragged myself to the kitchen. Pulling out a rice cooker, putting in some roughly measured volume of rice, and filling it with water to the brim. (I knew it was wrong, but I did not care) I placed it on top of the stove and disappeared for a while. It was all burnt when I came back. “Wow… what have you made here?” “Rice – For myself”. “It is really burnt though, and mushy.” “I don’t care.” “Why not?” “I don’t know…”
“You know… you’re kind of like this rice. “What?!” You used to love rice, remember? You used to cook it with ghee, cumin, and other aromatic spices. You took good care of the rice, and you loved it.
”Okay…Now, why are you telling me that now?
“You let yourself get boiled too much and get burnt, just like this rice.”
“Take responsibility. Treat yourself with love, live because you have a purpose, don’t just survive – Don’t just eat rice because it fills you up, eat because you love it and enjoy it, and it makes you live.”

**SHARMISTHA PS - XII A**

**HOW GLOBALISATION AFFECTS MY DAILY LIFE**



The moment I close my eyes
I could feel the moment I got untied
From the traps of people surrounding
To the world, I see that I have only found

This was the world I only saw
With the essence of flowers and full of trees
With the rush of sparkling, sweet milk
Which tastes a lot like honey
Even though it's the world that I see that is sunny

The moment I open my eyes
Everything has gone to dawn
The moment I think about it again
I could not just sustain

The world I live in is not the world I see
Which is starving with no water or a tree
Dry as summer and white as winter
Which is the dream of mine that hinders

The world seemed to be developed, not nature
It is affected by every human and creature
Globalisation made development in the human economy
But leads to a debt in the nature's economy
Money is vital for our Mother Earth
But destruction hurts the world, which makes it covered with dirt.

**HIBA IRFANA - XII B**

**BEING UGLY – IS A BOON**

Not pretty words to hear, right? But, at the end of this article, we will see exactly why being ugly is a boon.
When we see ourselves in the mirror, we often hate what we see. But it is not our fault. We often chase an impossible thing called "Beauty Standards." If you're tall, you are teased as "palm tree." If you're short, you are teased as "little." If you are fat, you're teased as "fatso". If you're skinny, you're compared to a "match stick". If you are white, you are referred to as "bleached crow"; if you are black, you are referred to as "black slave." No matter how much you fix yourself, "Beauty standards" is a treadmill with no stop button. Let's assume that if everyone kept up with the beauty standards, then what would be defined as "Beauty"? If everyone caught up with the standards, then there would be another "Ideal Beauty."
Stop chasing it; you will burn yourself out when you impress others. Instead, be happy with what you have. Being called "ugly" is a blessing in this fake generation, which is so busy trying to impress strangers online.
What matters are our intentions, if our soul is pure, that is enough.....

Being Ugly is never mind.....

**V SHAILESH - XII C**

**CAN ONE PERSON TRULY MAKE A DIFFERENCE?**

One person can truly make a difference. Such a person, who always cares for us and makes us happy when we are sad, is like a gift that removes our sadness and fills our life with joy. Whenever we face a problem, the solution often lies with them or in their guidance. When we fight or face challenges, they protect and support us. They are truly the purest gems in our world.

When we are discouraged by an event or a person, they motivate us and help us move forward. In every difficulty, there is a solution, and they help us find it. They not only have fun with us and share joy, but the way they care for and protect us also gives us great comfort. Even when we fight with them or avoid them, they remain by our side. They never abandon us.

Such people are a blessing in our lives because they can change our entire life and make it complete, filling it with success and happiness. We are truly fortunate to have such pure souls. They are the ones who journey with us throughout our lives. Life with even one such true person is like a chain that never breaks.

**JAYASHREE – XII A**

A person can truly make a difference in our life. That person may be our mother, father, friend, or even a stranger. My mother is the person who has made the biggest difference in my life. She is such a strong woman who can do anything for her family.

She had to stop her education after the 10th grade because she was humiliated by her teacher and friends. She got married at the age of 22 and had two daughters. She faced many insults and problems.

After marriage, she had to balance the responsibilities of both families. Even though she was not always happy with certain situations, she made sure to carry out her responsibilities properly and promptly. My mother has always stood by my side. She protects me like a strong foundation. She wants me to reach great heights and ensures that I do not face the ordeals she went through.

To me, my mother is a lioness whom I admire the most. She is an agent of change who inspires me, and I wish to emulate her. She is the one who makes me stronger.  Love you, Maa.

**JAYASRI.L -XII A**

One person can truly make a difference in this world because all people just need a starting point. In our lives, we all have someone who heals us, motivates us, teaches us right from wrong, and supports us. That one person alone can make a big difference in someone's life. Being that person for another is a blessing and, of course, a pleasure.

Not only for individuals, but on a larger scale, one person can influence sustainability, care for the environment, increase productivity, help the needy, and more. This world needs someone who can take the initiative. It is time to reflect on the seriousness of the matter and respond to it as a greater calling. Why can't you and I be that person who makes a difference, taking responsibility to care for our planet and, of course, for ourselves?

For example, if one of us initiates cleaning the beaches and getting rid of plastics, others are bound to follow. If one is the first graduate in a family, the influence created is tremendous. Knowledge opens new worlds and broadens our horizons, enabling future generations to take up studies as a means of acquiring wisdom.

If you, as an extrovert, can draw someone out of their shell, you will be highly appreciated. Many people in the world can feel more loved and cared for because of your contribution of time and kindness.

**B.SHRI HARANI -XII A**

In my life, there is a person who truly loves me. He has made a lasting difference in my life. In many ways, such as helping me with my studies, teaching me good habits, correcting me when I am wrong, guiding me, helping me make good decisions at the right time, and sharing everything, he has always been there for me.

He has spent time narrating the struggles that shaped his character and his destiny. He is indeed my one true friend. Though he has faced many problems and come across many challenges, he has told me that he faced them bravely. That person has made me a good human being. Can one person truly make a difference in someone's life? Yes, a person did in my life. He is my "Daddy." He is my hero - the only man who loves me more than his own life.

I love you, "Daddy." Always your daughter and friend...

**RACHITA - XII B**

**THE BENEFITS OF MEDITATION AND MINDFULNESS**

Meditation is essential for a human being to maintain a stress-free mind, and a peaceful environment. It is the practice of concentrating our thoughts and desires while letting go of negative and harmful thoughts. Meditation keeps our body healthy and in better shape. Doing everything with mindfulness is very important and necessary in life. Meditation helps us avoid unwanted negative thoughts and shows us the path to solve problems effectively.

**GOKUL.R – XII A**

Meditation refers to the practice of sitting in silence with focus and mindfulness. It helps us remain calm and relaxed. We can experience very smooth meditation depending on the environment. A park or a garden surrounded by the beautiful elements of nature can make us feel relaxed. Mindfulness and focus on the important things in life can be practised through meditation. Meditation helps us focus on good things.

Meditation is a great practice to manifest our desires and wishes. I manifest and imagine within myself that all my wishes come true. Being mindful and concentrating on our actions is difficult when it is crowded or noisy. But meditation can help us concentrate on our actions.

Soothing music can be played while meditating. Expressing gratitude to our kith and kin and thanking God for giving us whatever we have today are also forms of meditation.

Meditation helps us relax in this fast-growing world. Every individual can practise meditation and make the best out of their lives with focus and determination.

**SREESHA.S – XII A**

**IMPORTANCE OF MENTAL HEALTH AWARENESS**

A cold, a fever, a headache, or an open wound, all of these create a clear feeling of illness in us. That's because they are evident symptoms of our body crying out for help. And we usually respond to this call, don't we? Our parents rush to take care of us, our friends show concern, and the world in general understands that we need rest.

Unfortunately, this does not hold true for our mental health. Even in this 21st century, where we fancy ourselves as "modern" and "open-minded," we often fail to acknowledge the silent pleas of our own minds screaming for help. The situation has improved slightly, but we still have a long way to go to normalize mental health, especially when our society is still stuck in a bizarre state of non-acceptance.

We notice parents telling their children to simply stop being angry, to stop crying, to stop being unreasonable, to stop being emotional, stop, stop, and stop. What we fail to see is that most of the time, it is just a fatigued mind begging for a break. This problem is worsened by the disturbing lack of awareness regarding mental health.

We are slowly moving forward, but only at a snail's pace. The message must be spread, and more people need to be informed. Being mentally healthy helps solve many problems in life. The absurd fear

that a person is abnormal for having mental health issues must be eliminated. It is absolutely okay to ask for help. In fact, it requires great bravery to do so, which deserves appreciation.

It is time we realize that mental well-being is as necessary as physical well-being for a happy and fulfilling life. I urge the kind readers of this article to spread awareness and educate the people they know about mental health.

**YUKTIKA. A – XII C**

**WHAT MY SCHOOL TAUGHT ME?**

School plays a major role in every student's life. The school has taught me various things like responsibility, integrity, honesty, and HARI values. My teachers guided me to take measures to achieve a 100% pass percentage and a minimum average of 60% for every child in all the terminal exams. It provides a nurturing environment to ensure the all-round development of students' personalities.

The school provides opportunities for students to engage themselves in a variety of extracurricular activities. It helps develop problem-solving skills and an analytical mindset, fosters creativity and decision-making abilities, and prepares students for future stream selection and career opportunities. It also provides additional learning beyond the classroom, hands-on learning and practical knowledge, creates an engaging and fun learning environment, and develops competitiveness and teamwork.

**SRIHARI.R – XII A**

My school has taught me to respect others. It has also taught us the "HARI" values. The motivational talks we attend act as boosters for our morale, inspiring us and increasing the level of motivation that may lie dormant within us. We are given ample opportunities to give presentations and conduct seminars in class.

On the social front, our school contributes generously to the less privileged, thereby instilling the joy that comes from sharing what we have. NSN encourages students to clean the campus every Friday, done house-wise, which trains us in cleanliness from an early age. We also have several opportunities to showcase our talents through intra-school and inter-school competitions. Additionally, we are taught measures to keep ourselves safe.

I am indeed proud to be an NSNite.

**PRAHANNA HARINI - XII C**

I was dreaming of that precious day
Where I see myself lying with my dears in the hay.

I was 5 when I entered the room
Where I saw everyone smiling like a flower in bloom.

Crying there, left behind, hugged by her,
My teacher.

She lifted my face, comforting me,
Saying everyone is here just for me!

I grew up and entered my middle school,
Where everyone shined like a bourbon glass.

Everybody had their friends and peers,
While I stood near my fears,
My shyness overloaded.

My dear friends came near to me,
And there, the friendship started!

Now I'm in my higher class,
Thinking of the sweet and olden days of class.

How am I supposed to leave
The home which taught me to care?
I am, for sure, not to dare
To speak to my people in an arrogant voice.

I have two homes - one that showered me with
Lots of love and care,
Another that taught me, stood by me in my painful days, and
Shaped my future.

My second home is my school!

**SAKTHISREE – XII C**

My school has taught me many things. I joined NSN in the 4th standard. From the day I stepped into the school, I have gained many experiences. At the beginning, I was not familiar with many activities, but after a year, I came to know about each and every activity in NSN.

The very first thing that made me feel grateful was the Infini prayer. At 11:11, I feel very relaxed and calm. The line, "Lead me to You," connects me to God. The second thing is learning to make PowerPoint presentations. I am a person with no stage fear, but I was not good at technical things. After joining NSN, I learned to create 3D digital modules, videos, PowerPoint presentations, and more. These technical skills will help me a lot in the future.

The third thing is "Thanksgiving Day." Every year, my school insists that we prepare a greeting card to thank our parents. We usually don't thank our parents enough for all that they do, but after this, I feel very grateful for having such wonderful parents. The fourth thing is the "Bouquet of Thanks." Every year, my school thanks the supporting staff. Through this practice, I learned to say "thank you" to every aunt and uncle working in the school. Now, I even thank the garbage collector for collecting garbage from our home. This activity makes me feel truly content.

I have studied in three or four schools before NSN, but NSN is the only school that has shaped me into a good human being. NSN is not just a school for me; it is a home that helps build me into a better person. NSN has always extended its hand to me whenever I fall. Thank you, NSN, for giving me everything.

**B. JAYALAKSHMI - XII C**

## THE ART OF LETTING GO: LEAVING SCHOOL BEHIND

It all started at school. From my days in KG, beginning as a crying toddler, to becoming a teenager who comes to school with a smile, it has been a wonderful journey. Now, it is finally time to say goodbye to my dear alma mater. School has shaped me in many ways. Over the years, I have realized that winning or losing does not matter as long as I participate wholeheartedly.

There were moments when I sulked and cried during the change of sections. But today, I am grateful for those experiences, as I have made many friends whom I now treasure in my life. I have matured by expressing my emotions of anger, joy, and sadness. Today, I am more balanced than before and ready to face any challenge that comes my way.

Frankly, it has been a 14-year roller-coaster ride of emotions. My biggest fear of facing an audience from the stage is now a cakewalk. Dhanya is now a confident girl, ready to take on the world.

**G. DHANYASHREE - XII B**

Letting go is never easy. Goodbyes are never easy, especially if that place and those people shaped your childhood and made you who you are today. Many of us hate going to school. Just the thought of waking up early in the morning, getting ready, having your breakfast in a hurry in order not to miss the school bus, the Monday morning assembly, and the math test during the first period really brings back trauma, doesn't it?

But there's another side to it; your parents wake you up gently, calling you by your nickname… your whole family runs along with you. You pack your bag while your father feeds you and your mother braids your hair… the joy of seeing your friends at school after a long weekend, sharing your lunch

and eating from your friend's lunch, standing outside the classroom for laughing too much, and that sigh of relief when you hear the last bell.

School is filled with both cherished and reflective memories, but most importantly, it has shaped your primary formative years and has prepared you for your future. You will no longer be able to experience those moments again, but you will be able to create many more memorable moments as well.

You've left school behind, but that doesn't mean you've left all that you've learnt behind. Use this learning and make your life worthwhile.

**AVANTHIKA AJAY – XII D**

**கைத்தொழில் கற்பது சிறந்தது**

"கைத்தொழில் ஒன்றை கற்றுக்கொள்
கவலை உனக்கில்லை ஒத்துக்கொள்"
- என்கிறார் நாமக்கல் கவிஞர்
வெ. இராமலிங்கம், இதன் மூலம் கைத்தொழிலின் முக்கியத்துவத்தை நாம் அறியலாம். கைத்தொழில் நம் திறமையை வளர்த்துக்கொள்ள உதவுகிறது. மற்றும் பல மக்களுக்கும் வேலை வாய்ப்பைக் கொடுக்கிறது. தீமைகள் நிறைந்த உலகில் கைத்தொழில் கற்பது நாம், தனித் தன்மையுடன் திகழ உதவுகிறது. விருப்பமான கைத்தொழிலைக் கற்று கவலையின்றி வாழ்வோம்.

**யாழினி சி**
VI A

**மனிதனை உயர்த்தும் மனிதநேயம்**

அடுத்தவர்களின்
உணர்வை அறிந்து **நாம்** உதவத்
தொடங்கும் போது தான்
எல்லோரின் மனதிலும் மனிதநேயம்
வளர்கிறது.
வாழ்ந்தால் மனித நேயத்துடன்
வாழவேண்டும் **என்பதைக்**
**குறிக்கோளாகக் கொள்வோம்**.

**அக்ஷிதாஸ்ரீ .சு**
VI A

மனிதநேயம் என்பது மற்றவர்களிடம் அன்பு, இரக்கம் மற்றும் உதவும் மனப்பான்மை கொண்டிருப்பதாகும். இவைதான், மனிதர்களை மற்ற உயிரினங்களிடமிருந்து வேறுபடுத்துகிறது. சகமனிதர்களுக்கு உதவுவது, அவர்களின் கஷ்டங்களைப் பகிர்ந்து கொள்வது போன்றவை மனிதநேயத்திற்கு எடுத்துக்காட்டு, நாம் உதவி செய்யும் போது அது நமக்கும் மற்றவருக்கும் சந்தோஷத்தையும் மனநிறைவையும் அளிக்கிறது. மனிதநேயம் ஒவ்வொருவரின் வாழ்க்கைத் தரத்தையும் உயர்த்துகிறது மேலும் ஒரு சிறந்த சமுதாயத்தை உருவாக்க உதவுகிறது.

**அமிழ்தினி** - VI B

இக்காலக்கட்டத்தில் ஒரு மனிதருக்கு விபத்து நடக்கும்பொழுது அதை புகைப்படம் எடுத்து சமூக வலைத்தளத்தில் பகிர்கின்றனர். ஆனால் ஒரு சிலர், காயம் அடைந்தவரைக் காப்பாற்றி உரிய நேரத்தில் உதவி செய்து உயிரைக் காத்து மக்களின் உள்ளங்களில் **வாழ்கின்றனர்**. **அதற்கு சான்**றாக அன்னைத் தெரேசாவைச் சொல்லலாம். ஒரு நாள் அன்னை தெரேசா, தங்களுடன் வசிக்கும் குழந்தைகளுக்குத் தேவையான பொருட்களை வாங்குவதற்காக ஒரு ராஜாவிடம் உதவி கேட்டு கையை ஏந்தினார். ஆனால் அந்த ராஜா, தன் எச்சிலை அன்னை தெரேசாவின் கையில் துப்பினார். அப்படியிருந்தும் அன்னை அவர் மீது கோபம் கொள்ளவில்லை. அதனால் அந்த ராஜாவுக்கு குற்ற உணர்ச்சி ஏற்பட்டது. **அன்னையிடம் மன்னிப்புக் கேட்டார்**. **பிறருக்கு உதவும் எண்ணம் கொண்டார்**. அந்த செயலால் அந்த ராஜாவின் **மனதில்** அகங்காரம் குறைந்து மனிதநேயம் உயர்ந்தது. எனவே, நாமும் மனிதநேயத்துடன் செயல்படுவோம்! மனிதம் காப்போம்!

**நன்றி!**

VI C

## என் ஆசை

என் உலகம் அழகான உலகம்!
அவ்வுலகம் என்றும் ஒற்றுமையாக,
இயற்கையைப் பெருக்கி, இன்பத்தைக் கூட்டி,
தீயதைக் நீக்கி, நன்னெறிகளை வகுத்து
வாழ எண்ணும் நேரம்,
வானிலிருந்து மழை பொழிந்து
ஆமோதித்து ஆசிக்கூறி,
என்னை வாழ்த்தியது!

**நேத்ரா M S - VI A**

## என் ஆசை

- பசுமையான உலகமாக இருக்க வேண்டும்.
- பணம் என்ற ஒரு பொருளால் மகிழ்ச்சி குறையக் கூடாது.
- பாசமான உயிரினங்கள் நிறைந்து இருக்க வேண்டும்.
- இயற்கையோடு இணைந்த வாழ்வினை வாழ வேண்டும்.

**ச.அர்ஷன்**
VIII - C

**நான் விரும்பும் உலகம்**

நான் விரும்பும் உலகம், ஒளி நிறைந்தது. அங்கு மனிதர்கள் இதயத்தால் பார்க்கும் மனக் கண்களைக் கொண்டிருப்பார்கள். பசுமை மரங்கள் நம்மைத் தழுவி நிம்மதியளிக்கும், மாசற்ற காற்று சுதந்திரமாக வீசும். ஒவ்வொரு மனிதனுக்கும் அமைதி என்பது ஒரு பரிசு! அன்பை உலகத்தின் மொழியாக மாற்றுவதுவே என் கனவு. நான் விரும்பும் உலகைக்காணும் என் கனவினை நனவாக்குமாறு இறைவனிடம் வேண்டிக்கொள்கிறேன்.

**கனிஸ்ரீ - VI B**

**விழிப்பான இந்தியா செழிப்பான இந்தியா**

நம் பாரத நாடு எல்லாத் துறையிலும் சிறந்து விளங்குகின்ற நாடாக இருந்தபோதிலும் சிலரது சுயநலத்தால் வரி ஏய்ப்பு, வங்கிக் கடன் ஏய்ப்பு, போலியானவை தயாரிப்பது, ராணுவ ரகசியங்களை திருடுவது, போதை பொருள் விற்பது, கள்ளநோட்டு அச்சிடுவது, கையூட்டு பெறுவது, அந்நிய நாட்டு வங்கிகளில் பணம் சேமிப்பது என, இன்னும் பல முறைகேடான செயல்கள் நம் பாரத்தைத் தன்னிறைவு அடைய முடியாமல் தடுக்கிறது. மாணவர்களாகிய நாமும் இளைஞர்களும் சேர்ந்து இவற்றை ஒழிக்கப் பாடுபட வேண்டும். மேலும் நம் பாரதத்தை வளமிக்க நாடாக மாற்றவும், மக்களிடையே விழிப்புணர்வு உண்டாக்கவும் சபதம் ஏற்க வேண்டும். இவ்வாறு விழிப்பாக இருந்தால், நம் நாடு செழிப்பான இந்தியாவாக மாறும் என்பது நிச்சயமாகிவிடும்.

**பவேஷ் சி - VI B**

## நான் **பார்க்க** விரும்பும் உலகம்

காடுகளை உருவாக்கி, நெகிழியை நீக்குவது அவசியம். ஆண் - பெண் பாகுபாடு, மொழி - மதம் போன்ற வேறுபாடுகள் இல்லாமல் இருக்க வேண்டும். இயற்கையை அழிக்காமல் பாதுகாக்க வேண்டும். பறவை விலங்குகளை நேசிக்க வேண்டும். சக உயிர்கள் பசியோடு இருப்பதைப் பார்த்தால், பசியை நீக்க உணவு கொடுத்து உதவுவது, பிறரை மகிழ்வித்து நாமும் மகிழ்வது, இவற்றை, நாம் ஒவ்வொருவரும் பின்பற்றினால் நம் வருங்காலம் பொற்காலமே! இதுவே, நான் காண விரும்பும் உலகம்.

**நித்யஸ்ரீ** - VI B

## அவசரமான உலகம்

"அவசரமான உலகம்" என்பது நம் வாழ்வின் வேகமான தன்மையையும் அதனால் ஏற்படும் விளைவுகளையும் விவரிக்கும் ஒரு கதை ஆகும்.
வாழ்க்கை முறை :
அவசர உலகில் பணம், புகழ் போன்றவற்றைத் தேடி ஓடுவதால், வாழ்க்கையின் உண்மையான மகிழ்ச்சி மற்றும் நிம்மதியை இழக்கிறோம்.
கண்ணதாசன் கவிதை:
'அண்ணன் என்னடா தம்பி என்னடா அவசரமான உலகத்திலே' என்ற பாடல் வரிகள் மூலம் உறவுகளின் முக்கியத்துவத்தை வலியுறுத்தலாம்.
வேகம் மற்றும் மன அழுத்தம்:
நவீன வாழ்க்கை வேகம் மிகுந்ததாக இருந்து, மன அழுத்தத்தை ஏற்படுத்துவதால் உடல் மற்றும் மனம் பலவீனமடைகிறது.
தொழில் நுட்பம்:
தொழில் நுட்பம் வேகமாக முன்னேறி வருகிறது. இது நம் வாழ்வில் ஒரு பெரிய தாக்கத்தை ஏற்படுத்துகிறது. ஆனால் அது எப்போதும் பிரச்சனைகளைத் தீர்க்க உதவுவதில்லை.
விபத்துகள்:
வாகனங்களில் செல்வோர் மெதுவாக செல்லாமல் அவசர அவசரமாக மற்ற வாகனங்களை முந்திச் சென்று விபத்துகளை ஏற்படுத்துகின்றனர்.
பள்ளி மாணவர்கள்:
சரியான நேரத்திற்கு தயாராகாமல் காலை உணவைத்தவிர்த்து அவசரமாக பள்ளிக்குச் செல்வதால் பல குழந்தைகளுக்கு ஊட்டச்சத்து குறைபாடு ஏற்படுகிறது.
தீர்வு:
வாழ்க்கை என்பது ஒருமுறை தான். நம் உற்றார் உறவினர்கள், நண்பர்கள் மற்றும் நம் குடும்பத்தினரின் மகிழ்ச்சிக்காக அவசரம் என்ற வட்டத்துக்குள் செல்லாமல் கிடைக்கும் நேரத்தை மிக பயனுள்ளதாக மாற்றிக் கொள்ள நம்மை தயார்படுத்திக் கொள்ள வேண்டும்.

**சோ. யோகேஷ்**
VI B

## கைத் தொழில் கற்பது நன்று

கைத்தொழில் கற்பது என்பது, இன்றைய காலத்திற்கு அவசியமான ஒன்று. இது, வேலைவாய்ப்பின்மை பிரச்சனைக்குத் தீர்வு காண்பதோடு, ஒரு தனி நபரின் சுயமரியாதையையும், பொருளாதார நிலையையும் மேம்படுத்தும். கைத்தொழில் கற்போம், நம் வாழ்வை வளமாக்குவோம்.
ஒரு சீனப் பழமொழி, "ஒருவனுக்கு ஒருவேளை உணவு கொடுப்பதை விட, அவனுக்கு மீன் பிடிக்க கற்றுக் கொடுத்தால், அவன் காலமெல்லாம் பசியில்லாதிருப்பான்" என்று, கைத்தொழிலின் முக்கியத்துவத்தை உணர்த்துகிறது.

**ச. பிரவீன்**
VI C

'ஒருவனுக்கு மீன் பிடிக்க கற்றுக்கொடுத்தால் அவன் காலம் முழுவதும் பசியில் இருக்க மாட்டான்' என்ற, சீனப் பொன்மொழி கைத்தொழிலின் முக்கித்துவத்தைக் கூறிகிறது. கூடை பின்னுதல், பாய் பின்னுதல், தேனீ வளர்த்தல்,

வாகனம் ஓட்டுதல், மின்னணு சாதனம் பழுது பார்த்தல் போன்ற எண்ணில் அடங்காத தொழில்கள் உள்ளன. பெற்றோர் தங்கள் பிள்ளைகளுக்கு பள்ளி பருவத்திலேயே ஏதேனும் ஒரு கைத்தொழிலைக் கற்று கொடுக்க வேண்டும். "ஏட்டு சுரைக்காய் கறிக்கு உதவாது" வறுமையில் வாடுபவரைக் கைத்தொழில் என்றும் கைவிட்டதில்லை. எனவே கைத்தொழிலின் அருமையை அனைவரும் அறிந்து ஏதேனும் ஒரு கைத்தொழிலைக் கற்றுக்கொள்ள வேண்டும்.

**பி.ரோஹித்**
VII C

இன்றைய உலகில் கல்வி மட்டும் போதுமானதல்ல. நம்மை தன்னம்பிக்கையுடன் வாழவைப்பது கைத்தொழில்தான். இது வேலைவாய்ப்பை எதிர்பார்க்காமல், நம்மை முதலாளியாக உயர்த்தி, நம் சுயமரியாதையினை வளர்கிறது. தையல், மரவேலை, மண்பானை செய்வது, நெசவு, சிகை அலங்காரம், ஆடை வடிவமைத்தல் இயந்திரங்களைப் பழுதுபார்த்தல் போன்ற பல கைத்தொழில்கள் என்றும் மதிப்பு வாய்ந்தவை. அதனால் தான், "கைத்தொழில் ஒன்றைக் கற்றுக்கொண்டால் நமக்கு கவலையில்லை" என்று கூறினர் நம் முன்னோர்கள்.

"அறிவோடு திறமையும் சேர்ந்தால் வாழ்க்கை அழகாக மாறும்."

**தன்சஷிகா பாலாஜி**
VIII - B

**நான் மாற்ற விரும்பும் உலகம்**

நான் மாற்ற விரும்பும் உலகத்தில் பணக்காரர் ஏழை என்ற, ஏற்றத் தாழ்வு இல்லாமல் இருக்க வேண்டும். சுதந்திர திருநாட்டில் பெண்களுக்கான பாதுகாப்பு அதிகரிக்க வேண்டும். மக்களுக்காக நல்ல தலைவர்கள் அமைய வேண்டும். குழந்தைகளுக்கு எதிரான வன்முறையைக் கண்டிக்க வேண்டும். நோய் நொடியின்றி வாழ சுகாதாரம் மேம்பட வேண்டும். சட்டம் என்பது அனைவருக்கும் பொதுவானதாக இருக்க வேண்டும். கட்டாய கல்வி அனைவருக்கும் வழங்கப்பட வேண்டும். சுத்தமான குடிநீர் மற்றும் மாசுக் கட்டுப்பாடு இருக்க வேண்டும். கட்டணமில்லா மருத்துவம் அமைய வேண்டும். குற்றங்களுக்குக் கடுமையான தண்டனையை விதிக்க வேண்டும்.

**எஸ். விஷ்ணு**
VI C

நான் வாழும் உலகம் அழகானதாய் இருந்தாலும் அதில் சில குறைகளும் உள்ளன. பசியும் வறுமையும் இல்லாத உலகமாக இதை மாற்ற விரும்புகிறேன். எல்லோருக்கும் சம உரிமை கிடைக்க வேண்டும். பிள்ளைகள் அனைவரும் கல்வி பெற்று வளர வேண்டும். பெண்கள் தன்னம்பிக்கையுடன் வாழும் உலகம் உருவாக வேண்டும்.

**செ.அபி**
VII A

நாம் இப்பொழுது இருக்கும் உலகம், மிகவும் மாற்றமடைந்துள்ளது. நான் சிறு வயதில் இருக்கும் பொழுது, நண்பர்களாக எல்லாரும் விளையாட போவோம், உறவினர்களோடு வெளியே செல்வோம். இணையம் இல்லாத உலகம் மிகவும் அமைதியான உலகமாக இருந்தது. மடிக்கணினி, அலைபேசி, இருந்தாலும் பெரிய மாற்றம் ஒன்றும் இல்லை. **"ஒரு நாள், திடீரென, ஒரு மற்றம் வந்தது!"**

கோவிட் - 19 ஆம், கொரோனா என்ற ஒரு மிகப்பெரிய தொற்று நோய் பரவியது. அதுவே நம் வாழ்வினைப் புரட்டிப்போட்ட திருப்பு முனையாக இருந்தது. எல்லோரும் வீட்டிலேயே இருக்கவேண்டிய முடக்கமான சூழ்நிலை ஏற்பட்டது. மாணவர்கள் ஆகிய நாங்கள் கல்வியினை இணையவழியில் பெற ஆரம்பித்தோம். எல்லோரும் அலைபேசி மற்றும் மடிகணினியைப் பயன்படுத்தி வீட்டிலிருந்தே வேலை பார்க்க ஆரம்பித்தார்கள். அவற்றுடன் ஒன்றிவிட்டார்கள்.

காலம் மாறியது. ஆனால், யாரும் அந்த இணைப்பிலிருந்து விடுபடவில்லை. அன்றிலிருந்து இன்றுவரை எல்லோரும் அந்த தொலைதொடர்பு சாதனங்களில் இருந்து விடுதலைபெற விரும்பவில்லை. அவை இன்றி எவ்வாறு வாழமுடியும்? என்னும் அளவிற்கு அவற்றைப் பயன்படுத்துகின்றனர். உறவினர்களை நேரில் சந்தித்து உறவாடும் சூழ்நிலை குறைந்து வருகிறது.

நம் பண்பாட்டை மறக்கச்செய்யும் இத்தகைய இயந்திரமயமான உலகம் எனக்கு வேண்டாம். மீண்டும் அந்த பழங்கால வாழ்க்கை வேண்டும். முகநூலில் பேசுவதை விடுத்து முகம்பார்த்து பேச ஆசைப்படுகிறேன். உறவினரோடு நேரில் சென்று உறவாட விரும்புகிறேன். இணையத்தில் விளையாடாமல் இணைந்து விளையாட விரும்புகிறேன்! அத்தகைய அமைதியான உலகம் எனக்கு மீண்டும் வேண்டும்!

**∴பலிஷா**
VIII - A

**அவசரமான உலகம்: கவிதை**

ஓயாத ஓட்டத்தில் நாட்கள்
நகர்கின்றன,
எதிலும் வேகம், எங்கும் பரபரப்பு!
விடியலில் தொடங்கும் அவசரம்,
இரவின் அமைதியிலும்
தொடர்கிறது.
வேலைகள் மலைபோல் குவிந்து,
கிடக்க,

காலம் கைக்கெட்டிய தூரத்தில்
ஓடுகிறது.
நொடிகளும் துளிகளுமான
பொன்னான நேரத்தில்,
வாழ்க்கைப் பந்தயத்தில்
மூச்சிரைக்க ஓடுகிறோம்.
அருகில் இருப்போரை கவனிக்க
நேரமில்லை,
அன்பான வார்த்தைகளை பேச மறந்து
போனோம்.
இயற்கையின் அழகை ரசிக்க
மனமில்லை,
இதயத்தின் ஓசையைக் கேட்க
செவிகளில்லை.
எந்திர வாழ்க்கைச் சக்கரம்
சுழல்கிறது,
மனித நேயம் எங்கே தொலைந்து
போனதோ?
கொஞ்சம் நிதானித்து, மனம் விட்டுப்
பேசி,
வாழ்க்கையின் உண்மையான
அழகை உணர்வோம்!
நன்றி!

**மேகவர்ஷினி. சா**
VII A

அவசரமான உலகம்!
ஓடும் காலம்!
அவசர பாதையில்
அலைபாயும் மனித மனங்கள்!

இயற்கை அழிவது
கண்ணுக்குத் தெரியாத
ஒரு கொடிய காயம்
என்றே மனம் நினைக்கிறது!

வேகமாய் ஓடும் உலகில்!
அன்பை மறந்து
அதிகாரத்தை வென்று
வேறொரு வாழ்வை தேடுது!
சின்னக் குழந்தையாய்
சிரிக்கும் உலகை
மறந்து விட்டு
மகிழ்வை
தொலைக்கின்றோம்!
உறவுகளை மறந்து
ஓடும் நாட்களில்
அன்பை தேடி
அலைகின்றோம்!
**கால**மும் அவசரமும்
சேர்ந்து ஓடட்டும்.
காலத்தை நிறுத்தி
நிம்மதி தேடுவோம்.

**ர.கு.விஷால்**

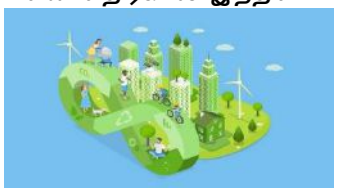
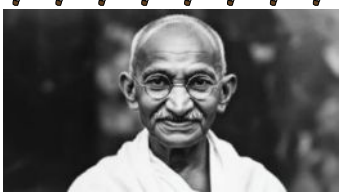
## என் எதிர்கால இந்தியா



விழிப்பின் ஒளி வீசும் வழியில்,
வளர்கிறது நம் இந்தியா நெறியில்.
அறிவும் அன்பும் சேரும் நிலத்தில்,
அமைதி மலரும் ஓவ்வொரு மனதில்.
இது கனவு அல்ல, இது நம் இலக்கு,
ஒவ்வொரு குழந்தையும் உருவாக்கும்
விழிப்பான இந்தியாதான் நம் இலக்கு
செழிப்பான இந்தியா நம் எதிர்காலம்!

**வினதா இரா**
VII A

**என்னை கவர்ந்த மனிதர் .... காந்திஜி**



எளிமை வாழ்வின் மேன்மை,
உண்மை அவரின் நேர்மை.
கையில் தடி, மனதில் பொலிவு,
சத்தியம் அவரின் பெரிய செல்வம்.
எளிமை வாழ்வு, உண்மை வரம்,
அன்பால் வென்றார் உலகம் முழுவதும்
அஹிம்சை தான் அவரது வாள்,
காந்தி பெயரில் - துணிவு கொள்வோம்!

**பி. வி. வர்ஷா**
VII A

## நல்ல உலகம்

நான் மாற்ற விரும்பும் உலகம் அன்பும், அமைதியும் நிறைந்ததாக இருக்க வேண்டும். எல்லோரும் சமமாக மதிக்கப்பட வேண்டும். யாரும் பசி அல்லது வறுமையில் வாடாத உலகம் வேண்டும். மரங்கள் நிறைந்து, காற்று தூய்மையாக இருக்க வேண்டும். உலகில் மனிதர்கள் ஒருவருக்கொருவர் உதவி செய்து மகிழ்ச்சியாக வாழ வேண்டும். உலகத்தை மாற்ற வேண்டும் என்று எண்ணிவிட்டால் அதற்காக என்ன வேண்டுமென்றாலும் செய்யலாம், அது நல்லதாக இருக்க வேண்டும்.

நன்றி

**வி. அக்ஷிதா**

## என் கனவு

நான் மாற்ற விரும்பும் உலகில், ஏற்றத்தாழ்வுகள் இருக்கக்கூடாது, அனைவரும் சமமாக மதிக்கப்படவேண்டும், பசி, வறுமை, போர் இல்லாத அமைதியாக இருக்கவேண்டும். மரங்களை நட்டு சுற்றுச்சூழலைப் பச்சைப்பசேல் என்று உருவாக்க வேண்டும். அன்பும் அமைதியும் நிறைந்து இருக்க வேண்டும். பறவைகளையும் விலங்குகளையும் பாசத்துடன் பராமரிக்க வேண்டும். மனிதநேயம் மிக்க உலகமாக இருக்க வேண்டும். உலகத்தை இவ்வாறு மாற்றுவதே என் கனவு.
நன்றி

**ம.சி.நிரஞ்சனா**
VII A

**தமிழின் சிறப்பு**

தமிழ் ஒரு பழமையான மற்றும் அழகான மொழி. இந்தியாவின் பழமையான மொழிகளில் முதன்மையான மொழி. தமிழுக்கு என்று பண்பாடு வரலாறு மற்றும் கலாச்சாரம் உள்ளது. தமிழில் இயற்றப்பட்ட பாடல்கள் மற்றும் கதைகளை இந்த உலகம் பாராட்டுகிறது. தமிழில் சிறந்த நாவல்கள் மற்றும் கதைகள் எழுதப்பட்டு உள்ளன. தமிழ் மொழி, அழகான ஒலிநடையினையும், நயத்தினையும் கொண்டது. தமிழ் பேசும் மக்கள் பழகுவதற்கு இனிமையானவர்களாகவும் பணிவானவர்களாகவும் இருப்பர். தமிழ்மொழிக்கென தனித்துவமான எழுத்துகள் உள்ளன. தமிழின் சிறப்பு உலகளாவியது.
நன்றி

**ச.மகிதா**

## புதிய விடியல்

அன்பும் அமைதியும் நிறைந்த உலகமாகட்டும்!
யாரும் சண்டையிடாத நாள் வரட்டும்!
சிரிப்பும் நம்பிக்கையும் நிலைத்திடட்டும்!
பசுமை பூமி மீண்டும் மலரட்டும்!
பறவைகள் பாடும் காலம் திரும்பட்டும்!
மாசில்லா காற்றும் நீரும் பெருகட்டும்!
மனிதன் இயற்கையுடன் சேரட்டும்!
குழந்தைகள் புத்தகத்தைப் படித்து,
அறிவால் உலகத்தை ஒளிரச் செய்யட்டும்!
போர் என்ற சொல்லே மறந்துப்போய்,
சமாதானம் தங்கும் உலகம் உருவாக்கட்டும்!
விலங்குகள் பயமின்றி வாழும் இடம்!
மனிதர்கள் பாசமுடன் வாழும் நாடு!
சமத்துவம் பூக்கும் சமூக நன்நாடு!
ஒவ்வொருவரும் மகிழ்ந்திருக்கும் சிறந்த பூமி!
நான் காண விரும்பும் உலகமும் இது தான்!
நம்பிக்கையின் ஒளியில் நாமெல்லாம் சேர்ந்து,
புதிய விடியலை வரவேற்போம் மகிழ்ச்சியுடன்!

**டீ. ஹரி ஷங்கர்**
**VII C**

## **இனிய** உலகம்

இன்பம் நிறைந்த உலகம்!
சண்டை சச்சரவு இல்லாத உலகம்!
அன்பும் பாசமும் நிறைந்த உலகம்!
பொறாமை இல்லாத உலகம்!
மனிதநேயம் நிறைந்த உலகம்!
ஜாதி, மத பகுபாடில்லாத உலகம்!
நேர்மையும் உணமையும் நிறைந்த உலகம்!
பொய் இல்லாத உலகம்!
காடுகள் நிறைந்த உலகம்! - சுதந்திரமாய்
விலங்குகள் உலாவும் உலகம்!
அழகான உலகம்! - இதுவே
நான் காண விரும்பும் உலகம்!

**VII C**

என்னைக் கவர்ந்த மனிதர்

என்னைக் கவர்ந்த மனிதர் என்னுடைய அம்மா. ஏனென்றால் என்னுடைய அம்மா மிகவும் சுவையான உணவுகளைச் செய்து தருவார்கள், எப்பொழுதும் என்னுடைய துன்பங்களைத் தீர்ப்பவர். எப்பொழுதும் நல்ல எண்ணத்துடன், படிப்போடு, பண்பையும் சேர்த்து தருவதில் முதலிடம் பெறுபவர் என் அம்மா, என்னைக் கவர்ந்தவரும் அவரே.

**ஸ்ரீஹிதா.ச**

VII B

## என் அம்மா

என்னைக் கவர்ந்த மனிதர் என் அம்மா!
என்னை பாசமாக வளர்ப்பவர்!
அதிகாலையில் ஆசையுடன் எழுந்திருப்பார்!
தினமும் எனக்குப்பிடித்த உணவை சமைத்திடுவார்!
காலையில் முதல் இரவு வரை வேலைகள் பல செய்வார்!
என்னைப் படிக்க வைக்க ஓய்வின்றி மிகவும் உழைக்கிறார்!
பிடித்தப் பொருட்கள் வாங்கித் தருகிறார்!
மிகவும் வலிமையானவர்!
அனைவரிடமும் அன்பாக இருப்பார்!.
அவர்தான் பாசமிகு **என் அம்மா**!

நன்றி!!

சுகரிஷ்மா
VII B

## விழிப்பான இந்தியா! செழிப்பான இந்தியா!

விழிப்புணர்வே மாற்றத்தின் முதல் படி. ஒவ்வொரு இந்தியரும் விழிப்புடன் இருந்தால் ஊழலை எதிர்க்கவும், சுற்றுச்சூழலைப் பாதுகாக்கவும், கல்வியை வளர்க்கவும் முடியும். விழிப்பான இளைஞர்கள், பொறுப்பான குடிமக்கள். நற்பண்புள்ள சமூகமே வலுவான இந்தியாவை உருவாக்கும். சிறிய நல்ல மாற்றமே பெரிய மு**ன்**னேற்றத்தின் தொடக்கமாக அமையும்.
விழிப்புணர்வே நம் வலிமை - அந்த விழிப்புணர்வால் இந்தியா நிச்சயம் செழிப்பாகும்!

வாழ்க இந்தியா!

ஹவிஷா
VIII A

## என்றும் நினைவிருக்கும் என் பள்ளி அனுபவம்

நான் பள்ளிகளுக்குக்கிடையிலான போட்டியில் கலந்துகொண்டேன். அது ஒரு நாடகப் போட்டி. நானும் என் குழுவினரும் கடினமாகப் பயிற்சி செய்தோம். அன்று போட்டியின் நாள். நாங்கள் பாட்டு பாடிக்கொண்டு மகிழ்ச்சியாக பேருந்தில் சென்றோம். நாங்கள் சென்ற பள்ளியில், போட்டிக்கு வரும் மாணவர்களுக்காக பல உணவு பொருட்களை விற்கும் சின்ன சின்ன கடைகளை வைத்திருத்தனர். அதில் எங்களுக்கு பிடித்த திண்பண்டங்களை வாங்கி உண்டு மகிழ்த்தோம். பிறகு எங்கள் முறை வந்தது. நாங்கள் நன்றாக நாடகத்தை நடித்து முடித்தோம். பிறகு நாங்கள் பதற்றத்தோடு காத்திருந்தோம். எங்களுக்கு இரண்டாம் பரிசாக ரூபாய் 500 கிடைத்தது. அது மட்டுமின்றி வருகைதந்த சிறப்பு விருந்தினர் எங்களுக்குப் பிடித்தவராக இருந்ததால் எங்களுக்கு மகிழ்ச்சி ஏற்பட்டது. நாங்கள் ஆனந்தத்தில் துள்ளிக் குதித்தோம்.

நன்றி!

பள்ளி அனுபவம் மிக முக்கியமானது ஆகும். ஆசிரியர்கள் நடத்தும் பாடம், விளையாட்டு மைதானத்தில் விளையாடுதல், தேர்வுக்குப் படித்தல், பல்வேறு போட்டிகளிலும் நிகழ்ச்சிகளிலும் கலந்துகொள்ளுதல் போன்ற அனைத்து நாட்களும் பசுமையானவை. என் பள்ளி வளாகத்தில் மணியின் ஓசையும், அன்பான நண்பர்களும் என் நினைவை விட்டு நீங்கவில்லை. என் பள்ளியில் கல்வி கற்ற காலம், பொன்னான காலமாகும். பள்ளிப் பருவம் என்பது மீண்டும் கிடைக்காத வரம். அந்நாளில் பெற்ற அனுபவங்கள் மிகவும் மகிழ்ச்சியானவை. என்றும் நம் நினைவில் நிலைத்திருக்கும். எனவே, ஒவ்வொரு நாளையும் பயன்படுத்துவோம்! மகிழ்ந்திருப்போம்!

நன்றி!

**கா. ஸ்ரீலேகா**

VIII - B

## டிஜிட்டல் இந்தியா

2015 ஆம் ஆண்டு "டிஜிட்டல் இந்தியா" தொடங்கப்பட்டது. இது இந்திய அரசின் ஓர் முக்கிய திட்டம். இந்தியாவை மின்னணு வசதிகளின் மூலம் முன்னேற்றுவதுதான் இதன் நோக்கம். இந்திய அரசு, டிஜிட்டல் வசதிகளின் மூலம் அரசு சேவைகள், கல்வி, சுகாதாரம், எச்சரிக்கை செய்திகள் அறிவிப்புகள் மற்றும் அனைத்து வேலை வாய்ப்புகளும் அனைவருக்கும் எளிதில் கிடைப்பதற்காக தொடங்கியது.

"டிஜிட்டல் இந்தியா" மூலம் இன்று பல கிராமப்புற மக்கள் கூட இணையத்தின் மூலம் அரசாங்க திட்டங்களை உடனுக்குடன் அறிய முடிகிறது. இணைய வங்கி, இணையவழி ஒருங்கிணைந்த பணபரிவர்த்தனை, தொலை மருத்துவ சேவை போன்றவை இதன் பலன்களாகும். அனைவரும் அவர்களின் வீடுகளில் இருந்தபடியே பல வேலைகளை செய்யலாம். இணைய வகுப்புகளின் மூலம் கல்வியும் மற்றும் விவசாயிகளின் சந்தை விலைகள் பற்றிய தகவல்கள் இணையத்தின் மூலமும் உடனே அறிந்துக் கொள்ள முடிகிறது. இந்த திட்டம், இந்தியாவை உலக தரத்திற்கு அற்புதமான சிறந்த நாடாக வளரச்செய்யும்.

நீல்தர்ஷன் பி. **X B**

## கிராமங்களின் வளர்ச்சியில் தொழில்நுட்பத்தின் பங்கு

இந்தியாவின் உள்ள பல கிராமங்களில் இன்றும் அடிப்படை வசதிகள் கூட இல்லை. தண்ணீர் பற்றாக்குறை, போக்குவரத்து வசதியின்மை, சாலை வசதியின்மை போன்ற பல்வேறு பிரச்சனைகள் நடைமுறையில் உள்ளது. நகரத்தில் உள்ள வசதி மற்றும் கட்டமைப்புகள் கிராமத்தில் இல்லை. இதுவே கிராமங்களில் இருந்து நகரத்திற்கு மக்கள் புலம்பெயர்வதற்கு காரணமாகும். ஆனால் இன்றைய தொழிநுட்ப வளர்ச்சியில் கிராமங்களை முன்னேற வைக்க இயலும். இதற்கு இளைய சமுதாயம் மற்றும் சான்றோர்கள் உறுதுணையாக இருக்க வேண்டும். கிராமங்களில் இருந்துதான் நாம் தினமும் பயன்படுத்தும் அடிப்படை பொருட்கள் கிடைக்கின்றன. பால், அரிசி, தானியம், பஞ்சு போன்ற விலை பொருட்களை செயலி மூலம் அறிமுகப்படுத்தி கிராமங்களில் உள்ள விவசாயிகளுக்கு உதவலாம். கிராமங்களில் சிறிய சிறிய சுற்றுலா தளங்களை உருவாக்கி சுற்றுலா பயணிகளின் வருகையை அதிகரிக்கலாம். கிராமங்களில் உள்ள பள்ளிக் கூடங்களில் நவீன வசதிகளை உருவாக்கலாம். இதன் மூலம் கிராமங்களின் இருந்து வரும் மாணவர்கள் படிப்பு திறன் குறைவானவர்கள் என்ற எண்ணத்தை மக்கள் மனதில் இருந்து நீக்கலாம். விவசாய நிலங்களின் தொழிநுட்ப வளர்ச்சியைக் கொண்டு நீர் பாசனம் செய்யலாம். இன்றும் நிறைய கிராமங்களின் பெயர் கூட தெரியாமல் இருக்கிறோம் இதைத் தவிர்க்க அந்த கிராமத்தின் பெயர் மற்றும் அங்குள்ள சிறப்பு போன்றவற்றைக் கைபேசியில் படம்பிடித்து அனைவரும் பார்க்கும் படி பகிரலாம். 'இது உங்கள் ஊர்' என்னும் செயலியை உருவாக்கி அதில் இந்த தகவல்களைப் பகிரலாம். கிராமங்கள் தான் இந்தியாவின் முதுகெலும்பு என்று அழைக்கப்படுகிறது. அப்படிப்பட்ட கிராமங்களை மக்கள் புறக்கணிப்பது தவறு. ஆனால், இன்றைய இளைய சமுதாயம் நினைத்தால் எதையும் சாதிக்கலாம். என்றென்றும் பசுமை மாறாத நினைவுகள் கிராமங்களில் தான் புதைந்திருக்கின்றன. இன்றைய பல அறிவியல் கண்டுபிடிப்புகளுக்கும் கிராமங்கள் தான் அடிப்படையாக இருக்கின்றன. இப்படிப்பட்ட கிராமங்களை நாம் தொழிநுட்ப உதவி மூலம் வளர்ச்சி அடைய செய்வோம்.

நன்றி!

வெ. கஷ்வினி 12 'அ'

இன்றைய காலத்தில் கிராமங்கள் தொழில்நுட்பத்தின் பல்வேறு வளர்ச்சி மாற்றங்களைப்பெற்று முன்னேற்றப் பாதையில் சென்று கொண்டு இருக்கிறது. கிராமங்களில் மக்கள் தொழில்நுட்பத்தைச் சிறப்பாகவும், அருமையாகவும் செயல்படுத்தி வருகின்றனர். தொழில்நுட்பம் அதிகமாக கிராமங்களில் செயல்படுகின்றன. இதனால் மக்கள் முன்னேற்றம் அடைகின்றனர். இயல்பான கிராமத்து மக்களின் வாழ்க்கையில் தொழில்நுட்பம் மிகவும் முக்கியத்துவம் வாய்ந்ததாக இருக்கிறது, இதனால் கிராமத்து மக்கள் மிகவும் சந்தோசமாகவும், மகிழ்ச்சியாகவும் இருப்பதுடன் அவர்கள் தங்களின் தற்கால வேலைகளை மிகவும் எளிதாக செய்கின்றனர். தொழில்நுட்பம் கிராமங்களில் பெரும் சாதனை மிக்கதாக இருக்கிறது. தொழில்நுட்பம் மிகவும் சிறப்பாகவும், எளிதாகவும் விவசாயிகளுக்கு இருக்கிறது. விவசாயிகளுக்கு மற்றும் கிராமத்து மக்களுக்கு தொழில்நுட்பம் மிகவும் பயன் உள்ளதாக இருக்கின்றன. மழை வருவதைக் கணிப்பது, பயிர்களை எளிதாக அறுவடை செய்வது எனப் பல வேலைகளை எளிதாக முடிக்க தொழில்நுட்பம் உதவி செய்கிறது. கிராமங்களில் தொழில்நுட்பங்களின் பங்கு மிகவும் பயனுள்ளதாக இருக்கிறது. கிராமங்களில் தொழில்நுட்பத்தின் பங்கு மேலும் மேலும் வளர்ச்சி அடைய வேண்டும். இதனால் கிராமத்து மக்களின் வாழ்க்கை மிகவும் எளிமையாகவும், சுலபமாகவும் இருக்கும்.

கே.எஸ்.ஸ்ருதி ஸ்ரீ

XI ஆ

## கிராமங்களின் வளர்ச்சியில் தொழில்நுட்பத்தின் பங்கு

நடைமுறை உலகில் தொழில்நுட்பம் இந்த உலகை ஆண்டு வருகிறது. 1980 களில் இருந்தே தொழில்நுட்பம் மாபெரும் வளர்ச்சியை அடைந்துள்ளது. கொரோனா நோய்த்தொற்று 2022 இல் முழுமையாக குறைந்த நிலையில் அடுத்த மூன்று ஆண்டுகளில் இது மாபெரும் வளர்ச்சி கண்டுள்ளது. ஆரம்ப கால கட்டங்களில் கிராமங்களில் போதிய வளர்ச்சி இல்லாமல் இருந்தது. ஆனால் தொழிநுட்பம் மற்றும் செயற்கை நுண்ணறிவு வளர்ச்சி அதிகரித்ததால் கிராமங்கள் நகரங்களாக மாறத்தொடங்கியது. இதுபோன்ற தொழிநுட்ப வளர்ச்சி கிராமங்களை அழிக்காமல் காடு இயற்கையுடன் சேர்ந்து வளர்ச்சி அடைந்தால் சிறப்பு. இந்தியாவில் இன்றும் பல கிராமங்கள் வளர்ச்சியில் ஒரு படி கூட எடுத்து வைக்கவில்லை. சில நாட்களுக்கு முன்பு கூட கூமாபட்டி என்ற ஒரு சிறிய கிராமம் சமூக வலைத்தளங்கள் மூலம் மாபெரும் வளர்ச்சி அடைந்துள்ளது என உலகம் முழுவதும் ஒரு பேசு பொருளாக மாறியது. இது போல பல கிராமங்கள் தொழில் நுட்ப வளர்ச்சியால் வளர்ந்துள்ளன. மற்றும் பல கிராமவாசிகளுக்கு வேலை வாய்ப்புகள் கிடைத்துள்ளது. இவ்வாறு

அது பல குடும்பங்களை வாழவைத்து வருகிறது. வேளாண்மையில் மாபெரும் பங்கு புரிகிறது மற்றும் கிராம மக்களின் வாழ்க்கையில் ஒரு மாற்றத்தை உருவாக்குகிறது.

ஜெய விக்னேஷ் - XI A

## நான் விரும்பும் புத்தம் புதிய பூமி

நான் விரும்பும் புத்தம் புதிய பூமி, மிகவும் அழகாகவும் பார்ப்பவர்களின் கண்களுக்குக் குளிர்ச்சியாகவும் அழகான பசும்புல்வேலிகள் நிறைந்த உலகமாகவும் இருக்க வேண்டும், என்பது என் ஆசை. புத்தம் புதிய பூமியில் மனிதர்களுடன் விலங்குகள் மற்றும் பல உயிரினங்களும் இருக்க வேண்டும். மக்கள் ஜாதி மதம் இல்லாத வாழ்க்கையை வாழ வேண்டும் அப்படி வாழ்ந்தால் நாடு சிறப்பாக இருக்கும். அனைத்து மக்களும் இயற்கையோடு ஒன்றி வாழ விரும்புகிறேன்

நாம் அனைவரும் நன்றாக வாழுவோம்!
அனைத்து உயிரினங்களையும் வாழவிடுவோம்!
அனைவரும் வாழ்வதற்கு ஏற்ற பூமியாக நாம் மாற்றுவோம்!

ஜஸ்வந்த் - 9C

"நான் விரும்பும் புத்தம் புதிய பூமி" மிகவும் பசுமையானதாக இருக்க வேண்டும். நம்மைச் சுற்றிலும் எங்கு பார்த்தாலும் புல்வெளிகள் மற்றும் மரங்களாக இருக்க வேண்டும். நம் நாட்டின் சாலைகளை அனைவரும் தூய்மையாக வைத்திருக்கவேண்டும். வீடு இல்லாதவர்களுக்கும் வறுமையில் இருப்பவருக்கும் வீடு, அடிப்படை வசதிகள், துணிகள், சாப்பாடு கிடைக்க வேண்டும். சிறு தொழிலைப்பெருக்கி, அனைத்து மக்களுக்கும் வேலைவாய்ப்பினை ஏற்படுத்த வேண்டும். நாட்டில் புகையிலை மற்றும் போதை பொருட்களைத் தடை செய்யவேண்டும். மாவட்டம்தோறும் பெரிய விளையாட்டு மைதானம் இருக்க வேண்டும். அனைத்து மக்களும் ஆரோக்கியத்துடன் வாழவேண்டும். சண்டை சச்சரவு மற்றும் போர் இன்றி உலகம் அமைதியாக இருக்க வேண்டும்.

ஆதித்ய புருஷோத்தமன் - 9C

**முன்னுரை:**
எத்தனையோ வளம் நிறைந்த இந்திய நாடு வேற்றுமையில் ஒற்றுமை என்ற அமைப்பில் பல தொழில்நுட்ப வளர்ச்சியை நோக்கி முன்னேறிக்கொண்டு இருக்கின்றது. இம் முன்னேற்றமானது நிலையாகவும், தூய்மையாகவும்,தொடர்ச்சியாகவும் அமைய வேண்டும் என்பதற்காகத் தான் ஐந்தாண்டு திட்டங்கள் பலவற்றை அரசு திட்டம் தீட்டி செயல்படுத்துகின்றது. அவற்றில் ஒன்று தான் தூய்மை இந்தியா திட்டம்.

**திட்டத்தைச் செயல்படுத்துதல்**:
தேசத்தந்தை மகாத்மா காந்தியின் உண்மையான திட்டமான "தூய்மை இந்தியா" திட்டத்தை முதன்மை நோக்கமாகக் கொண்டு தூய்மை பாரதம் என்று பொது இடங்களைத் தூய்மை செய்தல் என்ற திட்டம் நாடு முழுவதும் செயல்படுத்தப்படுகிறது.
இத்திட்டத்தை அனைத்து பள்ளிகளிலும், கல்லூரிகளிலும், அரசு அலுவலகங்களிலும் தன்னார்வ தொண்டு நிறுவனங்களிலும், வீடுகளிலும், காடுகளிலும், தெருக்களிலும், பொது இடங்களிலும் அனைத்து மக்களும் தாங்களே இத்திட்டத்தைச் செயல்பாட்டில் கொண்டு வந்துள்ளனர்.

**நாம் செய்ய வேண்டிய கடமைகள்**:

- நாம் வசிக்கும் இடம் சுத்தமாக இருக்க வழிவகை செய்தல்.
- காடுகளில் உள்ள மரத்தையும், விலங்கினங்களையும் அழிக்காமல் பாதுகாத்துக்கொள்ள வேண்டும்.
- நெகிழிப் பொருட்களைப் பயன்படுத்தக்கூடாது.
- மழை நீரைச் சேமித்து நிலத்தடி நீரைப் பெருக்க வேண்டும்.
- ஒவ்வொரு வீட்டிலும் மழைநீர் சேமிப்புத்தொட்டி அமைக்க வேண்டும்.
- வீட்டுக்கு ஒரு மரம் வளர்க்க வேண்டும்.
- மாடி தோட்டங்கள் அமைக்க வேண்டும்
- வீடுகளில் உள்ள சமையல் அறைகளைச் சுத்தமாக வைக்க வேண்டும்.
- வசதி படைத்தோர்கள் வசதியில்லாதவர்களுக்குத் தங்களால் முடித்த உதவிகளைச் செய்ய வேண்டும்

**முடிவுரை:**
நாம் விரும்பும் புத்தம் புது பூமியை உருவாக்க நம்மால் முடிந்தவரை முயற்சிக்க வேண்டும். நாட்டு நலன் என்பது ஒவ்வொரு தனிமனிதரின் கைகளில்தான் உள்ளது. சிந்திப்போம் செயல்படுவோம். இயற்கைவளம் மிகுந்த பூமியைக் காப்போம்.

ரா. ரோசினி X -ஆ

## நவீன உலகில் புத்தக வாசிப்பு பழக்கம்

வாசிப்போம்! வாசிப்பை நேசிப்போம்!
நவீன உலகை படைத்திடுவோம்!
நன்னூல் பலவும் வாசிப்போம்!
நற்பண்புகளை வளர்த்திடுவோம்!
நாளும் அன்பைப் பரப்பிடுவோம்!
புத்தகம் பல கற்றிடுவோம்!
பட்டங்கள் பல பெற்றிடுவோம்!
போலி நண்பர்களின் மந்தைக்கு நடுவில்
என் உண்மை நண்பனாகிய புத்தகமே!
நவீன உலகிலும் என் அறியாமையை

அகற்றும் நண்பனே!
எவ்வுலகாயினும் புத்தகம் பல வாசிப்போம்!
வளம் பல பெறுவோம்!

க்ரிஷமிக்க ஸ்ரீ - XA

நவீன உலகத்தில் புத்தக வாசிப்பு பழக்கம் ஒரு முக்கியமான விஷயமாக உள்ளது. இருப்பினும் வாசிப்பின் முக்கியத்துவத்தை உணர்ந்து பலர் மீண்டும் புத்தகங்களை நாடி செல்கிறார்கள். இன்று படித்து கணினி மென்துறையில் வேலைபார்க்கும் இளைஞர்கள் பலர் ஒன்று கூடி, புத்தகம் வாசிப்பதற்கு என்று ஒரு குழுவினை வைத்துள்ளனர். வாரம் ஒருமுறை பூங்காக்களில் கூடி, வாசித்தப் புத்தகங்களில் உள்ள கருத்துகளைப் பகிர்ந்து தங்கள் அறிவினை விரிவுபடுத்தி வருகின்றனர். இதை அதிகரிக்க அறிவை அதிகரித்தல் வாசிப்பை ஊக்குவித்தல் டிஜிட்டல் வாசிப்பு போன்ற விஷயம் வரும் ஆனாலும் நவீன உலகில் புத்தக வாசிப்பு என்பது ஒரு முக்கியமான பழக்கமாக இருந்தாலும் அதன் மீதுள்ள ஆர்வம் குறைந்து வருகிறது. நாம் அதிக நேரம் கைபேசி மற்றும் சமூக ஊடகங்களில் செலவழிப்பதைக் குறைத்து அந்த நேரத்தை புத்தகங்கள் படித்து நலம் பெறுவோம்.

ஹரிணி - X C

இன்றைய புதுமை உலகில், தொழில்நுட்பமும் அறிவியலும் நன்கு வளமை பெற்றுருக்கிறது. நாம் இந்த நவீனத்தை நல்ல செயல்களுக்குப் பயன்படுத்துவதைவிட தீய செயல்களுக்கே அதிகம் பயன்படுத்துகிறோம். இதனால் நம் முன்னேற்றத்திற்காக கண்டு பிடிக்கப்பட்டவை நம் அழிவிற்கே வழிவகுக்கிறது. தொலைக்காட்சியும் தொலைபேசியுமே ஒரு நாளில் அதிக நேரம் பயன்படுத்தப்படுகிறது. இதற்கு மாற்று வழியே புத்தக வாசிப்பு பழக்கம். அதுவே நமக்கு விசாலமான பார்வையையும் தெளிவான மனதையும் தருகிறது. புத்தக வாசிப்பு பழக்கத்தைப் பின்பற்ற நாம் சுய கட்டுப்பாட்டுடனும், சுய ஒழுக்கத்துடனும் செயல்பட வேண்டும். நம்முடைய தீயபழக்கத்தை விட்டு நல்ல பழக்கத்தை மேற்கொள்ள வேண்டும். ஒவ்வொரு நாளும் இரவில் தூங்குவதற்கு முன்னர் இன்றைக்கு ஏதோ ஒன்றை படித்து, ஒரு தகவலைத் தெரிந்துகொண்டேன் என்ற மனநிம்மதியுடன் தூங்க வேண்டும்.

ஸ்ரீநிதி.க

**என் வாழ்நாள் லட்சியம்**

என் வாழ்நாள் லட்சியம், மருத்துவராக பணிபுரிந்து என் நாட்டு மக்களின் உயிரைக் காப்பாற்றுவதாகும். மேலும் பல மருத்துவமனைகளைத் திறந்து வைப்பேன். இதற்கான மருத்துவர் படிப்பைப் படித்து முன்னேறுவேன். ஏழை மக்களுக்கு இலவச மருத்துவமும் மருந்துகளும் கொடுப்பேன். முதியவர்களுக்கு, அவர்களின் இல்லத்திற்கேச் சென்று மருத்துவ உதவிகளைச் செய்வேன். என் மருத்துவமனையில் போதுமான மருந்து பொருள்களையும் உபகரணங்களையும் வைத்திருப்பேன். மருத்துவமனையைத் தூய்மையாக வைத்துக்கொள்வேன். நான் நேர்மையாக எனது தொழிலைச் செய்து மனித உயிர்களைக் காப்பாற்றுவேன். இதுவே என் வாழ்நாள் லட்சியம்.

பார்கவி - 9B

வாழ்கையின் ரகசியம் !
விடாமுயற்சியோடு செயல்படுவோம்!
விடையைத் தேடி செல்வோம்!
நம் குறிக்கோளை அடைந்திட!
நம் வாழ்வின் ரகசியத்தைத் தெரிந்திட!
தேவையற்ற புற்களை அகற்றுவதுபோல
தேவையற்ற எண்ணங்களை அகற்றுங்கள்!
ஒளி விளக்கைத் தேடுங்கள்!
ஒளிர வைக்கும் செயல்களைச் செய்யுங்கள்!"

சங்கீதா.வ
X A

நான் ஒரு நடுநிலைக் குடும்பத்தில் வசித்து வரும் சாதாரண மனிதன். எனக்கு 15 வயது ஆகிறது. இப்பொழுது நான் '10 ' ஆம் வகுப்பு படித்து வருகிறேன். "என் வயது சிறிது, ஆனால் என் லட்சியம் பெரியது". என் வாழ்நாள் லட்சியம், நான் மட்டைப்பந்து விளையாட்டில் சிறந்து விளங்க வேண்டும். அதற்காக நான், "கிரிக்கெட் அகாடமி" யில் சேர்ந்து கடினமாகப் பயிற்சி பெற்று வருகிறேன். மட்டைபந்து விளையாட்டில் எனக்கு பிடித்த விரர் "விராட் கோலி". அவர் தன் பேட்டிங்கிலும் மற்றும் அணி தலைவராகவும் இந்திய கிரிக்கெட் அணிக்கு பெருமை சேர்த்து உள்ளார். ஆகவே நானும் அவரை பின்பற்றுகிறேன். நான் என் வாழ்நாள் லட்சியத்தை அடைய கடினமாக முயற்சி எடுக்கிறேன். இனி மேலும் முயற்சி எடுப்பேன். ஒரு நாள் என் லட்சியத்தை அடைவேன்.

சர்வேஷ் ராம் X-A

ஒவ்வொரு மனிதனுக்கும் வாழ்க்கையில் ஏதோ ஒரு குறிக்கோள், ஒரு லட்சியம் இருக்கிறது. அது தான் வாழ்க்கையை அர்த்தமுள்ளதாக்கிறது. எனக்கான வாழ்நாள் லட்சியம் ஒரு சாதாரண கனவு அல்ல. அது என் உழைப்பின்அடையாளம். முறையாக படித்து, கல்வியால் எனது வாழ்க்கையை வளப்படுத்த வேண்டும் என்பது என் முதல் குறிக்கோள். அதற்காகத்தான் நான் பாரத சாரண சாரணியர் பயிற்சி எடுத்து, ஒழுக்கம், சேவை, மனப்பான்மை, துணிவு ஆகியவற்றைக் கற்றுக்கொள்கிறேன். என் அடுத்த படிப்பு பி.பி.டி (BPT) மற்றும் எம்.பி.டி (MPT) படிப்புகளை முடிக்க வேண்டும். இந்திய இராணுவத்தில் சேர்த்து, ஒரு சிப்பாயாக நாட்டைக் காக்க வேண்டும் என்பது தான். ஒரு நல்ல மருத்துவராக மக்களின் உடல் நலத்தைக் காப்பது, ஒரு தலைவராக மற்றவர்களுக்கு ஒரு வழிகாட்டுவது, மேலும் குடும்ப உறுப்பினாராக அன்பும் பொறுப்பும் காட்டுவது - இவையே என் வாழ்நாள் இலக்கின் தூண்கள். எனது வாழ்க்கையின் ஒவ்வொரு நாளும், நான் வைக்கும் ஒவ்வொரு அடியும், அந்த இலக்கை அடைய வழிகாட்டுகிறது. நான் நினைப்பது, "சிறந்த மாணவியாக இருத்து, சிறந்த குடிமகளாக உயர்ந்து, சிறந்த மனிதியாக விளங்குவதுதான் வாழ்க்கையின் உண்மையான வெற்றி என்பதே. என் வாழ்நாள் லட்சியத்தை நினைத்துக் கொண்டே வாழ்வது எனக்கே பெருமையாக உள்ளது.

ஜெய் ஹிந்த்!

குணலிக்கா.ல X -A

**இளைஞர்களின் வாழ்க்கையில் வலைத்தளங்களின் தாக்கம்**

நமது வாழ்க்கையில் முக்கியமான பருவம் என்றால் அது இளமைப்பருவம். இளைமைக்காலத்தில் நாம் சாப்பிடும் உணவே நாம் வயதாகும் போது நமக்கு உயிர் சத்தைக் கொடுக்கும். வலைத்தளங்கள் மனிதரோடு மனிதர் தொடர்பில் இருக்க உதவியாக இருக்கிறது. மற்றவர்களுடன் தொலைபேசியின் மூலம் நேரலையாகவும் பேசலாம். வலைத்தளங்களாகிய கூகுள், இன்ஸ்டாகிராம், பேஸ்புக் மனிதர்கள் தங்களின் நாள் தொடக்கம் முதல் முடிவு வரை என்ன என்ன செய்கிறார்கள் என்று பதிவு செய்கிறார்கள். இது ஒருபுறம் நன்மையாக இருந்தாலும் மறுபுறம் '**இணைய குற்றவாளிகள்**' வலைத்தளங்கள், கைபேசிகள் மூலமாக ஒரு மனிதரின் எல்லா பதிவுகளையும் தரவுகளையும் பணத்தையும் திருடவும் முடிகிறது. இதன் மூலமாக மற்ற மனிதர்களை மிரட்டி அவர்களின் வாழ்க்கையைச் சீரழிகிறார்கள். இந்தியாவில் குறிப்பாக 20% இளைஞர்கள் இதன் மூலமாக தற்கொலை முயற்சிக்கு ஈடுபடுகிறார்கள். ஆபாச வளைதளங்கள், இணைய விளையாட்டு, சூதாட்டம் போன்றவற்றில் சிக்கி பலர் தங்கள் உயிரையும் மாய்த்துக்கொள்கின்றனர்.

"அளவுக்கு மீறினால் அமிர்தமும் நஞ்சு" என்பது வலைதளங்களைப் பயன்படுத்துவோருக்கும் பொருந்தும். எனவே பாதுகாப்பாக இணையத்தைப் பயன்படுத்தி மகிழ்ச்சியாக வாழ்வோம்!

டெபோரா. சா
12 அ

முன்னுரை:-

இன்று வலைத்தளங்கள் பல மனிதர்களின் வாழ்வில் அதிக பங்கு செலுத்துகின்றன. முக்கியமாக இளைஞர்களின் வாழ்வில்.

நன்மை தாக்கங்கள்:-

- இளைஞர்கள் வலைத்தளங்களின் மூலம் பல்வேறு கருத்துக்களை அறிந்து கொள்வர்.
- அக்கருத்துக்களை எல்லாம் அறிந்ததால் சமுதாயத்தில் அவர்களை சராசரி மனிதனை விட ஒரு படி மேல் உயர்த்திக்காட்டும்.
- வலைத்தளங்களின் மூலம் நாட்டில் நடக்கும் அனைத்து நன்மை மற்றும் தீமை விளைவிக்கக்கூடிய செய்திகளை அறிந்து கொள்ள முடியும்.
- முந்தைய காலங்களில் தொலை தொடர்பு சாதனங்கள் வளர்ச்சியடையாததால் தகவல்களை அறிந்துகொள்வதற்கு காலதாமதம் ஆனது.
- பின்பு வந்த காலங்களில் அலைபேசி போன்ற சாதனங்கள் கண்டுபிடிக்கப்பட்டு, நாடு படி படியாக வளரத் தொடங்கியது.
- தகவல்கள் உடனுக்குடன் கிடைத்தது. உலகம் கைக்குள் சுருங்கியது.
- இப்போது, பல்வேறு வலைத்தளங்கள் கண்டுபிடிக்கப்பட்டு மக்கள் அனைவரும் ஒவ்வொரு துறைகளிலும் சிறந்து விளங்குகின்றனர்.

தீமைத் தாக்கங்கள்:-

- வலைத்தளங்கள் மக்களின் வாழ்வில் நன்மையை ஏற்படுத்தி இருந்தாலும் சில தீமைகளையும் உருவாக்கியுள்ளது.
- இக்கால இளைஞர்கள் வலைத்தளங்களுக்கு அவர்களே அறியாமல் அடிமையாகிறார்கள்.
- இளைஞர்கள் வலைத்தளங்களில் அதிகமாக நேரத்தை செலவழிப்பதால் அதே அலைபேசியில் இருக்கும் பல நன்மைகள் தரும் தகவல்களை கவனிக்க மறக்கிறார்கள்.
- மாணவர்கள் வலைத்தளங்களில் தவறானவற்றைக் காண்பதால், சிறுவயதிலே தவறான பழக்க வழக்கங்களுக்கு அடிமையாகிறார்கள்.
- இதனால் குற்றவுணர்வு ஏற்படுவதுடன், தன்னம்பிக்கையையும் இழக்கின்றனர்.

முடிவுரை:-

எனவே, இன்றைய இளைஞர் அனைவரும் வலைத்தளங்களைத் தவறானவற்றிற்கு பயன்படுத்தாமல் நன்மைக்குப் பயன்படுத்தி வாழ்வில் உயர வேண்டும்.

வலைத்தளங்களுக்கு அடிமையாகாதீர்!

அவைகளை உங்களுக்கு அடிமையாக்குங்கள்!!

தியா. வி
12 இ

சமூக வலைத்தளங்களைப் பயன்படுத்துவதே இன்றைய இளம் தலைமுறைக்கு மிக பெரிய சவாலாக உள்ளது. சமூக வலைத்தளங்களை பயன்படுத்துவதில் இரண்டு பக்கம் உண்டு அதாவது நன்மை தீமை. நாம் எவ்விதத்தில் அதை பயன்படுத்துகிறோமோ அதிலே அதனுடைய தாக்கம் உள்ளது.

சமூக வலைத்தளங்கள் தகவல் தொடர்பு, பொழுதுபோக்கு, கல்வி போன்ற பல வகைகளில் நமக்கு உதவியாக உள்ளது. இன்றைய இளம் தலைமுறைக்குத் தேவையான கல்வி சார்ந்த தகவல்களை பல வலைத்தளங்கள் வழங்குகின்றன. புதிய விஷயங்களைக் கற்றுக் கொள்ளவும் உதவுகிறது. தங்கள் பொழுது போக்குக்காக அநேக நேரத்தை வலைத்தளங்களின் செலவு செய்கின்றனர். சமூக வலைத்தளங்கள் அநேக நன்மையை நமக்கு தந்தாலும் இளைஞர்கள் தங்கள் நிஜ வாழ்க்கையில் உறவினர்கள் நண்பர்கள் உடன் நேரம் செலவழிப்பதில்லை. இதனால் அதிக தனிமையை உணர்கிறார்கள். இது மட்டும் இல்லை சிலர் இதனால் மன அழுத்தம் அடைகிறார்கள்

சமூக ஊடக கருத்துக்களை தீவிரமாக எடுத்துக்கொள்வதை விட வாழ்க்கையில் இன்னும் நிறைய இருக்கிறது என்பதை இளைஞர்கள் உணர வேண்டும் நமது வாழ்க்கையை மேம்படுத்த சமூக வலைத்தளங்களை நாம் புத்திசாலித்தனமாக பயன்படுத்தி தங்கள் வாழ்க்கையில் மிகவும் பெரிய சாதனைகளைச் செய்து நாட்டிற்கும் பெற்றோர்க்கும் பெருமை சேர்க்க வேண்டும்.

பென்சி ஷாரோன் - XI D

இளைஞர்களே நாளைய தலைமுறை. அவர்கள் வாழ்க்கையில் பல சாதனைச் செய்ய முயல வேண்டும். ஆனால், இப்பொழுது அனைத்து இளைஞர்களும் கையில் உள்ள கைபேசியில் மூழ்கி உள்ளனர். இதன் மூலம் அவர்களின் சிந்தனை ஆற்றல் குறைந்து விட்டது. அவர்கள் மற்றவரிடம் பேசுவதற்கும் பழகுவதற்கும் தயங்குகிறார்கள். அவர்களின் உரையாடல் திறமை குறைந்துவிட்டது. வலை தளங்களில் நன்மையும் தீமையும் உள்ளது. அதை இளைஞர்கள் சிந்தித்து செயல்படுவதில்லை. வலை தளங்களில் மற்றவர்களைப் பற்றி புரளி பேசுவதால் அதன் தாக்கம் பல இளைஞர்களைக் காயப்படுத்துகிறது. அதனால் இளைஞர்கள் அனைவரும் வலை தளங்களின் நன்மை தெரிந்து பயன்படுத்த வேண்டும். அப்பொழுதுதான் அவர்கள் வாழ்க்கையில் முன்னேறுவார்கள்.

நந்திதா ஸ்ரீ
XI B

"யாதனின் யாதனின் நீங்கியான் நோதல்
அதனின் அதனின் இலன்".

இன்றைய காலத்தில், இளைஞர்களின் வாழ்க்கையில் வலைத்தளங்கள் முக்கிய பங்கு வகிக்கின்றன. வலைத்தளங்களால் இளைய சமூகம் கெட்டு போகிறது என்பதே பெற்றோர்களின் கருத்தாக இருக்கிறது.

வலைதளத்தின் நன்மையாக, முதலில் தகவல் பரிமாற்றம் மூலம் எளிமையாக மற்றவர்களுக்குச் செய்திகளைக் கொண்டுச் சேர்க்க முடியும். இது கல்விக்கும் உதவியாக இருந்தது இணையதள வகுப்புகள், செயற்கை நுண்ணறிவு மேலும் வேலைகளை எளிமை ஆக்கின. வலைதளத்தின் மூலம் உலக இளைஞர்களுடனும் தொடர்பில் இருக்க முடிகிறது. தற்போது,'ஆன்லைன்' நண்பர்களும் பொதுவாக இளைஞர்களுக்கு இடையே அதிகரித்துவிட்டது. பெரும்பாலான இளைஞர்கள் சமூக வலைத்தளங்களில் அவர்களின் திறமைகளை வெளிப்படுத்துகின்றனர். தொழில்/விளம்பரம் அனைத்திற்கும் உதவியாக உள்ளது.

வலைதளத்தின் தீமையாக, முதலில் அதிக நேரம் வீணாக்குதல். இதனால் படிப்பில் இருந்து கவனம் சிதறுதல், மன அழுத்தம், தன்னை மற்றவர்களோடு ஒப்பிடுதல் போன்ற மன நல பாதிப்புகள் வரத்தொடங்கிவிட்டன. சில நேரங்களில் பொய்யான செய்திகள் கூடப் பரவலாம், முழுமையாக செய்திகளை நம்ப முடியாது. உடல் நல பாதிப்புகளால் கண் பிரச்சினை, தூக்கம் குறைவு ஏற்படுகிறது.

தற்போது பெரும்பாலான இளைஞர்கள் சமூக வலைத்தளங்களையே அவர்களின் 'சுக மண்டலம்' ஆக வைத்திருக்கின்றனர்.

வலைத்தளங்கள் நல்ல பயன்களைத் தரும் கருவியாகவும், தவறான பாதைக்கு இழுக்கும் ஒரு மாயவலையாகவும் உள்ளது. "இணையம் - அறிவின் பாலம்; தவறான பயன்பாடு - அழிவின் களம்". சிந்தனையுடன் பயன்படுத்தினால், வலைத்தளம் வெற்றிக்கான சாவி.

"வலைத்தளம் - வலிமையா? வலையா?
உன் கையில் தான் தீர்வு"

-ரா. குரு சிவப் பிரியா
XI C

**முன்னுரை:**

தற்போதைய நவீன வாழ்க்கையில் வலைத்தளங்கள் , மற்றும் சமூக ஊடகங்களின் தாக்கம் விண்ணை தாண்டியுள்ளது. வலைத்தளங்களின் வளர்ச்சியே நவீன உலகத்திற்கு சாவி ஆகிறது. அப்படிப்பட்ட ஆற்றல் உடைய வலைத்தளங்களை ஆரம்பத்தில் மனிதன் தன் தேவையைப் பூர்த்தி செய்ய பயன்படுத்தினான். தற்போதும் இதன் தேவைகளை எண்ணில் அடங்காதவை தான் ஆனால் மனிதன் ஆடம்பரத்திற்காகவும், தன் சொகுசுக்காகவும் பயன்படுத்துகிறான். அவற்றைப் பற்றி விரிவாக காணலாம்.

**வலைத்தளங்களின் அறிமுகம்:**

வலைத்தளங்களின் அறிமுகம் மேலைநாடுகளில் சற்று முன்பே வந்திருந்தாலும் இந்தியாவில் வலைத்தளங்கள் தடம் பதிக்க சற்று காலம் எடுத்தது. காரணம் ஆரம்ப நிலை தொலைபேசிகளை வெறும் தொடர்பு கொள்ள பயன்படுத்தப்பட்ட காலத்தில் மக்கள் ஆர்வம் காட்டவில்லை. மற்றும் கணினி எல்லாம் அப்போது மிகப்பெரிய விஷயம். ஒரு குறிப்பிட்ட பகுதிக்கு ஒரு (பிரவுசிங் சென்டர்) இருக்கும் அதில் மக்கள் தனது தேவைகளைப் பூர்த்தி செய்வதோடு தகவல்களையும் தெரிந்து கொள்வர். ஸ்மார்ட் போனின் அறிமுகம் தான் வலைத்தளங்களின் வளர்ச்சிக்கு முதல் படி. திறன் பேசியில் மக்கள் வலைத்தளங்களைப் பயன்படுத்த ஆரம்பித்தாலும் அதனின் சேவை அப்போது சரியாக இல்லை கிராமப்புறங்களில் சேவை மோசமாக தான் இருந்தது. பிறகு (ஜிஓ) எனும் நிறுவனம் உள்ளே வந்து 4 ஜி என்ற அலைக்கற்றையை இந்தியாவில் முதலில் அறிமுகப்படுத்தியது மட்டும் இல்லாமல் முதலில் ஆரம்பச்சலுகையாக இலவசமாகவும் கொடுத்தது. இந்தியாவில் தற்போது வலைத்தளங்கள் இவ்வாறு வளர்ந்துள்ளது என்று சொன்னால் அதற்கு பெரும் பங்கு அந்நிறுவனத்தேயே சேரும். அப்போது இருந்து பல தொலைபேசி நெட்ஒர்க் நிறுவனங்கள் அழிய தொடங்கியது. இப்போது மூன்று முன்னனி நிறுவனங்களும் ஒரு அரசாங்க நிறுவனம் மட்டும் இயங்கி வருகிறது.

**வலைத்தளங்களின் தேவை (மாணவர்களின் பார்வை):**

வலைத்தளங்களின் தேவை பள்ளி முடித்த பிறகு கல்லூரியில் பயிலும் மாணவர்களுக்கும் கல்லூரியில் சேர்க்கைக்காக காத்திருக்கும் மாணவர்களுக்கே தேவைப்பட்ட ஒன்றாக இருந்தது. அதாவது முதலில் அவர்கள் பயன்படுத்தும் சரியான காலகட்டமாக அது இருந்தது. ஆனால் கொரோனா காலத்தில் ஊரடங்கு அமல்படுத்த பட்டதால் பள்ளிகள் எல்லாம் மூடப்பட்டது. ஊரடங்கிலும் மாணவர்கள் கல்வி கற்க வேண்டும் என்பதற்காக அறிமுகப்படுத்த பட்டதுதான் ஆன்லைன் வகுப்புகள். வீட்டில் ஒன்று அல்லது இரண்டு தொலைபேசிகளே இருந்த நிலையில் இரண்டு அல்லது மூன்று குழந்தைகள் ஒரே வீட்டில் இருந்து வகுப்புகள் கவனிப்பது கடினம். அதனால் மாணவர்களுக்கு தொலைபேசிகளை வாங்கி கொடுக்கும் நிலை ஏற்பட்டது.

**வலைத்தளங்களின் தீமை:**

வலைத்தளங்களில் வரும் எல்லாம் சரி என்றும் எல்லாம் நன்மையே என்றும் சொல்லவே முடியாது. அது ஒரு கடல் போன்றது. நம்மை வாழ்வில் மேம்படுத்தாத பொழுது போக்கு அம்சங்களே கொட்டி கிடக்கிறது. இதில் உள்ள, பொழுது போக்கு மற்றும் பல விஷயங்கள் நம்மை தேடலில் இருந்து திசை திருப்பி நம் கண்ணை மறைக்கிறது. ஊடகங்களை சிறுவர்கள் தற்போது இயக்குவது மட்டும் இல்லாமல் அதற்கு அடிமையாக இருக்கின்றனர். இதனால் இவர்களின் கல்வி பெரிதும் பாதிக்கப்படுகிறது. எது நல்லது? எது கெட்டது? என்று பகுத்தறிய தெரியாத வயதில் அவர்கள் பயன்படுத்துவது சரியானது அல்ல.

கோ. சந்தோஷ் சாந்தலிங்கம்.
XI D

**வலைத்தளங்களை இவ்வாறு பயன்படுத்தலாம்!**

இன்றைய காலத்து இளைஞர்கள் சமூக வலைதளங்களில் தங்களது வாழ்க்கையைத் தொலைக்கின்றனர். வலைதளங்கள் நமக்கு உதவியாக இருப்பதற்காக கண்டுபிடிக்கப்பட்டவை. ஆனால், நம் தவறான உபயோகத்தால் சமூகத்தை சோர்வாக்கி விட்டது. இது இளைஞர்கள் தங்களது திறமையை வெளிப்படுத்த உருவாக்கபட்டது. ஆனால் இது தீய தாக்கத்தை ஏற்படுத்துகிறது. சமூக வலைத்தளங்களின் வரும் சில கருத்துகள், பதிவுகள் ஏற்புடையவை அல்ல. இது மனது அளவில் மனஅழுத்தத்தைத் தரும் 'செரோடனின்' ஹார்மோனை உற்பத்தி செய்கிறது. ஆகையால் இன்றைய இளைஞர்கள் சமூக வலைத்தளங்களில் பொறுப்புணர்ச்சியோடு செயல்பட வேண்டும். நாம் வலைத்தளங்களில் பிறரைக் காயப்படுத்தாமல் செயல்பட வேண்டும். எந்த ஒரு பொருளையும் நமக்கு பலமாகப் பயன்படுத்தினால் நாம், நம் வாழ்க்கையிலும் சிறக்கலாம்.

## கவிதை - தாய்

கருவறையில் கடுமையைக் காட்டவில்லை
கடுமையாய் பேச கணம் சிந்தித்ததில்லை
நொடியளவும் உறக்கமில்லை
நோயின்றி வாழ வழி வகுத்த தாயே!
பெற்றெடுத்த பிள்ளைதனை அன்போடு
பேர் சொல்லி அழைத்த போதும்
கற்றவனாய், கலைஞனாய் உருவான போதும்
நித்தமும் நெஞ்சிலே நெருடும் அன்பினைச்
சொட்டச் சொட்டத் தந்த சொக்கத்தங்கமே!
பெண்மையுடன் பொறுமையைத் தந்தளித்த
பொற்கிளியே பொறுமையின் சிகரமே! என் தாயே ...

பூர்ணிமா - XI C

**சாமனிய மக்களுக்கு விண்வெளி பயணம் சாத்தியமா? சவாலா**

'முயற்சி திருவினை ஆக்கும்' என்று திருவள்ளுவர் அன்றே கூறியிருக்கிறார். ஒரு மனிதனை கடவுள் இவ்வுலகில் படைக்கும் பொழுது அவனுக்கு இவ்வளவு தான் அறிவு, இவ்வளவு தான் இவனால் முடியும் என்று திட்டமிட்டு படைப்பதில்லை. அவனது அறிவை பயன்படுத்தி முயற்சி செய்து பங்கேற்று வெற்றிவாகை சூடுவதே வெற்றி ஆகும். அதிகமான சவாலான பயணங்கள் உள்ளன. அதில் ஒன்று விண்வெளிப் பயணமாகும். விண்வெளி பயணத்தில் வெற்றியாளர்களும் உண்டு, தோல்வி அடைந்து இறந்தவர்களும் உள்ளனர். அவர்களுள் நமக்கு நன்றாக தெரிந்த கல்பனா சாவ்லா மற்றும் சுனிதா வில்லியம்ஸ் ஆகியோர் சவாலான சூழ்நிலைகளைச் சமாளித்து வரலாற்றில் இடம் பெற்றுள்ளனர். விடாமுயற்சி இல்லாவிட்டால், வெற்றி என்பது மிகப்பெரிய சவாலாக அமைந்துவிடும். போதிய வசதிகளுடன் கூடிய கல்வி இல்லாத காலத்திலே இவர்களால் சாதிக்க முடிந்தது என்றால், தொழில்நுட்பத்தில் நன்கு வளர்ந்த இக்காலத்தில் கல்வி பயிலும் நமக்கு விண்வெளிப்பயணமும் ஆராய்சியும் சாத்தியமே! நாமும் இவர்களைப் போலவும் இவர்களைவிட அதிகமாகவும் சாதிக்கமுடியும்.

விடா முயற்சி செய்!

மேலே எழுந்து செல்!

மா.கோசலை XI -சி

**செயற்கை நுண்ணறிவின் நன்மை தீமைகள்**

செயற்கை தொழில்நுட்பங் நுண்ணறிவு நாளுக்கு நாள் வளர்கிறது. அதன் மூலம் நாம் பல நன்மைகள் பெறுகிறோம். சிறுவர்கள் A.I என்னும் செயற்கை நுண்ணறிவு மூலம் சிந்தனைகளை வளர்த்து கொள்கிறார்கள். காலத்தை மாற்றுகிற தொழில்நுட்ப கருவியும், இந்த செயற்கை நுண்ணறிவும் குழந்தைகளிடமிருந்து பெரியவர்கள் வரை பிரபலமாக உள்ளது. திரைப்படங்களிலும் இந்த தொழில்நுட்பம் பிரபலமானது. இதன் விளைவுகள் யாரும் அறியவில்லை என்று நினைக்கிறேன். திரைப்படத்தில் பயன்படுத்துவதால் நடிகர்களுக்கு வாய்ப்பு குறைகிறது. குழந்தைகள் எதுவாக இருந்தாலும் (A.I) ஐச் சார்ந்து இருக்கக் கூடாது. அவர்கள் சிந்திக்கும் திறன் பாதிக்கிறது. பல கைத்தொழில்கள் முடங்குகின்றன. மக்கள் இதனை நல்ல வழியில் பயன்படுத்தினால் முழு உலகம் தொழில்நுட்பங்களில் சிறந்து விளங்கும். மக்களின் வேலைப்பளு குறைவதுடன் நேரமும் மிச்சமாகிறது.

எ. மாதேஸ்வரன்
XI B

- செயற்கை நுண்ணறிவு (A.I) தொழில்நுட்பம் இன்றைய காலத்தில் மிக வேகமாக வளந்து வரும் தொழில்நுட்பாகும்.
- இன்றைய மாணவர்கள் மற்றும் மாணவிகள் A.I தொழில்நுட்பத்தில் மிகுந்த ஆர்வம் காட்டுகிறார்கள்.
- A.I தொழில்நுட்பம் இன்று பெரிதும் பயன்பட்டாலும் அதில் சில நன்மைகள் மற்றும் தீமைகள் உள்ளன.

**செயற்கை நுண்ணறிவின் தீமைகளைக் காண்போம்:**

- செயற்கை நுண்ணறிவின் மூலம் மனிதர்களின் சிந்திக்கும் திறன் குறைந்துவிடும்.
- செயற்கை நுண்ணறிவின் வரவால் மக்களின் வேலைவாய்ப்புகள் குறைகிறது.
- செயற்கை நுண்ணறிவினைத் தவறாக பயன்படுத்தி சிலர் இணைய குற்றச்செயல்களில் ஈடுபடுகின்றனர்.

**செயற்கை நுண்ணறிவின் நன்மைகளைக் காண்போம்:**

- செயற்கை நுண்ணறிவு கடினமான வேலைகளை மிகவும் நுட்பமாகவும் விரைவாகவும் செய்து முடித்துவிடும்.
- செயற்கை நுண்ணறிவு இயற்கை வேளாண்மைக்கு உதவியாக உள்ளது.
- மனிதர்கள் செய்ய இயலாத வேலைகளைச் செயற்கை நுண்ணறிவு செய்து முடிக்கும்.
- செயற்கை நுண்ணறிவு படிப்பு மிக கடுமையாக இருந்தாலும் மாணவர்கள் ஆர்வம் காட்டிக் கொண்டிருக்கின்றனர்.
- செயற்கை நுண்ணறிவு தொழில் நுட்பத்தைப் பாதுகாப்பாக பயன்படுத்துவது நம்கடமை.

நன்றி!

## இசை

" இயற்கையால் வசமாகாத இதயம் இது?
இசை என்பது குரல் அல்லது இசைக்கருவி. ஒலிகளை அழகிற்காக அல்ல; உணர்ச்சி வெளிப்பாட்டிற்காக இணைக்கும் ஒரு கலை வடிவம் ஆகும்.
மனிதர்களையும் உயிரினங்களையும் வசீகரிக்கும் ஆற்றல் கொண்டது. மனிதர்கள் தோன்றிய காலம் முதல் இசை சடங்குகள் மற்றும் நாடகங்களின் இசை முக்கிய பங்கு வகித்துள்ளது. உணர்வுகளைப் பிரதிபலிக்கும் மற்றும் தாக்கத்தை ஏற்படுத்தும் ஆற்றல் இசைக்கு உண்டு. சங்க காலத்திலிருந்தே இசை குறித்த கருத்துகள் பலநூல்களில் இடம்பெற்றுள்ளன.

**இசைக்கருவிகள்**

இசை மூன்று பிரிவுகளாகப் பிரிக்கப்படும். அவை, துளைக் கருவிகள், தாளக் கருவிகள் மற்றும் மிடற்றுக்கருவிகள். உலகிலேயே 1500 க்கும் மேற்பட்ட இசைக்கருவிகள் உள்ளன. அந்தந்த கருவிகளின் வகைகளைப் பொறுத்து அவற்றின் தனித்துவமான ஒலி மற்றும் பயன்பாட்டில் சிறப்பு பெறுகிறது.

இசை என்பது ஒரு குறிப்பிட்ட நபரால் கண்டுபிடிக்கப்பட்டது அல்ல. சங்க காலம் தொட்டே தமிழர்களின் வாழ்வின் ஒரு பகுதியாக தாலாட்டு முதல் குத்துப் பாடல்கள் வரை பல்வேறு காலகட்டங்களிலும் பரிமாண வளர்ச்சி பெற்று வந்துள்ளது.
தொல்காப்பியம், சிலப்பதிகாரம் போன்ற பழங்கால நூல்களில் தமிழிசையின் சிறப்பும் அதன் கருவிகளின் பயன்பாடும் கூறப்பட்டுள்ளது.
இசைக்கு மயங்காதவர் யாரும் இல்லை!
'இசை தனக்குள்ளேயே ஒரு உலகத்தைக் கொண்டுள்ளது.
அது நாம் அனைவரும் புரிந்து கொள்ளும் மொழி!
அது உணர்ச்சியைக் கட்டுப்படுத்தும் ஆற்றல் உடையது!
மகிழ்ச்சியாக இருக்கும்போது இசையை இரசிக்கிறோம்.
ஆனால் சோகமாக இருக்கும்போதுதான் வரிகளைப் புரிந்து கொள்கிறோம்"
ஆம்! இசை உலகெங்கும் ஒரு லயத்துடன் இயங்கிக் கொண்டிருக்கிறது!

சாய் ஷோபனா - XI C

### *உணவே மருந்து*

*மருந்து என்பதே உணவின் நீட்சியாக இருக்கிறது. உணவு சாராத மருத்துவம் வேறு எதுவும் இல்லை. சர்க்கரை நோய், இரத்தக் கொதிப்பு, புற்றுநோய், மாரடைப்பு முதலிய நோய்கள், உணவில் உள்ளடக்கிய சத்துள்ள உணவுகளை உண்டால் குணமாகும். சரியான உணவு உங்களை நலமாக வாழ வைக்கும்! எளிமையாக கிடைக்கக்கூடிய காய்கறிகள் ,கீரைகள், பழங்கள் மற்றும் சிறுதானியங்களை உணவில் சேர்த்துக் கொண்டால் நோய்கள் குணமாகும் . தமிழர் மருத்துவத்தின் சிறப்பு உணவாகும் !*

**AKASH MARAN G VIII E**

### எதிர்காலத்திலிருந்து வந்த ஒரு கடிதம்

எனக்குத் தெரியும்! எதிர்காலத்தில் இருந்து வந்த ஒரு கடிதம் என்றால் நம்ப மாட்டீர்கள். ஆனால், நீங்கள் நம்பி தான் ஆக வேண்டும். எல்லோரும் சிந்திப்பீர்கள்! எப்படி ஒரு கடிதம் எதிர்காலத்தில் இருந்து வரும் என்று? ஆமாம்! என் கனவில் எதிர்காலத்தில் இருந்து கடிதம் ஒன்று வந்தது. அதில் நான் எதிர்காலத்தில் ஏழை என்று எழுதியிருந்தது. ஆனால், அதைப் பார்த்து நான் சோர்வடையவில்லை. மீண்டும் மீண்டும் முயற்சி செய்தேன்.. நான் ஒரு நல்ல நிலைக்கு வந்தேன்! ஒரு உயரத்திற்கு வந்தேன்! அப்போதுதான் எனக்கு அந்த கடிதம் நினைவிற்கு வந்தது. நான் மட்டும் சோர்வு அடைந்திருந்தால் நான் நல்ல பதவிக்கு வந்திருக்க முடியாது. இதிலிருந்து என்ன தெரிகிறது?

"முயற்சி உடையார் இகழ்ச்சி அடையார்"

KIRUBAKARAN VII A

### பசுமை பாதுகாப்பு

சராசரி வாழ்க்கையில் பசுமை பாதுகாப்பு அவசியம். நாம் பசுமையைப் பாதுகாக்க வேண்டும். நெகிழி குப்பைகளை எரிக்கக் கூடாது. நெகிழிகளைப் பயன்படுத்தக்கூடாது. மரங்களை வெட்டக்கூடாது. செடிகளை வளர்க்க வேண்டும். மரங்களை எரிக்கக் கூடாது. அதனால், நாம் பசுமையைப் பாதுகாக்க வேண்டும். நாம் பசுமையைப் பாதுகாப்போம்!

KRISHAV S VII B

### தோல்வியிலிருந்து நான் கற்ற பாடம்

எல்லோருக்கும் வெற்றி என்பது விருப்பம். ஆனால், தோல்வி என்பது பயம். தோல்வி வெறும் ஒரு முடிவு அல்ல! அது ஒரு ஆரம்பம் ஆகும். என்பதை நான் புரிந்து கொண்டேன். தோல்வி வெற்றியின் அடிப்படையாகும்" -ஏ.பி.ஜே அப்துல் கலாம் கூற்யுள்ளார். நான் பேச்சுப் போட்டியில் தோல்வி அடைந்தேன். ஆனால் நான் வருத்தப்படவில்லை. ஏனென்றால் சிலந்தியானது வலையை அவ்வளவு எளிதாகப் பின்னாது என்று புரிந்து கொண்டேன். பொறுமையோடு விடாமுயற்சியும் தேவை என்பதை கற்றுக் கொண்டேன்.

தோல்வி ஒரு தடை இல்லை

வெற்றி ஒரு விடையில்லை

POOVALAN J VII H

### எதிர்காலத்தில் இருந்து வந்த கடிதம்

நான் கடந்த வாரம் ஒரு கடிதத்தை வாசித்து வியந்தேன். அது ஒரு எதிர்காலத்தில் இருந்து வந்த ஒரு கடிதம் என அந்த கடிதத்தின் கடைசி வரிகளை பார்த்த போது அறிந்தேன். நீ இன்று வீணடிக்கும் ஒவ்வொரு நொடிகளுக்கும் நாளை நீ கணக்கு சொல்ல வேண்டும் என்ற வரிகள் என்னைப் புல்லரிக்கச் செய்தன.

### அன்பு

நீ இன்று செலுத்தும் அன்பு தான் நாளைய உன் உலகத்தின் ஒளி என்ற பொன்னான வரிகள் என் மனதில் ஆணித்தரமாகப் பதிந்தது. எதிர்காலத்தில் அனைத்துக்கும் இயந்திரங்கள் இருக்கும். ஆனால்,அன்பு செலுத்த உன் சொற்களால் மட்டுமே முடியும் என்ற வரிகள் என் கண் கலங்களைக் கலங்கச் செய்தன. அந்த கடிதத்தின் ஒவ்வொரு வரிகளும் வாசிக்க வாசிக்க ஆர்வத்தை உருவாக்கின.

HARISH VII H

### உணவே மருந்து

உண்ணும் உணவே அருமருந்தென' அறிந்தவர்கள் நம் தமிழ் மக்கள். உலகில் பல்வேறு மருத்துவ முறைகள் இருந்தாலும் அவர்கள் தமக்கென ஒரு மரபு சார்ந்தவர்கள். நம் தமிழ் மருத்துவ முறைகள் பற்றிய செய்திகளைச் சித்த மருத்துவர் கு சிவராமன் அவர்கள் கூறும்போது உணவு முறையோடு மருத்துவத்தைப் பற்றி கூறும்போது சித்த மருத்துவமானது சுற்றுச்சூழலைச் சிதைக்காது. மிக முக்கியமான சிறப்பு என்னவென்றால், நோய்க்கான சிகிச்சையை மட்டும் சொல்லாமல் நோய் மீண்டும் வராமல் இருப்பதற்கான வாழ்வியலையும் இது சொல்கிறது.

SASHANTH VIII E

### பசுமைப் பாதுகாப்பு

பசுமைப் பாதுகாப்பு மனிதனின் முதன்மையான வேலை. நம் நாட்டின் பசுமையைப் பாதுகாப்பது நம் ஒவ்வொருவரின் கடமையாகும். பசுமைப் பாதுகாப்பு முதன்மையானதாக கருதாவிட்டால் மனிதன் மற்றும் உலகம் அழிவது உறுதி. முற்காலத்தில் இயற்கையோடு கலந்து வாழ்வதையே தமிழ்நாட்டு மக்கள் வாழ்வியலாகக் கொண்டிருந்தனர்.நெகிழியால் பொருள்கள் செய்யாமல் இயற்கையாகக் கிடைக்கும் மண், பனையோலை மற்றும் மூங்கில் போன்றவற்றால் கைவினைப் பொருள்கள் செய்தனர். அதை விற்று பணம் சம்பாதித்தனர். அப்படியே அவர்களின் வாழ்க்கை ஓடியது. இப்பொருள்களை மண்ணில் தூக்கி எறிந்தாலும் மண்ணோடு மண்ணாய் கலந்து மக்கிவிடும். அதனால், இயற்கை மற்றும் பசுமைக்கு எந்தவிதமான பாதிப்பும் ஏற்படாது. முற்காலத்தில் சரியான நேரத்தில் மழை பொழிந்தது. வெயில் காய்ந்தது, பனி பொழிந்தது, வெப்பநிலை சமமான அளவில் இருந்தது. ஆனால், இக்காலத்தில் எல்லா பொருள்களையும் நெகிழியால் செய்கின்றனர். நெகிழி குப்பைகளையும் எரிக்கின்றனர். ஆறு, குளம், குட்டை போன்ற நீர்நிலைகளில் வெளியேற்றுகின்றனர். இவை மண்ணில் வீசுவதால் மக்காமல் நிலத்திலேயே இருக்கின்றன. மழை மற்றும் பல இயற்கை மாற்றங்களின் காரணமாக மண்ணிற்கடியில் சென்று மண்ணின் வளம் குறையச் செய்கின்றன. நீர்நிலைகளில் வெளியேற்றுவதால் கடல் வாழ் உயிரினங்கள் இறக்கின்றன. மனிதர்கள் புற்றுநோயால் அவதிப்படுகின்றனர். ஆகையால் இயற்கையை நாம் மாசுபடுத்தக் கூடாது.

"பசுமையைப் பாதுகாப்போம்"

உயிரினங்களைக் காப்போம்

**KRISHNA PRIYA VIII B**

**கல்வியே சிறந்த செல்வம்**

கல்வி நமக்கு அவசியமா? கல்வி கற்றால் தான் நன்றாக இருப்போமா? பணத்தை விட கல்வி கற்பது எந்த வகையில் சிறந்தது என்ற பல கேள்விகள் நம் மக்கள் பலரிடையே உள்ளது. எந்த ஒரு செல்வத்தைப் பெறுவதற்கும் பணம் தேவை. ஆனால், கல்வியைப் பெற கடின உழைப்பு ஒன்று மட்டும் போதுமானது. நம்மிடம் உள்ள செல்வங்களை எல்லாம் திருட முடியும். செல்வத்தைப் போல் கல்வியை நாம் மறைத்து வைக்க வேண்டிய அவசியமில்லை. அதை யாராலும் திருட முடியாது; நம்மிடம் இருந்து பறிக்க முடியாது; கல்வி கற்பதன் மூலம் அறிவு, ஒழுக்கம், நன்மதிப்பு ஆகியவற்றை பெறலாம்; எனவேதான், கல்வியே சிறந்த செலவம்

S.P அபிலாஷ்
பத்தாம் வகுப்பு 'அ' பிரிவு

நம் அன்றாட வாழ்வில் செல்வம் சேர்க்கிறோம். அவற்றைப் பாதுகாக்கிறோம்; பயன்படுத்துகிறோம்; ஆனால் கல்விச் செல்வத்தினைப் பாதுகாக்க வேண்டிய அவசியமில்லை. கல்வி கற்பதன் மூலம் உயர் சிந்தனை, ஞானம், ஆகியவற்றைப் பெறலாம். நாம் சேர்க்கும் பணமானது இன்று இருக்கும். நாளை இல்லாமல் போகும்; ஆனால் கல்விச்செல்வமானது அவ்வாறு அல்ல; நாம் இன்று கற்கும் கல்வியானது நமது அடுத்த பிறவிகளுக்கும் தொடரும் என்பர்.

அக்கூய் சுரேஷ்
பத்தாம் வகுப்பு 'அ' பிரிவு

கல்வி கற்றவரின் வாழ்க்கையைப் பார்த்தால் சிறப்பானதாக இருக்கும். அதுவே, கல்வி கற்காதவரின் வாழ்க்கையினைப் பார்த்தால் மிகவும் சிரமம் வாய்ந்ததாகக் காணப்படும். கல்வி கற்காதவரை எவரும் மதிப்பதில்லை; ஆனால், கற்றவருக்கோ நல்ல மதிப்பும் மரியாதையும் கிடைக்கும்; நன்மதிப்பு, நல்ல வேலை வேண்டும் என நினைக்கும்வயதில் சிறியவரோ,பெரியவரோ யாராயினும் கல்வி கற்றால் அதனைப் பெறலாம்.

கேடில் விழுச்செல்வம் கல்வி ஒருவற்கு
மாடல்ல மற்றை யவை

என்பதற்கேற்ப எவருக்கும் அழியாத செல்வம் கல்வியே ஆகும்.

சி.ச. தேவிஸ்ரீ
பத்தாம் வகுப்பு 'ஆ' பிரிவு

திருடன் ஒருவரிடமிருந்து செல்வத்தைத் திருடலாம், ஆனால், ஒருவரிடமிருந்து கல்வியைத் திருட முடியாது. பாகற்காய் போன்று கல்வி கற்பது முதலில் கசப்பாகத் தான் இருக்கும், ஆனால், அதுவே கல்வி கற்று நல்ல நிலைக்கு வந்த பின்னர், கரும்பு போல் இனிப்பாக இருக்கும்.

கண்ணுடையர் என்பர் கற்றோர் முகத்திரண்டு
புண்ணுடையர் கல்லா தவர்

என கல்வி அதிகாரத்தில் திருவள்ளுவர் கண் உடையவர் என்பவர் கற்றவரே. கல்லாதவருக்கு முகத்திலுள்ள கண்கள் இரண்டு புண்களெனக் கருதப்படும். எனக் கல்வி கற்பது பற்றி பல்வேறு கருத்துகளைக் கூறியுள்ளார்.

சி.சு. சக்திவேல்
பத்தாம் வகுப்பு 'ஆ' பிரிவு

கல்வி கடவுள் போல் என்று கூறலாம். ஏனெனில் என்றென்றும் அழியாதது. நாம் ஈட்டும் பணம், பொருள், ஆகியன அழிந்து விடும். ஆனால், கல்வி அழியாதது. கல்வி மூலம் செல்வங்களை வாங்க முடியும். நன்மதிப்பினைப் பெறலாம். இவை யாவும் அழிவதில்லை; மேலும், நாம் வாழ்வில் நல்ல நிலைக்கு வரலாம். எனவேதான், கல்வியே சிறந்த செல்வம்.

கா.இலக்கூஷண்யா

பத்தாம் வகுப்பு 'ஆ' பிரிவு.

கேடில் விழுச்செல்வம் கல்வி ஒருவற்கு
மாடல்ல மற்றை யவை

என இரண்டாயிரம் ஆண்டுகளுக்கு முன்னரே திருவள்ளுவர் திருக்குறளில் கூறியுள்ளார். கல்வியே அழியாத செல்வம் என்றும் அதைத் தவிர பிற எல்லாம் அழியக்கூடிய செல்வமாகும். நாம் சம்பாதிக்கும் பணம், சேர்க்கும் தங்கம், வைரம், சொத்து, வீடு ஆகியன எல்லாம், ஒரு நாள் அழியக்கூடியவை. ஆனால், கல்வி மூலம் நாம் பெறும் பண்பு, நல்ல மதிப்பு ஆகியன எல்லாம் தரும். எனவேதான், கல்வியே முதன்மையானது, சிறந்தது எனலாம்.

சரண் ஸ்ரீ பிரணவ்
பத்தாம் வகுப்பு 'ஆ' பிரிவு

எத்தகைய செல்வத்தை நாம் அடைந்தாலும் கல்வியே சிறந்த செல்வமாகும். நம் அனைவருக்கும் கல்வியே முதன்மையாகக் கருத வேண்டும். கல்வியை நாம் நன்றாகக் கற்க வேண்டும். கற்றன்வற்றைப் பிறருக்கு நல்ல முறையில் எடுத்துக் கூற வேண்டும். அவர்களையும் அதனை அடையச் செய்ய வேண்டும்.

கற்க கசடற கற்பவை கற்றபின்
நிற்க அதற்குத் தக

என்பதற்கேற்ப நாம் கற்றனவற்றைப் பின்பற்றி நடந்து அழியாத கல்விச் செல்வத்தால் நாம் மேலும் மேலும் உயரலாம். பிறரையும் உயர்த்தலாம்.

கு. சந்தியா
பத்தாம் வகுப்பு 'இ' பிரிவு.

கல்வியானது படிக்க, படிக்கக் குறையாதது. யாராலும் கவர முடியாதது. நிலைபெற்று நிற்கும் ஒரே செல்வம் கல்வி ஆகும். அனைவரும் தாம் தேடிய செல்வமனைத்தயும் பாதுகாப்பாக வைத்திருப்பினும் ஒரு நாள் அது அழிந்து விடும். ஆனால், கல்வி அழிவது இல்லை. அறிவு வளர்க்க வயது இல்லை. எனவே, நாம் மாணவர்களாக இளமைப் பருவத்தில் அழியாத கல்விச்செல்வத்தை எவ்வளவு படிக்க முடியுமோ படிப்போம். அது, நம் கடமை.

ப.சௌஜன்யா
பத்தாம் வகுப்பு 'இ' பிரிவு

மூன்றெழுத்தான கல்வியானது அழியாத செல்வமாகும். யாராலும் கவர முடியாது. அழிக்க முடியாத ஒரே செல்வம். கொடுக்க கொடுக்க குறையாத செல்வம். என்றென்றும் நிலைத்து நிற்கும். பல படிப்பினைகளைக் கூறுவது கல்வியாகும். இத்தகு பெருமை வாய்ந்த கல்வியே சிறந்த செல்வமாகும்.

சு.இரக்ஷனாஸ்ரீ
பத்தாம் வகுப்பு 'இ' பிரிவு

கற்கை நன்றே கற்கை நன்றே
பிச்சை புகினும் கற்கை நன்றே

என்ற ஔவையாரின் கூறுவது போல பிச்சை பெற்றேனும் கல்வியினைக் கற்க வேண்டும். கல்வி கற்பதனால் நமக்கு அறிவு, சிந்த்னைத் திறன் ஆகியன வளரும். கல்வி கற்றவனால் உலகத்தையே ஆள முடியும். கல்வி கற்பதனால் ஏற்றத் தாழ்வு இருக்காது. திருடர்களால் செல்வங்களைத் திருட முடியும். ஆனால் நாம் கற்ற கல்வியை யாராலும் திருட முடியாது. நம் வாழ்வின் முக்கிய அங்கமாகத் திகழும் கல்வியே சிறந்த செல்வமாகும்.

கா.பா.யக்ஷிதா
பத்தாம் வகுப்பு 'ஈ' பிரிவு

உலகிலேயே விலை மதிப்பற்ற செல்வம் கல்வியே. விலை மதிப்பற்றது எனக் கருதும் பணமோ நகையோ நம் செல்வாக்கை உயர்த்தும். ஆனால், கல்விதான் மரியாதையைக் கொடுக்கும். மன்னனை விட கற்றவனுக்கே மரியாதை அதிகம். கல்வி வயது முக்கியம் இல்லை, ஆர்வம் தான் முக்கியம். நாம் எவ்வளவு கல்வி கற்றிருந்தாலும் நமக்குத் தெரியாதவை இந்த உலகை விடப் பெரியது. எனவேதான், கல்வியே மிகச் சிறந்த செல்வமாகும்.

V.ரித்திக்
பத்தாம் வகுப்பு 'ஈ' பிரிவு.

கல்விக்கும் செல்வத்திற்கும் இடையே உள்ள வித்தியாசம் என்னவெனில், செல்வம் அழிந்து விடும். கல்வி அழியாது. கல்வி அள்ள அள்ளக் குறையாதது. ஒருவனிடம் இருக்கும் செல்வத்தை வைத்து எடை போடுவது கூடாது. அவன் கற்ற கல்வியை வைத்தே அவனை மதிப்பிட வேண்டும். நாம் பிறருக்குக் கற்றுக் கொடுத்து அவர்களைச் சிறப்படையச் செய்து மகிழலாம். ஒரு மனிதனுக்கு அவன் கற்கும் கல்வியே அவனது சொத்து. மேலும் ஒருவன் கற்கும் கல்வியை விட வேறு சொத்து எதுவும் இல்லை. நாம் கற்கும் கல்வி நமக்கு கோபம், அகங்காரத்தைக் குறைக்கும். நாம் எப்படிப் பழக வேண்டும். எப்படி நடந்து கொள்ள வேண்டும். என்பன போன்ற வாழ்க்கை நெறிகளைக் கற்றுக் கொடுக்கும். அறிவை வளர்க்கும். நம் வாழ்க்கையைத் தீர்மானிக்கும். நமது எதிர் காலம் மட்டுமல்லாமல் எப்போதும் கை கொடுக்கும். ஒரு வழிகாட்டியாய் அமையும். நம்மை ஒரு அழகிய சிற்பமாகச் செதுக்கும். கருவியாகும். சிற்பமாக ஆவதற்கு நாம் வலிகளைத் தாங்கிக் கொண்டால் வாழ்வில் மகிழ்ச்சி, மரியாதை பெறலாம். இச்சிறப்பு வாய்ந்த கல்வியைக் கற்று நல்ல மனிதனாவோம்.

சே. ஜெயவர்ஷினி
பத்தாம் வகுப்பு 'ஈ' பிரிவு.

கல்வி நாம் பெற வேண்டிய முக்கியமான ஒன்று. கல்விச் செல்வமே உலகில் சிறந்த செல்வமாகும். கல்வி கற்காமல் சிறந்த வேலைக்குச் செல்ல முடியாது. கல்வி கற்றால் நாம் உயர்ந்த இடத்திற்குச் செல்லலாம். நாம் கற்கும் கல்வி நாம் எங்குச் சென்றாலும் உதவும். கல்வி கற்பதனால் சென்ற இடமெல் லாம் சிறப்பு. எனவே தான், காமராசர் படிப்பு இல்லாத குழந்தைகள் கல்வி கற்க முக்கியத்துவம் தந்து பல பள்ளிகளைத் திறந்தார். கல்வி கற்றால் நம் வாழ்வில் முன்னேறலாம்.

P. பிரதீப்
பத்தாம் வகுப்பு 'எ' பிரிவு

கல்வியை எவராலும் நம்மிடமிருந்து திருட முடியாது. கல்வி கற்றவனுக்கு அரசனைப்போல் தன் நாட்டில் மட்டுமல்லாமல் தான் செல்லும் எல்லா இடங்களிலும் சிறப்பு என்று ஔவையார் கூறுகிறார். பெற்றோர்கள் தம் குழந்தைகளுக்கு சேர்த்து வைக்க வேண்டிய செல்வம் கல்வியே. எனவே அதை உணர்ந்து கற்றிடுவோம்.

உ.சஷ்வந்த்
பத்தாம் வகுப்பு 'எ'பிரிவு

கல்வியே சிறந்த செல்வம். இந்த மூன்று சொற்கள் ஒரு தலைப்பின் வார்த்தைகள் மட்டுமல்ல. வாழ்க்கையை வடிவமைக்கும் முத்துகள் என்று கூறலாம். வேறு எந்தச் செல்வமாக இருந்தாலும் நிலைத்து நிற்காது. பணம்,புகழ் போன்ற அனைத்தும் என்றென்றும் வாழ்வில் நிலைத்து நிற்பது போல் இருந்தாலும் நாம் கற்ற கல்வியும் அதனால் பெறும் அனுபவ அறிவும்தான் நமக்கு எந்த நிலையிலும் உதவி செய்யும். ஆகவே, கல்வியைத் தொடர்ந்து கற்று அறிவாற்றல் பெற்று உயர்வோம்.

V.N.ஜெயசூர்யா

பத்தாம் வகுப்பு 'ஏ' பிரிவு

கல்வியே சிறந்த செல்வம் என்பது சிறப்பான வரிகள் கல்வி மட்டும் தான் அழியாத செல்வம். நம் ஒவ்வொருவர் வாழ்விலும் கல்வி மட்டுமே மதிப்பும் மரியாதையும் தரும். கற்றார் இல்லாத வீடு விளக்கில்லாத வீடு. கல்வி ஒருவனை நல்ல மனிதனாக்குகிறது. இதற்குச் சான்றாக பாரதியார், டாக்டர். இராதாகிருஷ்ணன், ஏ.பி.ஜே.அப்துல் கலாம் ஆகியோர்களைக் கூறலாம். எனவே, நன்கு கல்வி கற்று வாழ்வில் உயர்வோம்.

R.அபினயா

பத்தாம் வகுப்பு 'ஏ' பிரிவு

கல்வியே மிகப்பெரிய செல்வமாகும். கல்வி கற்பவருக்குச் சென்ற இடமெல்லாம் சிறப்பு தரும். கல்வி கற்றால் தான் நமக்குப் பிடித்த வேலைக்குச் செல்லலாம். பணம், பொருள் என எந்தச் செல்வமாக இருந்தாலும் குறைந்து விடும். ஆனால், கல்விச்செல்வமானது கொடுத்தாலும் எடுத்தாலும் குறையாது. எனவேதான், நாம் கற்கும் இக்கல்வியானது நம் அடுத்த தலைமுறைக்கும் பயன்தரக் கூடியது,

S.ஷாஜித்கான்

பத்தாம் வகுப்பு 'எ' பிரிவு

கற்க கசடறக் கற்பவைக் கற்றபின்
நிற்க அதற்குத் தக.

என்பது திருக்குறள். கல்வி நம் வாழ்வில் மிகவும் அவசியமான ஒன்றாகத் திகழ்கிறது. ஒரு அரசனுக்குத் தன் தேசத்தில் மட்டுமே சிறப்பு. ஆனால், கற்றவருக்குச் சென்ற இடமெல்லாம் சிறப்பு. பொன், முத்து, வீடு, வாசல் முதலிய பொருட் செல்வத்தை விட கல்விச் செல்வமே மிக உயர்ந்தது. வெள்ளத்தால் அழியாது; வெந்தணலால் வேகாது; கள்வரால் கவர முடியாது; வேந்தரால் வெல்ல முடியாது. எனவேதான், கல்வியே சிறந்த செல்வமாகும்.

கௌசிகா

பத்தாம் வகுப்பு 'உ' பிரிவு

**வெற்றிக்கு வழி காட்டும் முயற்சி**

வெற்றி என்ற சொல் அளவில் சிறியதாக இருக்கலாம். ஆனால், அது தரும் இன்பமோ பெரியது. சிறு குழந்தையாக இருக்கும்போது நடப்பது வெற்றி. இள வயதில் சாதிப்பது வெற்றி. இவ்வாறு, வெற்றி என்பது நமது பிறப்பு முதல் வயது முதிர்வு வரை தொடர்கிறது. வெற்றியை நாம் செயலாற்ற ஆரம்பித்தவுடனே எதிர்பார்க்க முடியாது. அதற்கு ஒரு வாரமோ? நூறு நாளோ? மட்டும் முயற்சி செய்தால் போதாது. ஒவ்வொரு நாளும் முயற்சி செய்தால் மட்டுமே முன்னேற முடியும். தாமஸ் ஆல்வா எடிசன் மின்விளக்கைக் கண்டு பிடிப்பதற்கு நூறு முறை தளராமல் முயற்சி செய்ததால்தான் நம் வீடுகளில் இன்று விளக்குகள் ஒளிர்கின்றன. எனவே, நாம் குறுக்கு வழியில் செல்லாமல் நேர் வழியில் சென்று வெற்றியடைவோம்.

D.M.டேனலின்

பத்தாம் வகுப்பு 'ஆ' பிரிவு

வாழ்க்கையில் முன்னேறி வெற்றியடைய குறுக்கு வழியைத் தேர்ந்தெடுக்காமல் விடாமுயற்சி, தன்னம்பிக்கை, ஆகியனவற்றைக் கடைப்பிடிக்க வேண்டும். குறுக்கு வழியினால் அடையும் வெற்றி நிரந்தரமல்ல. நாம் கடந்த காலத்தில் தோல்வியுற்றால் அப்போது செய்த தவறுகளை உணர்ந்து அதிலிருந்து படிப்பினையைக் கற்றுக் கொள்ள வேண்டும். தாமஸ் ஆல்வா எடிசனை நான் ஒரு நல்ல ஆசிரியராகக் கருதுகிறேன். அவர் போல் எந்தச் செய்தாலும் தன்னம்பிக் கையுடன் முழு ஈடுபாட்டுடன் செய்ய வேண்டும். அவ்வாறு செயல்பட்டால் வெற்றி நிச்சயம்.

M.ஓவியா

பத்தாம்வகுப்பு 'ஆ' பிரிவு

**வெற்றிக்குக் குறுக்கு வழி இல்லை**.

நாம் இந்த உலகில் வெற்றி பெற வேண்டும் என நினைத்தால், விடாமுயற்சியோடு செயல்பட வேண்டும். நாம் ஒரு செயல் செய்ய வேண்டும் என்று நினைத்தால் அதனைச் செய்து முடிப்பேன் என்று தன்னம்பிக்கையையும் விடாமுயற்சியையும் பின்பற்ற வேண்டும். பள்ளியில் முதல் மாணவியாக வர வேண்டும் என்றால் இரவுபகல் உட்கார்ந்து படித்து நம் ஆசையை நிறைவேற்ற வேண்டும்.

கு.திவ்யதர்ஷினி

ஒன்பதாம் வகுப்பு 'எ' பிரிவு

வெற்றி என்பது ஒரு முறை முயற்சி செய்யும் முயற்சியால் மட்டும் வருவதல்ல. பல முறை முயற்சி செய்தால் மட்டுமே கிடைக்கும். ஒரு முறை முயற்சி செய்து வெற்றி கிடைக்கவில்லை என்றால் அதற்காக, கவலைப்படக் கூடாது. முயற்சி செய்தால் ஏனென்றால் தோல்விதான் வெற்றியின் முதற்படி. நாம் ஒவ்வொரு முறை தோற்றாலும் அதிலிருந்து படிப்பினையைப் பெற்று அதிலிருந்து ஒரு பாடம் கற்றுக் கொள்ள வேண்டும். முதல் முயற்சியிலேயே தோற்பது தோல்வியல்ல. முயற்சி செய்யாமல் இருப்பதுதான் தோல்வியாகும். ஆகவே, முற்சி செய்து வாழ்வில் வெற்றி பெறலாம்.

ஹ.யாழினி

ஒன்பதாம் வகுப்பு 'ஆ' பிரிவு

நம்முடைய வாழ்க்கையில் வெற்றி பெறுவதற்கு நிறைய முயற்சி செய்ய வேண்டும். நாம் வெற்றி பெற நமக்கு இலக்கு இருக்க வேண்டும். அந்த இலக்கை நோக்கி நாம் கடினமாக உழைத்து முயற்சி செய்ய வேண்டும். நாம் இலக்கை நோக்கிப் பயணிக்கும்போது நம் பாதையில் நிறைய தடைகள் கண்டிப்பாக வரும். நம் வளர்ச்சியைக் கண்டு தவறாகப் பேசுபவர்கள் அதிகம். அதனைக் கவனித்துக் கொள்ளாமல் தன்னம்பிக்கை, கடின உழைப்பு, முயற்சி ஆகியவற்றைக் கடைப்பிடித்து நாம் வாழ்வில் வெற்றி பெறும்போது கிடைக்கும் மகிழ்ச்சி மிகவும் உயர்வானது.

'விடாமுயற்சியே விஸ்வரூப வெற்றி' தரும்.

சி.பவித்ரா

ஒன்பதாம் வகுப்பு 'எ' பிரிவு

நாம் வெற்றி பெற முதலில் இலக்கு நிர்ணயிக்க வேண்டும். அதன் பின்னர், அதனைச் செயல்படுத்தத் தேவையான முயற்சிகளைச் செய்ய வேண்டும். அதன்பின்னர் சிந்தித்துச் செயல்பட வேண்டும். தொடர் முயற்சி செய்து செயல்படுவதே நம்மை ஒரு வெற்றியாளனாக அடையாளப்படுத்தும்.

ச.சாய்ஹரிணி

ஒன்பதாம் வகுப்பு 'எ' பிரிவு

முயற்சி செய்தால் முடியாத காரியம் எதுவுமில்லை. காந்தியடிகள் போன்ற சுதந்திரப் போராட்ட வீரர்கள் இந்தியா விடுதலை பெற வாய்ப்பே இல்லை என்று போராடாமல் இருந்தால் நம் நாடு விடுதலை அடைந்திருக்காது. அப்துல்கலாம் தன் வறுமையை நினைத்துப் படிப்பை நிறுத்தி இருந்தால் நமக்கு இன்று ஒரு விஞ்ஞானி கிடைத்திருக்க மாட்டார். தாமஸ் ஆல்வா எடிசன் தன் முயற்சியைக் கைவிட்டிருந்தால் நாம் இன்று இருட்டில்தான் வாழ்ந்து கொண்டு இருப்போம். இவர்களில் யாரேனும் ஒருவர் தன் முயற்சியைக் கைவிட்டிருந்தால் நம் நிலையை நினைத்துப் பாருங்கள். நாம் எடுக்கும் சிறிய சிறிய முயற்சிகளே அரும் பெரும் சாதனை செய்ய வழி வகுக்கும் என்பதை மனதில் கொண்டு செயல்பட வேண்டும்.

பா.ரித்திக்ஷா
ஒன்பதாம் வகுப்பு 'எ' பிரிவு

வெற்றி பெற நேர்மையோடு செயல்படுவதே சிறந்த வழி. குறுக்கு வழியில் வெற்றி கிடைத்தால் அதன் சுவை மகிழ்ச்சி தராது. மனதை உறுத்தும். நேர் வழியில் சென்று கிடைக்கவில்லை என்றால் கூட வாழ்நாள் முழுவதும் மகிழ்ச்சியாக இருக்கலாம். எனவே, நாம் வாழ்வில் வெற்றி பெற நேர்மையியனை அடையாளமாகக் கொண்டு செயல்பட வேண்டும்.

M. முகம்மது அசரர்கான்
பத்தாம் வகுப்பு 'இ' பிரிவு

முயற்சி என்பது எல்லா மனிதர்களும் வாழ்வில் கடைப்பிடிக்க வேண்டிய ஒன்றாகும். முயற்சி இல்லையென்றால் நம்மால் ஒன்றும் சாதிக்க முடியாது. தன்னம்பிகையுடன் முயற்சியும் இருந்தால்தான் வெற்றி பெற முடியும். வெற்றி பெற்றவர்களின் வாழ்வின் இரகசியம் அவர்களின் விடாமுயற்சியே ஆகும். இந்தியா சுதந்திரம் பெற சுதந்திரப் போராட்ட வீரர்கள் பல ஆண்டுகள் விடாமுயற்சியுடன் கடினமாகப் போராடியதுதான். தோனி சிறந்த மட்டைப்பந்தாட்ட வீரராக இருப்பதற்குக் காரணம் அவர் மிகவும் உழைத்தார். அதற்கு அவரின் விடாமுயற்சியே காரணமாகும்.

S.தர்ஷனா
ஒன்பதாம் வகுப்பு 'ஊ' பிரிவு

சிற்பி ஒருவர் சிற்பம் செய்யத் தொடங்கினார். அவர் செய்யும் சிற்பமானது உடைந்து கொண்டே இருந்தது. அவர் மீண்டும் மீண்டும் முயற்சி செய்தாலும் அச்சிற்பம் உடைந்து கொண்டே இருந்தது. ஆனால், அவர் தன் நம்பிக்கையைத் தளர விடாமல் முயற்சி செய்து கொண்டே இருந்ததால் ஒருநாள் அழகான சிற்பம் உருவானது. தாமஸ் ஆல்வா எடிசன் வாழ்வில் அவர் கண்டு பிடித்த ஒவ்வொரு மின்விளக்கும் உடைந்து போனது. இருந்த போதிலும் அவர் முயற்சி செய்து கொண்டே இருந்தார். ஒருநாள், மின்விளக்கைக் கண்டுபிடித்தார். புகழ்பெற்ற விஞ்ஞானியானார். 'உழைப்பின்றி வெற்றி கிடையாது' என்பதற்கேற்ப நாம் அனைவரும் வெற்றி பெற முயற்சியே தூண்டுகோலாக அமைகிறது. நம் தினசரி வாழ்வில் ஒவ்வொரு சமயத்திலும் விடாமுயற்சியே வெற்றியாக அமையும். தினமும் நாம் பயிற்சி எடுக்கும் கணிதத்தில் சரியான விடை வரவில்லை என்றால், நம் நம்பிக்கையைத் தளர விடாமல் முயற்சி செய்தால், ஒருநாள் நாம் பயிற்சி செய்யும் கணக்குகளுக்கு விடை கிடைக்கும். விளையாட்டு, விவசாயம், நாம் செய்யும் வேலைகள் என அனைத்திற்கும் விடாமுயற்சியே வெற்றிக்கு வழிகாட்டியாக அமைகிறது. நம் கனவுகள் நனவாக விடாமுயற்சியே உதவும். அதனால், அனைவரும் விடாமுயற்சியினால் வாழ்வில் வெற்றி அடைவோம். நம் வெற்றிக்கு வழிகாட்டுவது விடாமுயற்சியே

S.U. அமிர்தா
ஒன்பதாம் வகுப்பு 'எ' பிரிவு

நாம் முயற்சி செய்கிறோம். தேர்வுகளில் நல்ல மதிப்பெண்ணும் பெறுகிறோம். ஆனால், அது வெற்றியாகத் தெரியவில்லை. ஏன்? ஏனென்றால், நாம் எடுப்பது முயற்சியே இல்லை. படிப்பதும் தேர்ச்சி பெறுவதும் கடினமல்ல, அனைவரும் பாராட்டும்படியாக வெற்றி பெறுவதே வெற்றியாகும். விளையாட்டில் வெற்றி தோல்வி உண்டு; விளையாட்டில் வெற்றி பெற உடற்பயிற்சி, தொடற் பயிற்சி அவசியம். அதுபோல் வாழ்க்கையில் முன்னேற விடாமுயற்சியைத் தொடந்து கடைப்பிடிக்க வேண்டும்.

நி.நிதின் சித்தார்த்
ஒன்பதாம் வகுப்பு 'எ' பிரிவு

வாழ்க்கையில் எல்லோருக்கும் இன்பம் வரும் துன்பம் வரும். துன்பம் வந்தால் அதிலிருந்து மீண்டு வருவதற்கு முயற்சி செய்ய வேண்டும். முயற்சி என்பது சிந்தனையால் மட்டுமல்ல செயலிலும் இருந்தால் வெற்றி நம் கையில்.வெற்றி பெற முயற்சிக்க வேண்டும். வெற்றி பெற்றவர்களில் இரகசிய முயற்சி ஆகும். கடின உழைப்பு எந்த அளவிற்கு முக்கியமோ அதே அளவிற்கு முயற்சியும் பயிற்சியும் தேவை. நாம் இன்று வாழும் இந்த வசதியான வாழ்க்கைக்குக் காரணம் நம் பெற்றோர்களின் கனவும் அவர்களின் முயற்சியு மாகும். முயற்சி செய்யாமல் எதுவும் கிடையாது.

செ.க. சாய்தீபிகா
ஒன்பதாம் வகுப்பு 'ஊ' பிரிவு

வெற்றிக்குக் குறுக்கு வழி இல்லை வெற்றி என்பது ஒரு மனிதனின் பல நாள் முயற்சி. இம்முயற்சியே வீணாகாமல் அது ஒரு நாள் அழகான அரும்பு மலர்வது போல மலரும். வெற்றிக்குத் தேவையான ஒரு செயல் விடாமுயற்சி ஆகும். நாம் மலைப்பகுதியின் உச்சிக்குச் செல்வதற்கு விடாமுயற்சியோடு ஏறினால் அதன் உச்சயினை அடையலாம். நாம் மேலே ஏறும்போது நமக்கு மூச்சு வாங்குதல், சோர்வு போன்ற பல இன்னல்கள் ஏற்பட்டாலும் விடாமுயற்சியோடு ஏறினால் மலை உச்சியினை அடையலாம்.இன்று கடினமாக இருக்கும். நாளையும் கடினமாக இருக்கும். ஆனால், நாளை மறுநாள் சூரியன் உதிப்பது போல நம் வாழ்வு மலரும்.

**என் நினைவில் நிற்கும் சிறந்த நாள்**

என் பதினைந்தாவது பிறந்த நாள் எனக்கு மறக்க முடியாத நாளாகும். அன்று மஹாராஷ்டிராவில் உள்ள ஷீரடி சாய்பாபா ஆலயத்திற்கு என் குடும்பத்தினர் என் நண்பர்கள் எனக்கு ஆனந்த அதிர்ச்சியளித்தனர். பதினைந்து பரிசுகள் கொடுத்தனர். பின்னர், அனைவரும் ஆக்ராவில் உள்ள தாஜ்மஹால் அழைத்துச் சென்றனர் என் பெற்றோர். இப்படி மிகுந்த அன்பும் ஆசையும் புன்னகையும் கலந்து வாழ்த்துச் சொன்ன நாள் எனக்கு நினைவில் நிற்கும் சிறந்த நாளாகும்.

மஹா ஸ்ரீ

மூன்று வருடங்களுக்கு முன்பு வெவ்வேறு பள்ளிகளுக்கிடையே நடக்கும் போட்டியில் கலந்து கொண்ட நாள். நான் பங்கேற்க நினைத்த போட்டி ஒன்று நான் பங்கேற்ற போட்டி ஒன்று. இருப்பினும் போட்டி நடைபெறும் அலங்கரிக் கப்பட்ட அந்த அரங்கிற்கு நாங்கள் சென்றோம். எந்த எதிர்பார்ப்பும் இன்றி போட்டியில் நான் கலந்து கொண்டே.ன். 20 பள்ளிகளிலிருந்து மொத்தம் 42 மாணவர்கள் கலந்து கொண்டோம். உற்சாகத்துடன் போட்டியில் கலந்து கொண்டேன். வெற்றி பற்றி அறிவிக்கும் நேரமும் வந்தது. ஆர்வமுடன் கூடிய பதற்றத்துடன் அனைவரும் காத்திருந்தோம். இரண்டாம் இடத்தில் வெற்றி பெற்றதாக அறிவித்தனர். எங்கள் பள்ளி முதலிடம் கிடைத்தது. அந்த நாள் என்னை மிகவும் மகிழ்வித்த என் நினைவில் நிற்கும் சிறந்த நாளாகும்.

தர்ஷினி .S
பதினொன்றாம் வகுப்பு 'அ' பிரிவு

இப்பூமியில் வாழும் எல்லா மனிதர்களுக்கும் அவரவர் நினைவில் நிற்கும் ஒரு சிறந்த மறக்க முடியத நாள் என ஒன்று இருக்கும். அதுபோல, என் நினைவில் நிற்கும் ஒரு சிறந்த நாள் பற்றிக் கூறுகிறேன்.

நான் மு.கவிவர்ஷா எனக்கு பத்து வயது வரை சகோதரன், சகோதரி என உடன்பிறந்தோர் யாரும் கிடையாது. அப்போதெல்லாம் எனக்கு மிகவும் வருத்தமாக இருக்கும். ஜூன் 2 - 2019 அன்று என் அன்புச் சகோதரன் பிறந்தான். மருத்துவமனையில் எல்லோரும் பதற்றமாகக் காத்திருந்தோம். அப்போது என் தாத்தா, பாட்டி ஊரிலிருந்து வந்திருந்தனர். ஒரு அரை மணி நேரம் கழித்து மருத்துவர் ஒருவர் என் சகோதரனை கையில் தூக்கிக் கொண்டு வந்து முதலில் என் கையில் கொடுத்தார். எனக்கு அப்போது மிகவும் ஆனந்தமாக இருந்தது. எனக்கு மகிழ்ச்சியில் பேச வார்த்தை வரவில்லை. இது என் மனதில் மறக்க முடியாத ஒரு சிறந்த தருணமாகப் பதிந்தது. அப்போது முடிவு செய்தேன் நான். என் வாழ்வில் ஒரு சிறந்த மருத்துவராக வேண்டும் என்று

மு.கவிவர்ஷா
பதினொன்றாம் வகுப்பு 'அ' பிரிவு

**நாளை என் பெயரை உலகம் பேசும்**

காலத்திற்காக நான் காத்திருக்கிறேன். அந்நொடிக்காக..... அந்நாளில் என் பெயரை உலகம் பேசுவதைக் கேட்பதற்காக சாதனை என்பது ஒரே நாளில் வந்து விடுவதில்லை.பல நாள்களின் உழைப்பாலேயே வருகிறது. நாம் சோர்வடையும் போது இதனை நினைவில் கொண்டு செயலாற்றிட வேண்டும்.

இவற்றோடு நாம் ஒவ்வொருவரும் நேர்மை, தானம் செய்தல் உதவும் எண்ணம் ஆகியனவற்றோடு காற்றிற்குப் பின் ஓடும் இலை போல விடாமுயற்சியோடு இன்று என்ற கருவூலத்தைப் பயன்படுத்தி, நாளை எனது பெயரை இந்த உலகம் பேசும் என்பதை மந்திரமாகக் கொண்டு செயல்பட்டுக் காத்திருக்கிறேன். அந்நொடிக்காக நாளை என் பெயரை உலகம் பேசும்.

**வாழ்க்கை ஒரு கற்றல்**

மழைச்சாரலில் நனைந்து கொண்டே சிந்தித்தேன்.

வாழ்க்கை நமக்குக் கற்றுத் தரும்
பாடங்களை அறிந்தேன்.
போட்டியில் தோற்று வாடுவோம்
சவால்களால் துன்பப்படுவோம்
வாழ்க்கையை வெறுப்போம்
அப்போது ஏற்படும் தோல்வியே
வெற்றியின் படிக்கட்டு
இதை உணர்ந்து வாழ்க்கைக்
கதவைத் தட்டு வெற்றி பெறப் போராடு
ஏனெனில் வாழ்க்கை ஒரு கற்றல்

சஞ்சீவ்
ஒன்பதாம் வகுப்பு 'ஆ' பிரிவு

விரும்பிய ஒன்றை
விருப்பமில்லாமல் விட்டுக் கொடுத்து
விரும்பாத ஒன்றைப் பிறருக்காக ஏற்று
விரும்பியது போல் மாற்ற இன்றும்
சிலர் வாழ்க்கையைக்
கதைத்துக் கொண்டுள்ளனர் - ஏனெனில்
வாழ்க்கை ஒரு கற்றல்

**உன்னை நேசி**

உலகம் உன்னை எதிர்த்தாலும்
கீழே உன்னை வீழ்த்த சூழ்ந்தாலும்
மீண்டும் மேலே எழும்பு
உன்னை வீழ்த்த நினைப்பவர்
முன் எழுந்து நிற்க - உன்னை நேசி
அச்சம் தரும் சூழலிலும்
விளைவு கண்டு அஞ்சாமல்
எழுந்து நிற்கிறோம் என்று
உன்னை நேசி

ச.விக்னேஷ்
பன்னிரண்டாம் வகுப்பு 'ஆ'பிரிவு

நீ உன்னை நேசி
நம்பிக்கை வரும்
பிறரை நேசி வாழ்க்கை இனிதாகும்
யாரினும் குறைந்தவளல்ல
என்றெண்ணி உன்னை நேசி
அது தரும் மகிழ்ச்சி
உன் வளர்ச்சியையே யோசி
உலகம் உன் புகழைப் பேசும்

S.சகானா
பன்னிரண்டாம் வகுப்பு 'ஆ' பிரிவு

மனிதனே கொஞ்சம் யோசி
முதலில் உன்னை நேசி
எதைத் தேடி அலைகிறாய்?
ஏதற்காக ஏங்குகிறாய்?
உன்னுள்ளே இருக்கும் திறமையை
ஏன் மண்ணில் புதைக்கிறாய்?
மண் வீழும் விதை மண்ணை
நம்பி மட்டுமல்ல
தன்னை நம்பி விழித்தெ ழுகிறது
ஆகவே, தான் மனிதா
கொஞ்சம் யோசி
உன்னை நீ நேசி

## மாணவன்

கரும்பலகை முன்
சிறிய நிழலாய் நின்றாலும்
கனவுகளில்
வானத்தை அளப்பவன்.

புத்தக வரிகளில்
எதிர்காலத்தை தேடி,
ஆசிரியர் சொல்லும்
சொல்லனைத்தும்
வாழ்க்கையாய் சேமிக்கிறான்.

மதிப்பெண் பயம்
மனதை நடுங்கச் செய்தாலும்,
முயற்சி மட்டும்
கை விடவில்லை.

தவறுகள் தண்டனை அல்ல –
அவை வளர்ச்சிக்கான பயிற்சி.

பள்ளி மணி
நேரம் மட்டும் சொல்லாது,
பொறுப்பையும்
ஒலிக்கச் செய்கிறது.

சிறிய முயற்சியும்

பெரிய வெற்றிக்குச் சிகரம்;
கற்ற பாடங்கள் நாளை வழிகாட்டும்.

மாணவனே! வானம் தொட்டுவிடும் தூரம் தான்

***சாதனைப் பாதை***

*கனவுகளை கட்டியெழுப்பு,*

*தோல்வியை விட்டு விடு,*
*உழைப்பின் ஒளி*

*உன் பாதையில் பிரகாசிக்கட்டும்.*
*சவால்கள் வந்தாலும்*
*மனம் நிலைக்கட்டும்,*
*ஒவ்வொரு முயற்சியும்*
*நட்சத்திரம் போல ஒளிரட்டும்.*

*நாளை உன் வெற்றியை*
*உலகம் பாடட்டும்,*
*உன் சாதனை நினைவில்*
*எல்லோர் நினைவிலும்*
*எப்போதும் வாழட்டும்.*

*வீழ்ந்தாலும் எழுந்து, பயணம்தொடர்,*
*கனவுகள் உன் கைகளில் தாங்கும் உயரம்.*

*ஒளி பூண்டிருக்கும் உன்னத பாதையில்,*
*ஒவ்வொரு முயற்சியும் உன் வெற்றியை பாடும்.*

**மங்காத நட்பு**

ஆரம்ப கல்விக்காலம்
ஆரம்பித்த நட்பு
அங்கேயே நின்றுவிட
அகம் மட்டும் அவ்வப்போது
அசைபோடும் நினைவுகளை !

உயர் நிலை பயிலுகையில்
உயிராக பழகிய
உற்ற நினைவெல்லாம்
பெருமூச்சாய் போய் மறையும் !

கல்லூரி வாழ்க்கையிலே
கலகலப்பாய் பழகியோரும்
கண்காணா தூரத்தில்....
கண்களிலே நீரும் வரும் !

அலுவலகம் சென்றபின்னே
அரவணைத்துக் கொண்ட
அன்பான உள்ளங்கள்
அலுவலகம் மாறிவிட்டால்
அன்னியமாய் ஆகையிலே,

என் வாழ்க்கைப் பாதையிலே
எதிர் கொண்டேன் உன் நட்பை ...
எந்நாளும் நமக்கிடையே
பூசல்கள் ஒன்றும் இல்லை !

புரிந்து கொள்ளல் கடினம் இல்லை !
பொய்யான வார்த்தையில்லை !
புரியாத உண்மையில்லை !
இவ்வுலகம் சிறு உருண்டை
எனவே தான் இன்றும் நாம்
ஒரு மனமாய் வாழ்கின்றோம்....
எனவே தான்
மங்காத நட்புக்கு
மரியாதை நாம் செய்வோம் !

# पुस्तकालयकामहत्व

पुस्तकालय एक शांत जगह होती है। वहाँ हमें किताबें और कथाएँ पढ़नी चाहिए, लेकिन कई बार हम उसका सही उपयोग नहीं करते। जब हमें पुस्तकालय ले जाया जाता है, तो हम पढ़ने के बजाय बात करने लगते हैं, जबकि वहाँ जाने का उद्देश्य पढ़ना और ज्ञान बढ़ाना होता है।

हमें किताबों का सही उपयोग करना चाहिए। कई बच्चे ऐसे हैं जिन्हें बहुत कुछ सीखना है, और हमारे पास ज्ञान प्राप्त करने का अच्छा अवसर है। लेकिन यदि हम इस मौके का उपयोग केवल बात करने में करेंगे, तो यह सही नहीं है।

अब से जब भी मैं पुस्तकालय जाऊँगी, याद रखूँगी कि मैं बात नहीं करूँगी। हम किसी भी समय बात कर सकते हैं, लेकिन पुस्तकालय सप्ताह में केवल एक या दो बार ही जाते हैं। इसलिए वहाँ पढ़ाई को महत्व देना चाहिए।

पढ़ने से हमें एक अच्छा मित्र भी मिलता है—पुस्तक।
पुस्तकें पढ़ने से हम भविष्य में एक लेखक, कवि या प्रकाशक भी बन सकते हैं।

इसलिए पुस्तकालय का महत्व समझें और अच्छा ज्ञान प्राप्त करें।

**Sreelaya Srivatsan**

**VI A**

# मेरा प्रिय त्योहार

मेरा प्रिय त्योहार दिवाली है, क्योंकि इस दिन सब लोग खुश रहते हैं। इस दिन लोग अपने घरों को साफ-सुथरा कर सजाते हैं। नए कपड़े पहनते हैं, पटाखे जलाते हैं। घरों में पकवान बनाकर पड़ोसियों में बाँटते हैं।

दिवाली का त्योहार भगवान श्रीराम के 14 वर्ष वनवास के बाद अयोध्या लौटने की खुशी में मनाया जाता है। इस दिन घरों में दीए जलाए जाते हैं, इसलिए इसे 'दीपों का पर्व' भी कहा जाता है। मुझे दिवाली बहुत पसंद है।

**M MUGESH**
**VII A**

## पुस्तक-ज्ञान का सागर

**पुस्तक को ज्ञान का सागर कहा जाता है, क्योंकि एक पुस्तक जो पूरे दुनिया को बदलने की शक्ति, रखती है। शक्ति, मुक्ति, समझ और ज्ञान–इन सभी का रहस्य पुस्तकों में छिपा होता है ।**

हाँ, मैं बात कर रहा हूँ एनसाइकोपीडिया की, जिसमें धरती के हर रहस्य की खोज छिपी होती है। हर पुस्तक को पढ़ते समय मुझे यह महसूस होता है कि प्रत्येक पुस्तक अपने भीतर अलग-अलग प्रकार का ज्ञान समेटे हुए है ।

इस पुस्तक में भी एक नया ज्ञान है, जो बच्चों में हिंदी भाषा के प्रति प्रेम बढ़ाता है और उसे पसंद करवाता है।

इसलिए कहते है कि एक पुस्तक में बहुत सारा ज्ञान है और पुस्तक वास्तव में ज्ञान का सागर है।

**Shreejay Srivatsan**

**VII D**

# मेरा प्रिय त्योहार

जब त्योहार आते हैं, तो माँ बच्चों को कुछ काम देती हैं–जैसे रंग-बिरंगे फूल इकट्ठा करना और घर सजाना। इससे घर बहुत प्यारा लगता है, जैसे चाँद की चमक से भर गया हो। त्योहारों पर पूरा परिवार मिल-जुलकर खाना बनाता और खाता है। यही त्योहार परिवार में खुशहाली और आपसी प्रेम बढ़ाते हैं।

**TANUSH KRISHNA C**

**VII E**

## मेरा प्रिय खेल

क्या आपको पता है कि मेरा प्रिय पसंदीदा खेल कौन–सा है? मेरा प्रिय खेल क्रिकेट है। इसे खेलने में मुझे बहुत मज़ा आता है। मैं अपने दोस्तों के साथ हर रविवार खेलता हूँ।

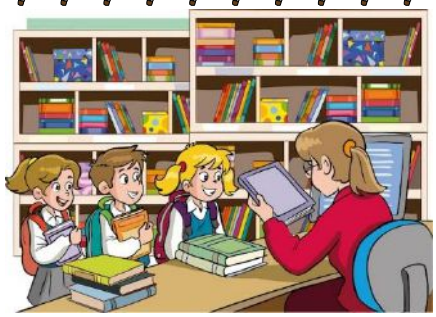
इस खेल को महिलाएँ और पुरुष, दोनों खेलते हैं। क्रिकेट के कई प्रारूप होते हैं। इसे राष्ट्रीय और अंतराष्ट्रीय स्तर पर खेला जाता है। राष्ट्रीय स्तर पर "APL" और अन्य टूर्नामेंट खेले जाते हैं। अंतराष्ट्रीय स्तर विभिन्न देशों की टीमें आमने–सामने खेलती हैं। इसमें "एशिया कप", "टेस्ट मैच", "टी – 20 मैच" आदि शामिल हैं।

हमारे राष्ट्रीय टीम में सचिन तेंदुलकर, धोनी, विराट कोहली, कपील देव जैसे महान खिलाड़ी रहे हैं। इन सभी ने अंतराष्ट्रीय क्रिकेट में अपार योगदान दिया है।

**JAYESH S**

**VIII B**

## पुस्तकालय का महत्व



पुस्तकें हमारे श्रेष्ठ मित्र हैं। वे हमारी बुद्धि और ज्ञान को बढ़ाती हैं तथा हमारी कल्पनाशक्ति को विकसित करती हैं। सभी पुस्तकें हम घर पर नहीं रख सकते, इसलिए हमें पुस्तकालय की आवश्यकता पड़ती है।

पुस्तकालय का अर्थ है "पुस्तकों का आलय" — यानी पुस्तकों का घर। पुस्तकालय जाकर पढ़ने से हमारे समय का सदुपयोग होता है।

**V.KESHIKAA**

**VIII D**

## पुस्तकें – ज्ञान का सागर

पुस्तकालय को ज्ञान का सागर इसलिए कहा जाता है क्योंकि यहाँ ज्ञान की अनगिनत धारणाएँ संग्रहित होती हैं। पुस्तकालय में विभिन्न विषयों की पुस्तकें मिलती हैं, जिनसे शिक्षा, विज्ञान, कला, इतिहास और अनेक प्रकार की जानकारियाँ प्राप्त होती हैं।

पुस्तकें ज्ञान का असीमित स्रोत होती हैं, ठीक एक विशाल महासागर की तरह। जिस प्रकार

सागर की गहराइयों में अनमोल मोती और रहस्य छिपे होते हैं, उसी प्रकार पुस्तकों के पात्रों में सदियों

का ज्ञान, अनुभव और विचार समाहित होते हैं।

**K JANUSHIKA - VIII E**

## मेरा प्रिय खेल

खेल जीवन का महत्वपूर्ण हिस्सा है। खेल हमें स्वस्थ और सक्रिय रखते है। शतरंज मेरा प्रिय खेल है। शतरंज दो खिलाड़ियों वाला रणनीति बोर्ड गेम है, जिसका उद्देश्य प्रतिद्वंदी के राजा को "चेकमेट" करना है। इसकी उत्पत्ति भारत में लगभग सातवीं शताब्दी में चतुरंग के रूप में हुई थी और यह अरब देशों से होते हुए युरोप तक फैल गया।

यह खेल 8x8 = 64 हल्के और गहरे वर्गों वाले बोर्ड पर खेला जाता है। प्रत्येक खिलाड़ी के पास 16 मोहरे होते हैं और वे बारी-बारी से चलते हैं। मुझे शतरंज बहुत पसंद है। मैं गुकेश से प्रेरित हूँ और उनकी तरह चैंपियन बनना चाहती हूँ।

**T .MEDHANYA**

**VIII E**

## पुस्तकें–ज्ञान की सागर

पुस्तकें हमें ज्ञान प्रदान करती हैं। यह हमारे मन को मज़बूत बनाती हैं और पढ़ने की अच्छी आदत विकसित करती हैं। पुस्तकें हमें जीवन मूल्यों की शिक्षा देती हैं और हमारे भविष्य को संवारने की शक्ति रखती हैं।

हम पुस्तकों के माध्यम से नयी–नयी जानकारियाँ प्राप्त करते हैं। वास्तव में, यह संसार पुस्तकों की शक्ति पर चलता है।

"पुस्तक पढ़ो, आपका मन और भविष्य को उज्जवल बनाओ!"

**KRITHIK K - VIII F**

## पुस्तकालय का महत्व

पुस्तकालय एक शांत जगह होती है। वहाँ हमें किताबें और कथाएँ पढ़नी चाहिए, लेकिन कई बार हम उसका सही उपयोग नहीं करते। जब हमें पुस्तकालय ले जाया जाता है, तो हम पढ़ने के बजाय बात करने लगते हैं, जबकि वहाँ जाने का उद्देश्य पढ़ना और ज्ञान बढ़ाना होता है।

हमें किताबों का सही उपयोग करना चाहिए। कई बच्चे ऐसे हैं जिन्हें बहुत कुछ सीखना है, और हमारे पास ज्ञान प्राप्त करने का अच्छा अवसर है। लेकिन यदि हम इस मौके का उपयोग केवल बात करने में करेंगे, तो यह सही नहीं है।

अब से जब भी मैं पुस्तकालय जाऊँगी, याद रखूँगी कि मैं बात नहीं करूँगी। हम किसी भी समय बात कर सकते हैं, लेकिन पुस्तकालय सप्ताह में केवल एक या दो बार ही जाते हैं। इसलिए वहाँ पढ़ाई को महत्व देना चाहिए।

पढ़ने से हमें एक अच्छा मित्र भी मिलता है—पुस्तक।
पुस्तकें पढ़ने से हम भविष्य में एक लेखक, कवि या प्रकाशक भी बन सकते हैं।

इसलिए पुस्तकालय का महत्व समझें और अच्छा ज्ञान प्राप्त करें।

## मेरा प्रिय खेल

क्या आपको पता है कि मेरा प्रिय पसंदीदा खेल कौन–सा है? मेरा प्रिय खेल क्रिकेट है। इसे खेलने में मुझे बहुत मज़ा आता है। मैं अपने दोस्तों के साथ हर रविवार खेलता हूँ।

इस खेल को महिलाएँ और पुरुष, दोनों खेलते हैं। क्रिकेट के कई प्रारूप होते हैं। इसे राष्ट्रीय और अंतराष्ट्रीय स्तर पर खेला जाता है। राष्ट्रीय स्तर पर "APL" और अन्य टूर्नामेंट खेले जाते हैं। अंतराष्ट्रीय स्तर विभिन्न देशों की टीमें आमने–सामने खेलती हैं। इसमें "एशिया कप", "टेस्ट मैच", "टी – 20 मैच" आदि शामिल हैं।

हमारे राष्ट्रीय टीम में सचिन तेंदुलकर, धोनी, विराट कोहली, कपील देव जैसे महान खिलाड़ी रहे हैं। इन सभी ने अंतराष्ट्रीय क्रिकेट में अपार योगदान दिया है।

## पुस्तकालय का महत्व

पुस्तकें हमारे श्रेष्ठ मित्र हैं। वे हमारी बुद्धि और ज्ञान को बढ़ाती हैं तथा हमारी कल्पनाशक्ति को विकसित करती हैं। सभी पुस्तकें हम घर पर नहीं रख सकते, इसलिए हमें पुस्तकालय की आवश्यकता पड़ती है।

पुस्तकालय का अर्थ है "पुस्तकों का आलय" — यानी पुस्तकों का घर। पुस्तकालय जाकर पढ़ने से हमारे समय का सदुपयोग होता है।

**V.KESHIKAA**

**VIII D**

## पुस्तकें – ज्ञान का सागर

पुस्तकालय को ज्ञान का सागर इसलिए कहा जाता है क्योंकि यहाँ ज्ञान की अनगिनत धारणाएँ संग्रहित होती हैं। पुस्तकालय में विभिन्न विषयों की पुस्तकें मिलती हैं, जिनसे शिक्षा, विज्ञान, कला, इतिहास और अनेक प्रकार की जानकारियाँ प्राप्त होती हैं।

पुस्तकें ज्ञान का असीमित स्रोत होती हैं, ठीक एक विशाल महासागर की तरह। जिस प्रकार

सागर की गहराइयों में अनमोल मोती और रहस्य छिपे होते हैं, उसी प्रकार पुस्तकों के पात्रों में सदियों

का ज्ञान, अनुभव और विचार समाहित होते हैं।

**K JANUSHIKA - VIII E**

## मेरा प्रिय खेल

खेल जीवन का महत्वपूर्ण हिस्सा है। खेल हमें स्वस्थ और सक्रिय रखते है। शतरंज मेरा प्रिय खेल है। शतरंज दो खिलाड़ियों वाला रणनीति बोर्ड गेम है, जिसका उद्देश्य प्रतिद्वंदी के राजा को "चेकमेट" करना है। इसकी उत्पत्ति भारत में लगभग सातवीं शताब्दी में चतुरंग के रूप में हुई थी और यह अरब देशों से होते हुए युरोप तक फैल गया।

यह खेल 8x8 = 64 हल्के और गहरे वर्गों वाले बोर्ड पर खेला जाता है। प्रत्येक खिलाड़ी के पास 16 मोहरे होते हैं और वे बारी-बारी से चलते हैं। मुझे शतरंज बहुत पसंद है। मैं गुकेश से प्रेरित हूँ और उनकी तरह चैंपियन बनना चाहती हूँ।

**T .MEDHANYA**

**VIII E**

## पुस्तकें–ज्ञान की सागर

**पुस्तकें हमें ज्ञान प्रदान करती हैं। यह हमारे मन को मज़बूत बनाती हैं और पढ़ने की अच्छी आदत विकसित करती हैं। पुस्तकें हमें जीवन मूल्यों की शिक्षा देती हैं और हमारे भविष्य को संवारने की शक्ति रखती हैं।**

**हम पुस्तकों के माध्यम से नयी–नयी जानकारियाँ प्राप्त करते हैं। वास्तव में, यह संसार पुस्तकों की शक्ति पर चलता है।**

**"पुस्तक पढ़ो, आपका मन और भविष्य को उज्जवल बनाओ!"**
